Leonard,

I don't believe we have met. I am chairman of the Black Forest Land Use Committee.

I read the proposal for the Burgess proposal and made some comments. I want to ask you some questions.

Wouldn't it be much more cost effective to just build the second home and run a waterline from the existing well to the new home? The subdivision costs and new well costs would be much more than the other alternative.

We are opposed to dividing the 5-acre lot into 2 lots when the zoning is RR-5.

Terry Stokka

P.S. I look forward to meeting you someday.
