NOTES:

1. This survey does not constitute a title search by Pinnacle Land Surveying Company to determine ownership of easements of record. For all information regarding easement, rights-of-way and title of record, Pinnacle Land Surveying Company relied upon an a Commitment for Title Insuance, prepared by Commonwealth Land Title Insuance Company, effective date May 30, 2017, Commitment No. 598-H0506202-072-DR8.

   8. Terms, conditions, restrictions, provisions, notes and easements but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth on the Plat(s) of said subdivision set forth below: Recording Date: August 2, 1973 Recording No: Plat Book Z2 at Page 24.

   9. Covenants, conditions and restrictions but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, source of income, gender, gender identity, gender expression, medical condition or genetic information, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth in the document recorded June 26, 1974 in Book 2686 at Page 759 and any and all amendments or supplements thereto.

   10. Terms, conditions, provisions, agreements and obligations contained in the resolution as set forth below: Recording Date: March 10, 1981 Recording No.: 751613.

2. Individual wells are the responsibility of each property owner. Permits for individual wells must be obtained from the State Engineer who by law has the authority to set conditions for the issuance of these permits.

3. Sewage treatment is the responsibility of each individual property owner. The El Paso County Department of Health and Environment must approve each system and, in some cases the Department may require an engineer designed system prior to permit approval. These systems may cost more to design, install, and maintain.

4. All property owners are responsible for maintaining proper storm water drainage in and through their property. Public drainage easements as specifically noted on the plat shall be maintained by the individual lot owners unless otherwise indicated. Structures, fences, materials or landscaping that could impede the flow of runoff shall not be placed in drainage easements.

5. No driveway shall be established unless an access permit has been granted by El Paso County. Individual lot purchasers are responsible for constructing driveways, including necessary drainage culverts from Egger Drive per Land Development Code Section 6.3.3.C.2 and 6.3.3.C.3. Due to their length, some of the driveways will need to be specifically approved by the Falcon Fire Protection District.

6. All structural foundations shall be located and designed by a Professional Engineer, currently registered in the State of Colorado.

7. The addresses (10000) exhibited on this plat are for informational purposes only. They are not the legal descriptions and are subject to change.

8. Developer shall comply with federal and state laws, regulations, ordinances, review and permit requirements, and other agency requirements, if any, of applicable agencies including, but not limited to, the Colorado Division of Wildlife, Colorado Department of Transportation, U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service regarding the Endangered Species Act, particularly as it relates to the listed species (e.g., Preble's Meadow Jumping Mouse).

9. Mailboxes shall be installed in accordance with all El Paso County Department of Transportation and United States Postal Service regulations.

10. This property is located in Flood Zone X determined to be outside the 500-year floodplain as determined by the FEMA Flood Insurance Rate Map, Community Map Number 08041C0561 G, effective date December 07, 2018.

11. The Subdivider(s) agrees on behalf of him/herself and any developer or builder successors and assignees that Subdivider and/or said successors and assigns shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program Resolution (Resolution No. 18-471), or any amendments thereto, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documented on all sales documents and on plat notes to ensure that a title search would find the fee obligation before sale Pursuant to the Land of the property.

12. Water in the Denver Basin Aquifers is allocated based on a 100 year aquifer life; however, for El Paso County planning purposes, water in the Denver Basin Aquifers is evaluated based on a 300 year aquifer life. Applicants, the Home Owners Association, and all future owners in the subdivision should be aware that the economic life of a water supply based on wells in a given Denver Basin aquifer may be less than either the 100 years or 300 years used for allocation indicated due to anticipated water level declines. Furthermore, the water supply plan should not rely solely upon non-renewable aquifers. Alternative renewable water resources should be acquired and incorporated in a permanent water supply plan that provides future generations with a water supply.

13. The approval of this plat vacates the Lot 18 plat restrictions regarding "Park Area Dedicated to Public Use".

14. All distances shown hereon are in U.S. Feet.

15. There is one lot within this subdivision.

16. The remainder of Lot 18 is not included within this action.

SURVEYOR'S CERTIFICATION:

I John W. Towner, a duly registered Professional Land Surveyor in the State of Colorado, do hereby certify that this plat truly and correctly represents the results of a survey made on date of survey, by me or under my direct supervision and that all monuments exist as shown hereon; that mathematical closure errors are less than 1:10,000 ; and that said plat has been prepared in full compliance with all applicable laws of the State of Colorado dealing with monuments, subdivision, or surveying of land and all applicable provisions of the El Paso County Land Development Code.
