RE: Project File Number: SF235
Project Name: Crawford Apartments
Parcel Number: 6513125009

OWNER:	REPRESENTATIVE:
Aime Ventures, LLC 1900 Pikes Peak Avenue Colorado Springs, CO 80909	Kimley-Horn & Associates 2 North Nevada Avenue, Suite 300 Colorado Springs, CO 80903

Commissioner District: 4

Planning Commission Hearing Date:	3/7/2024
Board of County Commissioners Hearing Date:	3/28/2024

EXECUTIVE SUMMARY

A request by Aime Ventures, LLC for approval of a 1.157-acre Final Plat creating one multi-family lot to accommodate 22 multi-family units. The property is zoned RM-30 (Residential Multi-Dwelling) and is located on the north side of Crawford Avenue, approximately 350 feet west of Grinnell Boulevard.

A. WAIVERS AND AUTHORIZATION

Waiver(s):

There are no waivers associated with this request.

Authorization to Sign: Final Plat and any other documents necessary to carry out the intent of the Board of County Commissioners.

B. APPROVAL CRITERIA

In approving a Final Plat, the BoCC shall find that the request meets the criteria for approval outlined in Section 7.2.1 (Subdivisions) of the El Paso County Land Development Code (as amended):

- The subdivision is in conformance with the goals, objectives, and policies of the Master Plan;
- The subdivision is in substantial conformance with the approved preliminary plan;
- The subdivision is consistent with the subdivision design standards and regulations and meets all planning, engineering, and surveying requirements of the County for maps, data, surveys, analyses, studies, reports, plans, designs, documents, and other supporting materials;
- Either a sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. § 30-28-133(6)(a)] and the requirements of Chapter 8 of the Code, or, with respect to applications for administrative final plat approval, such finding was previously made by the BoCC at the time of preliminary plan approval;
- A public sewage disposal system has been established and, if other methods of sewage disposal are proposed, the system complies with State and local laws and regulations, [C.R.S. § 30-28-133(6)(b)] and the requirements of Chapter 8 of the Code;
- All areas of the proposed subdivision which may involve soil or topographical conditions presenting hazards or requiring special precautions have been identified and that the proposed subdivision is compatible with such conditions [C.R.S. § 30-28-133(6)(c)];
- Adequate drainage improvements are proposed that comply with State Statute [C.R.S. § 30-28-133(3)(c)(VIII)] and the requirements of the Code and the ECM;
- Legal and physical access is provided to all parcels by public rights-of-way or recorded easement, acceptable to the County in compliance with the Code and the ECM;

2880 INTERNATIONAL CIRCLE
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910
PLNWEB@ELPASOCO.COM

- Necessary services, including police and fire protection, recreation, utilities, and transportation systems, are or will be made available to serve the proposed subdivision;
- The final plans provide evidence to show that the proposed methods for fire protection comply with Chapter 6 of the Code;
- Off-site impacts were evaluated and related off-site improvements are roughly proportional and will mitigate the impacts of the subdivision in accordance with applicable requirements of Chapter 8 of the Code;
- Adequate public facilities or infrastructure, or cash-in-lieu, for impacts reasonably related to the proposed subdivision have been constructed or are financially guaranteed through the SIA so the impacts of the subdivision will be adequately mitigated;
- The subdivision meets other applicable sections of Chapter 6 and 8 of the Code; and
- The extraction of any known commercial mining deposit shall not be impeded by this subdivision [C.R.S. §§ 34-1-302(1), et seq.].

C. LOCATION

North:	RS-6000 (Residential Suburban)	Single-Family Residential
South:	RS-6000 (Residential Suburban)	Single-Family Residential
	CC (Commercial Community)	Commercial
East:	CC (Commercial Community)	Commercial
West:	RS-6000 (Residential Suburban)	Single-Family Residential

D. BACKGROUND

The Fountain Valley Ranch Sketch Plan was originally approved in 1981 as the Fountain Valley School Master Plan. The Fountain Valley Ranch Sketch Plan currently comprises approximately 375 acres, with approximately 342 acres of existing single-family residential uses, 24 acres of existing commercial uses, and 7 acres of proposed commercial uses.

On December 8, 1995, the subject property was platted as Tract A of the Fountain Valley Ranch Subdivision Filing No. 6B (Plat No. 9256).

On May 17, 2022, the Planning and Community Development Director approved a minor amendment to the Fountain Valley Sketch Plan to change the use classification of the subject property from commercial uses to multi-family residential uses (PCD File No.

2880 INTERNATIONAL CIRCLE
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910
PLNWEB@ELPASOCO.COM

SKP221). The proposed Final Plat is consistent with the approved Sketch Plan for the property. On August 2, 2022, the BoCC approved a Map Amendment (Rezoning) from CC (Commercial Community) to RM-30 (Residential Multi-Dwelling) (PCD File No. P221).

If the current request for a Final Plat is approved, the applicant will be required to receive approval of a Site Development Plan application. The Final Plat must be recorded prior to initiating any land disturbing activities unless approval of a pre-subdivision site grading request is granted by the Board of County Commissioners. In order to initiate any uses of the property, the applicant will need to obtain Site Development Plan approval.

E. LAND DEVELOPMENT CODE AND ZONING ANALYSIS

The Final Plat application meets the Final Plat submittal requirements, the standards for Divisions of Land in Chapter 7, and the standards for Subdivision in Chapter 8 of the El Paso County Land Development Code (as amended).

The applicant intends to use the property for multi-family residential purposes. The property is completely bordered on the north and west sides and partially on the south side by existing single-family residential development with a minimum lot size of 6,000 square feet within the RS-6000 (Residential Suburban) zoning district. Directly adjacent to the south and east are properties zoned CC which are currently being utilized for commercial uses. See the Master Plan Analysis sections below for further analysis of compatibility with surrounding uses.

The property is located within the CAD-O (Commercial Airport Overlay District) zoning overlay; however, it is not located within any of the sub-zones. The Colorado Springs Airport Advisory Commission (AAC) was sent a referral regarding the map amendment. The case was heard at the April 26, 2023, AAC hearing and the AAC provided a response indicating no objections to the proposed Final Plat.

County review and administrative approval of a Site Development Plan will help ensure that adequate buffers, setbacks, and screening are implemented to further mitigate any potential impacts to the surrounding area. The site development plan review will also include compliance with all applicable aspects of the Land Development Code and the Engineering Criteria Manual, including but not limited to grading and erosion control, parking, landscaping, and lighting standards.

2880 INTERNATIONAL CIRCLE
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910
PLNWEB@ELPASOCO.COM

F. MASTER PLAN COMPLIANCE

The proposed Final Plat is consistent with the Master Plan analysis which was provided with the Map Amendment (Rezoning) application P221 and approved by the BoCC on August 2, 2022.

G. PHYSICAL SITE CHARACTERISTICS

1. Hazards

Expansive soils were identified during the review of the Final Plat. The applicant has provided a plat note identifying mitigation measures. The Colorado Geological Survey was sent a referral and has no outstanding comments.

2. Floodplain

The property is not located within a defined floodplain as determined by FEMA Flood Insurance Rate Map panel number 08041C0951G, dated December 7, 2018.

3. Drainage and Erosion

The property is located in the Big Johnson Drainage Basin (FOFO2600) which is included in the El Paso County Drainage Basin Fee program. Drainage fees have been previously paid.

Water quality and detention is not required for this subdivision as the development is disturbing less than one acre and the downstream stormwater facilities accounted for the developed flows from this site. The submitted drainage letter identifies that the developed flows from this site are less than those calculated in the previously approved subdivision drainage report for Fountain Valley Ranch Filing No. 6B and no adverse impacts on the downstream or surrounding areas will occur due to this development.

4. Transportation

The subdivision is accessed via Crawford Avenue, which is owned and maintained by El Paso County. A traffic study determined the length of the existing northbound left turn lane on Grinnell Boulevard does not meet criteria but is sufficient based on vehicle queuing analysis. A deviation request was submitted and approved for leaving the queue length as is.

2880 INTERNATIONAL CIRCLE
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910
PLNWEB@ELPASOCO.COM

The El Paso County 2016 Major Transportation Corridors Plan Update does not depict roadway improvements in the immediate vicinity.

