RE: Update an Existing Antenna Facility – 9285 Drennen Road (823518 CS Cuchares Ranch)

Property: 9285 Drennen Road (5393 Saguaro Cir.)
Colorado Springs, CO 80925

APN: 55031-19-017

Property Owner: CR Towers LLLP
1465 Kelly Johnson Blvd #200
Colorado Springs, CO 80920-3946

(Applicant – Tower Facility Agent)
Zach Phillips w/Crown Castle (On behalf of T-Mobile)
Ph. 503/708-9200
zach.phillips@crowncastle.com

Zone: Residential Suburban-6000, Commercial Airport Overlay District

Proposal:

T-Mobile needs to update equipment on its facility. On the tower, T-Mobile proposes to:

Replace-

- (3) antennas, (3) radios, (2) hybrid cables, antenna mount, and (2) support cabinets.

Remove-

- (3) antennas, (3) radios, (12) coax cables, (3) amplifiers (TMA), (2) support cabinets, (1) COVP, and (6) diplexers.

Add-

- (2) junction boxes

Adjacent Property-

- There will be no affect to adjacent properties by the upgrade of antennas and replacement of (2) support cabinets on the existing concrete slab.

Drainage-

- There will be no affect to drainage. The footprint of impervious surface will not change.

Traffic-

- There will be no increase in traffic. There will continue to be approximately one maintenance visit per month to the site.

The upgrades to the existing facility meet the standards of an Eligible Facilities Request (EFR) as defined by the Code of Federal Regulations; Title 47; Subpart U—State and Local Government Regulation of the Placement, Construction, and Modification of Personal Wireless Service Facilities; Section 1.6100 Wireless Facility Modifications. See attached EFR letter.

Please let me know if you have any questions or need any additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Zach Phillips', with a stylized flourish at the end.

*******NOTICE OF ELIGIBLE FACILITIES REQUEST*******

RE: Request for Minor Modification to Existing Wireless Facility – Section 6409
Site Address: 9285 Drennen Road, Colorado Springs, CO 80925
Crown Site Number: 823518 / Crown Site Name: CS_Cuchares_Ranch
Customer Site Number: DNo3486D / Application Number: 590373

Dear Petra Rangel:

On behalf of T-Mobile West LLC ("T-Mobile" or "Applicant"), Crown Castle USA Inc. ("Crown Castle") is pleased to submit this request to modify the existing wireless facility noted above through the collocation, replacement and/or removal of the Applicant's equipment as an eligible facilities request for a minor modification under Section 6409¹ and the rules of the Federal Communications Commission ("FCC").²

Section 6409 mandates that state and local governments must approve any eligible facilities request for the modification of an existing wireless tower or base station that does not substantially change the physical dimensions of such tower or base station. Under Section 6409, to toll the review period, if the reviewing authority determines that the application is incomplete, it must provide written notice to the applicant within 30 days, which clearly and specifically delineates all missing documents or information reasonably related to whether the request meets the federal requirements.³ Additionally, if a state or local government, fails to issue any approvals required for this request within 60 days, these approvals are deemed granted. The FCC has clarified that the 30-day and 60-day deadlines begins when an applicant: (1) takes the first step required under state or local law; and (2) submits information sufficient to inform the jurisdiction that this modification qualifies under the federal law⁴.

The proposed scope of work for this project includes:

Add or replace antennas, ancillary equipment and ground equipment as per plans for an existing carrier on an existing wireless communication facility.

¹ Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. No. 112-96, § 6409 (2012) (codified at 47 U.S.C. § 1455).

² *Acceleration of Broadband Deployment by Improving Wireless Facility Siting Policies*, 29 FCC Rcd. 12865 (2014) (codified at 47 CFR § 1.6100); and *Implementation of State & Local Governments' Obligation to Approve Certain Wireless Facility Modification Requests Under Section 6409(a) of the Spectrum Act of 2012*, WT Docket No. 19-250 (June 10, 2020).

³ See 47 CFR § 1.6100 (c)(3). ⁴ See 2020 Upgrade Order at paragraph 16.

1505 Westlake Ave N, Ste 800
Seattle, WA 98109

Phone: (503) 708-9200
www.crowncastle.com

At the end of this letter is a checklist of the applicable substantial change criteria under Section 6409. Additionally, please find enclosed the following information in support of this request:

- (1) Eligible Facilities Request Email;
- (2) Construction Drawings;
- (3) Structural Analysis; and
- (4) Section 6409 Substantial Change Checklist.

As these documents indicate, (i) the modification involves the collocation, removal or replacement of transmission equipment; and (ii) such modification will not substantially change the physical dimensions of such tower or base station. As such, it is an “eligible facilities request” as defined in the FCC’s rules to which the 60-day deadline for approval applies. Accordingly, Applicant requests all authorization necessary for this proposed minor modification under Section 6409.

Our goal is to work with you to obtain approvals earlier than the deadline. We will respond promptly to any request for related information you may have in connection with this request. Please let us know how we can work with you to expedite the approval process. We look forward to working with you on this important project, which will improve wireless telecommunication services in your community using collocation on existing infrastructure. If you have any questions, please do not hesitate to contact me.

Regards,

Zach Phillips

Section 6409 Substantial Change Checklist
Towers Outside of the Public Right of Way

The Federal Communications Commission has determined that a modification substantially changes the physical dimension of a wireless tower or base station under 47 U.S.C. § 1455(a) if it meets one of six enumerated criteria under 47 C.F.R. § 1.6100.

Criteria for Towers Outside the Public Rights of Way

YES/NO NO	Does the modification increase the height of the tower by more than the greater of: (a) 10% (b) or, the height of an additional antenna array plus separation of up to 20 feet from the top of the nearest existing antenna?
YES/NO NO	Does the modification add an appurtenance to the body of the tower that would protrude from the edge of the tower more than 20 feet or more than the width of the tower structure at the level of the appurtenance, whichever is greater?
YES/NO NO	Does the modification involve the installation of more than the standard number of new equipment cabinets for the technology involved or add more than four new equipment cabinets?
YES/NO NO	Does the modification entail any excavation or deployment outside the current site by more than 30 feet in any direction, not including any access or utility easements?
YES/NO NO	Does the modification defeat the concealment elements of the eligible support structure?
YES/NO NO	Does the modification violate conditions associated with the siting approval with the prior approval the tower or base station other than as specified in 47 C.F.R. § 1.6100(c)(7)(i) – (iv)?

If all questions in the above section are answered “NO,” then the modification does not constitute a substantial change to the existing tower under 47 C.F.R. § 1.6100.
