**Notes (Describe the issue for the Commissioner):** My husband and I are very upset about this possibility. If approved it has the potential of creating a precedent that would change the character of our neighborhood and the quality of our life here. It would lead to more crowding, more congestion, problems with having adequate water supply and potentially decreasing our property values. We moved here to ensure that no one could build high density housing in our area and appreciate that we are able to continue living this way. Please do not permit this rezoning to happen!