The development is subject to the El Paso County Road Impact Fee Program (Resolution No. 19-471, as amended).

H. SERVICES

1. Water

Water will be provided by Security Water and Sanitation District. Water sufficiency has been analyzed with the review of the proposed subdivision. The applicant has shown a sufficient water supply for the required 300-year period. The State Engineer and the County Attorney's Office have recommended that the proposed Final Plat has an adequate water supply in terms of quantity and dependability. El Paso County Public Health has recommended that there is an adequate water supply in terms of quality.

2. Sanitation

Wastewater is provided by Security Water and Sanitation District.

3. Emergency Services

The property is within the Security Fire Protection District. The District was sent a referral and did not provide a response. However, the applicant provided a fire commitment letter indicating that the District has no concerns with the proposed development and is committed to serving the property.

4. Utilities

Electrical service is provided by Mountain View Electric Association (MVEA) and natural gas service is provided by Colorado Springs Utilities (CSU). Both MVEA and CSU were sent referrals and have no outstanding comments.

5. Metropolitan Districts

The property is within the Fountain Mutual Metropolitan District. The District was sent a referral and has no outstanding comments.

6. Parks/Trails

Fees in lieu of park land dedication in the amount of \$10,120.00 for regional fees (Area 4) and \$6,380.00 for urban fees (Area 4) will be due at the time of recording the Final Plat.

2880 INTERNATIONAL CIRCLE
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910
PLNWEB@ELPASOCO.COM

I. Schools

Fees in lieu of school land dedication in the amount of \$2,508.00 shall be paid to El Paso County for the benefit of Widefield School District No. 3 at the time of recording the Final Plat.

J. APPLICABLE RESOLUTIONS

See attached resolution.

K. STATUS OF MAJOR ISSUES

There are no major issues.

L. RECOMMENDED CONDITIONS AND NOTATIONS

Should the Planning Commission and Board of County Commissioners find that the request meets the criteria for approval outlined in Section 7.2.1 (Subdivisions) of the El Paso County Land Development Code (as amended) staff recommends the following conditions and notations:

CONDITIONS

1. All Deed of Trust holders shall ratify the plat. The applicant shall provide a current title commitment at the time of submittal of the Mylar for recording.
2. Colorado statute requires that at the time of the approval of platting, the subdivider provides the certification of the County Treasurer's Office that all ad valorem taxes applicable to such subdivided land, or years prior to that year in which approval is granted, have been paid. Therefore, this plat is approved by the Board of County Commissioners on the condition that the subdivider or developer must provide to the Planning and Community Development Department, at the time of recording the plat, a certification from the County Treasurer's Office that all prior years' taxes have been paid in full.
3. The subdivider or developer must pay, for each parcel of property, the fee for tax certification in effect at the time of recording the plat.
4. The Applicant shall submit the Mylar to Enumerations for addressing.

2880 INTERNATIONAL CIRCLE
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910
PLNWEB@ELPASOCO.COM

5. Developer shall comply with federal and state laws, regulations, ordinances, review and permit requirements, and other agency requirements, if any, of applicable agencies including, but not limited to, the Colorado Division of Wildlife, Colorado Department of Transportation, U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service regarding the Endangered Species Act, particularly as it relates to the Preble's Meadow Jumping Mouse as a listed species.
6. Driveway permits will be required for each access to an El Paso County owned and maintained roadway. Driveway permits are obtained from the appropriate El Paso County staff.
7. Collateral sufficient to ensure that the public improvements as listed in the approved Financial Assurance Estimate shall be provided when the Final Plat is recorded.
8. The Subdivider(s) agrees on behalf of him/herself and any developer or builder successors and assignees that Subdivider and/or said successors and assigns shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program Resolution (Resolution No. 19-471), or any amendments thereto, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documented on all sales documents and on plat notes to ensure that a title search would find the fee obligation before sale of the property.
9. Applicant shall comply with all requirements contained in the Water Supply Review and Recommendations, dated 3/9/2023, as provided by the County Attorney's Office.

NOTATIONS

1. Final Plats not recorded within 24 months of Board of County Commissioner approval shall be deemed expired unless an extension is approved.
2. Site grading or construction, other than installation or initial temporary control measures, may not commence until a Preconstruction Conference is held with Planning and Community Development Inspections and a Construction Permit is issued by the Planning and Community Development Department.

2880 INTERNATIONAL CIRCLE
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910
PLNWEB@ELPASOCO.COM

M. PUBLIC COMMENT AND NOTICE

The Planning and Community Development Department notified 45 adjoining property owners on February 14, 2024, for the Planning Commission and Board of County Commissioner meetings. Responses will be provided at the hearing.

REQUEST

The owner/applicant(s) has gone through the Rezone (P221- Approved 8/2/2022) and Sketch Plan Amendment (SKP221-Approved 5/18/2022) approvals for the 1.16 AC zoned RM-30 (Residential Multifamily) CAD-O (Commercial Airport Overlay District, ANAV (Aircraft Navigation Subzone) zone.

The Applicant intends to develop 22 multifamily units on the site with a maximum density of 20 DU/AC in the approved RM-30 zone. The planned community includes: two (2) story multifamily unit buildings, landscaping, and open space. Parking will be provided by uncovered surface parking. The Final Plat is to be processed and approved prior to approval of site development plan.

REVIEW CRITERIA & JUSTIFICATION

The Applicant requests approval of the Site Development Plan based on findings of consistency and general conformance with the approved map amendment. Master Plan conformity will be discussed in terms of general conformity with the Your El Paso Master Plan (Master Plan) and El Paso County Water Master Plan (WMP).

A. The application is in general conformance with the El Paso County Master Plan including applicable Small Area Plans or there has been a substantial change in the character of the neighborhood since the land was last zoned;

The proposed Site Development Plan is in general conformance with the El Paso County Master Plan as discussed in detail below. This development pattern is consistent with the location and primary/supporting land uses of the Suburban Residential Placetype shown on the Placetypes Map in the Master Plan as confirmed with the Sketch Plan and Zone Change approvals.

The subject site remains vacant. The proposed multifamily units will complement the residential environment and provide a transition to the office use located on the corner of Crawford Ave and Grinnell Street.

Your El Paso Master Plan: LAND USE

Key Areas – identifies those areas of the County that are defined by unique localized characteristics having influence on land use and development. The property is located within a military Installations and 2-Mile Notification Key Area.

Areas of Change – identifies areas of the County that are anticipated to remain the same, undergo minor changes, or develop in a manner consistent with the exist area today. The project area is located within an area of “Minimal Change”: Developed area on the Areas of Change Map. These areas are characterized as

- having an established character
- being largely built out with pockets of vacant/undeveloped land
- likely to see more intense infill development with a mix of uses and scale of redevelopment that will significantly impact the character of an area

The project proposes a more intense infill development (multifamily) that is located between existing commercial (financial institution) and single-family detached residential. The inclusion of the multifamily densities will not significantly impact the character of the area.

Placetypes – identifies the different development and land use characteristics for areas of the County that make up the various Placetypes, which serve as the base for long-range planning. The project area is located within a suburban residential placetype. Primary land uses include single-family detached residential. “Supporting Land Uses in the Suburban Residential Placetype are Single-family Attached, Multifamily Residential, Parks/Open Space, Commercial Retail, Commercial Service, and Institutional uses”.

PLACETYPES	LAND USES														
	Agriculture	Farm/Homestead	Estate	Single-Family Detached	Single-Family Attached	Multifamily	Mixed Use	Restaurant	Commercial Retail	Commercial Service	Tourism Commercial	Entertainment and Arts	Office	Light Industrial/Business Park	Heavy Industrial
Rural	●	●	○											●	○
Large-Lot	○		●					○	○					○	
Suburban			●	○	○			○	○					○	○
Urban Residential			●	●	●		○	○	○			○		○	○
Rural Center			●	○	○		●	●	●						●
Regional Center				○	●	○	●	●	●		●	○			○
Employment Center							○	○	○			●	●	●	
Regional Open Space														●	●
Mountain Interface			○					○	○	○	○			●	○
Military			○	○	●		○	○	○		○	●	●	○	○
Utility														○	●

● Primary Land Use: More prominent and play a pivotal role in characterizing that placetype
 ○ Supporting Land Use: Less prevalent and serve to support the primary land use

Per the Plan, “Suburban Residential is characterized by predominantly residential areas with mostly single-family detached housing. This project is supportive of and compatible with the overall single-family character of the area based on the place-type

Your El Paso Land Use Goals

Goal 1.1 - Ensure compatibility with established character and infrastructure capacity.

