---

I would like to request that the applicants consider a construction entrance from Eastonville Rd. Our community does not have sidewalks and our roads are where we walk and our children ride bikes. The developers are planning to connect Conestoga Trail S road to Eastonville in the future. Would it be possible to put an access road from Eastonville a long with the development of Filing 9 so that construction traffic does not go through the 30 years plus established neighborhood? And would it be possible to keep Conestoga Trail S a cul-de-sac as it has been for over 25 years?

Thank you for your time and consideration,  
Terrilynn Gosnell
