C. APPROVAL CRITERIA

In approving a map amendment (rezoning), the Planning Commission and the Board of County Commissioners shall find that the request meets the criteria for approval outlined in Section 5.3.5 (Map Amendment, Rezoning) of the El Paso County Land Development Code (2022):

1. The application is in general conformance with the El Paso County Master Plan including applicable Small Area Plans or there has been a substantial change in the character of the neighborhood since the land was last zoned;
2. The rezoning is in compliance with all applicable statutory provisions including, but not limited to C.R.S §30-28-111 §30-28-113, and §30-28-116;
3. The proposed land use or zone district is compatible with the existing and permitted land uses and zone districts in all directions; and
4. The site is suitable for the intended use, including the ability to meet the standards as described in Chapter 5 of the Land Development Code, for the intended zone district.

D. LOCATION

North:	RR-5 (Residential Rural)	Vacant
South:	RR-5 (Residential Rural)	Vacant
East:	RR-5 (Residential Rural)	Commercial
West:	CS (Commercial Service)	Single-Family Residential

E. BACKGROUND

The subject property was rezoned to A-4 (Agricultural) on April 14, 1983, when zoning was established in this part of El Paso County. A nomenclature change in 2007 renamed the A-4 (Agricultural) zoning district as the RR-5 (Residential Rural) zoning district. According to County records a salvage yard was established on the property prior to the establishment of zoning.

The applicant is currently requesting a map amendment (rezoning) from RR-5 (Residential Rural) to CS (Commercial Service). According to the applicant's letter of intent the property is currently being used for automobile and boat storage and plans to construct mini-warehouses in the future. Both automobile and boat storage and mini-warehouse are allowed uses by right in the CS zoning district.

If the request for a map amendment is approved, the applicant will be required to submit and receive approval of a site development plan for both the existing and future use of the property.

F. ANALYSIS

1. Land Development Code Analysis

The applicant is proposing to rezone the property to CS (Commercial Service). Section 3.2 of the Code states the following as the intent of the CS zoning district:

“The CS zoning district is intended to accommodate retail, wholesale or service commercial uses that serve the general public.”

According to the applicant's letter of intent the site is currently being used as a vehicle storage yard and has been since prior to County zoning of the property. Automobile and Boat Storage Yards are an allowed use-by-right within the CS zoning district.

2. Zoning Compliance

The density and dimensional standards for the CS zoning district are as follows:

- Maximum zoning district area: 2 acres¹¹
- Minimum lot size: N/A
- Setbacks
 - Front: 25 feet^{1,3,11}
 - Side: 25 feet^{1,2,3,11}
 - Rear: 25 feet^{1,2,3,11}
- Maximum height: 45 feet

¹ Gasoline pumps and canopies shall be at least 15 feet from the front property line or public right-of-way, except where the landscaping regulations require a greater setback.

² The minimum setback is 25 feet from the perimeter boundary of the district, but no minimum setback is required from any internal side or rear lot line within the same district.

³ Temporary uses shall be setback at least 25 feet from all property lines and 100 feet from Residential zoning districts.

¹¹ If the building is established as or converted to condominium units in accordance with Chapter 7 of the Code, the building and lot shall meet the minimum lot area and setbacks, but the individual units are not required to meet the minimum lot area, maximum lot coverage, or setback requirements.

In order to initiate any uses on the property, the applicant will need to obtain subsequent site development plan approval. The site development plan will be reviewed to ensure that all proposed and existing structures will comply with the zoning district dimensional standards as well as the General Development Standards of the Code and Engineering Criteria Manual requirements.

G. MASTER PLAN ANALYSIS

1. Your El Paso Master Plan

Placetype: Suburban Residential

Placetype Character:

Suburban Residential is characterized by predominantly residential areas with mostly single-family detached housing. This placetype can also include limited single-family attached and multifamily housing, provided such development is not the dominant development type and is supportive of and compatible with the overall single-family character of the area. The Suburban Residential placetype generally supports accessory dwelling

units. This placetype often deviates from the traditional grid pattern of streets and contains a more curvilinear pattern.