The proposed development is consistent with the established character of the area as a transitional land use between existing commercial and office land uses and detached residential densities. The multifamily infill development is a compatible land use to transition

from commercial and office densities at the Grinnell/Crawford Ave intersection on the east to the surrounding detached residential (single-family) densities and land uses west, north, and south of the site.

Necessary urban services to meet the multifamily demands are available and currently serving adjacent and nearby residential, commercial, industrial land uses and densities. Specific services include water/wastewater, fire protection, emergency ambulatory/medical service (EMS), police protection, public schools for compulsory education, public parks and recreation opportunities, and public drainage/transportation facilities and associated infrastructure.

Public services and utilities are, or will be, provided by the following

- Water Services: Security Water & Sanitation Districts/Enterprises
- Wastewater Services: Widefield Water & Sanitation District
- Natural Gas: Colorado Springs Utilities
- Electric Service: City of Fountain Electric
- Fire Protection: Security Protection District
- Public Schools: Widefield School District #3
- Library Services: Pikes Peak Library District:
- Roads: El Paso County Road and Bridge
- Police Protection: El Paso County Sheriff's Department
- Special District Services: Fountain Mutual Metropolitan District
- Special District Services: Southeastern Colorado Water Conservancy
- Parks, Trails, Open Spaces: El Paso County, City of Colorado Springs, CMD

Utility and fire protection commitments and use specific service demands and delivery requirements are provided per the multifamily project.

Infrastructure Capacity (Transportation and Access – Summarized from TIS)

Based on the TIS prepared by Kimley-Horn in support of the development plan, the Project is expected to generate approximately 218 weekday daily trips, with 30 of these trips occurring during the morning peak hour and 32 of these trips occurring during the afternoon peak hour. Based on the analysis presented in the report, it is believed that the Project will be successfully incorporated into the existing and future roadway network. Analysis of the existing street network, the proposed project development, and expected traffic volumes resulted in the following conclusions and recommendations:

- *Based on El Paso County standards, the northbound left turn length requirements at the Crawford Avenue and Grinnell Boulevard intersection are 335 feet plus a 200-foot taper. Since vehicle queues are only calculated with 50 feet of storage and to avoid reconstructing the existing raised median for only an additional 35 feet of length, it is recommended that the existing median for the northbound left turn lane at Crawford Avenue and Grinnell Boulevard intersection remain in the current condition. However,*

the northbound left turn lane at the Crawford Avenue and Grinnell Boulevard intersection should be restriped from approximately 150 feet to 300 feet of length.

- *To meet El Paso County standards, it is recommended that the southbound right turn lane at the intersection of Crawford Avenue and Grinnell Boulevard be restriped to 335 feet with a 200-foot taper.*
- *Any on-site or offsite improvements should be incorporated into the Civil Drawings and conform to standards of El Paso County and the Manual on Uniform Traffic Control Devices (MUTCD) – 2009 Edition.*
- *No westbound right turn lane into the Site is warranted at the Kittery/Crawford intersection based on projected 2045 total traffic volumes being 27 westbound right turns during the peak hour and the threshold being 50 vehicles per hour.*

Goal 1.2 - Coordinate context-sensitive annexation and growth strategies with municipalities.

The property is outside of any annexation boundary or potential area of interest.

Goal 1.3 - Encourage a range of development types to support a variety of land uses.

The proposal introduces an positive alternate housing type and density as an infill use of a vacant parcel. The multifamily use is supportive of the primarily residential character of the area.

Goal 1.4 - Continue to encourage policies that ensure “development pays for itself”.

The developer will be responsible for payment of all utility connection and tap fees, bridge, drainage, park and school fees, road impact fees, and other costs associated with development of the property.

Your El Paso Housing Goals:

Core Principle 2: Preserve and develop neighborhoods with a mix of housing types.

Goal 2.1 - Promote development of a mix of housing types in identified areas.

Goal 2.3 - Locate attainable housing that provides convenient access to goods, services, and employment.

The housing type in the area is characterized by suburban residential (single-family detached) densities.

The existing and approved land use mix within the adjacent area includes residential (single-family attached, single-family detached, and multifamily) land uses, together with commercial and retail uses, service oriented, light, and heavy industrial land uses along and adjacent to the Constitution Corridor from Peterson Road to the west to the easternmost terminus of Constitution Avenue to the east at State Highway 24, along the Marksheffel Corridor from

North Carefree to the north southerly to the intersection of Marksheffel Road and State Highway 94 to the south (see surrounding land use map exhibit/not vicinity map).

The proposed multifamily housing development will provide an additional 22 apartment units to the available rental housing market supply. This housing will create opportunities for individuals and families to find attainable and affordable housing near conveniently located major transportation thoroughfares (Powers Blvd, SH 85/87, & I-25) which can connect them to employment centers, commercial/retail corridors and nodes, and recreational opportunities throughout the El Paso County region.

The functionality of the site with respect to access, design, and building orientation will be consistent with and compatible with existing conditions such as location and massing of buildings relative to adjacent rights of way, location of community/resident amenities and recreation areas. External building design will enhance the overall visual character and attractiveness of the area through contemporary building facades and private architectural design standards.

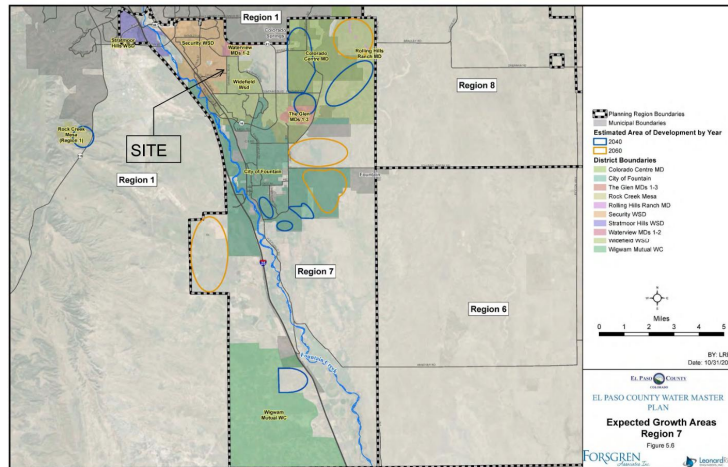

WATER MASTER PLAN CONFORMANCE & CONSIDERATIONS

- **Goal 1.1 – Ensure an adequate water supply in terms of quantity, dependability, and quality for existing and future development.**
- **Goal 6.0 – Require adequate water availability for proposed development.**
- **Policy 6.0.8 – Encourage development patterns and higher density, mixed use developments in appropriate locations that propose to incorporate meaningful water conservation measures.**
- **Policy 6.0.11– Continue to limit urban level development to those areas served by centralized utilities.**

The development area is located in REGION 7 as identified on the El Paso County Water Master Plan Planning Regions Map and is within the Security Water and Sanitation District Service Area. Region 7 consists of areas served by CMD and is not expected to experience significant growth by 2060.

REGION 7 (FOUNTAIN AREA)

Areas projected to develop by 2040 are located south of Fountain on the north and south sides of Link Road. Areas northwest of Fountain along the east and west sides of Marksheffel Road are also expected to grow by then, as well as the area south of Fountain on the west side of I-25. Directly west of Fountain, areas north and south of Squirrel Creek Road are expected to grow by 2060. One large development is expected south of Fountain by 2060, along the west side of I-25. Another is expected in the northeast corner of Region 7, along both sides of Bradley Road. See Figure 5.6 for the Region 7 growth map (BELOW).

