I edited the application to remove the cupola and add dutch doors. Thanks!

Mindy,

Would you mind advising how to respond? I'm not sure how the ins and outs work, or what can be amended.

Thank you,
Charles Carlisle

Hello Charles,

The structure is up, but we are waiting for the weather to improve to build stalls and add the dutch doors/ exterior stalls/ move the horses in. I anticipate to have this done by 6/1/21. The horses are currently living in a lean to until then.

I do have a question, is there anyway we can change the criteria from a cupola to having dutch doors in the project criteria? We ended up building dutch doors for the horses stalls and wanted to use them in the project in lieu of a cupola, if possible? I was hoping we could do this since the project is not complete/been inspected. Please let me know.

Thank you,
Chandler Kolb

Good morning,

I am contacting you regarding your application for an Agricultural Structure Exemption from the Building Code. An inspection is required in order to obtain final approval for your application.

If construction is completed and the agricultural use has been established (i.e. livestock currently occupying stalls, feed/tools/other farming implements being stored within the building, etc.), please contact me to schedule an inspection. You may also email me pictures of all sides of the structure and of the inside of the structure which may suffice in lieu of an in-person inspection.

If construction has not started or is still ongoing, please let me know the expected completion date. If you have any questions or concerns, please let me know and I will do my best to assist however I can.

Thank you,

Charles Carlisle
