EXECUTIVE SUMMARY

The El Paso County Planning and Community Development Department is requesting approval of a County Initiated Map Amendment (Rezoning) of properties in the Santa Fe Springs PUD 6 from the PUD (Planned Unit Development) zoning district to the A-35 (Agricultural) zoning district.

The properties are located northeast of the intersections of Curtis Road and Falcon Highway and are within Sections 1, 2, and 12, Township 13 South, Range 64 West of the 6th P.M. The properties are also located within the boundaries of the Falcon/Peyton Comprehensive Plan (2008).

The Board of County Commissioners approved the Santa Fe Springs PUD 6 (PCD File No. PUD-04-007) on January 5, 2005 which included 499.4 acres of property and authorized the following land uses:

2880 INTERNATIONAL CIRCLE, SUITE 110
PHONE: (719) 520-6300

COLORADO SPRINGS, CO 80910-3127
FAX: (719) 520-6695

- 450 single-family residential lots on 115.78 acres
- 18.33 acre K-8 school site
- 149.41 acres of commercial land uses
- 3.7 acres for a water tank
- 145.44 acres of open space, which includes trails, parks and open space, preservation easements, and detention facilities
- 71.71 acres of rights-of-way

The Santa Fe Springs PUD 6 was approved with the following condition which has not been met:

Rezoning requests for property within this project may be considered by the Planning Commission and /or Board of County Commissioners. If, however, the requisite level of urban services has not been provided within five years of such rezonings, applicant agrees the County, after the required public hearing process, may reinstate the zoning districts in effect on the date of such approval or otherwise zoning it to an Agricultural classification.

Pursuant to C.R.S §30-28-116, the Board may amend the number, shape, boundaries, or area of any [zoning] district. Pursuant to Section 5.3.5.E, County Initiated Zoning, of the Land Development Code, the County “may initiate the rezoning of any property within the unincorporated area of the County”.

Justification in support of rezoning properties from the Santa Fe Springs PUD 6 includes:

- Recognition of unmet conditions of approval regarding the provision of water and wastewater service to property within the PUD;
- Reduction of land use uncertainties when reviewing land use applications for development on adjoining properties for compatibility with adjacent and surrounding land uses;
- Providing greater development certainty for adjacent properties outside the PUD boundaries; and
- Providing greater certainty for staff in addressing inquiries from the public concerning development within the Santa Fe Springs PUD and in the surrounding area.

A. REQUEST/WAIVERS/MODIFICATIONS/AUTHORIZATION

Request: A request for approval of a County Initiated Map Amendment (Rezoning) of 499.4 acres from the PUD (Planned Unit Development) zoning district to the A-35 (Agricultural) zoning district.

Waiver(s)/Modification(s): No waivers are associated with this request.

Authorization to Sign: N/A

B. Planning Commission Summary

Request Heard: November 7, 2017, as a regular item

Recommendation: Approval, subject to the conditions and notations. A copy of the Planning Commission Resolution is included as an attachment

Waiver Recommendation: N/A

Vote: 9 to 0

Vote Rationale: N/A

Summary of Hearing: See attached minutes

Legal Notice: Published in Shoppers Press November 22, 2017.

C. APPROVAL CRITERIA

Pursuant to Section 5.3.5, Amendment (Rezoning), of the El Paso County Land Development Code (2017), in approving a map amendment (rezoning), the following findings shall be made:

- The application is in general conformance with the El Paso County Master Plan including applicable Small Area Plans or there has been a substantial change in the character of the neighborhood since the land was last zoned;
- The rezoning is in compliance with all applicable statutory provisions including, but not limited to C.R.S §30-28-111 §30-28-113, and §30-28-116;
- The proposed land use or zone district is compatible with the existing and permitted land uses and zone districts in all directions; and
- The site is suitable for the intended use, including the ability to meet the standards as described in Chapter 5 of the Land Development Code, for the intended zone district.

D. LOCATION

North: A-35 (Agricultural)/governmental/exempt

South: PUD (Planned Unit Development)/vacant

East: PUD (Planned Unit Development)/vacant

West: A-35 (Agricultural)/vacant, agricultural

E. BACKGROUND

Santa Fe Springs Land Use History

Santa Fe Springs is a 6,420 acre urban density development that consists of seven (7) PUD (Planned Unit Development) zoning districts. The various PUDs authorize a mixture of urban density single-family residential, multi-family residential, rural residential, commercial, institutional, public utility, and park, recreational, and open space land uses, and include 39 large lot (35 acre) residential parcels. The development area is currently comprised of 62 parcels controlled by 25 separate property owners. Each PUD zoning district was approved with a condition requiring the provision of central water and wastewater to property within its boundaries within five (5) years from the date of approval, which is an issue that is discussed in greater detail below. A summary of the overall Santa Fe Springs land use approvals is provided also below.

The Board of County Commissioners approved a 5,620 acre sketch plan (PCD File No. SKP-89-003) for Santa Fe Springs on December 28, 1989 (Resolution No. 89-369). The sketch plan included 2,658 acres of residential land uses with densities ranging from 0.4 to 12 dwelling units per acre with a density cap of 5,300 dwelling units. The sketch plan also included 693 acres of commercial land uses and 2,269 acres of open space.

The sketch plan was approved with the following condition regarding the phased development of Santa Fe Springs:

Rezoning of the site shall take place by phases, such phase not to exceed the area identified within the phasing plan submitted as a part of the Sketch Plan. This condition would not affect rezoning the property to A-4 (Agricultural) or A-35 (Agricultural) Districts for purposes of a holding zone.” (Note: the A-4 zoning district was the precursor to the RR-5 (Residential Rural) zoning district)

The Board approved the subsequent rezoning of 920 acres of properties in the Santa Fe Springs Sketch Plan from unzoned to the PUD (Planned Unit Development) zoning district (PCD File No. PUD-90-002) on June 28, 1990 (Resolution No. 90-168). The Board also approved (Resolution No. 90-187) a concurrent rezoning (PCD File No. P-90-004) of an additional 4,693 acres of properties in the sketch plan from unzoned to the RR-5 (Residential Rural) zoning district. Approval of the PUD zoning was subject to the following condition of approval that required central services, specifically water and sewer services, to be provided to properties within Santa Fe Springs within five (5) years of the date of approval:

Rezoning requests for property within this project may be considered by the Planning Commission and /or Board of County Commissioners. If, however, the requisite level of urban services has not been provided within five years of such rezonings, applicant agrees the County, after the required public hearing process, may reinstate the zoning districts in effect on the date of such approval or otherwise zoning it to an Agricultural classification.

Pursuant to the terms of the condition, water and sewer services were required to be provided by June 28, 1995. The provision of services is not merely a commitment from a provider to provide service; rather, it is the construction of necessary infrastructure to actually deliver the services. Required infrastructure improvements include but are not limited to wells, water treatment facilities, water lines, storage tanks, wastewater treatment facilities, lift stations, force mains, sewer lines, etc. The developer failed to provide the required services with appurtenant infrastructure within the designated time which expired on June 28, 2000.

Because the condition had not been met, in 2001 the County initiated a rezoning of the properties from the PUD and RR-5 zoning districts to the A-35 zoning district (PCD File No. P-01-009). On January 2, 2002, the Board decided to stay the action

based on the commitment of a prospective purchaser to implement the PUD and provision of the required water and wastewater services in five (5) years. The Board denied the action to remove the Santa Fe Springs PUD and extended the time limit to provide urban services to January 10, 2007.

Following the action in 2002, the Board approved a sketch plan amendment (PCD File No. SKP-04-003) on August 26, 2004 (Resolution No. 04-354). The amendment added an additional 800 acres of property to the sketch plan area, increased the density cap from 5,300 to 5,370 dwelling units, reduced the commercial acreage from 693 acres to 288 acres, and increased the amount of open space from 2,269 acres to 2,739 acres.

The sketch plan amendment was approved with the following condition regarding phasing:

The Phasing Plan as shown and approved on this amended sketch plan by the Board of County Commissioners shall be adhered to unless otherwise altered by Board approval.

The Board of County Commissioners approved a service plan in support of the formation of Santa Fe Springs Metropolitan Districts Nos. 1 – 3 (ID-04-003) on September 2, 2004 (Board Resolution 04-369). The initial plan was a skeletal plan, which means it did not contain an infrastructure analysis or financial plan necessary to evaluate the proposed district's capability to adequately incur and/or discharge debt. The Districts were formed by the Court on November 8, 2004. The Board approved an amended "complete" service plan (ID-05-007) on January 12, 2006 (Resolution No. 06-019), which included the necessary infrastructure and financial analysis. One of the overall purposes of the Districts includes financing, design, and construction of water and wastewater lines as well as the provision of water and wastewater services necessary to support urban development within the Santa Fe Springs development. Additional discussion regarding District responsibilities and status is provided in the Metropolitan District section of this report below.

The Board subsequently approved Santa Fe Springs PUD 1 as an amendment to the original Santa Fe Springs PUD on November 18, 2004, which rezoned 1,018.72 acres from the PUD and RR-5 (Residential Rural) zoning districts to the PUD zoning district. The Board later approved the Santa Fe Springs PUDs 2-7 on January 6, 2005, which rezoned 5,411.18 acres of property from the RR-5 and PUD zoning districts to the PUD zoning district. A summary of the PUD approvals is provided below.

Santa Fe Springs	PCD File #	Approval Date	Board Resolution No.	Acreage
PUD 1 (Amended PUD-90-002)	PUD 04-002	November 8, 2004	04-498	1,018.72
PUD 2	PUD-04-003	January 5, 2005	05-025	286.15
PUD 3	PUD-04-004	January 5, 2005	05-026	512.4
PUD 4	PUD-04-005	January 5, 2005	05-027	163.7
SFS PUD 5	PUD-04-006	January 5, 2005	05-028	1,000.8
SFS PUD 6	PUD-04-007	January 5, 2005	05-029	499
SFS PUD 7	PUD-04-017	January 5, 2005	05-030	2938.61

Approved land uses include a mixture of urban density single-family residential, multi-family residential, rural residential, commercial, institutional, public utility, and park, recreational, and open space land uses, and includes 39 large lot (35 acre) residential parcels. Santa Fe Springs PUDs 2-6 were approved with the following condition, which has not been met:

In the event urban services have not been extended to any part of the overall Santa Fe Springs property within five (5) years of Board of County Commissioners' approval of this request, the Board may consider rezoning back to the original [RR-5] (Residential Rural) classification.

Since approval of the Santa Fe Springs PUDs 1-7 in 2004 and 2005, control of the development has fragmented into 62 parcels which are controlled by 25 different property owners. Due to the inability to provide the required urban services, specifically central water and wastewater, to support the urban densities and land uses, staff recommends that the proposed rezone be considered and approved in order to remove the zoning associated with the various Santa Fe Springs PUDs. These specific zoning actions are proposed via seven (7) separate County Initiated Map Amendment (Rezoning) requests.

Preliminary plans were submitted for Santa Fe Springs PUD 1 (PCD File No. SP-06-001), Santa Fe Springs PUD 2 (SP-06-002), and Santa Fe Springs PUD 4 (PCD File No. SP-06-019). The applications were not completed by the applicant; therefore, no action was taken by the Planning Commission or Board of County Commissioners to approve or deny the preliminary plan applications. No final plats have been submitted by any of the existing or prior land owners for review or consideration by the County.

Santa Fe Springs PUD 6 Land Use History

The following is a summary of the Santa Fe Springs PUD 6 land use approvals, which include a summary of the approved land uses and relevant conditions of approval:

The Board approved the Santa Fe Springs PUD (PCD File No. PUD-04-007) which is comprised of 499.4 acres and authorized the following land uses:

- 450 single-family residential lots on 115.78 acres
- 18.33 acre K-8 school site

- 149.41 acres of commercial land uses
- 3.7 acres for a water tank
- 145.44 acres of open space, which includes trails, parks and open space, preservation easements, and detention facilities
- 71.71 acres of rights-of-way

Required services have not been provided to the property located within the specific Santa Fe Springs PUD 6 zoning district.

F. ANALYSIS

1. Land Development Code Analysis

C.R.S §30-28-111 and §30-28-113 establishes the authority of the Board to establish zoning in the unincorporated County. C.R.S §30-28-116 authorizes the Board to amend the number, shape, boundaries, or area of any [zoning] district. Pursuant to Section 5.3.5.E, County Initiated Zoning, of the El Paso County Land Development Code (2017), the County “may initiate the rezoning of any property within the unincorporated area of the County”. This County initiated rezoning is being conducted in accordance with the statutory and Land Development Code authorities granted to the Board.

Findings of general conformity with the El Paso County master plan were made with the approvals of each Santa Fe Springs PUD zoning district. Those findings were contingent upon the provision of necessary urban services in support of the approved zoning. Because that condition has not been met, the Board may consider rezoning the properties out of the PUD to the A-35. Since the original findings were made based on the condition that the Board may consider rezoning the subject properties away from the PUD zoning district and that this action is being initiated in accordance with that condition, this action is also in general conformance with the master plan.

Justification in support of rezoning the properties from the Santa Fe Springs PUD 5 include:

- Recognition of unmet conditions of approval regarding the provision of water and wastewater service to property within the PUD;
- Reduction of land use uncertainties when reviewing land use applications for development on adjoining properties for compatibility with adjacent and surrounding land uses;
- Providing greater development certainty for adjacent properties outside the PUD boundaries; and
- Providing greater certainty for staff in addressing inquiries from the public concerning development within the Santa Fe Springs PUD and in the surrounding area.

2. Zoning Compliance

As previously discussed, the condition of approval which requires urban services (water and wastewater) to be extended to properties within the PUD have not

been met. Therefore, the properties are not in compliance with the zoning requirements of the PUD. The Board may consider rezoning property in the Santa Fe Springs PUD 6 zoning district to A-35 zoning district. If the County initiated map rezoning is approved, the PUD zoning would be replaced by the A-35 zoning and the uses authorized by the PUD would no longer be applicable. Permitted and allowed uses would be those identified for the A-35 zoning district in Table 5-1 Principal Uses and Table 5-2 Accessory Uses in Chapter 5 of the Code. The density and dimensional standards would be those identified in Table 5-4, Density and Dimensional Standards for Agricultural, Residential, and Special Purpose Districts.

3. Policy Plan Analysis

The El Paso County Policy Plan (1998) has a dual purpose; it serves as a guiding document concerning broader land use planning issues, and provides a framework to tie together the more detailed sub-area elements of the County Master Plan. The following policies are cited for consideration:

Policy 6.1.4

Encourage the logical timing and phasing of development to allow for the efficient and economical provision of facilities and services.

Policy 6.1.6

Direct development toward areas where the necessary urban-level supporting facilities and services are available or will be developed concurrently.

Policy 6.1.10

Ensure that new development will not create a disproportionately high demand on public services and facilities by virtue of its location, design or timing.

The Board recommended condition regarding urban services (water and wastewater) is consistent with the referenced policies and was intended to discourage approval of major developments in advance of the extension of services and provide a mechanism to prevent speculative zoning from encumbering the zoning map. Approval of land uses in the absence of requisite services creates a burden on future property owners within the development who individually may not have the financial ability to make necessary major infrastructure improvements in support of urban development. Removal of the PUD zoning from the subject properties in accordance with the condition to provide required urban services is consistent with these policies. Future development of properties affected by this action will require an analysis of required water and wastewater service to support the proposed development and a review of the feasibility of providing those services.

4. Small Area Plan Analysis

The properties are included in the boundaries of the Falcon/Peyton Comprehensive Plan (2008). The Plan was adopted after approval of the Santa Fe Springs PUD 6. Although the Plan supports the land uses and densities within Santa Fe Springs, the Plan is advisory and does not mandate development in accordance with the approved PUD.

The following are cited from Section 4.3.2, Future Land Use, Approved Development Patterns, of the Plan:

One of the foundational assumptions of this plan is that currently approved land uses should be treated as fixed, even though the plan recognizes that some of these approved but not-yet-developed plans may in fact undergo changes and adaptations over time. In other words, this plan will not offer recommendations that would contradict Sketch Plan and other zoning and subdivision approvals that have already been granted by the Board of County Commissioners at the time of the plan's adoption.

Note that these graphics [Plan or Future Land Use Map] are meant to show the current plans for these parcels for planning purposes. This Master Plan recognizes that development plans can change after approval, and these graphics are not meant to limit the ability of landowners to re-evaluate their plans.

The Falcon/Peyton Plan recognizes the approved Santa Fe Springs zonings, but does not assume these land use approvals to be static or immutable. The condition, which was agreed upon by the developer, to provide urban services to the development within five (5) years with a clause for reconsideration and removal of the PUD zoning is demonstrative of the mutual understanding by the developer and County that the Santa Fe Springs PUDs may not be permanent. Although Santa Fe Springs was identified on the Plan, the depiction does not prohibit modification of the PUD on the Zoning Map, or by extension, removal from the Zoning Map in its entirety. The Plan specifically recognizes the non-binding nature of certain development plan approvals. The exercise of the Board's authority to remove the Santa Fe Springs PUD zoning district from the County Zoning Map is consistent with the intent of the Plan which specifically recognizes the changeable nature of plans within its boundaries.

5. Other Master Plan Elements

Approval of the request to rezone properties within the existing PUD to the A-35 zoning district is consistent with or does not create negative impacts to elements depicted on the El Paso County Wildlife Habitat Descriptors Map (1996), the El Paso County Community Services Parks Master Plan (2014), the Master Plan for Mineral Extraction (1996), or the El Paso County Major Transportation Corridors Plan (2011).

A previous finding was made that the PUD rezoning would not interfere with any present or future extraction of any commercial mineral deposit. The current request for a map amendment (rezoning) remains consistent with the previous finding.

G. PHYSICAL SITE CHARACTERISTICS

1. Hazards

No specific hazards were identified in the original map amendment (rezoning) of the property to the PUD zoning district.

Should the proposed County initiated rezoning be approved, future subdivision applications will be required to provide geology and soils reports as required by Section 8.4.9 of the Code, which include an analysis of hazards which may impede development or require site specific mitigation.

2. Wildlife

The impact of development to wildlife habitat is generally low as depicted on the Wildlife Habitat Descriptors Map.

The initial Santa Fe Springs PUDs were sent to what is now known as Colorado Parks and Wildlife and the U.S. Fish and Wildlife Service for review and comment regarding potential impacts to wildlife. No responses from the agencies were received. At that time, El Paso County Environmental Services recommended the applicant obtain documentation from the U.S. Fish and Wildlife Service regarding impacts to threatened and endangered species. Should the proposed County initiated rezoning be approved, future development applications, including, but not limited to, preliminary plans and final plats, will be required to include the appropriate reports, plans, and/or studies to demonstrate compliance with local, State, and Federal wildlife policies and regulations.

