Request and Justification

Proposing to begin early grading of the site in advance of the approval of the Claremont Business Park 2 early grading Preliminary Plan and the Claremont Business Park 2 Filing No. 1 Final Plat. this new plan has 10 lots. Our intention is to seek approval to grade Lots 1-7, and Tract A. Lots 8-10 and Tract B construction will occur at a later date. Our proposal is consistent with the adjacent development. The uses we are intending for the remaining lots are planned for office, light industrial/warehouse and retail type uses which is consistent and are approved uses within the CS zone. We feel this proposal will help to develop the area faster and enhance the neighborhood (the owner has already received interested calls on the smaller lots granted the proposal is approved). Not to mention it will help increase revenue for the County and support the neighboring residential and commercial business already existing in the area. All lots will include the required zoning setbacks per CS zone and including a maximum height of 45 feet, as stated on the Preliminary Plan drawing. Approval of this request will allow site grading to commence while the entitlement documents are in process.
