

May 13, 2019

Kari Parsons, Project Manager
El Paso County Dev Services Department
2880 International Circle
Colorado Springs, CO 80910-6107

Dear Ms. Parsons:

Mountain View Electric Association, Inc. (MVEA) has these comments about the following:

Project Name: Grazing Yak Solar Facility

Project Number: PPR 1920

Description: The project proposes to construct a 35 megawatt solar farm facility on 270 acres of private land located southwest of the Town of Calhan, Colorado. Electricity generated by the project will interconnect into the Golden West Wind project substation via a 1-mile underground collection line, delivering power to Colorado Springs Utilities via an existing 29-mile generation tie line to the Jackson Fuller Substation. Location South of Washington Road, approximately 0.5 mile west of the intersection of Washington Road and Currier Road, Calhan, CO 80808

This area is within MVEA certificated service area. MVEA will serve this area with start-up power and any additional power as needed. The necessary lines will be constructed according to our extension policy. Connection requirements may include provisions for necessary line extensions and or other system improvements along with easements, and payment of all fees under MVEA line extension policy. Information concerning these requirements can be obtained by contacting the Engineering Department of MVEA.

MVEA has existing facilities near and within these parcels of land. If there is any removal or relocation of facilities it will be at the expense of the applicant and a review of easements will be required in order to serve.

If additional information is required, please contact our office at (719) 495-2283.

Sincerely,

Cathy Hansen-Lee

Engineering Administrative Assistant