3. Floodplain

Portions of properties within Santa Fe Springs are impacted by the 100 year floodplain. Should the proposed County initiated rezoning be approved, future development applications, including, but not limited to, preliminary plans and final plats, will be required to include the appropriate reports, plans, and/or studies to demonstrate compliance with local, State, and Federal floodplain requirements.

4. Drainage and Erosion

Should the proposed County initiated rezoning be approved, future development applications, including, but not limited to, preliminary plans and final plats, will be required to include the appropriate reports, plans, and/or studies to demonstrate compliance with local, State, and Federal drainage and erosion control requirements.

5. Transportation

Projected traffic generated by the development of Santa Fe Springs has been anticipated to create impacts to adjacent transportation corridors depicted on the El Paso County Major Transportation Corridors Plan (2016) (MTCP). Specific corridors include the intersection of Woodmen Road and Meridian Road, Judge Orr Road, Falcon Highway, Curtis Road, and Peyton Highway.

The north/south alignment of Peyton Highway is configured as an offset intersection at Falcon Highway. Peyton Highway was anticipated to be realigned through Santa Fe Springs PUD 7 to eliminate the offset intersection condition. Property within PUD 7 has been conveyed to 11 separate property owners in the form of 35 acre parcels which impedes the ability to obtain the required right-of-way and required improvements through the subdivision process. Should the County desire to proceed with the realignment project, the burden of acquiring the necessary right-of-way and constructing the realignment will be the responsibility of the County unless future subdivision of those parcels is proposed, whereby the County could require right-of-way dedication. More details have been included in the discussions provided in the staff report for the proposed County initiated rezoning of Santa Fe Springs PUD 7 (PCD File No. P-17-014).

Should the proposed County initiated rezoning be approved, future development applications, including, but not limited to, rezonings, preliminary plans, and final plats, will be required to include traffic impact studies to analyze the impacts of proposed development on the surrounding transportation network. These reports will identify necessary on-site or off-site transportation improvements in accordance with local, State, and Federal transportation and safety standards.

H. SERVICES

1. Water

Water service for Santa Fe Springs was proposed to be provided by Sunset Metropolitan District. The District proposed to construct a water distribution system with a network of water supply wells, treatment facilities, storage tanks and distribution pipelines (see the attached Sunset Metropolitan District Overall Water System Master Plan Map for details regarding the wells site and transmission line locations). The necessary water system infrastructure to provide the required central water service is not available to support development within the PUD zoning district boundaries.

Should the County initiated rezoning be approved, future development applications, including, but not limited to, preliminary plans and final plats, will be required to include the appropriate reports, determinations, decrees, permits, or other documents necessary to demonstrate compliance with the water supply standards of the Code.

Findings regarding water sufficiency are not required with map amendment (rezoning) requests.

2. Sanitation

Wastewater service for Santa Fe Springs was proposed to be provided by Sunset Metropolitan District. The District proposed to construct a gravity-fed outfall sewer system from Santa Fe Springs to the existing Sunset Metropolitan District Wastewater Treatment Plant. The necessary wastewater infrastructure needed to provide central wastewater service is not available within the PUD zoning district boundaries.

Should the proposed County initiated rezoning be approved, future development applications, including, but not limited to, preliminary plans and final plats, will be required to include the appropriate reports, determinations, decrees, permits, or other documents necessary to demonstrate compliance with the wastewater disposal standards of the Code.

A finding regarding the adequacy of the proposed method of wastewater disposal is not required with map amendment (rezoning) requests.

3. Emergency Services

Fire and emergency services are provided by Falcon Fire Protection District.

4. Utilities

These properties are within the Mountain View Electric Association (MVEA) service area.

5. Metropolitan Districts

The properties are located in the service boundaries of Santa Fe Springs Metropolitan District Nos. 1-3. The Board of County Commissioners approved the Santa Fe Springs Metropolitan District Service Plan (ID-04-003) on September 2, 2004 (Board Resolution 04-369). The Districts were formed by the Court on November 8, 2004. The initial plan was a skeletal plan, which means it did not contain an infrastructure analysis or financial plan necessary to evaluate the proposed district's capability to adequately incur and/or discharge debt.

The Board approved an amended "complete" service plan (ID-05-007) on January 12, 2006 (Resolution No. 06-019), which included the necessary infrastructure and financial analysis.

The purpose of District No. 1, the control district, is to manage the design, construction, installation, operation, and maintenance of public improvements within the development area, with the exception of public roads which would be dedicated to the County. Construction of necessary water and wastewater infrastructure and provision of those services was planned in coordination with the Sunset Metropolitan District.

The purpose of Santa Fe Springs District No. 2 is to provide financing for the purpose of debt service to District 1 to pay its obligations to District 1 for the construction of infrastructure in support of development and for public facilities, services, and programs benefitting residential properties and landowners in Santa Fe Springs.

The purpose of Santa Fe Springs Metropolitan District No. 3 is to provide financing for the purpose of debt service to District 1 to pay its obligations to District 1 for the construction of infrastructure in support of development and for public facilities, public facilities, services, and programs benefitting commercial properties and landowners in Santa Fe Springs.

The overall purposes of the Districts include the design, construction, and financing and potentially the ongoing maintenance and ownership of: 1) water and wastewater lines as well as the provision of water and wastewater services; 2) street improvements and safety protection; 3) drainage facilities; 4) design, acquisition, construction, and maintenance of recreation facilities; 5) mosquito control; 6) covenant enforcement; 7) fire protection facilities (i.e. hydrants and related improvements installed as part of the overall water system); 8) television relay and translation services; and 9) security services.

The Districts have a maximum debt authorization of \$85 million with a maximum debt mill levy of 50 mills and an operations and maintenance mill levy of 10 mills. District No. 2 (residential) has a maximum mill levy of 30 mills. District No. 3 (commercial) has a maximum mill levy of 20 mills. Platting fees for properties within the district include a \$2,500 fee per single-family residential lot, \$1,000 fee per multi-family residential lot, and \$0.25 fee per square foot of commercial retail space. No debt has been issued by the Districts to date.

The Colorado Department of Local Affairs filed a Petition for Order and Certification of Dissolution of Special District, through the Colorado Attorney General to dissolve District No.1 due to inactivity of the District and non-compliance with statutory and service responsibilities. Santa Fe Springs Metropolitan District No. 1 was dissolved on October 6, 2016. A copy of the order has been included for reference.

Since District No. 1 has been dissolved and the properties are under fragmented ownership, there is no single entity with the authority to undertake the financing and to oversee the construction of required infrastructure necessary to support development in Santa Fe Springs. Districts Nos. 2 and 3 are still operational; however, it would require a material modification of the service plan to authorize Districts Nos. 2 and/or 3 to perform the duties and powers granted to District No. 1.

6. Parks/Trails

Park lands dedication or fees in lieu of dedication are not required for a map amendment (rezoning). The El Paso County Trails Master Plan Map (2013) depicts proposed trails and bicycle routes adjacent to and traversing portions of the Santa Fe Springs development.

Should the County initiated rezoning be approved, future development applications, including, but not limited to, preliminary plans and final plats, will be required to meet the park land dedication requirements, which may include payment of fees in lieu of land dedication, of the Code. The approval of future development applications will include a review of trail locations and general conformity with the recommendations of the Trails Master Plan.

7. Schools

These properties are located in Falcon School District No. 49. Land dedication or fees in lieu of dedication are not required for a map amendment (rezoning). Should the County initiated rezoning be approved, future development applications, including, but not limited to, preliminary plans and final plats, will be required to meet the school land dedication requirements, which may include payment of fees in lieu of land dedication, of the Code.

I. APPLICABLE RESOLUTIONS: See attached

J. STATUS OF MAJOR ISSUES

The approved Santa Fe Springs Sketch Plan (PCD File No. SKP-05-007) included a phasing plan that required sequential development of the identified phases and prohibited development out of the prescribed sequence. For example, owners of property in Phase 5, which corresponds to Santa Fe Springs PUD 6 and is located adjacent to Curtis Road, could not develop their property until development had occurred in Phases 1, 2, 3, and 4. In order to develop in advance of the approved sequential phasing plan, an individual property owner would be required to request an amendment to the phasing plan and secure central water and wastewater service to their portion of the PUD.

The 35 acre large lot parcels authorized in Phase 6, which corresponds to Santa Fe Springs PUD 7, have been sold out of order of the approved phasing plan which constitutes a violation of the sketch plan, creating a zoning violation scenario that can be resolved with approval of the proposed County initiated rezoning..

Additionally, PUD 7 was approved with the following condition:

Platting is not required for property transfer of any Ag-35 designated parcels as long as the parcel is a minimum of 35 acres. A copy of a master parcel layout shall be provided to the County for review and comment should one be created.

No master parcel layout was provided prior to conveyance of the 35 acre parcels located within PUD 7. As previously discussed in the TRANSPORTATION Section of this report, the realignment of Peyton Highway to eliminate the offset intersection at Falcon Highway was planned within PUD 7. PUD 7 identified this realignment on the plan with the following note:

PROPOSED FUTURE PEYTON HWY REALIGNMENT

RIGHT OF WAY WILL BE DEDICATED CONSISTENT WITH ARTERIAL STANDARDS IN ACCORDANCE WITH DEPARTMENT OF TRANSPORTATION REQUIREMENTS. LOCATION SUBJECT TO APPROVAL OF DOT AND THE DEVELOPER.

The parcels were conveyed outside of the prescribed process and no provision was made in the configuration of these 35 acre parcels for the preservation and dedication of right-of-way and the realignment of Peyton Highway (see attached PUD 7 exhibit identifying the Peyton Highway realignment and associated note).

The proposed water supply system required the construction of approximately 24 miles of distribution lines to deliver raw water from the Norris Ranch Well Sites to Santa Fe Springs. Additionally, in order to provide the required central wastewater service, approximately 15 miles of sanitary sewer lines would need to be constructed from Santa Fe Springs to the Sunset Metropolitan District Wastewater Treatment Plant. Without the necessary financing from the Santa Fe Springs Metropolitan District, such an endeavor may be beyond the financial capabilities of an individual property owner within the development area (see attached Sunset Metropolitan District Overall Water System Master Plan Map).

The conveyance of the 35 acre parcels outside of the required phasing plan, the configuration of the 35 acre parcels contrary to the approved realignment of Peyton Highway, and the failure to provide the required urban services constitutes a violation of the approved Santa Fe Springs Sketch Plan and PUDs.

Property owners within the PUD were notified of the County's intent and proposal to remove the existing PUD and to rezone their properties to the A-35 zoning district.. All properties within the PUD are proposed to be rezoned to the A-35 zoning district.

Requests to rezone their properties to any other zoning district, including to any new PUD zoning district, will require the property owners to follow standard Planning and Community Development procedures for map amendment (rezoning) requests, beginning with the Early Assistance process.

K. CONDITIONS AND NOTATIONS

Should the Board of County Commissioners find that the request meets the criteria for approval outlined in Section 5.3.5, Map Amendment (Rezoning), of the Code, staff recommends the following conditions and notations.

CONDITIONS

1. Any requests to rezone property to any zoning district other than what is approved by this action will require submittal of an application for a map amendment (rezoning) to the Planning and Community Development Department.
2. Future land use applications, which may include but not necessarily be limited to, map amendments (rezonings), preliminary plans, and/or final plats, shall include reports, plans, and other documentation as determined by the Planning and Community Development Director necessary to analyze impacts to the surrounding transportation network, on and off-site drainage and stormwater impact, soils and geology and related hazards, wildlife impacts, floodplain impacts, water and wastewater resources, and the feasibility of central/urban services.
3. Approval of the County initiated rezoning of the Santa Fe Springs PUD 6 shall render the Santa Fe Springs Sketch Plan (PCD File No. SKP-04-003) as invalid and no longer binding upon future development of the affected properties.

NOTATIONS

1. If a zone or rezone petition has been disapproved by the Board of County Commissioners, resubmittal of the previously denied petition will not be accepted for a period of one (1) year if it pertains to the same parcel of land and is a petition for a change to the same zone that was previously denied. However, if evidence is presented showing that there has been a substantial change in physical conditions or circumstances, the Planning Commission may reconsider said petition. The time limitation of one (1) year shall be computed from the date of final determination by the Board of County Commissioners or, in the event of court litigation, from the date of the entry of final judgment of any court of record.
2. Rezoning requests not forwarded to the Board of County Commissioners for consideration within 180 days of Planning Commission action will be deemed withdrawn and will have to be resubmitted in their entirety.

L. PUBLIC COMMENT AND NOTICE

The Planning and Community Development Department notified 136 adjoining property owners on October 23, 2017, for the Planning Commission meeting. Notification for the Board of County Commissioners' hearing was done on November 13, 2017.

Responses will be provided at the hearing.

To Whom it May Concern:

The El Paso County Planning and Community Development Department is requesting the Planning Commission and Board of County Commissioners to consider the removal of the Santa Fe Springs PUD (Planned Unit Development) Nos. 1 through 7 from the El Paso County Zoning Map and Resolution. Approval of this request will require parcels within these PUD zoning districts to be rezoned to the RR-5 (Residential Rural) or A-35 (Agricultural) zoning districts, as determined by the Board.

Map amendments (rezonings) of the Santa Fe Springs PUD Nos. 1-7 include a condition that urban services, specifically, water and wastewater, are extended to the development within five (5) years of the date of approval. If those services were not available within the designated time, the Board of County Commissioners reserved the authority to consider rezoning the Santa Fe Springs properties back to their original zoning classification. The required services have not been provided to any portion of the development area.

Raimere Fitzpatrick, AICP, Project Manager/Planner II

Commissioner Whittemore moved adoption of the following
Resolution:

BEFORE THE BOARD OF COUNTY COMMISSIONERS
OF THE COUNTY OF EL PASO, STATE OF COLORADO

RESOLUTION NO. 89-364, Land Use-103

WHEREAS, Santa Fe Development did file an application with the El Paso County Planning Department on or about June 16, 1989, for the approval of the Santa Fe Springs Sketch Plan for the herein described property in the unincorporated area of El Paso County; and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on November 21, 1989, upon which date the Planning Commission did by formal resolution recommend denial of the subject sketch plan; and

WHEREAS, a public hearing was held by this Board on December 28, 1989; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the county, recommendations of the El Paso County Planning Commission, comments of the El Paso County Planning Department, comments of public officials and agencies, and comments from all interested parties; this Board finds as follows:

1. That proper posting, publication, and public notice was provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.
2. That the hearings before the Planning Commission and the Board of County Commissioners were extensive and complete, that all pertinent facts, matters and issues were submitted and reviewed, and that all interested parties were heard at those hearings.
3. That all data, surveys, analyses, studies, plans, and designs as are required by the State of Colorado and El Paso County have been submitted, reviewed, and found to meet all sound planning and engineering requirements of the El Paso County Subdivision Regulations.
4. That for the above-stated and other reasons, the proposed sketch plan is in the best interest of the health, safety, morals, convenience, order, prosperity, and welfare of the citizens of El Paso County.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of El Paso County that the Santa Fe Springs Sketch Plan for the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated by reference, be approved;

BE IT FURTHER RESOLVED that the following conditions and notations shall be placed upon this approval:

CONDITIONS:

1. Prior to or in conjunction with the initial rezoning:
 - a. The applicant shall provide information acceptable to the Department of Public Works noting that the 3/4 mile intersection spacing on Peyton Highway is workable.
 - b. The manner in which the identified "temporary access" onto Judge Orr Road can be eliminated when traffic volumes warrant; how said traffic will be redistributed and how necessary improvements (for closure of at-grade intersection) will be financed.
2. Rezoning of the site shall take place by phases, such phase not to exceed the area identified within the phasing plan submitted as a part of the Sketch Plan. This condition would not affect rezoning the property to A-4 (Agricultural) or A-35 (Agricultural) Districts for purposes of a holding zone.
3. Prior to or in conjunction with each rezoning, a Growth Management Plan shall be found acceptable to the El Paso County Department of Public Works, Planning Department, and the County Attorney's Office. The Plan shall detail the timing of improvements by milestones, which will have to be attained before entering into subsequent phases or sub-phases. The Plan shall include but not be limited to on and off-site transportation elements, drainage, fire, school and park facilities. This Plan will become a controlling document for the submission and review of all rezoning and subdivision requests.
4. A drainage basin study shall be prepared for the entire Gleck Ranch and Hook & Line Ranch drainage basins. The first Preliminary Plan shall not be submitted until the drainage basin plans pertinent to said Plan are completed. This condition applies only if the basin planning costs are eventually eligible

reimbursement items through the drainage basin fees. The drainage study will provide the basis for drainage fees to be levied by El Paso County.

5. Rezoning requests for property within this project may be considered by the Planning Commission and/or Board of County Commissioners. If, however, a Preliminary Plan has not been submitted within five years of such rezonings, applicant agrees the County, after the required public hearing process, may reinstate the zoning districts in effect on the date of such approval.
6. The developer shall work with the El Paso County Department of Public Works and any affected property owner located south of the south exit location of Peyton Highway when a Preliminary Plan is submitted, which would include or affect any segment of Peyton Highway located 3,000 feet or more south of Judge Orr Road.
7. All expressway and arterial road rights-of-way including interchanges shall be dedicated to El Paso County at the appropriate Final Plat stage.
8. Residential lots adjacent to major roads (arterial and above) shall be of sufficient depth to provide adequate buffering. Individual lot access to these roads is prohibited.
9. The entire property shall be limited to 5,300 total dwelling units. The densities and locations shall be generally consistent with that identified on the Sketch Plan.
10. The Division of Wildlife shall be involved and/or consulted in areas where drainage and open space will be provided. The applicant shall mitigate impacts to wildlife in cooperation with the Division of Wildlife.
11. That the applicant agree that prior to any Preliminary Plan of any lots designated as Ranch Estates shown in Phase 4 of the Sketch Plan, a determination shall be made by the County and the developer as to the relative costs of providing public water and wastewater services for said lots versus the costs of individual wells and individual treatment systems for said lots. In the event that the costs of public water and sewer services together do not exceed the cost of all individual wells and treatment systems by more than 10%, the applicant agrees to provide public

water and wastewater systems for said lots. The Board of County Commissioners shall be the final arbiter as to the determination of cost. Should individual treatment systems be utilized, the applicant agrees that all such systems shall be professionally engineered and agrees to plat notes assuring such.