Although primarily a residential area, this placetype includes limited retail and service uses, typically located at major intersections or along perimeter streets. Utilities, such as water and wastewater services are consolidated and shared by clusters of developments, dependent on the subdivision or area of the County.

Some County suburban areas may be difficult to distinguish from suburban development within city limits. Examples of the Suburban Residential placetype in El Paso County are Security, Widefield, Woodmen Hills, and similar areas in Falcon.

Recommended Land Uses:

Primary

- Single-Family Detached Residential with lots sizes smaller than 2.5 acres per lot, up to 5 units per acre

Supporting

- Single-family Attached
- Multifamily Residential
- Parks/Open Space
- Commercial Retail
- Commercial Service
- Institutional

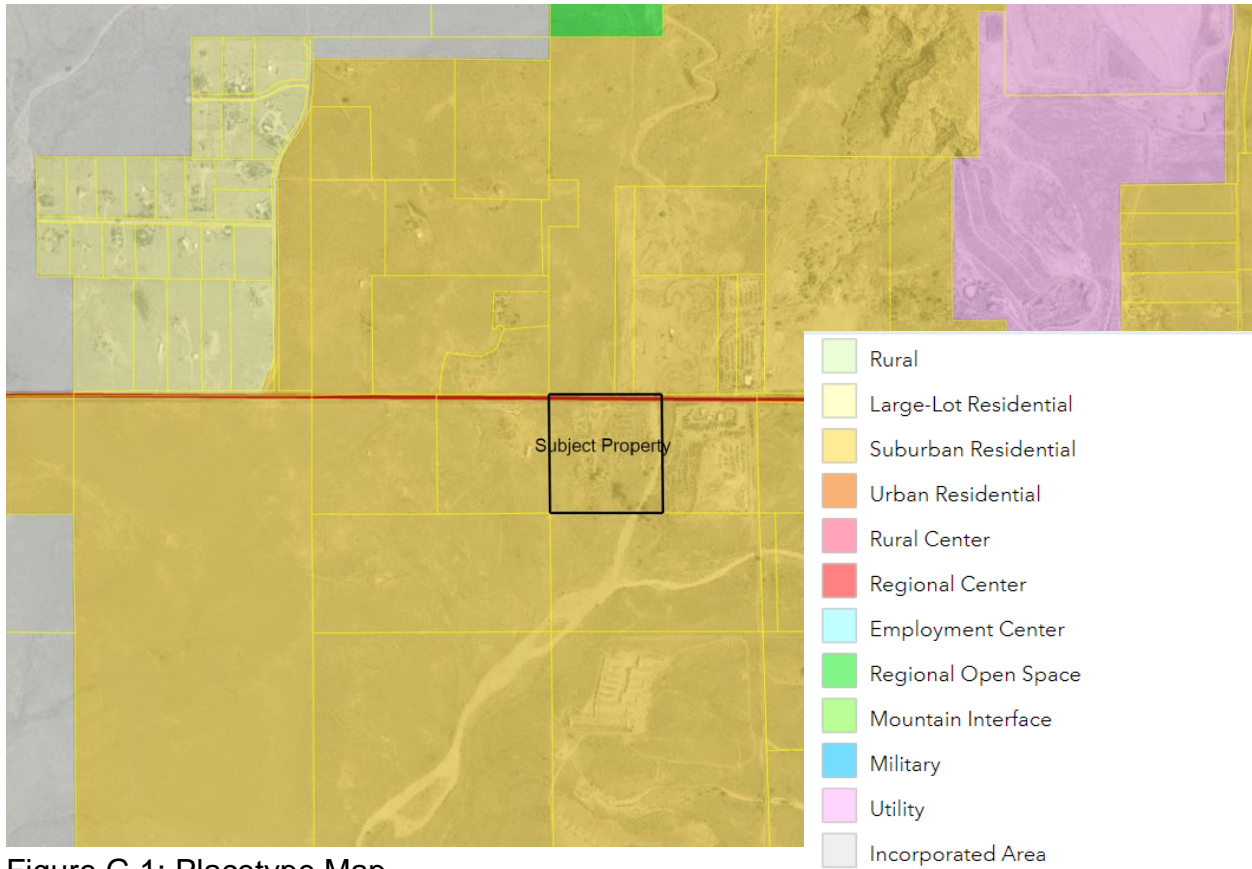

Figure G.1: Placetype Map

Analysis:

The property is located within the Suburban Residential placetype. The Suburban Residential placetype comprises the County’s traditional residential neighborhoods with supporting commercial uses at key intersections. Relevant goals and objectives are as follows:

Goal LU3 – Encourage a range of development types to support a variety of land uses.

