RE: 5401 Fountain Valley School Road
Stealth Wireless Telecommunications Facility
(Verizon Wireless: CSP BIG JOHNSON)

To Whom It May Concern;

Please accept this as a Colocation Analysis for the above referenced project.

Horizon Tower, LLC has identified this as a viable location for a freestanding telecommunications facility. While there are existing towers in within five miles, they do not provide the location and coverage of this location. Specifically, Verizon Wireless has identified this location as an area that has a significant gap in its coverage. A freestanding facility at this location will remedy that gap in coverage. Additionally, this facility was designed to accommodate multiple wireless carriers, which limits tower proliferation in the area. The location was chosen to achieve maximum coverage with the least visual impact to adjacent properties, and coverage maps have been provided.

The question has been raised whether VZW could collocate on any of the existing towers with a 5 mile radius to remedy its gap in coverage. As the coverage maps provided show, the answer is “no”. The coverage map clearly shows a gap in coverage that is resolved with a new facility at this location.

Additionally, the proposed facility is designed to accommodate a total of 4 carriers.

A handwritten signature in blue ink that reads 'Herb Quintana'. The signature is fluid and cursive, with the first name 'Herb' and the last name 'Quintana' clearly legible.

Herb Quintana