12. Prior to final platting of any portion of the project, the developer agrees to work with the Falcon School District to address fiscal problems that may result due to the approval of said Final Plat. No Final Plat shall be approved unless and until adequate capital facilities equivalent to facilities provided throughout the school district at the time of platting are provided for students generated by said Plat.
13. Prior to submittal of a request for Final Plat approval, the developer will work with the El Paso County Department of Public Works and will participate on a pro rata basis in the cost for upgrading roads and/or highways as required to serve the development via methods such as a Special Use Improvement District, impact fees, or other fair and equitable method.
14. The developer may import water into the basin from the Arkansas River or from other external sources.
15. The developer may obtain a water supply from Cherokee Water District.
16. All on-site wells will only be drilled into the Laramie-Fox Hills Formation. The Laramie-Fox Hills wells will be a direct use water supply for the development, and will not be used in a replacement plan.
17. Within the basin, the developer may purchase existing permitted or decreed water rights with historic use.
18. Return flows from all water supplies will be to the Black Squirrel alluvium.
19. Additional phases beyond Phases I and II shall have water supplies from legally available water sources and the applicants will allow the Upper Black Squirrel Management District to review all engineering, geologic and hydrologic studies related to the development and help finance the costs associated with said review.

20. The developer shall install central water and wastewater for the ranch estate land use if the cost does not exceed 110 percent of the cost of wells and septic systems.
21. The developer shall actively participate in the water authority if and when it is established.
22. If a special district is formed, there will be no debt involved in that district in the first phase.

NOTATIONS:

1. El Paso County is in the process of creating urban park regulations which would have an effect on this development at final platting.
2. In addition and/or in lieu of said platting restriction noted in Condition #12, the developer further agrees to work with the school district on such matters as adjusting school district boundaries and school impact fees as these may be required.
3. Approval of the Sketch Plan is not indicative of whether or not a special district would be approved for this location.

AND BE IT FURTHER RESOLVED that the record of the El Paso County Planning Commission be adopted.

DONE THIS 28th day of December, 1989, at Colorado Springs, Colorado.

GENERAL PROVISION STATEMENTS

AUTHORITY

The Authority of this Development Plan is Part IV, Section 16.0 (Planned Unit Development district) of the El Paso County Zoning Resolution. The Authority for Section 16.0 of the El Paso County Zoning Resolution is the Colorado Planned Unit Development Act of 1972.

ADOPTION

The adoption of this Development Plan shall evidence the findings and decision of the Board of El Paso County Commissioners that this Development Plan for Santa Fe Springs is in general conformity with the El Paso County Master Plan, is authorized by the provision of Part IV, Section 16.0 of the El Paso County Zoning Resolution, and that such Part IV, Section 16.0 and this Development Plan comply with the Colorado Planned Unit Development Act of 1972, as amended.

RELATIONSHIP TO COUNTY REGULATIONS

The provisions of this Development Plan shall prevail and govern the development of Santa Fe Springs, provided, however, that where the provisions of this Development Plan do not address a particular subject, the relevant provisions of the El Paso County Zoning Resolution, as amended, or any other applicable resolutions or regulations of El Paso County, shall be applicable.

COMMITMENTS

A Development Agreement, to be approved by the Board of County Commissioners and executed between El Paso County and the applicant/developer, Santa Fe Development & Mortgage Corporation, their heirs, successors or assigns, shall be developed prior to, or concurrently with, the review and approval of a preliminary plan for this development. The Development Agreement shall be found acceptable by the County Attorney, the Department of Public Works, the Parks Department, School District #49, Falcon Fire Department, and the Planning Department, and shall address and assure the timely construction/development of Santa Fe Springs. Said Agreement is to include, but not be limited to: addressing the timely construction of the transportation and drainage systems (both on- and off-site) and other public services and facilities improvements.

NOTES:

Santa Fe Development and Mortgage Corporation is the applicant and developer of the Planned Unit Development Plan referred to as Santa Fe Springs. The Robert C. Norris Family Trust is the current property owner of this portion of land known as the T-Cross Ranch.

ARDIS W. SCHMITT
EL PASO COUNTY CLERK & RECORDER

Commissioner Whittemore moved adoption of the following Resolution:

BEFORE THE BOARD OF COUNTY COMMISSIONERS
OF THE COUNTY OF EL PASO, STATE OF COLORADO

RESOLUTION NO. 90-186, Land Use-66

35

WHEREAS, Santa Fe Development & Mortgage did file a petition with the Planning Department of El Paso County on or about March 2, 1990, to rezone the herein described property in El Paso County from an Unzoned classification to the PUD (Planned Unit Development) Zone District; and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on May 22, 1990, upon which date the Planning Commission did by formal resolution recommend approval of the subject zone change petition with conditions and notations; and

WHEREAS, a public hearing was held by this Board on June 28, 1990; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the county, recommendations of the El Paso County Planning Commission, comments of the El Paso County Planning Department, comments of public officials and agencies, and comments from all interested parties, this Board finds as follows:

1. That proper posting, publication, and public notice was provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.
2. That the hearings before the Planning Commission and the Board of County Commissioners were extensive and complete, that all pertinent facts, matters and issues were submitted and reviewed, and that all interested parties were heard at those hearings.
3. That the proposed zoning is in compliance with the recommendations set forth in the master plan for the unincorporated area of the county.
4. That the proposed land use will be compatible with existing and permitted land uses in the area.
5. That the proposed land use does not permit the use of any area containing a commercial mineral deposit in a manner which would interfere with the present or future extraction of such deposit by an extractor.

Resolution No. 90-186, Land Use-66
Page 2

6. That for the above-stated and other reasons, the proposed zoning is in the best interest of the health, safety, morals, convenience, order, prosperity, and welfare of the citizens of El Paso County.
7. That changing conditions clearly require amendment to the Zoning Resolutions.

NOW, THEREFORE, BE IT RESOLVED that the petition of Santa Fe Development & Mortgage for a zone change from an Unzoned classification to the PUD (Planned Unit Development) Zone District for the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated by reference, be approved;

BE IT FURTHER RESOLVED that the following conditions and notations shall be placed upon this approval:

CONDITIONS:

1. The property shall be developed in accordance with the approved Development Plan, Development Guide and subsequent Development Agreement.
2. Rezoning requests for property within this project may be considered by the Planning Commission and/or Board of County Commissioners. If, however, the requisite level of urban services has not been provided within five years of such rezonings, applicant agrees the County, after the required public hearing process, may reinstate the zoning districts in effect on the date of such approval or otherwise zone it to an Agricultural classification.
3. The Growth Management Plan (as modified) is conceptually approved. The Plan shall be subject to extensive and unqualified modification based upon the review and approval of the Preliminary Plan for this development. This modified Plan shall be converted into a Development Agreement, to be approved by the Board of County Commissioners and executed between El Paso County and the applicant/developer. The Development Agreement shall be found acceptable by the County Attorney, the Department of Public Works, the Parks Department, School District #49, Falcon Fire Department, and the Planning Department, and shall address and assure the timely construction/development of Santa Fe Springs as specified in the modified Plan. Said Agreement is to include, but not be limited to, addressing the timely

Resolution No. 90-186, Land Use-66
Page 3

construction of the transportation and drainage systems (both on- and off-site) and other public services and facilities improvements.

4. In addition to Condition #3, if capacity does not exist for students generated by this development, no Final Plat for this development shall be approved until there is capacity adequate to accommodate the students generated by the development; prior to approval of a Preliminary Plan, a fiscal analysis shall be prepared by the applicant for the Falcon Fire District which provides adequate information for the Fire District to select an applicable method of providing fire protection to this development.
5. In the event that the Growth Management Plan and the Development Agreement conflict or are otherwise inconsistent with the approved Development Plan, the Development Plan shall be modified at the time of Preliminary Plan approval by the Planning Commission and the Board of County Commissioners. If the Development Plan is not so modified at that time, the Development Agreement shall control over the Development Plan.

NOTATIONS:

1. No waivers have been requested by the applicant; therefore, subdivision criteria, as contained within the El Paso County Land Development Code, will be applicable to the development of this property.
2. In approving a rezoning to the PUD District by the Board of County Commissioners, the Development Plan shall be the controlling document, establishing land uses(s), densities, setbacks, height limits, lot coverage and access points. Said Development Plan shall be recorded in the Clerk & Recorder's Office of El Paso County, Colorado, in conjunction with the Board of County Commissioners' approval Resolution establishing said zone. Said zoning and Development Plan shall be binding on the owner/applicant, his heirs, successors, and assigns.
3. The provisions of the approved Development Plan shall prevail and govern development within a PUD District, provided, however, that where the provisions of the approved Development Plan do not address a particular subject, the relevant provisions of the El Paso

Resolution No. 90-186, Land Use-66
Page 4

County Zoning and Subdivision Resolutions, as amended, or any other applicable resolutions or regulations of El Paso County, shall be applicable.

4. Maintenance responsibilities for open space, trail corridors and buffer areas will not be the responsibility of El Paso County; the mechanisms for their maintenance will be specifically addressed during the Preliminary Plan or Development Agreement stage.

AND BE IT FURTHER RESOLVED that the findings on public service and transportation are hereby deferred;

AND BE IT FURTHER RESOLVED that the submission, review and consideration of the Development Agreement is hereby deferred to the initial Preliminary Plan stage;

AND BE IT FURTHER RESOLVED that consideration of the following findings are hereby deferred to the initial Preliminary Plan stage:

That existing and proposed public services and facilities are adequate for the proposed development, and that proposed public services and facilities will be timely provided;

That the existing and proposed internal/external transportation network is suitable and adequate to carry the anticipated traffic generated by the proposed development, and that the proposed transportation network improvements will be timely provided.

AND BE IT FURTHER RESOLVED that the record and recommendations of the El Paso County Planning Commission be adopted.

DONE THIS 28th day of June, 1990, at Colorado Springs, Colorado.

EL PASO COUNTY CLERK & RECORDER

P-90-004

Commissioner Whittemore moved adoption of the following Resolution:

BEFORE THE BOARD OF COUNTY COMMISSIONERS
OF THE COUNTY OF EL PAÑO, STATE OF COLORADO

RESOLUTION NO. 90-187, Land Use-67

free

WHEREAS, Santa Fe Development & Mortgage did file a petition with the Planning Department of El Paso County on or about March 2, 1990, to rezone the herein described property in El Paso County from an Unzoned classification to the A-4 (Agricultural) Zone District; and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on May 22, 1990, upon which date the Planning Commission did by formal resolution recommend approval of the subject zone change petition with notation; and

WHEREAS, a public hearing was held by this Board on June 28, 1990; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the county, recommendations of the El Paso County Planning Commission, comments of the El Paso County Planning Department, comments of public officials and agencies, and comments from all interested parties, this Board finds as follows:

1. That proper posting, publication, and public notice was provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.
2. That the hearings before the Planning Commission and the Board of County Commissioners were extensive and complete, that all pertinent facts, matters and issues were submitted and reviewed, and that all interested parties were heard at those hearings.
3. That the proposed zoning is in compliance with the recommendations set forth in the master plan for the unincorporated area of the county.
4. That the proposed land use will be compatible with existing and permitted land uses in the area.
5. That the proposed land use does not permit the use of any area containing a commercial mineral deposit in a manner which would interfere with the present or future extraction of such deposit by an extractor.

Resolution No. 90-187, Land Use-67
Page 2

6. That for the above-stated and other reasons, the proposed zoning is in the best interest of the health, safety, morals, convenience, order, prosperity, and welfare of the citizens of El Paso County.
7. That changing conditions clearly require amendment to the Zoning Resolutions.

NOW, THEREFORE, BE IT RESOLVED that the petition of Santa Fe Development & Mortgage for a zone change from an Unzoned classification to the A-4 (Agricultural) Zone District for the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated by reference, be approved;

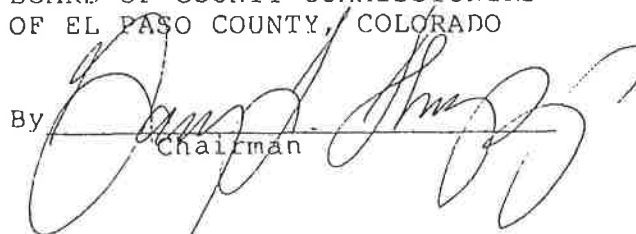

AND BE IT FURTHER RESOLVED that the record and recommendations of the El Paso County Planning Commission be adopted.

DONE THIS 28th day of June, 1990, at Colorado Springs, Colorado.

RE: Santa Fe Springs Property #43000-00-445

Dear Mr. and Mrs. Norris:

This is to inform you that at a hearing before the Board of County Commissioners on September 13, 2001, the Board provided direction to staff to initiate rezoning of the above-referenced parcel from the PUD (Planned Unit Development) and RR-3 (Rural Residential) Districts to the A-35 (Agricultural) District classification.

This action would be pursuant to the following condition which was placed on the original June 28, 1990, approval for the PUD portion of the property:

2. Rezoning requests for property within this project may be considered by the Planning Commission and/or Board of County Commissioners. If, however, the requisite level of urban services has not been provided within five years of such rezonings, applicant agrees the County, after the required public hearing process, may reinstate the zoning districts in effect on the date of such approval or otherwise zone it to an Agricultural classification.

The Board provided direction to initiate rezoning of the entire 3,477-acre property to the A-35 (Agricultural) District category, based on the rationale that much of the undeveloped property within the vicinity of this property was zoned to this classification in a County-initiated process on March 25, 1999.

The proposed hearing dates for this item will be as follows:

RE: Santa Fe Springs PUD Property #43000-00-445

This is to inform you that the above-referenced request by El Paso County to rezone a 5,600-acre property from the RR-3 (Rural Residential) and Planned Unit Development (PUD) Zone Districts to the A-35 (Agricultural) Zone District category consistent with a condition of the original PUD zoning approval and County Commissioners direction was heard and denied by the Board of County Commissioners on January 10, 2002. The property (Tax Schedule #33000-00-124, -276, -277; 42000-00-196; 43000-00-345, -444, -445) is located along Falcon Highway, west of Peyton Highway in the Sage Creek area. Property owners are Robert and Jane Norris (Original File PUD-90-002).

The Board of County Commissioners' 1990 approval resolution (Reception #01964206) contained the following condition:

2. Rezoning requests for property within this project may be considered by the Planning Commission and/or Board of County Commissioners. If, however, the requisite level of urban services has not been provided within five years of such rezonings, applicant agrees the County, after the required public hearing process, may reinstate the zoning districts in effect on the date of such approval or otherwise zone it to an Agricultural classification.

The Board of County Commissioners extended the time limit in the above condition to January 10, 2007. all other conditions of the original approval remain in force and effect.

Should you have any questions or if I can be of further assistance, please contact me at 719-520-6300.

RESOLUTION NO. 02-15BOARD OF COUNTY COMMISSIONERS
COUNTY OF EL PASO, STATE OF COLORADO

Commissioner Huffman moved adoption of the following Resolution:

WHEREAS, on or about September 13, 2001, the Board of County Commissioners for El Paso County did deny Rezoning of the herein described property in El Paso County from the PUD (Planned Unit Development) and RR-3 (Rural Residential) Zone Districts to A-35 (Agricultural) Zone District; and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on November 20, 2001, upon which date the Planning Commission did by formal resolution recommend denial of the subject Zone change petition; and

WHEREAS, a public hearing was held by this Board on January 10, 2002; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the county, recommendations of the El Paso County Planning Commission, comments of the El Paso County Planning Department, comments of public officials and agencies, and comments from all interested parties, this Board finds as follows:

1. Proper posting, publication, and public notice were provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.
2. The hearings before the Planning Commission and the Board of County Commissioners were extensive and complete, all pertinent facts, matters and issues were submitted and reviewed, and all interested parties were heard at those hearings.
3. Both the existing and proposed Zoning is in compliance with the recommendations set forth in the Master Plan for the unincorporated area of the County.
4. Both the existing and proposed land use will be compatible with existing and permitted land uses in the area.
5. The existing or proposed land use does not permit the use of any area containing a commercial mineral deposit in a manner, which would interfere with the present or future extraction of such deposit by an extractor.

6. For the above-stated and other reasons, the proposed Zoning is not in the best interest of the health, safety, morals, convenience, order, prosperity and welfare of the citizens of El Paso County.
7. Changing Conditions clearly do not require amendment to the Zoning Resolutions.
8. Persons buying property in a certain Zone District have a right to rely upon the rule of law that classification made in the Zoning Resolutions will not be changed unless the change is required for the public good.
9. There is a need for reasonable stability in Zoning.
10. The power to amend is not arbitrary; it cannot be exercised merely because certain individuals want it done or think it ought to be done.
11. The validity of Zoning Regulations is not determined by the highest best use concept or in terms of dollars and cents profitability.

NOW, THEREFORE, BE IT RESOLVED the Board of County Commissioners of El Paso County, Colorado, hereby denies the Zone change from the PUD (Planned Unit Development) and RR-3 (Rural Residential) Zone Districts to the A-35 (Agricultural) Zone District for the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated by reference;

BE IT FURTHER RESOLVED conditions contained in Resolution No. 90-186 (1990 approval Resolutions) are still valid and in effect:

AND BE IT FURTHER RESOLVED the record and recommendations of the El Paso County Planning Commission be adopted.

DONE THIS 5th day of February 2003, *nunc pro tunc* January 10th, 2002, at Colorado Springs, Colorado.

RESOLUTION NO. 04-354BOARD OF COUNTY COMMISSIONERS
COUNTY OF EL PASO, STATE OF COLORADO

Commissioner Huffman moved adoption of the following Resolution:

WHEREAS, Realty Development Services did file an application with the El Paso County Planning Department for the approval an Amended Sketch Plan for Santa Fe Springs Subdivision the herein described property in the unincorporated area of El Paso County; and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on July 20, 2004, upon which date the Planning Commission did by formal resolution recommend approval of the subject Sketch Plan with conditions and notations; and

WHEREAS, a public hearing was held by this Board on August 26, 2004; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the County, recommendations of the El Paso County Planning Commission, comments of the El Paso County Planning Department, comments of public officials and agencies, and comments from all interested parties, this Board finds as follows:

1. Proper posting, publication, and public notice were provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.
2. The hearings before the Planning Commission and the Board of County Commissioners were extensive and complete, all pertinent facts, matters and issues were submitted and reviewed, and all interested parties were heard at those hearings.
3. All data, surveys, analyses, studies, plans, and designs as are required by the State of Colorado and El Paso County have been submitted, reviewed, and found to meet all sound planning and engineering requirements of the El Paso County Subdivision Regulations.
4. For the above-stated and other reasons, the proposed Sketch Plan is in the best interest of the health, safety, morals, convenience, order, prosperity, and welfare of the citizens of El Paso County.
5. The proposed water supply is not sufficient in terms of quality.

6. The proposed water supply is not sufficient in terms of quantity.
7. The proposed water supply is not sufficient in terms of dependability.

