COUNTY REQUIRED NOTES:

The following reports have been submitted in association with the Preliminary Plan or Final Plat for this subdivision and are on file at the County Planning and Community Development Department: Transportation Impact Study; Drainage Report; Water Resources Report; Wastewater Disposal Report; Geology and Soils Report; Fire Protection Report; Wildfire Hazard Report; Natural Features Report.

Individual lot purchasers are responsible for constructing driveways, including necessary drainage culverts from _____ Road per Land Development Code Section 6.3.3.C.2 and 6.3.3.C.3. Due to their length, some of the driveways will need to be specifically approved by the (name of Fire District). When a Section Line Road encumbers the property, which would be eliminated as part of the subdivision plat. The 60 foot wide public highway contained within this plat as ordered by the Board of County Commissioners for El Paso County on (_____) and recorded in Road Book _____ and Page _____ of the records of El Paso County, is hereby vacated upon recordation of this plat.

The individual lot purchaser(s) shall be responsible for final design, construction, and maintenance of private detention pond/water quality BMP(s) as described in the approved Preliminary/Final Drainage Report for this subdivision. Final design, construction drawings and drainage report updates for the detention pond/water quality BMP(s) serving each lot shall be provided with Site Development Plan submittals. The detention pond/water quality BMP(s) shall be constructed and completed prior to the issuance of any building permits for the subject lots. The subdivision developer is responsible for providing financial assurances as indicated in the Subdivision Improvements Agreement and Estimate of Guaranteed Funds for all detention ponds/water quality BMPs. All detention ponds/water quality BMPs shall be constructed prior to the release of said financial assurances. Individual lot purchasers shall enter into a Private Detention Basin / Stormwater Quality BMP Maintenance Agreement and Easement ("Agreement") prior to the issuance of any building permits for the subject lots. In the case that the developer constructs the detention pond(s), the developer shall enter into an Agreement for each pond constructed.

Cherokee Plat Note Re: Basin Transfer/Insufficiency:
Water and wastewater services for this subdivision are provided by the Cherokee Metropolitan District (Cherokee) subject to the District's rules, regulations and specifications. The Office of the State Engineer has issued an opinion of water inadequacy based on its analysis and interpretation of a stipulated agreement concerning the availability of certain water rights for use outside of the Upper Black Squirrel Creek Designated Basin, and thus found insufficiency of water resources for this subdivision based on that agreement. This interpretation differs from certain opinions issued by the Office in the past. Based on its own review of the stipulated agreement and its history (and not the amount of water actually available) the Board of County Commissioners in an open and public hearing did not accept the interpretation of the State Engineer's Office. The Board of County Commissioners found that Cherokee has committed to provide water service to the subdivision and asserted that its long term water service capabilities are sufficient. The Board of County Commissioners made this determination in reliance upon the testimony and expertise provided by Cherokee at the public hearing thereon. At the hearing, Cherokee asserted that its plans and continued financial investment in infrastructure are designed to allow Cherokee to continue to provide this subdivision and its existing customers with water and wastewater services for 300 years or more.