Objective ED1-6 – Large employers should be located on major roadways to improve connectivity and minimize their impact on daily travel.

Objective ED3-6 – Prioritize commercial use as development opportunities arise in order to support the growing residential base in the rural areas.

The proposed rezone would reallocate 40 acres of existing commercial land from the RR-5 zoning district to the CS zoning district, which would support a variety of commercial uses. The placetype allows commercial retail and commercial service as supporting uses. The Master Plan identifies the Suburban Residential placetype as primarily residential with supporting commercial uses at key intersections. The subject property is located off Highway 94 and is surrounded by other existing commercial properties.

a. Area of Change Designation: New Development

These areas will be significantly transformed as new development takes place on lands currently largely designated as undeveloped or agricultural areas. Undeveloped portions of the County that are adjacent to a built out area will be developed to match the character of that adjacent development or to a different supporting or otherwise complementary one such as an employment hub or business park adjacent to an urban neighborhood.

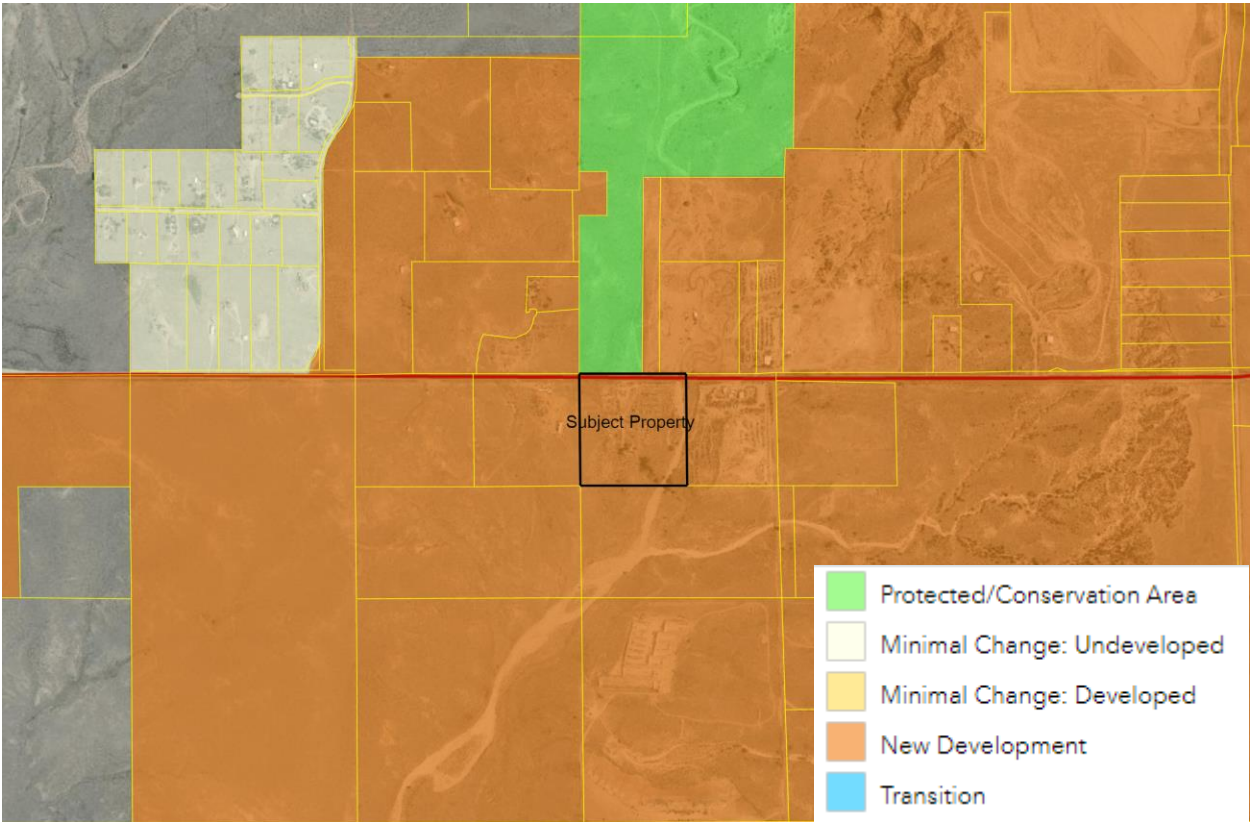

Figure G.2: Area of Change Map

Analysis:

The proposed rezone is located in an area which is surrounded by existing commercial uses which matches the existing character of the subject property. If the rezone is approved, it would allow the subject property to expand the existing commercial uses. The applicant’s letter of intent states, “Anticipating future needs the rezoning of the Property from RR-5 to CS would be beneficial to the growing Eastern Community through the development and provision of commercial services. A reduction of environmental impact through shortening shoppers commutes to services, and the resultant savings on energy, time, and money for the surrounding community will contribute to a better quality of life for local citizens.”

b. Key Area Influences: Potential Areas for Annexation

A significant portion of the County’s expected population growth will locate in one of the eight incorporated municipalities. As the largest municipality in El Paso County, Colorado Springs is expected to grow in population over the next several decades. As a result of this growth, Colorado Springs, and other municipalities including Fountain and Monument, will need to annex parts of unincorporated County to plan for and accommodate new development. This will either occur through new development within existing municipal limits or the annexation of subdivisions in unincorporated parts of the County.

This Key Area outlines the portions of the County that are anticipated to be annexed as development occurs. It is imperative that the County continue to coordinate with the individual cities and towns as they plan for growth. Collaboration with the individual communities will prevent the unnecessary duplication of efforts, overextension of resources, and spending of funds. The County should coordinate with each of the municipalities experiencing substantial growth the development of an intergovernmental agreement similar to that developed with Colorado Springs.

c. Other Implications (Priority Development, Housing, etc.):

The subject property is not located within a Priority Development Area.