NOW, THEREFORE, BE IT RESOLVED the Board of County Commissioners of El Paso County, Colorado, hereby approves the Santa Fe Springs Subdivision for an Amended Sketch Plan as submitted by Realty Development Services for the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated by reference;

BE IT FURTHER RESOLVED the following conditions and notations shall be placed upon this approval:

CONDITIONS:

1. The maximum total residential density shall not exceed 5,370 dwelling units without review and subsequent approval of an amendment to the Sketch Plan.
2. This Plan shall be implemented by the submittal of Planned Unit Development Rezoning applications for the entire project, including the SFR low density portion of the Plan.
3. Landscape requirements for the roadways, entrances and commercial developments shall be established at the PUD Rezoning stage. Landscaping requirements shall at a minimum meet the requirements of Section 35 of the Land Development Code, however it is expected that the landscaping requirement shall exceed those minimums and shall incorporate quality xeriscape standards.
4. Landscaping shall be required by the developer and/or builder for all areas on the Plan indicated by a landscape easement along the roadways.
5. Common architectural elements and themes shall be carried throughout the urban development portion of this Plan. The standards for said architectural elements shall be established with the PUD Development Guidelines. Common architectural elements shall apply to all commercial facilities, community facilities and to a limited degree the residential facades.

6. "Entradas" shall be required at the major entry points to the development and to the individual neighborhoods. The entry signs and landscaping shall follow the landscape and architectural theme established for the development and shall be standardized during the PUD Rezoning process in the Development Guidelines. "Entradas" locations shall closely mirror those shown on the Community Structures & Signage drawing as attached to the report.
7. The applicant shall be required to participate in a fair and equitable manner in off-site road improvements. The applicant is hereby put on notice that an off-site road study and plan shall be prepared and adopted in accordance with Section 49.6 of the Land Development Code, with the intent of being in place prior to approval of any Final Plats for this development.
8. A Letter of Map Revision, converting the Zone A Floodplain to a Zone AE Floodplain, shall be submitted and approved by F.E.M.A. before any Final Plat containing Floodplain is scheduled for hearing by the Board of County Commissioners, unless otherwise authorized by the Floodplain Administrator.
9. Any Preliminary Plan(s) filed adjacent to an arterial or above classified roadway shall require a noise analysis with findings and recommended mitigation that is acceptable to El Paso County.
10. All existing residential developments or parcels shall be buffered. Buffering shall be based upon the size of the existing parcel or lot, and the distance of the existing residence to the Santa Fe Springs boundary.
11. No lot shall be split between a School or Fire District on any Preliminary Plan or Final Plat. If possible, subdivision design shall minimize jurisdictional impacts to this regard.
12. An aviation easement shall be required for the area located within Meadow Lake Airports fly over zone. Proof of said easement shall be required with each Final Plat submittal, as applicable.

13. If the "Active Adult" component of this request is reduced or removed in the development process, the Sketch Plan must be resubmitted for review to include at a minimum, jurisdictional impact on Schools. Substantial change as determined by Development Services will require another amendment.
14. Prior to scheduling any Zoning request for Board of County Commissioners consideration, all minor technical elements of the Plan shall be made satisfactory to the Development Services Department.
15. The Phasing Plan as shown and approved on this amended Sketch Plan by the Board of County Commissioners shall be adhered to unless otherwise altered by Board approval.

NOTATIONS:

1. Action taken by the Planning Commission and Board of County Commissioners on a Sketch Plan shall be considered a preliminary decision to the Zoning and Platting of the property and shall not be considered a final decision for purposes of judicial review.
2. The applicant is put on notice that in the future El Paso County may adopt an Airport Overlay Zoning related to the Meadowlake Airport, which would affect land uses east of the existing and/or future crosswind runways. Such regulations may require a modification of these approved land uses.

AND BE IT FURTHER RESOLVED the record and recommendations of the El Paso County Planning Commission be adopted.

DONE THIS 26th day of August 2004, at Colorado Springs, Colorado.

Commissioner Huffman moved adoption of the following Resolution:

WHEREAS, Realty Development Services did file a petition with the Planning Department of El Paso County to Rezone the herein described property in El Paso County from the A-35 (Agricultural) Zone District to the PUD (Planned Unit Development) Zone District; and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on November 23, 2004, upon which date the Planning Commission did by formal resolution recommend approval of the subject Zone change petition with conditions and notation; and

WHEREAS, a public hearing was held by this Board on January 6, 2005; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the county, recommendations of the El Paso County Planning Commission, comments of the El Paso County Planning Department, comments of public officials and agencies, and comments from all interested parties, this Board finds as follows:

1. Proper posting, publication, and public notice were provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.
2. The hearings before the Planning Commission and the Board of County Commissioners were extensive and complete, all pertinent facts, matters and issues were submitted and reviewed, and all interested parties were heard at those hearings.
3. The proposed PUD (Planned Unit Development) District zoning is in general conformity with the Master Plan for El Paso County, Colorado, or the applicable comprehensive plan or any amendments thereto.
4. The proposed land use will be compatible with existing and permitted land uses in the surrounding area and will be in harmony and responsive with the character of the surrounding area.

Rec \$0.00 1 of 7

5. The proposed land use does not permit the use of any area containing a commercial mineral deposit in a manner, which would interfere with the present or future extraction of such deposit by an extractor.
6. A need for development has been demonstrated.
7. The proposed development will not have a negative effect upon the existing and future development of the surrounding area.
8. The proposed PUD (Planned Unit Development) District zoning will achieve and advance the stated purposes set forth in Section 16 of the El Paso County Land Development Code.
9. The existing and proposed public services and facilities are adequate for the proposed development, and the proposed public services and facilities will be timely provided.
10. The existing and proposed internal/external transportation network is suitable and adequate to carry the anticipated traffic generated by the proposed development, and the proposed transportation network improvements will be timely provided.
11. For the above-stated and other reasons, the proposed Zoning is in the best interest of the health, safety, morals, convenience, order, prosperity and welfare of the citizens of El Paso County.

NOW, THEREFORE, BE IT RESOLVED the Board of County Commissioners of El Paso County, Colorado, hereby approves the petition of Realty Development Services for a Zone change from the A-35 (Agricultural) Zone District to the PUD (Planned Unit Development) Zone District for the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated by reference;

BE IT FURTHER RESOLVED the following conditions shall be placed upon this approval:

CONDITIONS:

1. Development of the property shall be in accordance with the approved Development Plan and Development Guide. Minor modifications may be made subject to the limitations contained in Section 16, paragraph Q of the El Paso County Land Development Code.

2. Maximum dwelling units within the Santa Fe Springs PUD-6 shall be 450 dwelling units, unless a density transfer is requested by the applicant and approved by the Board of County Commissioners as outlined below.
3. Should the "Active Adult" component be reduced and or relocated within any Santa Fe Springs PUD, an administrative modification of the applicable Development Plan shall be allowed by the Development Services Director subject to the following:
 - a. The School District(s) shall be consulted to determine if an additional school site or an expansion of an existing school site is needed and if such, a site(s) and/or land shall be provided.
 - b. The number of units off-set by the inclusion of a school site may be transferred to another PUD area within the boundary of the Santa Fe Springs Sketch Plan, except that area shown on the Sketch Plan to be SFR-Low Density (35 Acre Parcels) in the Peyton Highway area (now shown as PUD-7, Phase 6).
 - c. Density transfer to the Santa Fe Springs PUD-5 shall be limited to 10% (45 units) of the total dwelling units approved (450 dwelling units) within PUD-6.
 - d. Preservation Easements shall not be converted for development through a density transfer.
 - e. Open Space conversion based upon a density transfer shall be limited to 10% within any given PUD.
 - f. In no case shall the transfer of density or dwelling units be allowed to exceed the 5,370 dwelling unit cap as approved on the Santa Fe Springs Sketch Plan.
 - g. In no case shall the overall "Active Adult" (as defined by the applicant) component within the overall Santa Fe Springs Sketch Plan boundary fall below 30% of the overall residential dwelling unit composition. This

ratio does not apply as a minimum requirement within any particular PUD.

- h. "Active Adult" (as defined by the applicant) shall be defined as that development limited to households containing at least one person older than 55, however those younger than 55 but older than 19 can also live in the home. Persons younger than 19 are allowed to visit but for no more than 60 days in a year. The Active Adult restrictions shall be specified in the Codes, Covenants and Restrictions for the associated development.
- 4. Should the County adopt airport zoning criteria for the Meadow Lake Airport, and should those criteria place land use restrictions within the Accident Potential Zone (APZ), and should the APZ for the crosswind runway in place at the time of the preliminary plan approval show to penetrate the Santa Fe Springs area within PUD-6, then the Development Plan may require modification to remove/relocate certain land uses.
- 5. Landscaping shall be required by the developer and/or builder for all areas on the Development Plan indicated by a landscape easement along the roadways. Landscape Plans shall be submitted with the Preliminary Plan documents. Landscaping shall be collateralized in the Estimate of Guaranteed Funds.
- 6. The applicant shall be required to participate in a fair and equitable manner in off-site road improvements. The applicant is hereby put on notice that an off-site road study and plan shall be prepared and adopted in accordance with Section 49.6 of the Land Development Code with the intent of being in place prior to approval of any Final Plats for this development.
- 7. A letter of Map Revision, converting the Zone A floodplain to a Zone AE Floodplain, shall be submitted to and approved by FEMA before any final plat containing floodplain is scheduled for hearing by the Board of County

Commissioners, unless otherwise authorized by the Floodplain Administrator.

8. Any preliminary plan(s) filed adjacent to an arterial or above classified roadway shall require a noise analysis with findings and recommended mitigation that is acceptable to El Paso County.
9. No lot shall be split between a school or fire district on any preliminary plan or final plat. If possible, subdivision design shall minimize jurisdictional impacts to this regard.
10. The Development Plan shall be recorded in the office of the El Paso County Clerk & Recorder prior to scheduling any Preliminary Plan for hearing by the Planning Commission.
11. All owners of record must sign the Development Plan.
12. A full plot plan review will be required for all non-residential developments within this PUD. Prior to approval of any Plot Plan the land use(s), densities, setbacks, height limits, landscaping, buffering, screening and access locations as depicted on the Plot Plan shall be found to be in conformance with the Development Plan as approved by the Board of County Commissioners and applicable regulations within the Land Development Code.
13. Applicable Park and School fees shall be paid with any Final Plats reflecting, if appropriate, the credits for dedication of a school site and any park credits received.
14. Applicant shall provide an Avigation Easement for those areas within the Meadow Lake Airport fly over zone.
15. Prior to recording the Development Plan, the following shall be finalized:
 - a. All technical review issues of the Planning and Engineering Division shall be resolved and changes, as applicable, to the Development Plan and Development Guide shall be completed.

- b. Applicant shall provide verification that communication between the applicant and the School District(s), Fire District(s) and MVEA are continuing regarding the proposed final locations of the requested sites.

- 16. In the event urban services have not been extended to some part of the overall Santa Fe Springs property within five (5) years of Board of County Commissioners' approval of this request, the Board may consider rezoning back to the original RR-3 (Rural Residential) classification.

AND BE IT FURTHER RESOLVED the record and recommendations of the El Paso County Planning Commission be adopted.

DONE THIS 6th day of January 2005, at Colorado Springs, Colorado.

Resolution No. 04-369**BOARD OF COUNTY COMMISSIONERS
COUNTY OF EL PASO, STATE OF COLORADO**

Commissioner Huffman moved adoption of the following Resolution:

WHEREAS, Peter M. Susemihl did file an application with the Planning Department of El Paso County, Colorado, pursuant to §32-1-204(2), C.R.S., for the review of the Combined Service Plans for the Santa Fe Springs Metropolitan District No. 1, Santa Fe Springs Metropolitan District No. 2, and Santa Fe Springs Metropolitan District No. 3 (the "Districts"); and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on July 20, 2004, upon which date the Planning Commission did by formal resolution recommend disapproval of the subject Combined Service Plans; and

WHEREAS, a public hearing was held by this Board on Thursday, September 2, 2004; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the County, study of the proposed service plan, recommendations of the El Paso County Planning Commission, comments of the El Paso County Planning Department, comments of public officials and agencies, and comments from all interested parties, this Board finds as follows:

1. That proper publication and public notice were provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.
2. That the hearings before the Planning Commission and the Board of County Commissioners of El Paso County were extensive and complete, that all pertinent facts, matters and issues were submitted and that all interested parties were heard at those hearings.
3. There is sufficient existing and projected need for organized service in the area to be served by the proposed Special Districts.
4. Existing service in the area to be served by the proposed Special Districts is inadequate for present and projected needs.
5. The proposed Special Districts are capable of providing economical and sufficient service to the area within the proposed boundaries.

6. Adequate service is not or will not be available to the area through the County, other existing municipal or quasi-municipal corporations, including existing Special Districts, within a reasonable time and on a comparable basis.
7. The facility and service standards of the proposed Special Districts are compatible with the facility and service standards of each county within which the proposed Special Districts are to be located and each municipality which is an interested party.
8. The proposal is in substantial compliance with a Master Plan adopted pursuant to C.R.S. §30-28-106.
9. The proposal is in compliance with any duly adopted county, regional or state long-range water quality management plan for the area.
10. The creation of the proposed Special Districts will be in the best interests of the area proposed to be served.

NOW, THEREFORE, BE IT RESOLVED the Board of County Commissioners of El Paso County, Colorado, hereby approves the Service Plans submitted by Peter M. Susemihl for Santa Fe Springs Metropolitan District No. 1, Santa Fe Springs Metropolitan District No. 2, and Santa Fe Springs Metropolitan District No. 3, Title 32 Metropolitan Districts, for property more particularly described on the attached Exhibits for each District which are attached hereto and incorporated by reference;

AND BE IT FURTHER RESOLVED that the following conditions shall be placed upon this approval:

1. Approval of this Initial Service Plan shall allow, among other things, organization and formation of these Districts, authorization of maximum bonded indebtedness and establishment of mill levy caps, all pursuant and subject to applicable provisions of C.R.S. Title 32. However, the Districts shall be precluded from any of the following activities until such time as a complete amended Service Plan may be approved by the County:

- > Issuance of any bonds or other form of indebtedness
- > Certification of any mill levy
- > Construction of any facilities
- > Condemnation or acquisition of any real property

2. If and when an amended Service Plan is submitted, it shall be processed in accordance with established County procedures and applicable State Statute. In addition to any required or desired changes to the body of the Service Plan document, the new application shall include a complete financial plan and detailed descriptions of proposed projects with cost estimates. A market study or request for waiver of such shall also be required. Such plans and studies shall be consistent with land use approvals in place at the time of the Service Plan Update. At the time of consideration of an amended Service Plan, the County shall have the authority to amend any of the original provisions of the Initial Service Plan.

3. If an amended Service Plan pursuant to Condition #2 above has not been submitted to and approved by the County on or before December 31, 2006, the Boards of the Districts shall agree to take actions necessary to dissolve the Districts. This dissolution shall be completed on or before December 31, 2007, unless such action is formally preempted by either District Court or the State of Colorado.

4. As stated in the Initial Service Plan the combined mill levy of these Districts shall not exceed fifty (50) mills with adjustments allowed for the effects of the Gallagher Amendment. Any part of the mill levy which is operational in nature shall not be Gallagher-adjusted until and unless such debt has been "de-TABORED."

5. Any future annexation of territory which encompasses any territory more than five (5) miles from any of the currently proposed District boundary lines shall be considered a material modification of the Service Plans and shall require prior Board of County Commissioners approval.

6. The Districts shall agree to formation of a Board of County Commissioners-approved Citizens' Advisory Council to be comprised of five (5) property owners within the service area of the Santa Fe Springs Metropolitan Districts. Two (2) or three (3) Council membership shall be open to otherwise qualifying directors of two (2) or three (3) Districts. Bylaws of the Council will be approved by the Board of County Commissioners. Meetings will be held at times and locations convenient to the property owners and such meetings will be supported by the Districts. The elected Chair of the Council will be given one (1) of the five (5) seats on the Board of Directors of District 1 during their tenure as Chair.

Formation of the Council shall not occur until there are at least one hundred (100) dwelling units constructed within Santa Fe Springs. The District shall be responsible for supporting the function of the Council. Creation and continuance of the Council shall be at the sole discretion of the County Commissioners, and Council may be disbanded if there is insufficient interest on the part of area residents.

7. In conjunction with submittal of a complete and amended Service Plan the applicants shall identify a means of providing notice to future property owners, which clearly identifies the limits of representation inherent in this Master District approach.

8. Prior to funding any Local Public Improvements, the service plans and/or any subdivision agreements shall be structured in order to prevent a loss of use tax revenue to the County and other local government entities.

AND BE IT FURTHER RESOLVED that the following notations shall be placed upon this approval:

1. In the event revenues or reserves are insufficient to meet scheduled bond payments, unpaid interest may be carried forward as a subsequent year obligation. This may have the effect of extending the schedule of required bond payments.

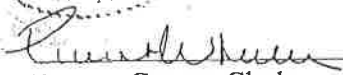

2. The applicants are put on notice that the creation of parcels for the purpose of qualifying electors for District 1 does not create a separate interest in the land pursuant to subdivision under CR5, 30-28-101, et seq.

3. In the event that District facilities are used for non-qualifying purposes (such as sales offices) provisions will be made to fairly and equitably compensate the Districts for these uses.

DONE THIS 2nd day of September 2004 at Colorado Springs, Colorado.

A. INTRODUCTION

Necessary public facilities, services, and programs will be provided to the 6,420 acre Santa Fe Springs development by three metropolitan districts which will be created pursuant to Title 32 Colorado Revised Statutes. The three districts will be named Santa Fe Springs Metropolitan District No. 1, Santa Fe Metropolitan District No. 2, and Santa Fe Metropolitan District No. 3. The Districts will coordinate their efforts to provide public services in the most efficient manner possible.

Santa Fe Springs Metropolitan District No. 1 will be responsible for managing the design, construction, and operation of the public facilities and improvements and for providing funding to support the necessary costs and services and as such, will be deemed to be a "Service District".

Santa Fe Springs Metropolitan District No. 2 will be responsible for providing funding to support costs related to services and improvements utilizing the tax base, fees, and charges from the residential properties and will be deemed to be a "Financing District" in order to generate the necessary revenues.

Santa Fe Springs Metropolitan District No. 3 will be responsible for providing funding to support costs related to services and improvements utilizing the tax base, fees, and charges from the commercial properties and will be deemed to be a "Financing District" in order to generate the necessary revenues.

It is the intention to hold an election forming these Districts on November 2, 2004 in order to authorize debt and a mill levy. The developer has committing to commencing infrastructure by early 2005. One component of the infrastructure is the offsite road improvements that need to be completed. This will take a new regional traffic study which is in process. Therefore, this document is intended to be a preliminary service plan that meets the statutory requirements. Building permits will not be issued until a full, complete, and amended service plan is filed and approved. The Amended Service plan will contain a revised and updated marketing plan, infrastructure development analysis, and financial plan.

