**RE: Trails at Aspen Ridge Commitment Letters**

Dear Mrs. Schanel:

Widefield Water and Sanitation District (the District) has committed water to the Trails at Aspen Ridge for 680 SFE's for the remaining filings in the subdivision, filings 3 through 6. Filings 1 and 2 were committed to previously. This overall commitment is for the known SFE's that will be used by single family homes and may change as the site is designed and developed.

As the filings are designed and developed, more knowledge is known on the exact layout of the filing to include landscaping. The District provides a commitment letter for each individual filings that includes landscaping as well as the individual homes.

Sincerely,

A handwritten signature in blue ink that reads "Robert Bannister".

Robert Bannister, P.E.  
District Engineer
