UDON, PPR-24-22, 3rd Revision

Please accept the following comments from El Paso County Public Health for the plot plan review request referenced above:

- Water and wastewater services are not proposed for the development project.
- Documentation was provided explaining that no new water or wastewater services are proposed for the development project. The existing well and OWTS will continue to only serve the existing residence.
- Earthmoving activities greater than 25 acres require a Construction Activity Permit from the Colorado Department of Public Health and Environment, Air Pollution Control Division. Go to:
<https://www.colorado.gov/pacific/cdphe/general-air-permits>
- The water quality basin must have mosquito control responsibilities included as a part of the construction design and maintenance plan to help control mosquito breeding habitat and minimize the potential for West Nile Virus.