It is recommended that these Districts have the following authority granted by Title 32, Colorado Revised Statutes:

- Water
- Wastewater
- Street improvements and safety protection
- Park and recreation
- Drainage
- Landscaping
- Mosquito control
- Transportation.

It is proposed that the Districts provide the following municipal services, both within and without the boundaries of the Districts as may be necessary:

WATER – Design and construction, of a complete potable and non-potable water supply system, including, but not limited to, storage, transmission, and distribution system, consisting of, but not limited to, transmission lines, distribution mains, laterals, storage facilities, pumping facilities, and easements and appurtenant facilities.

WASTEWATER – Design and construction of a complete sanitary sewage and storm drainage collection and transmission system, consisting of, but not limited to, collection mains, laterals, transmission lines, and pumping facilities and all necessary, incidental and appurtenant facilities, land and easements. Wastewater services will be provided initially by Susnet Metropolitan District.

STREET IMPROVEMENTS AND SAFETY PROTECTION – Design, acquire, and construct arterial and collector street improvements and related safety protection devices including, but not limited to, bridges, fencing, trails, lighting, landscaping, traffic and safety controls and devices. Streets are to be dedicated to the County for ownership and permanent maintenance. Any street related medians and landscaping will be owned and maintained by the District.

PARK AND RECREATION - Design, acquire, construct, operate and maintain park and recreational facilities, including, but not limited to, active parks, pocket parks, open space, trails, fencing, and landscaping. Parks may be dedicated to the County or owned and maintained by the Districts.

MOSQUITO CONTROL - Provide for the eradication and control of mosquitoes, including but not limited to, elimination or treatment of breeding grounds and purchase, lease, contracting or other use of equipment or supplies for mosquito control.

TELEVISION RELAY AND TRANSLATION – Provide for the design, acquisition, construction, completion, installation, operation and maintenance of television relay and translation facilities, cable and communication facilities, fiber optic conduit network, together with all necessary, incidental and appurtenant facilities, land and easements, and all necessary extensions of and improvements to said facilities.

TRANSPORTATION – Design, acquire, construct, install, and/or operate and maintain transportation system improvements, including, but not limited to, transportation equipment, park and ride facilities and public parking lots, structures, roofs, covers and facilities, together with all necessary incidental and appurtenant facilities, land and easements together with extensions of and improvements to said facilities within and without the boundaries of the Districts; provided however, that the design, acquisition, construction, installation, and/or operation and maintenance of public transportation improvements shall, where applicable, be subject to entry into authorizing contracts pursuant to the provisions of Part 2, Article 1 of Title 29, Colorado Revised Statutes.

DRAINAGE – Design, acquire, and construct all necessary drainage facilities including, but not limited to, detention ponds, culverts, pipes, channels, swales, and weirs in

accordance with an approved regional drainage plan and in conjunction with adjoining drainage features.

OTHER POWERS – In addition to the above-enumerated powers, the Districts shall have the authority (1) to amend this Service Plan as needed, with the approval of El Paso County, subject to appropriate statutory procedures; (2) without amending this Service Plan, to defer, forego, reschedule or restructure the financing and construction of certain improvements and facilities, to better accommodate the pace of growth, resources availability, and potential inclusions of property within the Districts with the County being notified if any of these actions take place; and, (3) to provide such additional services and exercise such powers as are expressly or impliedly granted by Colorado law.

(1) A map of the proposed Districts and a legal description of their boundaries are found at Exhibits 1 and 2.

(2) The creation of the Districts will be in the best interests of the property proposed to be served. The Districts will have the flexibility and statutory powers to provide long-term services to the residents and property owners. New districts have numerous advantages over other vehicles which could be utilized to supply services to this area.

While a Homeowners Association might be set up to provide these services by way of covenants imposed on the real property, an Association may lack both the financing ability, the flexibility and the longevity that would be provided by the Districts. Additionally, an Association would not possess certain of the statutory powers that are allowed to the Districts.

(3) Adequate municipal services for the development are not expected to be made available through any other county, municipality or quasi-municipal corporation.

(4) Insofar as the development consists of proposed municipal-type residential and commercial densities within its boundaries, Districts, as entities which are separate from the developer, can provide these services on a long term basis. A publicly controlled district with an elected board of directors, versus a Homeowners Association or any private Utility Company, would be the most capable of providing these municipal services.

(5) Although there is municipal debt to be authorized, the Owner, if necessary, may supply the credit enhancements needed for the initial debt. Limited tax general obligation debt will be issued from time to time depending on the current market conditions, success of development and pace of development as determined by the Districts. In addition there will be a mill levy cap not to exceed 50 mills.

(6) The proposed Districts will be in compliance with the approved Sketch Plan.

B. INFRASTRUCTURE ANALYSIS

It is anticipated that infrastructure would consist of water and sewer lines, roads, safety devices, drainage improvements, and park and recreation facilities.

The public facilities would be phased with the development and constructed over a fifteen year period of time. Preliminary engineering costs are as follows:

Sewer and water	\$35,000,000
Onsite Roads	\$18,500,000
Offsite Roads	\$10,000,000
Drainage, Bridges, Detention	\$10,000,000
Parks, Recreation and Rec Center	\$ 8,000,000
Contingency	\$ 3,500,000
Total	\$85,000,000

Attached at Exhibit 3 are maps showing the preliminary engineering plan to provide the above services and facilities. The overall system wastewater and water plan is set out showing the delivery of wastewater to the Sunset Metropolitan District Plant. Also set out in the Exhibit is the Filing 1 and PUD Street Improvements, the internal street improvement costs, and the onsite water and wastewater master plans.

C. FINANCIAL PLAN ANALYSIS

It is presently estimated that the total cost of the District improvements (including, engineering, district formation, initial administrative costs of the District, bond issuance costs, underwriting discounts, capitalized interest and fees) will be approximately \$85,000,000.

It is anticipated that some amount of limited tax general obligation bonds will be issued as will be set forth in a detailed financial plan as part of the amended service plan. A mill levy of 30 mills for the residential district and 20 mills for the commercial district will be proposed with a cap of 50 mills. If necessary, there will be letters of credit, bond insurance, or other credit enhancements.

It is anticipated that the first issuance of bonds will be for \$14,000,000 and subsequent issues will average \$5,000,000 per year until the full authorization is used. Tax revenues would not be received until 2006 or 2007 and it is projected that in the first year after construction of residences, taxes would approximate \$83m 520. At total build-out in fifteen years, the assessed valuation would be \$135,940,000 which would produce \$2,188,000 in tax revenues from the residential properties and \$1,160,000 in tax revenues from the commercial properties.

Impact fees would produce \$15,000,000 at the rate of \$2500 per single family residential unit, \$1000 per multi-family unit, and \$.25 per square foot of commercial space.

Any proposed general obligation bonds, if not rated as investment grade by one or more nationally recognized organizations which regularly rate such obligations, must be limited tax general

obligation bonds. No unlimited general obligation bonds will be issued without the consent of the City Council and an approved amendment to this Service Plan.

All bonds or other debt instruments, if not rated as investment grade, must be issued in minimum denominations of \$100,000 and sold only to accredited investors as defined in Rule 501(a) promulgated under the Securities Act of 1933 or to the developers of the project.

Any debt will not constitute a debt or obligation of the County in any manner and the full faith and credit of the County will not be pledged for any repayment. This will be clearly stated in any offering circulars, prospectus or disclosure statements. The name of the County shall not be used in connection with the offering of any securities.

Proceeds from the sale of debt instruments and other revenues of the Districts may not be used to pay landowners for right-of-way acquisition or easements.

To demonstrate the statutory ability of providing economical and sufficient service and to demonstrate the financial ability of the Districts to discharge the proposed indebtedness, there will be limitation placed upon how, when, and under what circumstances the debt will be issued. The Amended Service Plan will provide for the following:

1. The Owner will supply the credit enhancements needed for the initial debt to be issued by the Districts which enhancement may consist of a purchase of a portion of the bonds as a subordinated issue. The credit enhancement may consist of the Owner guaranteeing the payment of certain fees so that a default is avoided and the mill levy cap is not reached.

2. Limited tax general obligation debt will be issued by the Districts as is justified by the assessed valuation. In addition there will be a mill levy cap of 50 mills which will insure future residents and property owners that property taxes will not become excessive even if development plans are not met.

3. As the overall assessed valuation of the Districts increases, limited tax general obligation debt will be issued in order to pay for necessary infrastructure and/or to finance the bonds. Any debt that is issued will be in compliance with CRS 32-1-1101(6)(a) in that the debt will not exceed the greater of two million dollars or 50% of the assessed valuation of the District, unless the debt falls within the category of one of the statutory exceptions; i.e. rated, secured, insured, institutional sale with denominations of \$500,000, etc.

D. MARKETING AND PROJECTIONS

A complete marketing study will be made a part of the Amended Service Plan and will demonstrate that the anticipated share of the residential and commercial market in El Paso County will be sufficient to produce the revenues necessary to finance the public improvements.

The present marketing plan calls for following build-out:

200 units in 2006
300 units in 2007
350 units in 2008
350 units in 2009
400 units in 2010
400 units in 2011
500 units in 2012
500 units in 2013
500 units in 2014
500 units in 2015
500 units in 2016
500 units in 2017
300 units in 2018

5300 units total

E. INTERGOVERNMENTAL AGREEMENT

An intergovernmental agreement will clarify the nature of the functions and services that each District will provide and will set forth the arrangements for the financing, construction and operations of the improvements.

F. OVERLAPPING DISTRICTS

There are no overlapping districts providing similar services.

G. MISCELLANEOUS

The following is additional information to further explain the functions of the Districts:

- (a) The contemplated municipal services are under the jurisdiction of the Special District Control Act and not the Public Utilities Commission.
- (b) The District shall meet all requirements of El Paso County and the Colorado Department of Transportation.
- (c) At this time there are no plans to exercise the power of eminent domain within or without the District's boundaries; however, the power shall be available for use by the District as allowed by law.

H. COMPLIANCE

The Owners will supply all such additional information as may be required by the Board of County Commissioners and agree that:

1. An annual report will be required and submitted as described in C.R.S. 32-1-207(3)(d);
2. The Districts may be dissolved in accordance with statutory procedures once all debt and reimbursements have been paid and the Districts are failing to provide any services; and
3. Once all debt is retired District 1 may be consolidated into Districts 2 and 3 or dissolved; and
4. Should material modifications occur as described in C.R.S. 32-1-207(2), the District shall apply for approval of such modifications to the Board of County Commissioners.

I. CONCLUSION

To meet the present and future demands for the residents, it is proposed that the three Districts perform the municipal functions that are described in this Service Plan.

It is submitted that this Service Plan for the proposed Districts establishes that:

(a) There is sufficient existing and projected need for the improvements in the area to be serviced by the proposed Districts;

(b) The proposed Districts is capable of providing economical and sufficient service to the Service Area;

(c) The area to be included in the proposed Districts does have, and will have, the financial ability to discharge the proposed indebtedness on a reasonable basis;

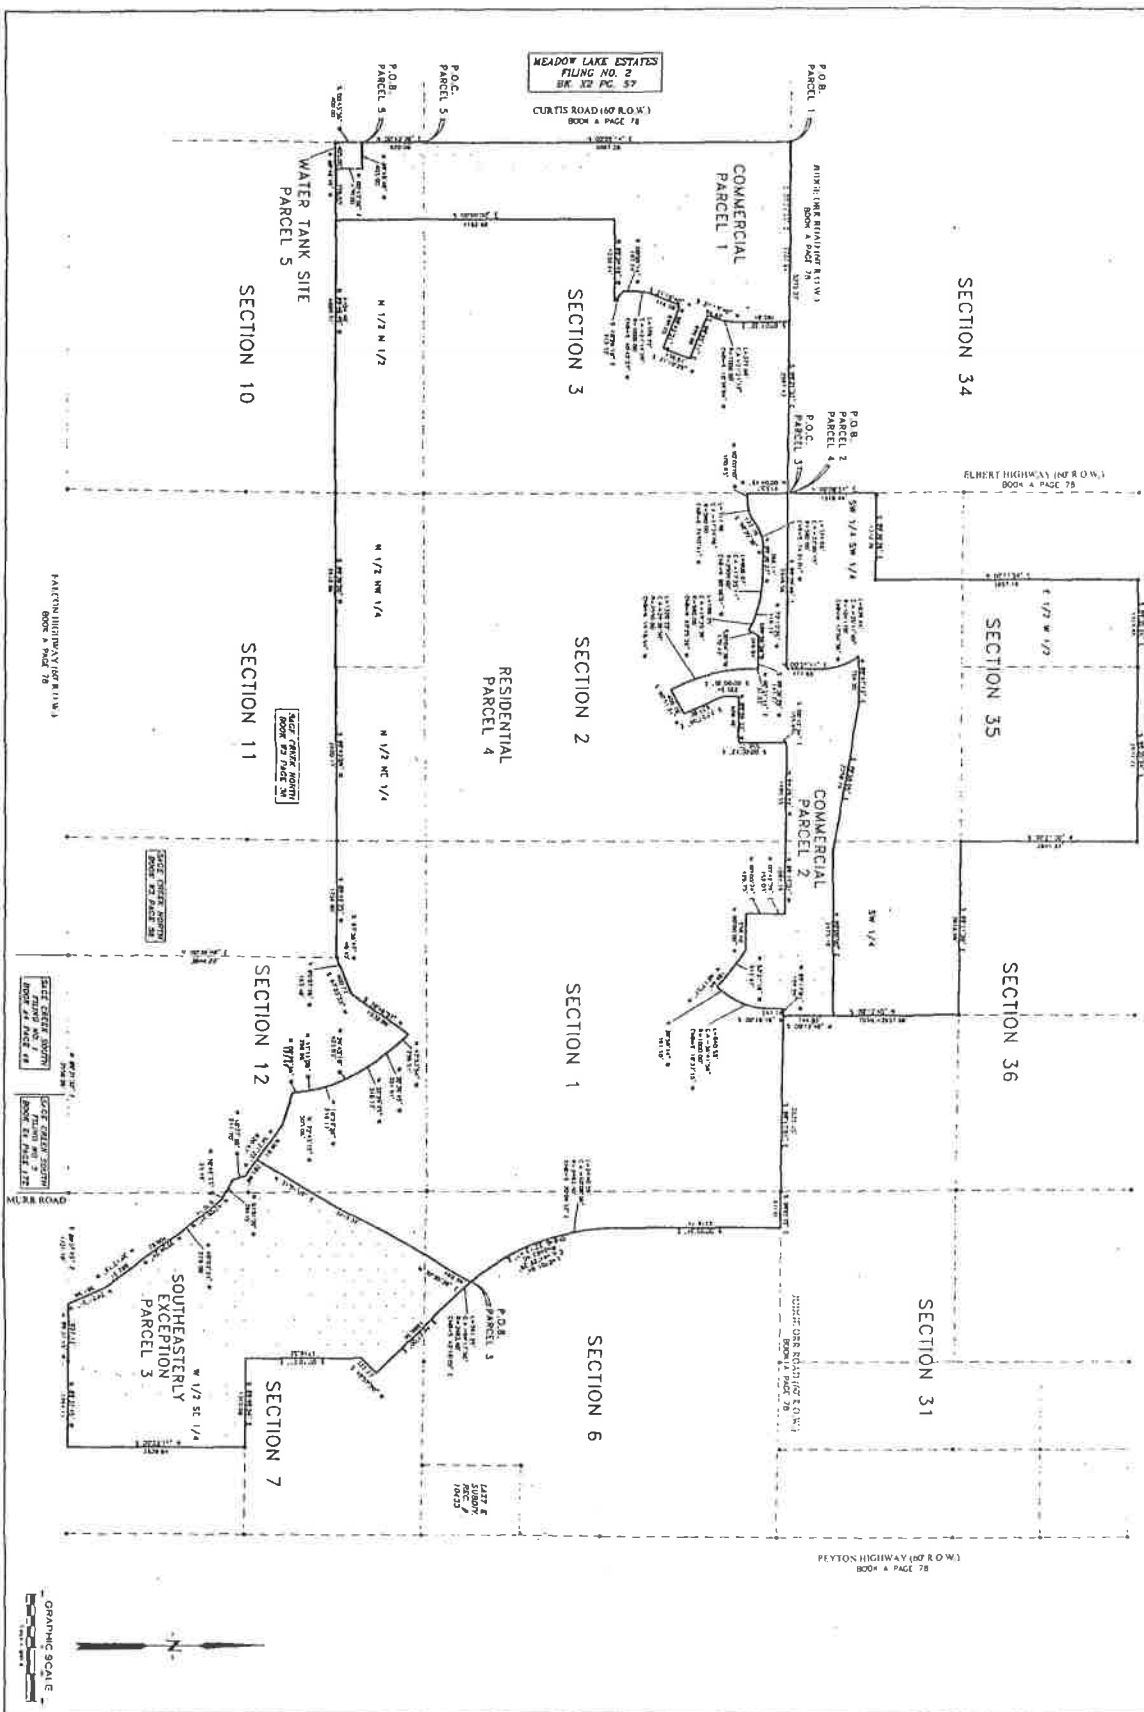

(d) Adequate service is not, and will not be, available to the area through the County or other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis;

(e) The facility and service standards of the proposed Districts are compatible with the facility and service standards of the County within which the proposed special district is to be located and each municipality which is an interested party under Section 32-1-204(I), Colorado Revised Statutes;

(f) The creation of the proposed Districts is in the best interests of the area proposed to be served.

RESOLUTION NO. 06-19

JAN 23 2006

BOARD OF COUNTY COMMISSIONERS
COUNTY OF EL PASO, STATE OF COLORADO

EL PASO COUNTY DEVELOPMENT SERVICES

RESOLUTION TO APPROVE THE AMENDED SERVICE PLAN FOR THE
TITLE 32 SANTA FE SPRINGS METROPOLITAN DISTRICT NOS. 1, 2, AND 3
(ID-05-007)

WHEREAS, Santa Fe Springs Metropolitan District did file an application with the Development Services Department of El Paso County, Colorado, pursuant to 32-1-204(2) C.R.S., as amended, for the proposed Amended Service Plan for Santa Fe Springs Metropolitan District Nos. 1, 2, and 3 ("Districts"); and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on November 29, 2005, upon which date the Planning Commission did by formal resolution recommend approval of the subject Amended Service Plan with conditions and notation; and

WHEREAS, on December 19, 2005, the Board ordered a public hearing to be held on the Service Plan on January 12, 2006; and

WHEREAS, notice of the hearing before the Board was duly published in the *El Paso County Advertiser and New*, and provided to the division of local government on December 21, 2005, as required by law; and

WHEREAS, pursuant to the provisions of Title 32, Article 1, C.R.S., as amended, the Board held a public hearing on the Amended Service Plan for the Districts on January 12, 2006; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the County, study of the proposed amended service plan, recommendations of the El Paso County Planning Commission, comments of the El Paso County Development Services Department, comments of public officials and agencies, and comments from all interested parties, this Board finds as follows:

1. That proper publication and public notice were provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.

2. That the hearings before the Planning Commission and the Board of County Commissioners of El Paso County were extensive and complete, that all pertinent facts, matters and issues were submitted and that all interested parties were heard at those hearings.
3. There is sufficient existing and projected need for organized service in the area to be served by the proposed Special Districts.
4. Existing service in the area to be served by the proposed Special Districts is inadequate for present and projected needs.
5. The proposed Special Districts are capable of providing economical and sufficient service to the area within the proposed boundaries.
6. Adequate service is not or will not be available to the area through the County, other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis.
7. The facility and service standards of the proposed Special Districts are compatible with the facility and service standards of El Paso County.
8. The proposal is in substantial compliance with a Master Plan adopted pursuant to C.R.S. §30-28-106.
9. The proposal is in compliance with any duly adopted county, regional or state long-range water quality management plan for the area.
10. The creation of the proposed Special Districts will be in the best interests of the area proposed to be served.