The project area is located outside of the areas identified for major growth in the 2040 and 2060 horizons. District water supplies are from the Pueblo Reservoir and, according to the District, meets all federal and state regulatory standards. Existing groundwater wells (25) have been shut down due to water quality concerns (PFC's) in 2016. Currently, the district transports water from the Pueblo Reservoir via the Fountain Valley Authority and Southern Delivery System infrastructure systems.

Water sufficiency is provided for submittal, review, and approval as part of this process. see the included commitment letter and water resource report.

Surrounding land uses and zoning include the following:

NORTH: Single-family Detached housing
 EAST: Commercial (Credit Union)
 SOUTH: Single-family Detached housing; Medical/office
 WEST: Single-family Detached housing

Roadways, driveways, utilities, drainage, etc. will be constructed in the most optimal and efficient manner as necessary to facilitate development construction and sequencing. Utilities for the multifamily community will be coordinated with the associated districts and providers as required. A minimum 15-foot landscape buffer and setback will be provided against roadway, residential, and commercial uses.

Additional information related to this site and the requested development plan: The subzones CAD-O and ANAV Multifamily residential is allowed. Per the El Paso County, Land development code, Appendix B, Chapter 7, Article 1, 4.3.1(F) the request was referred to the

Airport Advisory Commission as part of the zone change and Sketch Plan amendment phase. The airport staff had no objection with the following conditions:

1. *Proof of Avigation Easement filing noted on rezoning plan (Recorded September 27, 1985 in Book 5067 at Page 379); no further action is required.*
2. *Airport Acknowledgement: Upon accepting residency within the property, all adult residents and occupants shall be required to sign a notice in which the tenant acknowledges that the property lies within an Airport Overlay Zone and is located less than 3 miles from Colorado Springs Municipal Airport and may, at times (24 hours per day), experience noise and other activities and operations associated with aircraft at the Airport.*
3. *FAA Form 7460-1 Airspace Evaluation: If use of equipment (permanent or temporary) will exceed 200 feet above ground level in height at this site, the applicant is to file an airspace evaluation case with the federal aviation administration (FAA) and provide the results to the airport before the commencement of construction activities.*

B. The site is suitable for the intended use, including the ability to meet the standards as described in Chapter 7 of the Land Development Code, for the Rules Governing Divisions of Land.

The site is suitable for the intended use, including the ability to meet the standards as described in 7.2.1.D.3.f of the County Code.

Site is in conformance with the goals, objectives and policies of the El Paso County Master Plan Along with the Sketch Plan Amendment (SKP221-Approved 5/18/2022).

The site is located adjacent to existing utility infrastructure and service lines. No major utility improvements or upgrades are anticipated to adequately serve the site.

The functionality of the site with respect to access, design, and building orientation is consistent with and compatible with existing conditions, such as location and massing of buildings relative to adjacent rights of way and view corridors and adjacent uses.

The site is suitability terms of geology, service availability, environmental impacts, major land use impacts, aviation overlay impacts, and military adjacency considerations.

It has been identified that Security Water District has a sufficient water supply and is in contract with Widefield to provide public wastewater services and complies with State and Local laws and regulations.

Final Plat Criteria for Approval.

In approving a final plat, the approving authority finds that:

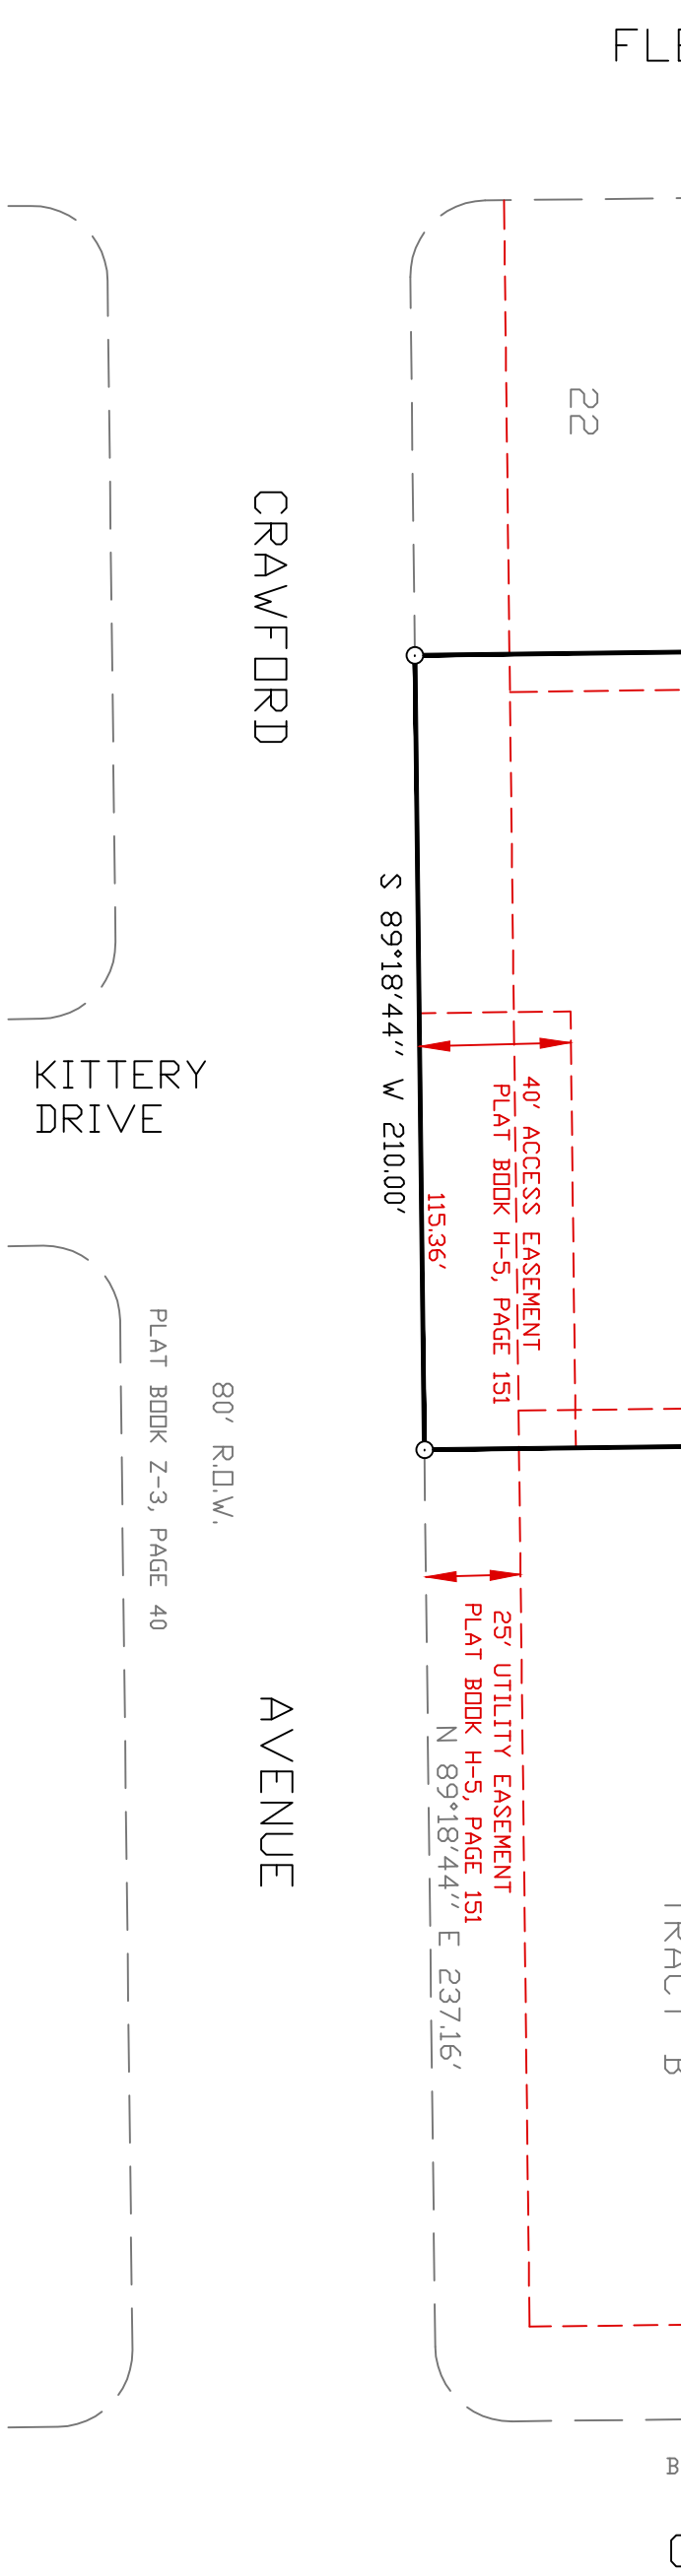

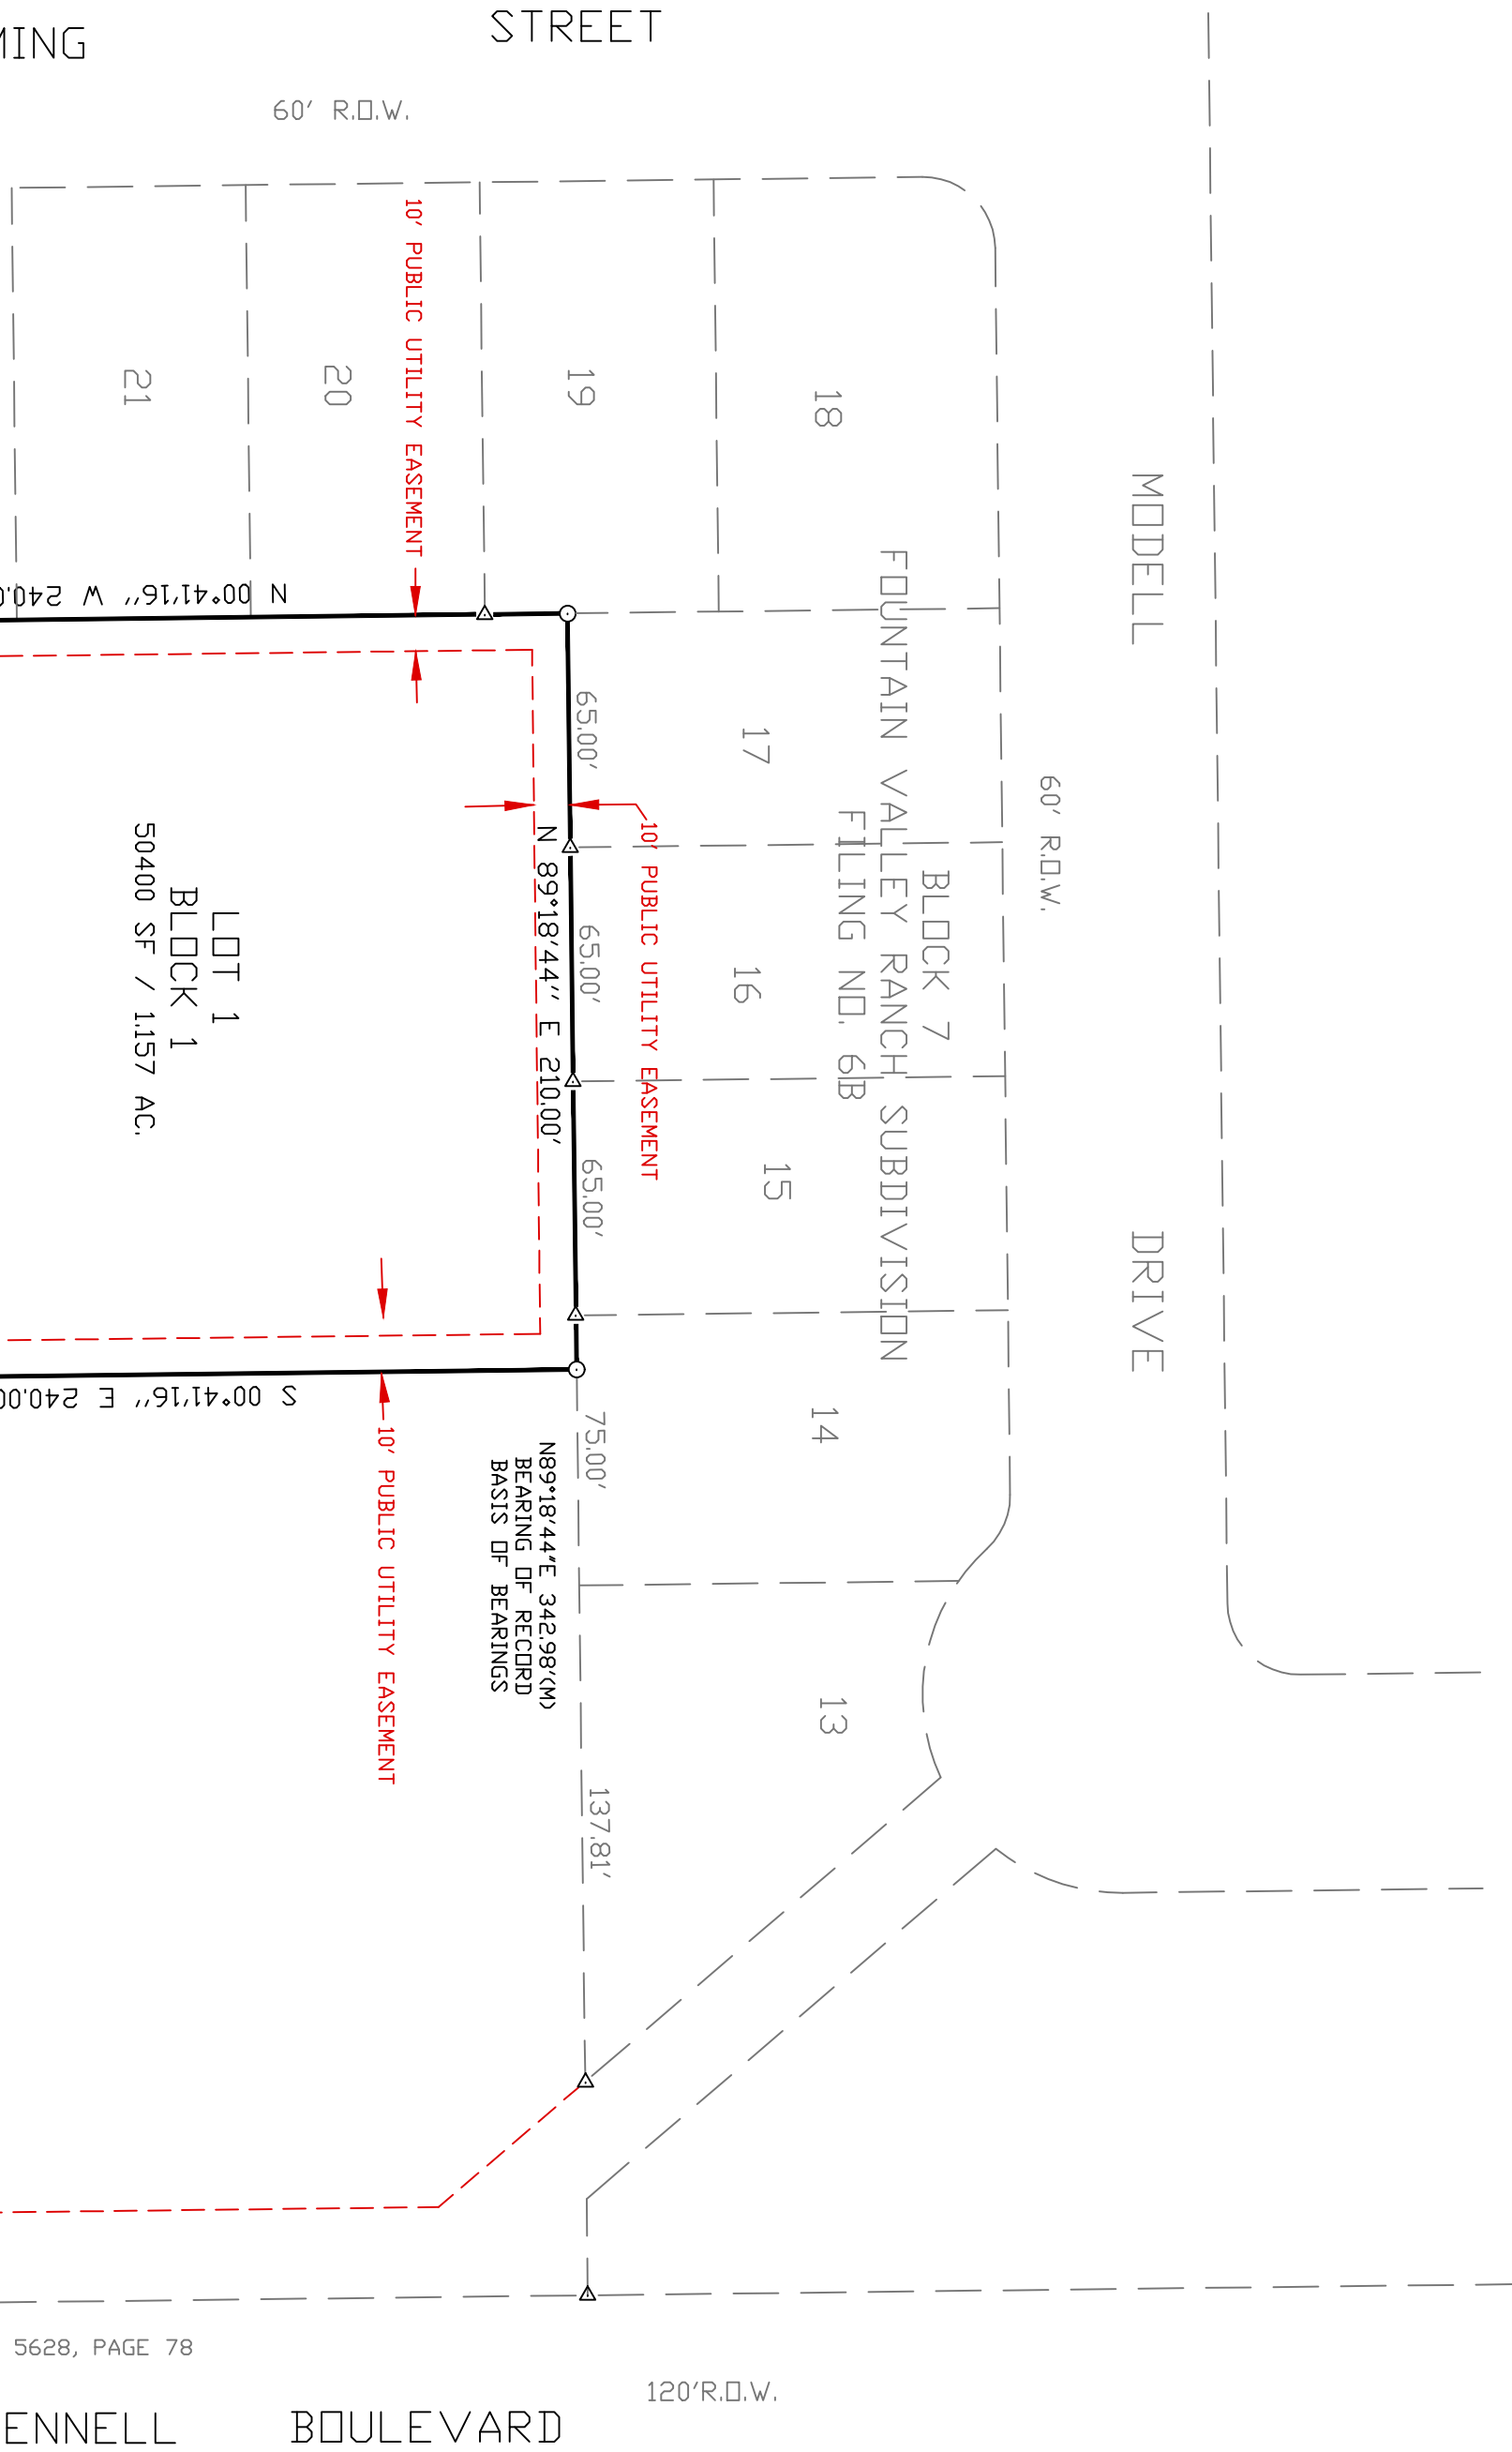

The subdivision is in conformance with the goals, objectives, and policies of the Master Plan; The subdivision is in substantial conformance with the approved sketch plan amendment and rezone;

The subdivision is consistent with the subdivision design standards and regulations and meets all planning, engineering, and surveying requirements of the County for maps, data, surveys, analyses, studies, reports, plans, designs, documents, and other supporting materials; a sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. § 30-28-133(6)(a)] and the requirements of Chapter 8 of this Code, or, with respect to applications for administrative final plat approval, such finding has been provided for the BoCC at the time of the rezone approval; public sewage disposal system has been established and, if other methods of sewage disposal are proposed, the system complies with State and local laws and regulations, [C.R.S. § 30-28-133(6)(b)] and the requirements of Chapter 8 of this Code, see water and wastewater reports; all areas of the proposed subdivision which may involve soil or topographical conditions presenting hazards or requiring special precautions have been identified and that the proposed subdivision is compatible with such conditions [C.R.S. § 30-28-133(6)(c)]; adequate drainage improvements are proposed that comply with State Statute [C.R.S. § 30-28-133(3)(c)(VIII)] and the requirements of this Code and the ECM;

Legal and physical access is provided to all parcels by public rights-of-way or recorded easement, acceptable to the County in compliance with this Code and the ECM, see traffic report for further information; necessary services, including police and fire protection, recreation, utilities, and transportation systems, are or will be made available to serve the proposed subdivision, see provided commitment letters from said entities; the final plans provide evidence to show that the proposed methods for fire protection comply with Chapter 6 of this Code; off-site impacts were evaluated and related off-site