

**AFFIDAVIT TO PERMANENTLY ABANDON NON-EXEMPT WATER RIGHTS**

I, Loren Moreland (Falcon Area Water #WW Authority) (print name) do swear and depose as follows: **WDID:**

- I am the owner of a well located in the SE ¼ of the SW ¼ of Section 33, Township 12 N(S) (mark one), Range 65 E(W) (mark one), 6th P.M., Permit no. 86007, Structure Name/Decree West well (W-1309). Easting \_\_\_\_\_
- Yes**  **No** To the best of my knowledge, this well physically exists. Northing \_\_\_\_\_
- The well has been used as the water supply for the following exempt type uses listed in § 37-92-602(1) or Policy 93-2 (check a, b, and/or c (must be consistent with decree) **OR** one of d, e, or f and fill in as applicable):
  - Ordinary in-house purposes for \_\_\_\_\_ number of houses.
  - Watering of domestic animals.  Watering of livestock on farms or ranches.
  - Irrigation of \_\_\_\_\_ acres / sqft (mark one) of lawns and gardens (Must be 1acre or less).
  - Exclusively for fire protection (*well is capped, locked and used only in fighting fires*).
  - Drinking and sanitary facilities inside an individual commercial business (Must be 15 gpm or less).
  - Feedlot or dairy operation meeting Policy 93-2 (Must be 50 gpm or less, 200 cows or less, 5 ac/yr or less).

I understand that if this well was legally used for these purposes in the past, if I limit the use of the well to "a", "b" and/or "c" (must be consistent with decree) **OR** to only one of groups "d", "e" or "f" in the future, and if an exempt permit is issued for those uses, then a plan for augmentation, substitute water supply plan or subdistrict participation would not be required.

- I have permanently abandoned the use of the well for all but the aforementioned exempt type uses and understand that the pumping rate of the well will be limited to the amount specified in the exempt permit, which in no circumstances shall exceed 15 gpm (for wells in group 3e and wells put to use on or after May 22, 1971) or 50 gpm (for wells in group 3f and/or wells put to use prior to May 22, 1971). **Retained discharge rate:** None gpm
- The well has been used for the above listed uses since (check one):  before May 22, 1971;  between May 22, 1971 and May 7, 1972;  on or after May 8, 1972.
- I hereby attest that it is my unequivocal intention to abandon all water rights associated with this well except any currently decreed exempt type portion (based on any exempt well permit that either already exists or will be issued by the State Engineer's Office) and, further, that I hereby bind any and all successors-in-interest to comply with and be subject to my stated intention to abandon the associated water rights.
- I understand the Division Engineer, pursuant to § 37-92-401(1)(a), will place all but the exempt type portion of the water rights associated with this well on the next decennial abandonment list. I will not protest the abandonment.
- This is a formal request to cancel the non-exempt well permit no. 86007. (n/a if not applicable)
- (a)  If an exempt permit for this well does not already exist, I hereby apply for an exempt well permit with the State Engineer's Office pursuant to § 37-92-602 C.R.S. Enclosed is an original application for an existing well and my \$100.00 filing fee. This affidavit and request to cancel the non-exempt well permit is contingent upon the issuance of an exempt permit for this well. I understand that, as conditions of approval for the permit, I will be required to remove any pumping equipment rated for a discharge greater than the allowed flow rate of the exempt permit and, if not already in place, install a sanitary cap/seal on the well.
- (b)  I wish to abandon all uses of the well **AND** the physical structure. I do **NOT** want a new exempt permit.