NOW, THEREFORE, BE IT RESOLVED the Board of County Commissioners of El Paso County, Colorado, hereby determines that the applicable requirements of Section 32-1-207 (2), C.R.S., as amended, relating to the filing of an Amended Service Plan for the Santa Fe Springs Metropolitan District Nos. 1, 2, and 3, and the applicable requirements of Section 32-1-204(1), C.R.S., relating to notice of the hearing by the Board, have been fulfilled in a timely manner.

BE IT FURTHER RESOLVED the Board hereby approves the Amended Service Plan for the Santa Fe Springs Metropolitan District Nos. 1, 2, and 3 for property more particularly described in Exhibit A, which is attached hereto and incorporated by reference.

AND BE IT FURTHER RESOLVED that the following conditions shall be placed upon this approval:

1. As stated in the Service Plan, the combined debt service and operational mill levy shall not exceed fifty (50.0) mills (Gallagher adjusted) for any property within these combined Districts until and unless the Board of County Commissioners subsequently determines to remove the mill levy cap in a manner consistent with State Statutes at a subsequent public hearing.
2. As stated in the Service Plan, the maximum authorized indebtedness for this District shall be \$102.5 million (one hundred two million and five hundred thousand dollars) without express prior authorization of the Board of County Commissioners. Any increase in authorized debt beyond this amount shall constitute a material modification of the Service Plan. Each of the three (3) Districts has authority to issue debt up to the maximum allowable limit so long as the overall limit is not exceeded.
3. The period of maturity for all bonds shall be limited to no more than thirty (30) years without express prior approval of the Board of County Commissioners. Such approval, although required, is not considered to be a major modification which would trigger the need to revise the Service Plan.
4. Any future annexation of territory by this District, which encompasses any territory more than five (5) miles from any of the currently proposed District boundary lines, shall be considered a material modification of the Service Plan and shall require prior Board of County Commissioners' approval.
5. Prior to funding any Local Public Improvements, the District shall provide assurances that El Paso County and any other eligible taxing entity will be held harmless with respect to the potential loss of Sales Tax Revenue associated with the purchase of construction materials associated with these Local Public Improvements, had they been privately funded.

6. This Districts shall agree to formation of a Board of County Commissioners-approved Citizens' Advisory Council to be comprised of five (5) property owners within the service area of the Santa Fe Springs Metropolitan Districts. Two (2) or three (3) Council memberships shall be open to otherwise qualifying directors of two (2) or three (3) Districts. Bylaws of the Council will be approved by the Board of County Commissioners. Meetings will be held at times and locations convenient to the property owners and such meetings will be supported by the Districts. The elected Chair of the Council will be given one (1) of the five (5) seats on the Board of Directors of District 1 during their tenure as Chair.

Formation of the Council shall not occur until there are at least one hundred (100) dwelling units constructed within Santa Fe Springs. The Districts shall be responsible for supporting the function of the Council. Creation and continuance of the Council shall be at the sole discretion of the County Commissioners, and Council may be disbanded if there is insufficient interest on the part of area residents.

7. The Districts agree, to the extent that the Service Plan approved by the Board of County Commissioners includes the power of eminent domain and/or the power of dominant eminent domain, that its power of eminent domain and/or power of dominant eminent domain, regardless of the extent of the power granted to special districts and/or metropolitan districts under state law, shall be limited to the acquisition of property that the Districts intend to be owned, controlled or maintained by the Districts and/or another government entity and is for the material use or benefit of the general public, and which term "material use or benefit for the general public" shall never include as a material purpose the acquisition of property for the furtherance of an economic development plan and which term shall also never include as a purpose an intent to convey such property or to make such property available to a private entity for economic development purposes.
8. The applicant shall provide a disclosure form to future purchasers of property in a form consistent with Exhibit B to this Resolution. Such notice shall be recorded with each Final Plat associated with this development.

9. These Districts shall not be eligible for distribution of Conservation Trust Funds for any areas which overlap the boundaries of the Ellicott Metropolitan District without the prior consent of both that District and the Board of County Commissioners for El Paso County.

AND BE IT FURTHER RESOLVED that the following notations shall be placed upon this approval:

1. In the event revenues or reserves are insufficient to meet scheduled bond payments, unpaid interest may be carried forward as a subsequent year obligation. This may have the effect of extending the schedule of required bond payments.
2. Consistent with the El Paso County Special District Policies, the Districts are encouraged to become members of the El Paso County Water Authority.

AND BE IT FURTHER RESOLVED that the record and recommendations of the El Paso County Planning Commission be adopted.

AND BE IT FURTHER RESOLVED that a certified copy of this Resolution shall be filed in the records of the County and submitted to the petitioners for the purpose of filing in the District Court of El Paso County.

AND BE IT FURTHER RESOLVED that all resolutions or parts thereof, in conflict with the provisions hereof, are hereby repealed.

DONE THIS 12th day of January 2006, at Colorado Springs, Colorado.

RESOLUTION NO. 06-19

JAN 23 2006

BOARD OF COUNTY COMMISSIONERS
COUNTY OF EL PASO, STATE OF COLORADO

DEVELOPMENT SERVICES

RESOLUTION TO APPROVE THE AMENDED SERVICE PLAN FOR THE
TITLE 32 SANTA FE SPRINGS METROPOLITAN DISTRICT NOS. 1, 2, AND 3
(ID-05-007)

WHEREAS, Santa Fe Springs Metropolitan District did file an application with the Development Services Department of El Paso County, Colorado, pursuant to 32-1-204(2) C.R.S., as amended, for the proposed Amended Service Plan for Santa Fe Springs Metropolitan District Nos. 1, 2, and 3 ("Districts"); and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on November 29, 2005, upon which date the Planning Commission did by formal resolution recommend approval of the subject Amended Service Plan with conditions and notation; and

WHEREAS, on December 19, 2005, the Board ordered a public hearing to be held on the Service Plan on January 12, 2006; and

WHEREAS, notice of the hearing before the Board was duly published in the *El Paso County Advertiser and New*, and provided to the division of local government on December 21, 2005, as required by law; and

WHEREAS, pursuant to the provisions of Title 32, Article 1, C.R.S., as amended, the Board held a public hearing on the Amended Service Plan for the Districts on January 12, 2006; and

WHEREAS, based on the evidence, testimony, exhibits, study of the master plan for the unincorporated area of the County, study of the proposed amended service plan, recommendations of the El Paso County Planning Commission, comments of the El Paso County Development Services Department, comments of public officials and agencies, and comments from all interested parties, this Board finds as follows:

1. That proper publication and public notice were provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.

2. That the hearings before the Planning Commission and the Board of County Commissioners of El Paso County were extensive and complete, that all pertinent facts, matters and issues were submitted and that all interested parties were heard at those hearings.
3. There is sufficient existing and projected need for organized service in the area to be served by the proposed Special Districts.
4. Existing service in the area to be served by the proposed Special Districts is inadequate for present and projected needs.
5. The proposed Special Districts are capable of providing economical and sufficient service to the area within the proposed boundaries.
6. Adequate service is not or will not be available to the area through the County, other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis.
7. The facility and service standards of the proposed Special Districts are compatible with the facility and service standards of El Paso County.
8. The proposal is in substantial compliance with a Master Plan adopted pursuant to C.R.S. §30-28-106.
9. The proposal is in compliance with any duly adopted county, regional or state long-range water quality management plan for the area.
10. The creation of the proposed Special Districts will be in the best interests of the area proposed to be served.

NOW, THEREFORE, BE IT RESOLVED the Board of County Commissioners of El Paso County, Colorado, hereby determines that the applicable requirements of Section 32-1-207 (2), C.R.S., as amended, relating to the filing of an Amended Service Plan for the Santa Fe Springs Metropolitan District Nos. 1, 2, and 3, and the applicable requirements of Section 32-1-204(1), C.R.S., relating to notice of the hearing by the Board, have been fulfilled in a timely manner.

BE IT FURTHER RESOLVED the Board hereby approves the Amended Service Plan for the Santa Fe Springs Metropolitan District Nos. 1, 2, and 3 for property more particularly described in Exhibit A, which is attached hereto and incorporated by reference.

AND BE IT FURTHER RESOLVED that the following conditions shall be placed upon this approval:

1. As stated in the Service Plan, the combined debt service and operational mill levy shall not exceed fifty (50.0) mills (Gallagher adjusted) for any property within these combined Districts until and unless the Board of County Commissioners subsequently determines to remove the mill levy cap in a manner consistent with State Statutes at a subsequent public hearing.
2. As stated in the Service Plan, the maximum authorized indebtedness for this District shall be \$102.5 million (one hundred two million and five hundred thousand dollars) without express prior authorization of the Board of County Commissioners. Any increase in authorized debt beyond this amount shall constitute a material modification of the Service Plan. Each of the three (3) Districts has authority to issue debt up to the maximum allowable limit so long as the overall limit is not exceeded.
3. The period of maturity for all bonds shall be limited to no more than thirty (30) years without express prior approval of the Board of County Commissioners. Such approval, although required, is not considered to be a major modification which would trigger the need to revise the Service Plan.
4. Any future annexation of territory by this District, which encompasses any territory more than five (5) miles from any of the currently proposed District boundary lines, shall be considered a material modification of the Service Plan and shall require prior Board of County Commissioners' approval.
5. Prior to funding any Local Public Improvements, the District shall provide assurances that El Paso County and any other eligible taxing entity will be held harmless with respect to the potential loss of Sales Tax Revenue associated with the purchase of construction materials associated with these Local Public Improvements, had they been privately funded.

6. This Districts shall agree to formation of a Board of County Commissioners-approved Citizens' Advisory Council to be comprised of five (5) property owners within the service area of the Santa Fe Springs Metropolitan Districts. Two (2) or three (3) Council memberships shall be open to otherwise qualifying directors of two (2) or three (3) Districts. Bylaws of the Council will be approved by the Board of County Commissioners. Meetings will be held at times and locations convenient to the property owners and such meetings will be supported by the Districts. The elected Chair of the Council will be given one (1) of the five (5) seats on the Board of Directors of District 1 during their tenure as Chair.

Formation of the Council shall not occur until there are at least one hundred (100) dwelling units constructed within Santa Fe Springs. The Districts shall be responsible for supporting the function of the Council. Creation and continuance of the Council shall be at the sole discretion of the County Commissioners, and Council may be disbanded if there is insufficient interest on the part of area residents.

7. The Districts agree, to the extent that the Service Plan approved by the Board of County Commissioners includes the power of eminent domain and/or the power of dominant eminent domain, that its power of eminent domain and/or power of dominant eminent domain, regardless of the extent of the power granted to special districts and/or metropolitan districts under state law, shall be limited to the acquisition of property that the Districts intend to be owned, controlled or maintained by the Districts and/or another government entity and is for the material use or benefit of the general public, and which term "material use or benefit for the general public" shall never include as a material purpose the acquisition of property for the furtherance of an economic development plan and which term shall also never include as a purpose an intent to convey such property or to make such property available to a private entity for economic development purposes.
8. The applicant shall provide a disclosure form to future purchasers of property in a form consistent with Exhibit B to this Resolution. Such notice shall be recorded with each Final Plat associated with this development.

9. These Districts shall not be eligible for distribution of Conservation Trust Funds for any areas which overlap the boundaries of the Ellicott Metropolitan District without the prior consent of both that District and the Board of County Commissioners for El Paso County.

AND BE IT FURTHER RESOLVED that the following notations shall be placed upon this approval:

1. In the event revenues or reserves are insufficient to meet scheduled bond payments, unpaid interest may be carried forward as a subsequent year obligation. This may have the effect of extending the schedule of required bond payments.
2. Consistent with the El Paso County Special District Policies, the Districts are encouraged to become members of the El Paso County Water Authority.

AND BE IT FURTHER RESOLVED that the record and recommendations of the El Paso County Planning Commission be adopted.

AND BE IT FURTHER RESOLVED that a certified copy of this Resolution shall be filed in the records of the County and submitted to the petitioners for the purpose of filing in the District Court of El Paso County.

AND BE IT FURTHER RESOLVED that all resolutions or parts thereof, in conflict with the provisions hereof, are hereby repealed.

DONE THIS 12th day of January 2006, at Colorado Springs, Colorado.

RE: Sante Fe Springs Metropolitan Districts No. 1, 2 and 3

Dear Carl:

Enclosed please find 12 copies of the final Amended Consolidated Service Plan date January 12, 2006. I believe that I have covered all of your comments contained in your e-mail of October 27, 2005 but will summarize as follows:

1. Sketch Plan Amendments: See first line in Section B on page 6.
2. Operation shortfalls: Developer will be repaid from revenues (Section C.g., page 11.
3. Lower mill levy and fees justification: last paragraph on page 8.
4. Mill levy cap is still at 2005 equivalency since that is what was approved in the initial service plan and the debt authorization.
5. Timing of Ellicott Plant: addressed under Wastewater on page 4.
6. Removed reference to Woodmen Hills on Page 5.
7. New market analysis is at Exhibit 7.
8. References to DOT and Colorado Department of Transportation are made.
9. Left open the option of keeping District 1 in place in order to do operations.
10. IGA has been adopted but we note that it can be amended.

Sincerely,

SUSEMIHL, MCDERMOTT & COWAN, P.C.

SUMMARY

The following is a summary of general information regarding the proposed Districts provided for the convenience of the reviewers of this Service Plan. Please note that the following information is subject in all respects to the more complete descriptions contained elsewhere in this Service Plan.

Proposed Districts:	Santa Fe Springs Metropolitan District No. 1 ("District No. 1") Santa Fe Springs Metropolitan District No. 2 ("District No. 2") Santa Fe Springs Metropolitan District No. 3 ("District No. 3") (collectively the "Districts")
Proposed Improvements Infrastructure Capital Costs:	Road improvements, park and recreation features, water and sewer facilities, and drainage Estimated at \$129,000,000.
Debt Authorization:	Up to \$102,500,000 Limited Tax Obligation Bonds (each District)
Proposed Mill Levy:	30 Mills for Debt in District 2 20 Mills for Debt in District 3 3 Mills for Operation in District 2 and District 3
Proposed M/L Cap	50 Mills 2004 equivalency
Facility Fees	\$2702 per SFD \$.25 per square foot commercial
Functions of the Owner/Developer:	The Owner/Developer will initially provide the necessary credit enhancements for financing of all infrastructure capital costs and will meet the obligations of any operating and debt service deficits. The Owner/Developer will fund all organizational costs of the District subject to reimbursement as provided by law.
Functions of the Districts:	Santa Fe Springs Metropolitan District No. 1 will see that all infrastructure is designed and constructed to appropriate local and state standards. This service or management district will maintain all

infrastructure with the exception of roads and associated drainage pipes which will be conveyed to the County. The Developer will provide financial assistance for construction and maintenance.

Santa Fe Springs Metropolitan District No. 2 shall provide financing for public facilities, services, and programs benefiting the future residential residents and landowners of the community.

Santa Fe Springs Metropolitan District No. 3 shall provide financing for public facilities, services, and programs benefiting the future commercial properties of the community.

Material Modifications:

Modification to this Service Plan shall be required if there is a change in the basic services provided by the District, including the addition of any types of services provided and for any other matter described as a material modification by state law.

A. INTRODUCTION

Necessary public facilities, services, and programs will be provided to the 6,420 acre Santa Fe Springs development by three metropolitan districts which have been created pursuant to Title 32 Colorado Revised Statutes pursuant to an election held November 2, 2004 and a Court Decree recorded November 16, 2004. The three districts are named Santa Fe Springs Metropolitan District No. 1, Santa Fe Metropolitan District No. 2, and Santa Fe Metropolitan District No. 3. The Districts will coordinate their efforts to provide public services in the most efficient manner possible.

A Preliminary Consolidated Service Plan was approved by the Board of County Commissioners by Resolution 04-369 dated September 2, 2004. A condition of approval was that no major activity be undertaken by the Districts until after the approval of this Amended Service Plan.

Santa Fe Springs Metropolitan District No. 1 will be responsible for managing the design, construction, and operation of the public facilities and improvements and for providing funding to support the necessary costs and services and as such, will be deemed to be a "Service District".

Santa Fe Springs Metropolitan Districts No. 2 and No. 3 will be responsible for providing funding to support costs related to services and improvements utilizing the tax base, fees, and charges and will be deemed to be the "Financing Districts" in order to generate the necessary revenues. District No. 2 encompasses the residential properties and District No. 3 encompasses the commercial properties.

An intergovernmental agreement (Exhibit 8) will clarify the nature of the functions and services that each District will provide and will set forth the arrangements for the financing, construction and operations of the improvements.

In addition, the Districts may enter into an agreement with a non-profit development corporation for the purposes of providing coordinated maintenance, administration, and other services and the imposition of fees on certain land sales which fees would be committed to servicing debt.

This tri-district structure is proposed to provide the following benefits: (1) services and improvements can be financed in the most favorable and efficient manner; (2) services will be available when needed through a managed and phased development; and, (3) there will be a capped mill levy and reasonable tax burden as a result of managed financing and coordinated completion of infrastructure. Financing will be phased to avoid long term carrying costs that could occur if

improvements are constructed too early.

It is proposed that the Districts provide the following municipal services, both within and without the boundaries of the District as may be necessary:

WATER - Design, construction, operation and maintenance of a complete potable and non-potable water supply system, including, but not limited to, storage, transmission, and wells, production and treatment facilities, distribution system, consisting of, but not limited to, transmission lines, distribution mains, laterals, storage facilities, pumping facilities, and easements and appurtenant facilities. The Districts may also enter into intergovernmental agreements with other service providers in the region.