improvements are roughly proportional and will mitigate the impacts of the subdivision in accordance with applicable requirements of Chapter 8; Adequate public facilities or infrastructure, or cash-in-lieu, for impacts reasonably related to the proposed subdivision have been constructed or are financially guaranteed through the SIA so the impacts of the subdivision will be adequately mitigated; The subdivision meets other applicable sections of Chapter 6 and 8; and the extraction of any known commercial mining deposit shall not be impeded by this subdivision [C.R.S. §§ 34-1-302(1), et seq.]

CRAWFORD APARTMENTS SUBDIVISION

A SUBDIVISION OF TRACT A, FOUNTAIN VALLEY RANCH SUBDIVISION FILING NO. 6B
IN THE NORTHEAST 1/4 OF SECTION 13, TOWNSHIP 15 SOUTH, RANGE 66 WEST OF THE 6th P.M.
EL PASO COUNTY, COLORADO

LEGEND:

- o SET 2" AL. CAP, #3953 DN #5 REBAR
- 4 FOUND RED #25968 CAP DN #4 REBAR

NOTES:

1. Bearings are based on the record bearing of N89°18'44"E, for the south line of Block 7, Fountain Valley Ranch Subdivision Filing No 6B, monumented on the southwest of Lot 16, and on the southeast of Lot 13 by a 1" red plastic caps, marked PLS 25968 on a # 5 rebar, buried 2', as shown on the plat.

2. Survey monuments found or set are at ground level unless otherwise noted on the plat.

3. Title information was provided by the client as follows:
Title Company: Old Republic National Title Insurance Company
Order Number: SC55102334
Effective date: 12/20/2021 at 500 PM.
This survey does not constitute a title search or opinion.

4. Notice: according to Colorado law you must commence any legal action based upon any defect in the survey within three years after the first discovery of such defect. If no event may any action based upon any defect in this survey be commenced more than ten years from the date of the Certification shown hereon.

5. Flood plain:
According to the current effective Federal Emergency Management Agency Flood Insurance Rate Map, the subject property is located outside the boundary of the 100 Year Floodplain, as identified on FEMA Mapping Panel No. 0804100931 G, dated December 7, 2018.