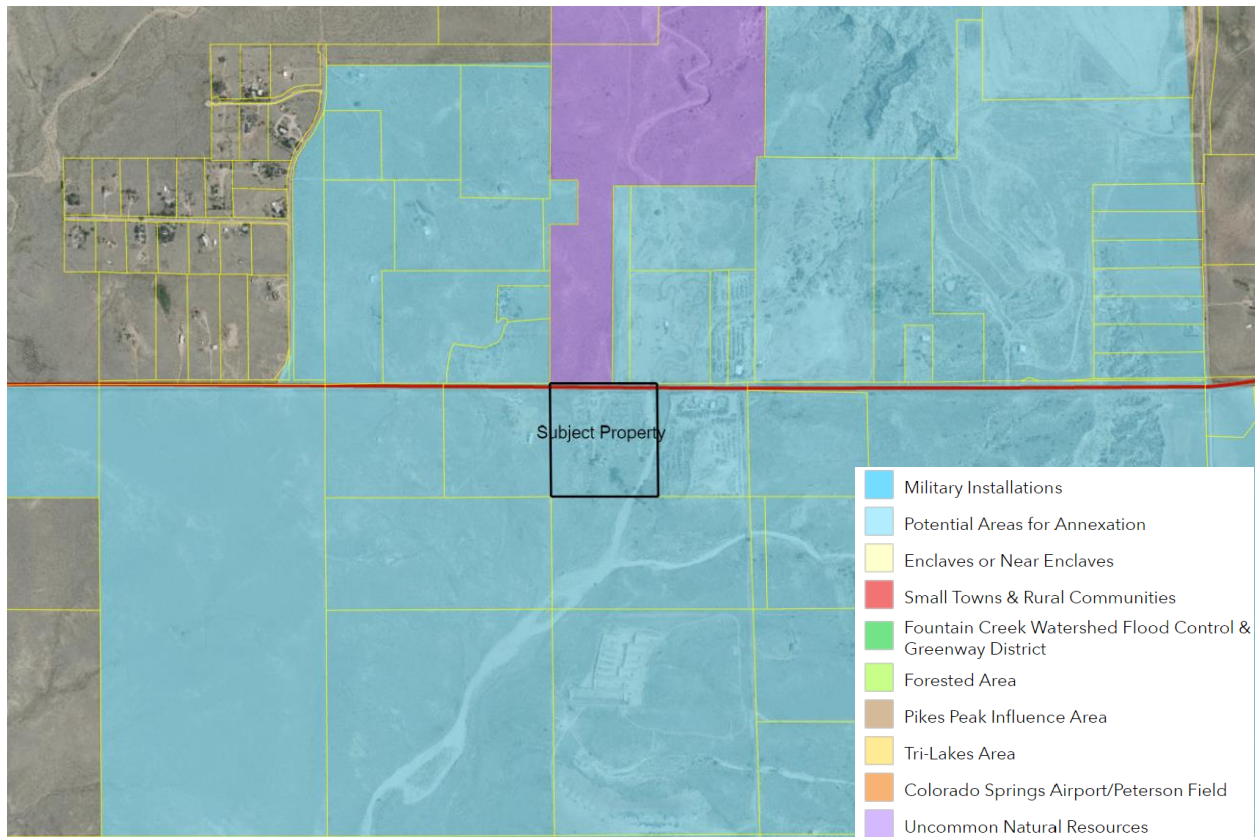

Figure G.3: Key Area Influences Map

2. Water Master Plan Analysis

The El Paso County Water Master Plan (2018) has three main purposes; better understand present conditions of water supply and demand; identify efficiencies that can be achieved; and encourage best practices for water demand management through the comprehensive planning and development review processes. Relevant policies are as follows:

Goal 1.1 – Ensure an adequate water supply in terms of quantity, dependability and quality for existing and future development.

Policy 1.1.1 – Adequate water is a critical factor in facilitating future growth and it is incumbent upon the County to coordinate land use planning with water demand, efficiency and conservation.

Goal 1.2 – Integrate water and land use planning.

The Water Master Plan includes demand and supply projections for central water providers in multiple regions throughout the County. The proposed development

will not be served by a central water system. The following has been included for informational purposes only as it pertains to water demands and supplies in Region 8. The Plan identifies the current demand for Region 8 to be 299 acre-feet per year (AFY) (Figure 5.1) with a current supply of 299 AFY (Figure 5.2). The projected demand in 2040 is at 396 AFY (Figure 5.1) with a projected supply of 299 AFY (Figure 5.2) in 2040. The projected demand at build-out in 2060 is 484 AFY (Figure 5.1) with a projected supply of 299 AFY (Figure 5.2) in 2060. This means that by 2060 a deficit of 185 AFY is anticipated for Region 8.

A finding of water sufficiency is not required with a map amendment (rezone) but will be required with any future subdivision request. The property is currently not platted. A finding of water sufficiency is required with subsequent plat application(s).

3. Other Master Plan Elements

The El Paso County Wildlife Habitat Descriptors (1996) identifies the parcels as having a moderate wildlife impact potential. Colorado Parks and Wildlife and the El Paso County Community Services Department, Environmental Services Division were each sent a referral and have no outstanding comments.

The Master Plan for Mineral Extraction (1996) identifies floodplain deposits in the area of the subject parcels. A mineral rights certification was prepared by the applicant indicating that, upon researching the records of El Paso County, no severed mineral rights exist.

H. PHYSICAL SITE CHARACTERISTICS

1. Hazards

No hazards were identified during the review of the map amendment.

2. Floodplain

FEMA Flood Insurance Rate Map (FIRM) panel number 08041C0785G, which has an effective date of December 7, 2018, indicates the subject property is located within Zone AE, area where base flood elevations are provided.