WASTEWATER - Design, construction, operation and maintenance of a complete sanitary sewage and storm drainage collection, transmission and treatment system, consisting of, but not limited to, collection mains, laterals, transmission lines, pumping facilities, treatment works, disposal facilities, and all necessary, incidental and appurtenant facilities, land and easements. Initially, wastewater service will be provided by the Sunset Metropolitan Plant located south of Ellicott, Colorado. It is anticipated that this plant will be used on an interim basis until its closure. At that time, it is anticipated a new mechanical plant will be constructed within the District and on a temporary basis wastewater treatment will be provided by Sunset Metropolitan District and an Intergovernmental agreements will be entered into. The Sunset Plant will be in use for a period of time from two to five years and the new plant will be on line in that same time period.

STREET IMPROVEMENTS AND SAFETY PROTECTION - Design and construction of arterial and collector street improvements and related safety protection devices including, but not limited to, bridges, fencing, trails, lighting, landscaping, traffic and safety controls and devices. Streets are to be dedicated to the County for permanent maintenance. Any street related medians and landscaping will be maintained by the Districts.

PARK AND RECREATION - Design, construction, operation and maintenance of park and recreational facilities, including open space, trails, clubhouses, equine facilities, fencing, and landscaping.

MOSQUITO CONTROL - Provide for the eradication and control of mosquitoes, including but not limited to elimination or treatment of breeding grounds and purchase,

lease, contracting or other use of equipment or supplies for mosquito control.

TELEVISION RELAY AND TRANSLATION – Provide for the design, acquisition, construction, completion, installation, operation and maintenance of television relay and translation facilities, cable and communication facilities, fiber optic conduit network, together with all necessary, incidental and appurtenant facilities, land and easements, and all necessary extensions of and improvements to said facilities.

TRANSPORTATION – Design, acquire, construct, install, and/or operate and maintain transportation system improvements, including transportation equipment, park and ride facilities and public parking lots, structures, roofs, covers and facilities, together with all necessary incidental and appurtenant facilities, land and easements together with extensions of and improvements to said facilities within and without the boundaries of the District; provided however, that the design, acquisition, construction, installation, and/or operation and maintenance of public transportation improvements shall, where applicable, be subject to entry into authorizing contracts pursuant to the provisions of Part 2, Article 1 of Title 29, Colorado Revised Statutes.

DRAINAGE – Design and construct all necessary drainage facilities including detention ponds, culverts, pipes, channels, swales, and weirs in accordance with an approved regional drainage plan.

OTHER POWERS – In addition to the above-enumerated powers, the District shall have the authority (1) to amend this Service Plan as needed, with the approval of El Paso County, subject to appropriate statutory procedures; (2) without amending this Service Plan, to defer, forego, reschedule or restructure the financing and construction of certain improvements and facilities, to better accommodate the pace of growth, resources availability, and potential inclusions of property within the District with the County being notified if any of these actions take place; and, (3) to provide such additional services and exercise such powers as are expressly or impliedly granted by Colorado law.

- (1) A map of the proposed Districts and a legal description of the boundaries are found at Exhibits 1 and 2.
- (2) The creation of the Districts will be in the best interests of the property proposed to be served. The Districts will have the flexibility and statutory powers to provide long-term services to the residents within its boundaries. New Districts have numerous advantages over other vehicles which could be utilized to supply services to this area.

While a Homeowners Association might be set up to provide these services by way of covenants imposed on the real property, an Association may lack both the financing ability, the flexibility and the longevity that would be provided by the Districts. Additionally, an Association would not possess certain of the statutory powers that are allowed to the Districts.

There are no other nearby Districts that could provide the necessary level of service for this development.

(3) Adequate municipal services for the development is not expected to be made available through any other county, municipality or quasi-municipal corporation.

(4) Insofar as the development consists of proposed municipal-type residential and commercial densities within its boundaries, there should be an entity separate from the developer to provide services on a long-term basis. A publicly controlled district with an elected board of directors, versus a Homeowners Association or any private Utility Company, would be the most capable of providing these municipal services.

(5) Although there is municipal debt to be authorized, the Owner will supply the credit enhancements needed for the initial debt. Limited tax general obligation debt will be issued as is justified by the assessed valuation. In addition there will be a mill levy cap not to exceed 50 mills.

The market analysis shows several scenarios of proposed build-out that are conservative and demonstrate that taking into account the fees and charges for municipal services together with the overlapping mill levy from other governmental entities, that Santa Fe Springs will be competitive in the market place. A Market Plan is included at Exhibit 7. This Market Analysis shows both the likely scenario for build-out and also the "worst case" scenario.

(6) The proposed District will be in compliance with an approved Amended Sketch Plan which has been processed by the County. The approval of the Sketch Plan, as one of its conditions, may authorize the formation of a districts that will be responsible for the provision of municipal services.

B. DEVELOPMENT ANALYSIS

Development will occur pursuant to the Sketch Plan as now approved or amended in the future.

1. Attached as Exhibit 3 is a preliminary engineering plan for water, wastewater, and

roads. An analysis of the Infrastructure Capital Costs for streets and drainage, traffic and safety control, water system, waste water system, and park and recreation features is attached as Exhibit 4. The District will only do those public improvements that will benefit the residents of the entire district; i.e. water wells, chlorination, wastewater treatment system, arterial and collector streets, offsite roads, main distribution lines for water and wastewater, parks, drainage, engineering, etc. Exhibit 4 is a summary of the anticipated costs and a complete breakdown by category and phase. It is estimated that the total infrastructure for the entire District will take until the year 2025 to complete all phases. The total cost of all public infrastructure to be financed by the Districts is \$128,612,593.

2. At complete build-out, the Districts are planned to consist of 5,370 single family units, 2 million square feet of commercial space, and 3,295 acres of public uses including schools, open spaces, easements, and rights of way. The average home price will be approximately \$180,000.

(a) Attached as Exhibit 7 is a substantive Market Analysis of the residential properties for this project. This Analysis is conservative in nature and assumes anywhere from 100 to 150 single family units per year. The Market Analysis depicts the likely build-out scenario and the "worst case scenario". The Financial Plan Analysis (Exhibits 5 and 6) does not depend upon the build out scenarios set forth in the Market Analysis as the three-district concept will insure that infrastructure construction does not exceed the build-out.

(b) The Market Analysis emphasizes the absorption rate of the residential District.

(c) The absorption and market share of development to be captured by District No. 2, depending upon various scenarios, is shown. The Market Analysis has taken into account the impacts of competitive developments that are located in this part of El Paso County or may be proposed in the near future.

(d) Since the Marketing Plan at Exhibit 7 was done in conjunction with the Preliminary Service Plan approved in 2004, there has been an updated Marketing Plan dated January 2, 2006 which addresses some issues raised by El Paso County Staff and projects the commercial build-out.

(e) Because of the use of three districts, the limited mill levy and the fact that the Owner will guaranty the payment of the initial revenue bonds, there will be no financial threat to the homeowners. Future bonded indebtedness will only be done as the assessed valuation

warrants the same and with the use of limited tax general obligation bonds.

C. FINANCIAL PLAN ANALYSIS

The Owner will supply the credit enhancements needed for the initial debt to be issued by the Districts or will be the purchaser and owner of the initial bonds. Limited tax general obligation debt will be issued as is justified by the assessed valuation. In addition there will be a mill levy cap of 50 mills which will insure future residents that property taxes will not become excessive even if development plans are not met. The 50 mill cap will not only be set forth in this Service Plan, but will also be a contractual part of the IGA and will be described in the debt issues which will be a part of the ballot for the organizational election.

Attached as Exhibit 5 is a Financial Plan for District No. 1 and the residential district, District No. 2 which plan projects finances over the next forty nine year period of time and shows developer debt being incurred in District No. 1. This Plan shows the number of units projected to come on line each year and then depicts the revenue to be derived from a mill levy of 30 mills for debt, 3 mills for operations, and a facilities fee of \$2,702 per single family unit. The Plan also estimates the annual operating costs for the District. The Assessed Valuation for District No. 2 is projected to increase from 0 in 2008 to \$132,418,272 by the year 2055. The following tranches of bonds are projected to be issued by District No. 2:

2007	\$ 4,200,000
2010	\$ 6,550,000
2013	\$ 8,600,000
2016	\$ 9,050,000
2019	\$10,000,000
2022	\$ 8,100,000
2025	\$ 4,200,000

Attached as Exhibit 6 is a Financial Plan for the commercial district, District No. 3. This Plan shows the number of square feet of commercial units projected to come on line each year and then depicts the revenue to be derived from a mill levy of 20 mills for debt, 3 mills for operations, and a facilities fee of \$.25 per square foot of commercial space. The mill levy and facilities fees are lower than for District No. 2 in order to compensate for some of the negative effects that the Gallagher Amendment is having on commercial properties in the State of Colorado with the assessed valuation rate set at 29% of market value. This lower rate may encourage the commercial development in District No. 3. The Plan also estimates the annual operating costs for the District. The Assessed Valuation for District No. 3 is projected to increase from 0 in 2010 to \$104,436,545

by the year 2050. The following tranches of bonds are projected to be issued by District No. 3:

2009	\$ 3,150,000
2011	\$ 3,400,000
2013	\$ 3,650,000
2015	\$ 3,900,000
2017	\$ 4,250,000
2020	\$ 4,900,000

The coupon rate of these bonds is projected at 7% but this rate should decrease over time with the increase in assessed valuation.

At the November 2, 2004 election, each District authorized debt up to \$102,500,000 (limited tax general obligation bonds, 2004 equivalency). The District may authorize, issue, sell, and deliver such bonds, notes, contracts, reimbursement agreements, or other obligations evidencing or securing a borrowing (collectively, "Bonds") as are permitted by law; provided that the following limitations shall apply except where waived by El Paso County:

1. All Bonds, regardless of whether the District has promised to impose an ad valorem mill levy for their payment, shall be exempt from registration under the Colorado Municipal Bond Supervision Act, or shall be registered under such Act.

2. The principal amount of any issue of Bonds for the payment of which the District promises to impose an ad valorem property tax ("General Obligation Bonds"), together with any other outstanding issue of General Obligation Bonds of the District, may not at the time of issuance exceed fifty percent (50%) of the valuation for assessment of the taxable property in the District, as certified by the assessor, except that the foregoing shall not apply to an issue of General Obligation Bonds for the payment of which the District has covenanted to impose a maximum mill levy of not more than 50 mills (a mill being equal to 1/10 of 1 cent) per annum (the "Limited Mill Levy Bonds"); provided that, such Limited Mill Levy Bonds may also provide that in the event the method of calculating assessed valuation is changed after the date of approval of the Initial Service Plan by any change in law, change in method of calculation, or change in the percentage of actual valuation used to determine assessed valuation, the 50 mill levy limitation herein provided may be increased or decreased to reflect such changes, such increases or decreases to be determined by the Board in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenues generated by the mill levy, as adjusted, are neither diminished nor enhanced as a result of such changes. With the consent of the Board of County Commissioners of El Paso County, the District may provide that

Limited Mill Levy Bonds may convert to unlimited mill levy General Obligation Bonds when the outstanding principal amount of all General Obligation Bonds is equal to or less than fifty percent (50%) of the valuation for assessment of the taxable property in the District, as certified by the assessor, and once Limited Mill Levy Bonds have been so converted to unlimited mill levy General Obligation Bonds, the District may provide that such General Obligation Bonds shall remain secured by such unlimited mill levy, notwithstanding any subsequent change in the District's debt to assessed ratio.

The mill levy will be capped at 50 mills although it is anticipated that any debt will be satisfied with a mill levy of 35 mills per year for both debt service and operations. The election also authorized the mill levy for operations and maintenance.

There are no land acquisition costs reflected in this project as all land is owned free and clear and the Owner will give land or interests in land, as reasonably needed and mutually agreed, to the districts without charge. The Infrastructure Capital Costs (Exhibit 4) depicts the estimated costs of infrastructure capital costs, including engineering, for the entire development as well as for the Districts' share.

- (a) District No. 1 may issue revenue bonds necessary for the initial improvements and this shall not constitute debt or indebtedness within the meaning of any provision or limitation of the laws of Colorado or the State Constitution. The exact interest rates, discounts, and their form will be determined at the time of issuance and will reflect market conditions at the time. The primary source of revenues will be mill levies, tap fees and monthly user charges paid by Districts No. 2 and No. 3 to District No. 1 pursuant to the intergovernmental agreement. The bonds will be credit enhanced by the Owner as needed. Should revenue bonds be issued, they will not be issued in any amount that exceeds the overall debt limitations set forth in this Service Plan.
- (b) As the overall assessed valuation of Santa Fe Springs, Districts No. 2 and No. 3, pursuant to the Intergovernmental Agreement (IGA, Exhibit 8), will issue limited tax general obligation debt in order to pay for necessary infrastructure and/or to refinance bonds. Any debt that is issued will be in compliance with CRS 32-1-1101(6)(a) in that the debt will not exceed the greater of two million dollars or 50% of the assessed valuation of the Districts, unless the debt falls within the category of one of the statutory exceptions; i.e. rated, secured, insured, etc. Districts No. 2 and No. 3, by the financial obligation created by the IGA, will levy its limited capped mill levy (or fewer mills if possible) and pay the resulting revenues to District No. 1 for payment of debt service on bonds.

- (c) As property is platted, the Developer/Builder will assign and transfer to District No. 1 the necessary ground water and other raw water rights at no cost necessary to serve the platted parcels.
- (d) All major infrastructure capital improvements together with the necessary easements will be assigned and deeded to District No. 1.
- (e) As reflected in the Marketing Plan (Exhibit 7), these Districts should be capable of providing economical service within the boundaries.
- (f) If development does not occur as projected then there will be a delay in the addition of infrastructure and the incurring of additional debt.
- (g) It is anticipated that in the formative years the Districts will have shortfalls in being able to meet its monthly operations and maintenance expenses. The Owner is prepared to assume these obligations for the development of the initially included property within the Districts subject to the Owner being repaid from revenues.
- (h) All taxes have been paid and are current.
- (i) It is not anticipated that there would be any financial difficulties that could affect the performance of the proposed Districts under this Service Plan due to the fact that there is a cap on the mill levy and the debt is issued in phases consistent with the assessed valuations.
- (j) It is anticipated that all improvements will be constructed to the standards imposed by El Paso County Department of Transportation, El Paso County Development Services Department, and the State Health Department.
- (k) In addition to property taxes, the Districts may also rely upon other revenue sources authorized by law and this Service Plan to offset the expenses of capital construction and District management, operations and maintenance. These will include the power to assess fees, rates, tolls, penalties, and charges as provided in Title 32, CRS, as amended.

D. INFRASTRUCTURE ANALYSIS

A general description of the facilities to be constructed and the standards of such construction showing that they are compatible with the facilities and standards of El Paso County follows:

ARTERIAL AND COLLECTOR STREET IMPROVEMENTS & SAFETY PROTECTION

The Districts intend to provide for the acquisition, construction, completion, installation and/or operation and maintenance of street improvements, both on-site and off-site, including curbs, gutters, sidewalks, bridges, overpasses, bike paths and pedestrian ways, irrigation, landscape, streetscape and entryways, parking lots and structures, and a system of traffic and safety controls and devices on streets and highways, including signalization, together with all necessary, incidental, and appurtenant facilities, right-of-ways, land and easements, together with extensions of and improvements to said facilities within and without the boundaries of the Districts. The Districts will only provide for the arterial and collector roads and streets that serve the entire development.

All streets and safety protection facilities will be constructed in accordance with engineering and design requirements appropriate for the surrounding terrain, and shall be compatible with the standards of the County of El Paso, the Colorado Department of Transportation, and other local public entities as may be appropriate.

The District recognizes that it may be required to make a fair contribution to offsite road improvements needed for facilities including extensions of Curtis Road.

DRAINAGE

All storm sewers and facilities will be constructed in accordance with the standards and specifications of the Colorado Department of Transportation, the County of El Paso, and any other local jurisdiction as appropriate. Again, the drainage improvements would be phased along with other capital construction improvements; however, if drainage improvements are required to be up-fronted or constructed in advance of a normal schedule, the Owner will be entitled to reimbursement. The drainage improvements would consist of detention/retention ponds, roadway swales and piping. Drainage improvements that are an integral part of the street and roadway system will be maintained by El Paso County along with routine street maintenance. Detention ponds will be maintained by the Districts. All drainage structures and facilities will be coordinated with the regional drainage plan of El Paso County.

WATER DISTRIBUTION AND STORAGE

The water distribution and storage system will consist of, but not be limited to, pipes, fire

hydrants, storage facilities, pumping stations, controls, deep well construction, wells, treatment systems, turbine pumps and related equipment. The water system will be coordinated with the Falcon Fire Protection District and the Peyton Fire Protection District in order to meet their requirements with regard to fire flows. Water quality will meet all standards as set by the State Department of Health or other applicable laws and regulations. The water system shall comply with all federal, state, and county requirements, including any requirements shown on approved plats. The District will adopt industrial pre-treatment water quality standards which will be enforced by ordinance by the District.

Water will be available for use within the proposed District from ground water municipal wells and other sources. Title to the well permits and concomitant water rights are currently held by the Owners. Water rights, sufficient for each plat, will be assigned and transferred to the Districts as each plat is recorded.

The total water system will be phased.

SANITARY SEWER SYSTEM

The wastewater treatment and/or collection facilities will be designed, constructed and maintained in accordance with the standards of the Colorado Department of Health and the County of El Paso, and any other state or federal rules and regulations. The sanitary sewer system would consist of a complete collection system with forced main sewage lift stations to deliver sewage to the Sunset Metropolitan District Plant. The Owners have purchased an ownership interest in this plant and are also planning for the eventual enlargement of the sewage capability through a new tertiary treatment plant that could be utilized to recharge the Black Squirrel Basin. The Districts may also participate in intergovernmental agreements with other service providers in the region.

PARK AND RECREATION

Park and recreation facilities of the Districts would consist of undisturbed open space, improved park areas, recreation centers, and trails. Recreation facilities may also include a golf course (with related facilities), equine trails and facilities in the future. Again, these improvements would be phased along with the rest of the development and will be paid for by the Owner. See Exhibit 4. Treated wastewater eventually may be utilized for irrigation of parks and open space. Mosquito control as required will also be provided.

TELEVISION RELAY AND TRANSLATION/CABLE TELEVISION

The Service District may design, acquire, construct, complete, install, operate and maintain

television relay and translation facilities, cable and communication facilities, fiber optic conduit network, together with all necessary, incidental and appurtenant facilities, land and easements, and all necessary extensions of and improvements to said facilities.

Exhibit 4 does not detail the Capital Infrastructure Costs for the installation of cable t.v. as it is presently unknown whether the cable t.v. operation will be retained and owned by the District or whether services will be provided by an outside entity.