6. Units of measurement US Survey Feet

7. The following reports have been submitted in association with the Preliminary Plan or Final Plat for this subdivision and are on file at the County Planning and Community Development Department: Drainage Report, Water Resources Report, Soils and Geology and Soils Report, Fire Protection Report, Natural Resources Report, Traffic Impact Study, Wastewater Treatment Report.

8. Geologic Hazard Note:

The site has been found to be impacted by geologic hazards. Mitigation measures and a map of the hazard area can be found in the report Subsurface Soil Investigation Crawford Apartments Crawford Avenue and Kittery Drive El Paso County, Colorado by Entech Engineering, Inc., dated May 31, 2022, in file SF 235 available at the El Paso County Planning and Community Development Department.
The report listed potential for expansive soils. The suggested mitigation was overexcavation of 5'-7' in depth and 5'-7' outside of any building footer. Structural fill should be placed in the over excavated areas and compacted to a minimum 95% of the soils minimum dry density.

9. All property owners are responsible for maintaining proper storm water drainage in and through their property. Public drainage easements as specifically noted on the plat shall be maintained by the individual lot owners unless otherwise indicated. Structures, fences, materials or landscaping that could impede the flow of runoff shall not be placed in drainage easements.

10. Easements: Unless otherwise indicated, all side, front, and rear lot lines are hereby dedicated to the use of the easement. The responsibility for these easements is hereby vested with the individual property owners.

11. Environmental: Developer shall comply with federal and state laws, regulations, ordinances, review and permit requirements, and other agency requirements, if any, of applicable agencies including, but not limited to, the Colorado Division of Wildlife, Colorado Department of Transportation, U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service regarding the Endangered Species Act, particularly as it relates to the listed species (e.g., Preble's Meadow Jumping Mouse).

12. Addresses: The addresses exhibited on this plat are for informational purposes only. They are not the legal description and are subject to change.

13. Mailboxes: Mailboxes shall be installed in accordance with all El Paso County and United States Postal Service regulations.

14. Driveway Note: No driveways shall be established unless an access permit has been granted by El Paso County. Individual lot purchasers are responsible for constructing and maintaining any driveway including any easements from the private road per Land Development Code Section 6.3.3.C.2 and 6.3.3.C.3

15. Water Supply: Water is supplied by Security Water and Sanitation District.

16. Wastewater: Wastewater is supplied by Wierfield Water and Sanitation District.

17. An Avigation Easement recorded September 27, 1985 in Book 5067 at Page 379, affects the site.

18. All structural Foundations shall be located and designed by a Professional Engineer, currently registered in the State of Colorado.

19. The Subdividers (agrees) on behalf of himself/herself and any developer or builder successfully assigned, shall be responsible for the construction of the subdivision. The Subdividers shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program Resolution (Resolution No.19-471), or any amendments thereto, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documented on all sales documents and on plat notes to ensure that a title search would find the fee obligation before sale of the property.

20. The site is part of the Fountain Mutual Metropolitan District, as evidenced by instruments recorded June 19, 2001, under Reception No. 201064215.

WATER SUPPLY REVIEW AND RECOMMENDATIONS

Project Description

1. This is a Final Plat proposal by Aime Ventures LLC (“Applicant”), to plat an approximately 1.16 +/- acre parcel and develop 22 multi-family rental units. The property is zoned RM-30 (Residential Multi-Family).

Estimated Water Demand

2. Pursuant to the *Water Supply Information Summary* (“WSIS”), the Applicant estimated its annual water needs to serve this subdivision at 4.4 acre-feet/year for residential with approximately 0.712 acre-feet/year allocated for irrigation for a total demand of 5.112 acre-feet/year. Based on these figures, the Applicant must provide a supply of 1,533 acre-feet of water (5.112 acre-feet/year x 300 years) to meet the County’s 300-year water supply requirement for the subdivision.

Proposed Water Supply

3. The Applicant has provided for the source of water to derive from the Security Water District (“District”). As detailed in the *Security Water District Water Resources Report* updated March 17, 2021 (“Report”), the District’s water supply is sourced from wells drilled into Widefield and Windmill Gulch Aquifer, Fry-Ark Project water, surface water rights, and a mix of various sources. The *Report* indicates that current water supplies “can support approximately 6,038 acre-feet per year of physical deliveries to Security”. Applying a 10 percent contingency

MERI GERINGER

for climate change or other future reductions to Security's water supplies results in the calculated water system yield of 5,434 acre-feet per year. The District currently has service commitments in the amount of 3,542 acre-feet per year, leaving an available balance for new commitments of 1,892 annual acre-feet.

4. The District's General Manager provided a letter of commitment for Crawford Apartments Subdivision dated December 20, 2023, in which the District committed to providing water service for the 22 multi-family units, for an annual water requirement of 5.112 acre-feet.

State Engineer's Office Opinion

5. In a letter dated January 22, 2024, the State Engineer reviewed the application to plat the 1.16 +/- acres for development of 22 multi-family units. The State Engineer identifies Security Sanitation District¹ as the source of water for the proposed development. Further, they go on to provide that "[a]ccording to the records of this office, Security has sufficient water resources to supply this development as described above." Further, the State Engineer stated that "[p]ursuant to Section 30-28-136(1)(h)(II), C.R.S., it is the opinion of this office that the proposed water supply can be provided without causing injury to decreed water rights, and the supply is expected to be adequate."

Recommended Findings

6. Quantity and Dependability. Applicant's water demand for Crawford Apartments Subdivision is 5.112 acre-feet per year for a total demand of 1,533 acre-feet for the subdivision for 300 years, to be supplied by Security Water District. **Based on the District's available water supply of approximately 1,892 annual acre-feet, the County Attorney's Office recommends a finding of sufficient water quantity and dependability for Crawford Apartments Subdivision.**

7. Quality. The water quality requirements of Section 8.4.7.B.10 of the Code must be satisfied. Section 8.4.7.B.10.g. of the Code allows for the presumption of acceptable water quality for projects such as this where water is supplied by an existing Community Water Supply operating in conformance with Colorado Primary Drinking Water Regulations unless there is evidence to the contrary.

8. Basis. The County Attorney's Office reviewed the following documents in preparing this review: the *Water Supply Information Summary*, the *Water Resources Report* dated December 21, 2023, the *Security Water and Sanitation District* letter dated December 20, 2023, and the *State Engineer Office's Opinion* dated January 22, 2024. The recommendations herein are based on the information contained in such documents and on compliance with the requirements set forth below. ***Should the information relied upon be found to be incorrect,***

¹ Security Water District is actually the entity providing water service.

or should the below requirements not be met, the County Attorney's Office reserves the right to amend or withdraw its recommendations.

REQUIREMENTS:

- A. Applicant and all future owners of lots within this filing shall be advised of, and comply with, the conditions, rules, regulations, limitations, and specifications set by the District.

RE: Crawford Multi-Family Final Plat
NE1/4, Sec. 13, Twp. 15S, Rng. 66W, 6th P.M.
Water Division 2, Water Districts 10
CDWR Assigned Subdivision No. 30727

To Whom It May Concern:

We have received additional information concerning the above-referenced proposal to construct a multi-family housing unit on an existing 1.16-acre tract of land. The multi-family structure(s) would consist of up to 22 units. According to the submittal, the proposed supply of water will be supplied by Security Sanitation District ("Security") and wastewater disposal is to be served by the Widefield Water and Sanitation District ("Widefield").

Water Supply Demand

The initial Water Supply Information Summary, Form No. GWS-76, and Water Demand Report provided with the submittal detail an estimated demand of 3.95 acre-feet/year for all 22 units. The most recent Water Supply Information Summary has increased the water requirement to 5.112 acre-feet annually for all uses (4.4 acre-feet for residential demand and 0.712 acre-feet for landscape irrigation).

Please note that standard water use rates, as found in the Guide to Colorado Well Permits, Water Rights, and Water Administration, are 0.3 acre-foot/year for each ordinary household, 0.05 acre-foot/year for four large domestic animals, and 0.05 acre-foot/year for each 1,000 square feet of lawn and garden irrigation.

Source of Water Supply

The source of water for the proposed development is to be served by Security Sanitation District (Not Widefield as indicated in the previous comment letter). An updated letter of commitment dated December 20, 2023 from Security was provided with the materials and indicated that 5.112 acre-feet are committed to the proposed subdivision. The letter also notes Widefield's commitment to provide wastewater disposal.