3. Drainage and Erosion

The area of the proposed map amendment (rezoning) is located within the Jimmy Camp Creek drainage basin. This drainage basin is included in the El Paso County drainage basin fee program. Due to no platting action being required, drainage and

bridge fees will not be assessed with the drainage report that will be required with the subsequent site development plan application.

4. Transportation

The subject property is located south of US Highway 94 between Corral Valley Road and Franceville Coalmine Road. US Highway 94 is a two-lane rural major collector that is currently owned and maintained by Colorado Department of Transportation (CDOT).

A traffic study is currently being reviewed by CDOT for the rezone application. The 2016 Major Transportation Corridors Plan update shows Highway 94 will eventually be improved to a 4-lane principal arterial. The applicant will be responsible to meet any requirements set forth by CDOT that are triggered by these applications. No improvements to El Paso County infrastructure are anticipated.

The development is subject to the El Paso County Road Impact Fee program (Resolution No. 19-471).

I. SERVICES

1. Water

The property is currently serviced by an existing well.

2. Sanitation

The property is currently serviced by an existing onsite wastewater treatment system.

3. Emergency Services

The property is within the Ellicott Fire Protection District. The District was sent a referral and has no outstanding comments.

4. Utilities

Mountain View Electric Association (MVEA) will provide electrical service. MVEA was sent a referral and has no outstanding comments.

5. Metropolitan Districts

The property is not located within the boundary of a metropolitan district.

6. Parks/Trails

Land dedication and fees in lieu of park land dedication are not required for a map amendment (rezoning) application.

7. Schools

Land dedication and fees in lieu of school land dedication are not required for a map amendment (rezoning) application.

J. APPLICABLE RESOLUTIONS

See attached.

K. STATUS OF MAJOR ISSUES

There are no major issues.

L. RECOMMENDED CONDITIONS AND NOTATIONS

Should the Planning Commission and the Board of County Commissioners find that the request meets the criteria for approval outlined in Section 5.3.5 (Map Amendment, Rezoning) of the El Paso County Land Development Code (2022), staff recommends the following conditions and notations.

CONDITIONS

1. The developer shall comply with federal and state laws, regulations, ordinances, review and permit requirements, and other agency requirements. Applicable agencies include but are not limited to: the Colorado Parks and Wildlife, Colorado Department of Transportation, U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service regarding the Endangered Species Act, particularly as it relates to the Preble's Meadow Jumping Mouse as a listed threatened species.
2. Any future or subsequent development and/or use of the property shall be in accordance with the density and dimensional standards of the CS (Commercial Service) zoning district and with the applicable sections of the Land Development Code and Engineering Criteria Manual.

NOTATIONS

1. If a zone or rezone petition has been disapproved by the Board of County Commissioners, resubmittal of the previously denied petition will not be accepted for a period of one (1) year if it pertains to the same parcel of land and is a petition for a change to the same zone that was previously denied. However, if evidence is presented showing that there has been a substantial change in physical

conditions or circumstances, the Planning Commission may reconsider said petition. The time limitation of one (1) year shall be computed from the date of final determination by the Board of County Commissioners or, in the event of court litigation, from the date of the entry of final judgment of any court of record.

2. Rezoning requests not forwarded to the Board of County Commissioners for consideration within 180 days of Planning Commission action will be deemed withdrawn and will have to be resubmitted in their entirety.

M. PUBLIC COMMENT AND NOTICE

The Planning and Community Development Department notified eight (8) adjoining property owners on December 16, 2022, for the Planning Commission and Board of County Commissioners meetings. Responses will be provided at the hearing.

LETTER OF INTENT

REV 11-8-2022

September 1, 2022

**El Paso County Planning and Community Development Department
2880 International Circle
Colorado Springs, CO 80910**

Attn: **John Green/Current Planner**

Re: **Rezone Letter of Intent – EMPRISE ACQUISITIONS, LLC
APN 44000-00-056**

LAND DEVELOPMENT CONSULTANTS, INC. is representing EMPRISE ACQUISITIONS, LLC in this application for a rezone from RR-5 Residential to CS Commercial Services District for a commercial use classification for RV, BOAT AND VEHICLE STORAGE and future mini-warehouse storage units.

