RE: T-Mobile DN04333A – Zoning Application for Telecom Facilities, Type C
8308 Del Rio Rd., Peyton, CO 80831
Project Narrative

Greetings Staff,

I'm submitting a Zoning Application for Telecom Facilities on behalf of T-Mobile for an equipment modification of an existing wireless facility located at 8308 Del Rio Rd. The modification consists of removing the (3) existing antennas and (9) Remote Radio Units (RRUs) located on the existing monopole and replacing them with (6) new antennas and (6) new RRUs. The new antennas will be mounted to the existing antenna mounts and the RRUs are mounted behind the antennas. T-Mobile will also be replacing the existing power cabinet and system modules with a new power cabinet and a backup battery cabinet. All new equipment cabinets will be placed on the existing ground platform that is located within an existing fenced compound.

If you have any questions or comments please contact me at your convenience and I appreciate your time and assistance in this matter.

Respectfully,

Darren Hunter
