**Re: Ellicott School Addition 2 Bldgs (PPR2250 & ASB2429)
Stormwater Permanent Control Measures – Engineer's Letter
M.V.E. Project No. 61183**

Dear Mr. Walters:

The stormwater Permanent Control Measures (PCMs) for the Ellicott School Addition 2 Bldgs project (PPR2250 & ASB2429) consists of the two (2) rain gardens with associated riprap inflow protection and riprap emergency spillways. Based upon information gathered during during the final project site visit and as-built survey data, M.V.E., Inc. is of the opinion that the stormwater Permanent Control Measures (PCMs) have been constructed in general compliance with the approved Grading and Erosion Control Plan prepared by M.V.E., Inc., as filed with the County.

Statement Of Engineer In Responsible Charge:

I, David R. Gorman, a registered Professional Engineer in the State of Colorado, in accordance with Sections 5.2 and 5.3 of the Bylaws and Rules of the State Board of Registration for Professional Engineers and Professional Land Surveyors, do hereby state and declare that I or a person under my responsible charge observed the constructed facilities of the above mentioned project. Based on the on-site field observations and review of pertinent documentation, it is my professional opinion that the public roadway improvements and the Permanent Control Measures have been installed and are in general compliance with the approved Roadway Construction Plans and approved Grading and Erosion Control Plan as filed with the El Paso County. Furthermore, the as-built stormwater storage volume meets or exceeds the design volumes indicated on the approved construction plans.

David R. Gorman, P.E. Colorado No. 31672
For and on Behalf of M.V.E., Inc.