According to the records of this office, Security has sufficient water resources to supply this development as described above.

Additional Comments

Should the development include construction and/or modification of any storm water structure(s), the Applicant should be aware that, unless the storm water structure(s) can meet the requirements of a “storm water detention and infiltration facility” as defined in section 37-92-602(8), Colorado Revised Statutes, the structure may be subject to administration by this office. The applicant should review DWR’s *Administrative Statement Regarding the Management of Storm Water Detention Facilities and Post-Wildland Fire Facilities* in Colorado, available online at: https://dnrweblink.state.co.us/dwr/0/edoc/3576581/DWR_3576581.pdf?searchid=978a5a31-ddf9-4e09-b58c-a96f372c943d, to ensure that the notice, construction and operation of the proposed structure meets statutory and administrative requirements.

State Engineer’s Office Opinion

Pursuant to Section 30-28-136(1)(h)(II) C.R.S., it is the opinion of this office that the proposed water supply can be provided without causing injury to decreed water rights, and the supply is expected to be adequate. Should you or the applicant have questions regarding any of the above, please feel free to contact me directly.

Sincerely,

Ivan Franco, P.E.
Water Resources Engineer

FINAL PLAT (RECOMMEND APPROVAL)

_____ moved that the following Resolution be adopted:

BEFORE THE PLANNING COMMISSION

OF THE COUNTY OF EL PASO

STATE OF COLORADO

RESOLUTION NO. SF235
CRAWFORD APARTMENTS

WHEREAS, Aime Ventures, LLC did file an application with the El Paso County Planning and Community Development Department for approval of a Final Plat for the Crawford Apartments Subdivision for the property in the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated herein by reference; and

WHEREAS, a public hearing was held by this Commission on March 7, 2024; and

WHEREAS, based on the evidence, testimony, exhibits, consideration of the Master Plan for the unincorporated area of the County, presentation and comments of the El Paso County Planning and Community Development Department and other County representatives, comments of public officials and agencies, comments from all interested persons, comments by the general public, and comments by the El Paso County Planning Commission Members during the hearing, this Commission finds as follows:

1. The application was properly submitted for consideration by the Planning Commission;
2. Proper posting, publication, and public notice were provided as required by law for the hearing before the Planning Commission;
3. The hearing before the Planning Commission was extensive and complete, that all pertinent facts, matters, and issues were submitted and that all interested persons and the general public were heard at that hearing;
4. All exhibits were received into evidence;
5. The proposed land use does not permit the use of an area containing a commercial mineral deposit in a manner which would interfere with the present or future extraction of such deposit by an extractor;

6. All data, surveys, analyses, studies, plans, and designs as are required by the State of Colorado and El Paso County have been submitted, reviewed, and found to meet all sound planning and engineering requirements of the El Paso County Subdivision Regulations.
7. For the above-stated and other reasons, the proposed amendment of the El Paso County Zoning Map is in the best interest of the health, safety, morals, convenience, order, prosperity, and welfare of the citizens of El Paso County.

WHEREAS, when approving a Final Plat, the Planning Commission and Board of County Commissioners shall find that the request meets the criteria for approval outlined in Section 7.2.1.D.3.f of the Land Development Code (as amended):

1. The subdivision is in conformance with the goals, objectives, and policies of the Master Plan;
2. The subdivision is in substantial conformance with the approved preliminary plan;
3. The subdivision is consistent with the subdivision design standards and regulations and meets all planning, engineering, and surveying requirements of the County for maps, data, surveys, analyses, studies, reports, plans, designs, documents, and other supporting materials;
4. Either a sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. § 30-28-133(6)(a)] and the requirements of Chapter 8 of the Code, or, with respect to applications for administrative final plat approval, such finding was previously made by the BoCC at the time of preliminary plan approval;
5. A public sewage disposal system has been established and, if other methods of sewage disposal are proposed, the system complies with State and local laws and regulations, [C.R.S. § 30-28-133(6)(b)] and the requirements of Chapter 8 of the Code;
6. All areas of the proposed subdivision which may involve soil or topographical conditions presenting hazards or requiring special precautions have been identified and that the proposed subdivision is compatible with such conditions [C.R.S. § 30-28-133(6)(c)];
7. Adequate drainage improvements are proposed that comply with State Statute [C.R.S. § 30-28-133(3)(c)(VIII)] and the requirements of the Code and the ECM;
8. Legal and physical access is provided to all parcels by public rights-of-way or recorded easement, acceptable to the County in compliance with the Code and the ECM;
9. Necessary services, including police and fire protection, recreation, utilities, and transportation systems, are or will be made available to serve the proposed subdivision;

10. The final plans provide evidence to show that the proposed methods for fire protection comply with Chapter 6 of the Code;
11. Off-site impacts were evaluated and related off-site improvements are roughly proportional and will mitigate the impacts of the subdivision in accordance with applicable requirements of Chapter 8 of the Code;
12. Adequate public facilities or infrastructure, or cash-in-lieu, for impacts reasonably related to the proposed subdivision have been constructed or are financially guaranteed through the SIA so the impacts of the subdivision will be adequately mitigated;
13. The subdivision meets other applicable sections of Chapter 6 and 8 of the Code; and
14. The extraction of any known commercial mining deposit shall not be impeded by this subdivision [C.R.S. §§ 34-1-302(1), et seq.].

WHEREAS, a sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. §30-28-133(6)(a)] and the requirements of Chapter 8 of the Land Development Code.

NOW, THEREFORE, BE IT RESOLVED, the El Paso County Planning Commission recommends that the petition of Aime Ventures, LLC for a final plat of Crawford Apartments be approved by the Board of County Commissioners with the following conditions and notations:

CONDITIONS

1. All Deed of Trust holders shall ratify the plat. The applicant shall provide a current title commitment at the time of submittal of the Mylar for recording.
2. Colorado statute requires that at the time of the approval of platting, the subdivider provides the certification of the County Treasurer's Office that all ad valorem taxes applicable to such subdivided land, or years prior to that year in which approval is granted, have been paid. Therefore, this plat is approved by the Board of County Commissioners on the condition that the subdivider or developer must provide to the Planning and Community Development Department, at the time of recording the plat, a certification from the County Treasurer's Office that all prior years' taxes have been paid in full.
3. The subdivider or developer must pay, for each parcel of property, the fee for tax certification in effect at the time of recording the plat.
4. The Applicant shall submit the Mylar to Enumerations for addressing.

5. Developer shall comply with federal and state laws, regulations, ordinances, review and permit requirements, and other agency requirements, if any, of applicable agencies including, but not limited to, the Colorado Division of Wildlife, Colorado Department of Transportation, U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service regarding the Endangered Species Act, particularly as it relates to the Preble's Meadow Jumping Mouse as a listed species.
6. Driveway permits will be required for each access to an El Paso County owned and maintained roadway. Driveway permits are obtained from the appropriate El Paso County staff.
7. Collateral sufficient to ensure that the public improvements as listed in the approved Financial Assurance Estimate shall be provided when the Final Plat is recorded.
8. The Subdivider(s) agrees on behalf of him/herself and any developer or builder successors and assignees that Subdivider and/or said successors and assigns shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program Resolution (Resolution No. 19-471), or any amendments thereto, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documented on all sales documents and on plat notes to ensure that a title search would find the fee obligation before sale of the property.
9. Applicant shall comply with all requirements contained in the Water Supply Review and Recommendations, dated 3/9/2023, as provided by the County Attorney's Office.

NOTATIONS

1. Final Plats not recorded within 24 months of Board of County Commissioner approval shall be deemed expired unless an extension is approved.
2. Site grading or construction, other than installation or initial temporary control measures, may not commence until a Preconstruction Conference is held with Planning and Community Development Inspections and a Construction Permit is issued by the Planning and Community Development Department.

AND BE IT FURTHER RESOLVED that this Resolution and the recommendations contained herein be forwarded to the El Paso County Board of County Commissioners for its consideration.

_____ seconded the adoption of the foregoing Resolution.
