Good morning Lacey,

For some reason the documents I uploaded in the “additional” section did not make it. I have them in the folder below, I do not know if they are 100% necessary, but it’ll be helpful to have them I believe.

This is all I show for documents on your project after uploading what you just submitted. Are we missing any?

Hey Lacey,

I just uploaded our second submittal, and I wanted to confirm the optional documents I uploaded also went though because they are not showing up in the "Documents" portion after I uploaded them. I provided enlarged grading plans, storm plan and profile, comment responses, and the photometric plans. Could you please confirm you see those on your end?

Thanks!