This site is located on the South side of US Highway 94 approximately ¼ mile west of Franceville Coal Mine Road. It is currently being used as a vehicle storage yard and has been since before the County zoned the property. It is surrounded by a variety of uses; vacant range land on the south zoned RR-5; undeveloped zone CS on the West; motocross race track on the North zoned RR-5; vehicle salvage yard and motocross race track to the Northeast zoned RR-5; a vehicle salvage yard on the East zoned RR-5 and an outside gun range to the South Southeast.

The owner's property consists of a total of 34.52 acres and is currently zoned RR-5. Their request is to rezone the property to the CS Commercial Services zone. This will allow them to continue to use the property for vehicle storage and expand the use to include RV and boat storage and future mini-warehouse units.

The property will continue to be served by an existing well and septic system. Electric service is provided by Mountain View Electric Association. Fire protection is provided by ELLICOTT FIRE PROTECTION DISTRICT.

The existing access point on Highway 94 will continue to be used and an Access Permit will be applied for from Colorado Department of Transportation. A traffic Study has been completed to be submitted with that Access Permit.

The EL Paso County Master Plan is not specific as to the zoning boundaries of property as it is advisory in nature, and notes that a majority of real estate in Eastern El Paso County is zoned RR5 and that that designation has been used as a "holding pattern" for properties until future development needs and requests arise. We find nothing within the Master Plan that would prohibit a zone change to the property.

APPARENTLY THE MASTER PLAN SHOWS THIS AREA AS SUBURBAN RESIDENTIAL, AREA LIKELY TO BE ANNEXED AND NEW DEVELOPMENT. This property located on a major highway will not be developed as residential especially in light of the existing land uses adjacent and in close proximity to this property. There are 2 motocross race tracks immediately north of this property; auto salvage yards to the north and east; recently rezoned commercial services to the west and an outdoor shooting range to the southeast. This complies with the existing commercial/industrial land uses as is evident with the rezoning last year of the adjoining property on the west from RR-5 to CS, the same as the zoning we are requesting.

Once the property is re-zoned, development of the property will be per the specific requirements of the El Paso County Land Development Code and the Engineering Criteria Manual as they pertain to the requested CS Zone. The current plan for physical development of a site is to create gravel parking areas for the RV, Boat and vehicle storage.

This application is in general conformance with the El Paso County Master Plan including applicable Sub-Area Boundary (North Central) of the Highway 94 Comprehensive Plan, map print dated December 10, 2003.

El Paso County Water Master Plan anticipates that this area of the county would be reliant on water supplied by private wells, and septic systems to treat wastewater. The El Paso County Master Plan notes that, "With the exception of telephone service, electricity, and some roads, urban services are limited in most of the Planning Area. Within a 20-year planning horizon, contiguous development is not expected to extend east from the City of Colorado Springs to the Planning Area, nor is it likely that Colorado Springs will extend extra-territorial services. If urban services become available, they will result from some combination of local start-up facilities, gradual upgrades to existing services, or extensions of services from outside the Planning Area." This project would be consistent with the Plan in those regards.

Anticipating future needs the rezoning of the Property from RR-5 to CS would be beneficial to the growing Eastern Community through the development and provision of commercial services. A reduction of environmental impact through shortening shoppers commutes to services, and the resultant savings on energy, time, and money for the surrounding community will contribute to a better quality of life for local citizens. For the community the best use of this site would be re-zoning to CS.

This rezoning is in compliance with the applicable statutory provisions, including but not limited to C.R.S. §30-28-111 §30-28-113, and §30-28-116

MAP AMENDMENT - REZONE (RECOMMEND APPROVAL)

_____ moved that the following Resolution be adopted:

BEFORE THE PLANNING COMMISSION

OF THE COUNTY OF EL PASO

STATE OF COLORADO

RESOLUTION NO. CS-22-002
EMPRISE STORAGE REZONE

WHEREAS, Land Development Consultants, Inc., did file an application with the El Paso County Planning and Community Development Department for an amendment of the El Paso County Zoning Map to rezone property in the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated herein by reference, from the RR-5 (Residential Rural) zoning district to the CS (Commercial Service) zoning district; and

