Physical Address:      11480 EGGAR DRIVE PEYTON, CO 80831  
NW 1/4 SE 1/4 Section 13 Township 13.0 S Range 65.0 W Sixth P.M.

**AUTHORIZED AGENT**

MONSON, CUMMINS & SHOHET LLC (FARR, RYAN)

**UTM COORDINATES (Meters, Zone:13, NAD83)**

Easting: 533409.0      Northing: 4307674.0

**PERMIT TO USE AN EXISTING WELL**

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT

**CONDITIONS OF APPROVAL**

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not ensure that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to CRS 37-90-107(7) and the Findings and Order of the Colorado Ground Water Commission dated February 4, 2019, for Determination of Water Right No. 3640-BD and its associated Replacement Plan. In the event the well is not operated in accordance with the conditions of this determination and replacement plan, it will be subject to administration, including orders to cease diverting water.
- 4) Approved for the use of an existing well constructed under well permit no. 191102. Issuance of this permit cancels permit no. 191102.
- 5) The use of ground water from this well is limited to domestic (in home use, lawn and garden irrigation and domestic animal watering), irrigation and replacement. The place of use shall be limited to the 5.105 acre land area claimed in the above described Order of the Commission.
- 6) The pumping rate of this well shall not exceed 15 GPM.
- 7) The annual withdrawal of ground water from this well shall not exceed 1 acre-foot, subject to the total annual withdrawal limitations and conditions as specified by the above referenced Order of the Commission.
- 8) This well is constructed into the Denver aquifer.
- 9) The owner shall mark the well in a conspicuous place with the well permit number and name of aquifer as appropriate, and shall take necessary means and precautions to preserve these markings.
- 10) This well shall be located within 200 feet of the location specified on this permit. This well shall not be located within 600 feet of another large-capacity well completed in the Denver aquifer.
- 11) The return flows from the inhouse supply component of this well use have been claimed as a replacement source, pursuant to the Findings and Order of the Commission dated February 4, 2019. As a result, the return flow from the use of this well must be through an individual waste water disposal system of the non-evaporative type where the water is returned to the same stream system in which the well is located.
- 12) A totalizing flow meter or Commission approved measuring device must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (collected at least annually) and submitted to the Ground Water Commission upon request.

NOTE: The ability of this well to withdraw its authorized amount of water from this non-renewable aquifer may be less than the 100 years upon which the amount of water in the aquifer is allocated, due to anticipated water level declines.

**WELL PERMIT NUMBER 82920-F**

**RECEIPT NUMBER 3689216E**

NOTICE: This permit has been approved for the uses and annual withdrawal allowed by the replacement plan. You are hereby notified that you have the right to appeal the issuance of this permit, by filing a written request with this office within sixty (60) days of the date of issuance, pursuant to the State Administrative Procedures Act. (See Section 24-4-104 through 106, C.R.S.)