WHEREAS, a public hearing was held by this Commission on January 5, 2023; and

WHEREAS, based on the evidence, testimony, exhibits, consideration of the Master Plan for the unincorporated area of the County, presentation and comments of the El Paso County Planning and Community Development Department and other County representatives, comments of public officials and agencies, comments from all interested persons, comments by the general public, and comments by the El Paso County Planning Commission Members during the hearing, this Commission finds as follows:

1. The application was properly submitted for consideration by the Planning Commission;
2. Proper posting, publication, and public notice were provided as required by law for the hearing before the Planning Commission;
3. The hearing before the Planning Commission was extensive and complete, that all pertinent facts, matters, and issues were submitted and that all interested persons and the general public were heard at that hearing;
4. All exhibits were received into evidence;
5. The proposed land use does not permit the use of an area containing a commercial mineral deposit in a manner which would interfere with the present or future extraction of such deposit by an extractor;
6. All data, surveys, analyses, studies, plans, and designs as are required by the State of Colorado and El Paso County have been submitted, reviewed, and found to meet all sound planning and engineering requirements of the El Paso County Subdivision Regulations; and

7. For the above-stated and other reasons, the proposed amendment of the El Paso County Zoning Map is in the best interest of the health, safety, morals, convenience, order, prosperity, and welfare of the citizens of El Paso County.

WHEREAS, in approving a map amendment (rezoning), the Planning Commission and the Board of County Commissioners shall find that the request meets the criteria for approval outlined in Section 5.3.5 (Map Amendment, Rezoning) of the El Paso County Land Development Code (2022):

1. The application is in general conformance with the El Paso County Master Plan including applicable Small Area Plans or there has been a substantial change in the character of the neighborhood since the land was last zoned;
2. The rezoning is in compliance with all applicable statutory provisions including, but not limited to C.R.S §30-28-111 §30-28-113, and §30-28-116;
3. The proposed land use or zone district is compatible with the existing and permitted land uses and zone districts in all directions; and
4. The site is suitable for the intended use, including the ability to meet the standards as described in Chapter 5 of the Land Development Code, for the intended zone district.

NOW, THEREFORE, BE IT RESOLVED, the El Paso County Planning Commission recommends that the petition of Land Development Consultants, Inc., for an amendment to the El Paso County Zoning Map to rezone property located in the unincorporated area of El Paso County from the RR-5 (Residential Rural) zoning district to the CS (Commercial Service) zoning district be approved by the Board of County Commissioners with the following conditions and notations:

CONDITIONS

1. The developer shall comply with federal and state laws, regulations, ordinances, review and permit requirements, and other agency requirements. Applicable agencies include but are not limited to: the Colorado Parks and Wildlife, Colorado Department of Transportation, U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service regarding the Endangered Species Act, particularly as it relates to the Preble's Meadow Jumping Mouse as a listed threatened species.
2. Any future or subsequent development and/or use of the property shall be in accordance with the density and dimensional standards of the CS (Commercial Service) zoning district and with the applicable sections of the Land Development Code and Engineering Criteria Manual.

NOTATIONS

1. If a zone or rezone petition has been disapproved by the Board of County Commissioners, resubmittal of the previously denied petition will not be accepted for a period of one (1) year if it pertains to the same parcel of land and is a petition for a change to the same zone that was previously denied. However, if evidence is presented showing that there has been a

substantial change in physical conditions or circumstances, the Planning Commission may reconsider said petition. The time limitation of one (1) year shall be computed from the date of final determination by the Board of County Commissioners or, in the event of court litigation, from the date of the entry of final judgment of any court of record.

- 2. Rezoning requests not forwarded to the Board of County Commissioners for consideration within 180 days of Planning Commission action will be deemed withdrawn and will have to be resubmitted in their entirety.

AND BE IT FURTHER RESOLVED that this Resolution and the recommendations contained herein be forwarded to the El Paso County Board of County Commissioners for its consideration.

_____ seconded the adoption of the foregoing Resolution.