OPERATION, MAINTENANCE AND ADMINISTRATION

The proposed District No. 1 would operate and maintain all major public facilities. It is planned that the wastewater treatment facilities will be operated in cooperation with Sunset Metropolitan District. The financial plan does not include those costs associated with the marketing and development which are not the responsibility of the District. In the formative years, it is anticipated that the user charges will be inadequate to meet the expenses of operation, maintenance and administration, in which case the same shall be funded by the Owner subject to reimbursement.

- (a) District No. 1 will cause improvements to be designed and constructed according to County and other local and state specifications.
- (b) The Districts understand that other agencies may be involved due to the type of infrastructure.

OWNER RESPONSIBILITIES

The Owner, and through its development company has assumed the responsibility of providing the necessary credit enhancements to support the issuance of the initial revenue bonds. In addition, the owner shall provide a mechanism to meet any financial shortfalls in District operations subject to reimbursement.

E. INTERGOVERNMENTAL AGREEMENTS

Exhibit 8 sets forth the initial intergovernmental agreement ("IGA") which has been entered into between the three Districts and which can be amended. While the final IGA is yet to be adopted, it is anticipated that it will be in the form presently set forth. The IGA sets forth the terms for facilities funding, construction, and operation. The IGA recognizes the voter approved debt and requires District No. 2 and No. 3 to issue this debt when and as it is needed. The IGA further

provides the guidelines for construction management and operations by District No. 1.

F. MISCELLANEOUS

The following is additional information to further explain the functions of the Districts:

- (a) The contemplated municipal services are under the jurisdiction of the Special District Control Act and not the Public Utilities Commission.
- (b) The Owner intends to meet all requirements of the El Paso County Land Development Code as may be required.
- (c) As a water provider, a summary of the water resources and estimate of uses is attached as Exhibit 9.
- (d) This project is in compliance with the duly adapted County, Regional and State Long-Range Water Quality Management Plan insofar as the Sunset Metropolitan District has been designated as a regional facility.
- (e) The Sunset Metropolitan Facility is already permitted by the State of Colorado and the proposed District will meet all requirements of said permit.
- (h) At this time there are no plans to exercise the power of eminent domain within or without the District's boundaries; however, the power shall be available for use by the District as allowed by law.

G. OVERLAPPING TAXING ENTITIES.

The following are the mill levies certified by other overlapping taxing entities:

El Paso County	6.43 mills
EPC Road and Bridge	1.582 mills
Falcon School No. 49	43.281 mills (part of the Districts)
Pikes Peak Library	3.495 mills
Falcon Fire District	5.712 mills
Upper Black Squirrel	7.55 mills
Peyton School No. 23	39.399 mills (part of the Districts)

H. COMPLIANCE

The Owner will supply all such additional information as may be required by the Board of County Commissioners and agrees that:

1. An annual report will be required and submitted as described in C.R.S. 32-1-207(3)(d);
2. The Districts may be dissolved in accordance with statutory procedures in the event development activity permanently ceases and the District is failing to provide any services; and
3. Should material modifications occur as described in C.R.S. 32-1-207(2), the Districts shall apply for approval of such modifications to the Board of County Commissioners.
4. At the direction of the Board of Directors, District No. 1 may be dissolved or consolidated with District No. 2 or 3.
5. Any future annexations of territory more than 5 miles from the initial boundaries of the District shall be considered a material modification of this Service Plan requiring the approval of the Board of County Commissioners.
6. The District shall not have the authority to apply for or utilize any Conservation Trust ("Lottery") funds without the express prior consent of the Board of County Commissioners. The District shall have the authority to apply for and receive any other grant funds, including, but not limited to, Great Outdoors Colorado (GOCO) discretionary grants. Such approval, although required, is not considered to be a major modification which would require the need to revise this Service Plan.

I. CONCLUSION

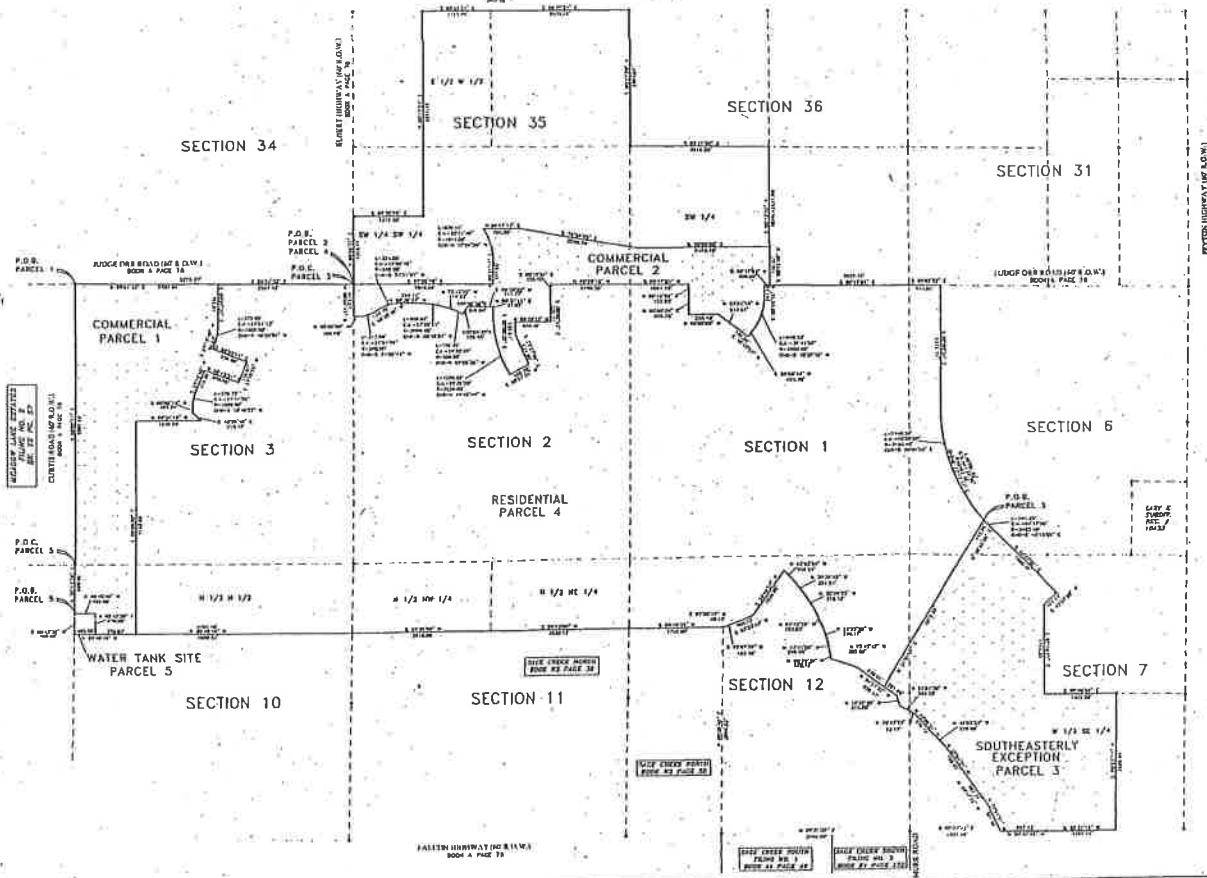

To meet the long term public improvement and service needs of the future residents of Santa Fe Springs it is proposed that the three Districts perform the municipal functions that are described in this Service Plan.

It is submitted that this Service Plan for the proposed Districts establishes that:

- (a) There is sufficient existing and projected need for organized service in the area to be serviced by the proposed Districts;
- (b) The existing service in the area to be served by the proposed Districts is inadequate for present and projected needs;
- (c) The proposed Districts are capable of providing economical and sufficient service to the Development;
- (d) The area to be included in the proposed Districts does have, and will have, the financial ability to discharge the proposed indebtedness on a reasonable basis;
- (e) Adequate service is not, and will not be, available to the area through the County or other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis;
- (f) The facility and service standards of the proposed Districts are compatible with the facility and service standards of the County within which the proposed special district is to be located and each municipality which is an interested party under Section 32-1-204(I), Colorado Revised Statutes;
- (g) The proposal is in substantial compliance with a master plan adopted pursuant to Section 30-28-106, CRS; and,
- (h) The proposal is in compliance with any duly adopted County, regional, or state long-range water quality management plan for the area; and,
- (i) The creation of the proposed Districts is in the best interests of the area proposed to be served.

DISTRICT COURT, EL PASO COUNTY, COLORADO 270 S. Tejon Street Colorado Springs, CO 80903 <hr/> IN THE MATTER OF THE ORGANIZATION OF THE SANTA FE SPRINGS METROPOLITAN DISTRICT NO. 1	▲ COURT USE ONLY ▲
Attorneys for the Division of Local Governments: CYNTHIA H. COFFMAN, Attorney General LEEANN MORRILL, No. 38742* First Assistant Attorney General MATTHEW D. GROVE, No. 34269* Assistant Solicitor General 1300 Broadway, 6 th Floor Denver, CO 80203 Telephone: (720) 508-6157 Email: leeann.morrill@coag.gov ; matt.grove@coag.gov *Counsel of Record	Case No. 2004 CV 3805
<p style="text-align: center;">PETITION FOR ORDER AND CERTIFICATION OF DISSOLUTION OF SPECIAL DISTRICT</p>	

COMES NOW the Division of Local Government ("the Division") of the Colorado Department of Local Affairs, by and through the Colorado Attorney General and undersigned counsel, and petitions the Court to certify the Division's Declaration of Dissolution of the Santa Fe Springs Metropolitan District No. 1. As grounds for this petition, the Division states as follows:

1. The Santa Fe Springs Metropolitan District No. 1 ("the District") is a quasi-municipal corporation and political subdivision organized pursuant to the provisions of article 1 of title 32, C.R.S.
2. Colorado law requires that Title 32 special districts file certified copies of their annual budgets with the Office of the Division of Local Government of the Department of Local Affairs and hold or properly cancel elections. Sections 29-1-116 and 32-1-801 to 835, C.R.S., respectively.
3. The Division has not received a copy of the District's budget for the past two consecutive years nor has the Division received a certification of the District's election results from the most recent regular election.
4. Pursuant to § 32-1-710(2)(a), C.R.S., the Division is authorized to declare a special district dissolved if the district has failed to demonstrate to the Division that the district has performed its statutory or service responsibilities or will proceed to perform such

responsibilities. Pursuant to § 32-1-710(2)(b), C.R.S., there is a presumption of such failure if the district has failed to hold or properly cancel an election, no board has been appointed pursuant to § 32-1-905(2.5), C.R.S., and there will be no interruption of services being provided by the district.

5. The Division believes administrative dissolution of the District pursuant to § 32-1-710, C.R.S. is appropriate, because the District has failed to hold or properly cancel an election and has not provided or attempted to provide any of the services or facilities for which the District was organized for two consecutive years and because the District has not responded to the Division's letter informing the District of the Division's intent to dissolve it.
6. Pursuant to § 32-1-710(1), C.R.S., the Division notified the District by first-class certified mail of the Division's intent to certify the District dissolved. Copies of the Notice and certified mail receipt numbered 7003-3110-0003-1641-6437 are attached hereto as **Exhibit 1**, at pages 4-6. More than thirty days have passed since the Division notified the District of its intent to certify the District dissolved, during which time the District has not objected and has failed to demonstrate to the Division that the District has performed or will proceed to perform its statutory and/or service responsibilities.
7. The Division has declared the District dissolved. The Division's Declaration of Dissolution is filed with this Court contemporaneously with this Petition as **Exhibit 1**, at pages 1-3.
8. The Division has provided notice of its application to this Court for certification of the Division's Declaration of Dissolution by sending true and complete copies of this Petition and the Declaration of Dissolution, by first-class U.S. mail to the interested parties listed on the attached Certificate of Service in accordance with § 32-1-710(3), C.R.S.

The Division respectfully petitions the Court for certification of the dissolution of the Santa Fe Springs Metropolitan District No. 1 and for an Order disposing of any of the assets of the District in accordance with § 32-1-708, C.R.S. Pursuant to § 32-1-801(3), the Division respectfully requests that the Court "make a determination on the division's declaration within thirty days after the declaration has been submitted."

Dated this 6th day of October, 2016.

A request by the Planning and Community Development Department for approval of a map amendment (rezoning) of 11 parcels totaling 1,018.72 acres from PUD (Planned Unit Development) to A-35 (Agricultural). The parcels are located south of Judge Orr Road and east of Curtis Road. (Parcel Nos. 43000-00-534, 43000-00-537, 43000-00-538, 42000-00-364, 43000-00-543, 43000-00-544, 43000-00-556, 43000-00-557, 43000-00-561, 43000-00-562, and 43000-00-564)

Mr. Raimere Fitzpatrick gave an overview of the entire Santa Fe Springs PUD requests and introduced **Ms. Lori Seago** to go over the approval criteria.

Mr. Curry – What precipitated the need to rezone this area now versus 5 years ago when the deadline actually occurred? Answer from **Mr. Fitzpatrick** – There have been Early Assistance requests in and around this area. We have found that applications are being affected by the current zoning of this area and the need to show compatibility. We have had the MTCP update that relies on the Santa Fe Springs densities as well as other plans.

Mr. Dossey – Any decision to initiate a County rezoned area is my decision. That's why it's on the agenda. We had to tell customers that they couldn't subdivide their property because of the zoning. Basically, their land had been sterilized. We have to take ownership in that and decide at some point to make the change. In 2007, we had full staff, and then the recession hit in 2008. We simply didn't have the staff to take on a project of this size. It's been frustrating for staff and property owners. We should have taken that action 15 years ago.

Mr. Gioia – We have this letter from RMG and they don't disagree with the rezone, they disagree with it being A-35 blanket zoning. Answer from **Mr. Fitzpatrick** – we did think initially we could offer a choice to individual home owners, but as we evaluated that it's not a defensible position. Each zone district is identified with a particular legal description. Where we have properties that cross boundaries, we would have split zoning within the same legal description. This wouldn't be the right vehicle to do that case-by-case as far as individual rezoning. We are resetting to A-35 and then affording each property owner to request a more favorable zone.

Mr. Gioia – Wouldn't a rezone put owners in a different taxing area? Answer from **Mr. Fitzpatrick** – An agricultural zone is actually less for taxing purposes.

Mr. Curry – Is it safe to assume that if the rezone is approved, anyone who is in nonconformance would they be grandfathered in? Answer – yes that's correct.

IN FAVOR:

Mr. Bob Mattucci, RMG – I have been working with the Planning Department and it has been a pleasure. We acquired this property in 2008 and we are one of the beneficiaries of not being able to develop. We had a study completed and it was determined that development could occur around the year of 2035. A buyer that we had interested has asked for the PUD to be removed. I am 100% in support of the PUD being lifted. I would ask that an RR-5 rezone be considered for our 2,400 acres. However, whatever the case may be, the removal of the PUD is most important.

Mr. Dan Carliss, Coronado Realty – We are in process of purchasing the property that Mr. Mattucci referred to. This County is an easy one to deal with, so thank you for that. We are in favor of the PUD being terminated. It is time to reset and allow the property owners and allow it to pass and be developed. If it goes to A-35 then we would be able to do a rezone as we need.

MR. BILL SHIELDS – I have a small property I purchased about 3 years ago. I'd like to say thank you. We'd like to get out from under the current zoning. This has been a behemoth problem for many reasons. We have had water rights issues, our land deeded to another, etc. If I wanted to develop, I can't do it; so this gives us the opportunity to have more freedom and get out from under the PUD. I'm okay with a rezone to A-35.

MRS. SUSAN SHIELDS – This has been going on for more than 15 years, and it was stated that if it didn't get developed it would go back to 35 acres. We were told we'd have no issue getting a well permit. Density is a big issue and start fresh is needed. Santa Fe Springs is a can of worms. So we are in favor of getting out from under this PUD.

IN OPPOSITION: None

Mr. Creely – I'm in the position of saying I'm in favor, but my question is will everything go back to A-35? If so, how much complexity will this be for the applicants to go to something other than A-35? Answer from **Mr. Fitzparick** – Yes, they all go back to A-35. The removal of the PUD and reverting back to A-35 gives them a more favorable position in moving forward.

MAP AMENDMENT (REZONING) (RECOMMEND APPROVAL)

Commissioner Gioia moved that the following Resolution be adopted:

BEFORE THE PLANNING COMMISSION

OF THE COUNTY OF EL PASO

STATE OF COLORADO

RESOLUTION NO. P-17-013

WHEREAS, El Paso County Planning and Community Development did file an application with the El Paso County Planning and Community Development Department for an amendment of the El Paso County Zoning Map to rezone property in the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated herein by reference from the PUD (Planned Unit Development) zoning district to the A-35 (Agricultural) zoning district; and

WHEREAS, a public hearing was held by this Commission on November 7, 2017; and

WHEREAS, based on the evidence, testimony, exhibits, consideration of the master plan for the unincorporated area of the County, presentation and comments of the El Paso County Planning and Community Development Department and other County representatives, comments of public officials and agencies, comments from all interested persons, comments by the general public, and comments by the El Paso County Planning Commission Members during the hearing, this Commission finds as follows:

1. The application was properly submitted for consideration by the Planning Commission.
2. Proper posting, publication and public notice was provided as required by law for the hearing before the Planning Commission.
3. The hearing before the Planning Commission was extensive and complete, that all pertinent facts, matters, and issues were submitted and that all interested persons were heard at that hearing.
4. The application is in general conformance with the El Paso County Master Plan including applicable Small Area Plans or there has been a substantial change in the character of the neighborhood since the land was last zoned.
5. The proposed land use or zone district is compatible with existing and permitted land uses and zone districts in all directions.

6. The site is suitable for the intended use, including the ability to meet the standards as described in Chapter 5 of the Land Development Code, for the intended zone district
7. The proposed land use does not permit the use of any area containing a commercial mineral deposit in a manner which would interfere with the present or future extraction of such deposit by an extractor.
8. For the above-stated and other reasons, the proposed amendment of the El Paso County Zoning Map is in the best interest of the health, safety, morals, convenience, order, prosperity and welfare of the citizens of El Paso County.

NOW, THEREFORE, BE IT RESOLVED that the Planning Commission recommends that the petition of El Paso County Planning and Community Development for an amendment to the El Paso County Zoning Map to rezone property located in the unincorporated area of El Paso County from the PUD (Planned Unit Development) zoning district to the A-35 (Agricultural) zoning district be approved by the Board of County Commissioners:

BE IT FURTHER RESOLVED that the Planning Commisison recommends the following conditions and notations shall be placed upon this approval:

CONDITIONS

1. Any requests to rezone property to any zoning district other than what is approved by this action will require submittal of an application for a map amendment (rezoning) to the Planning and Community Development Department.
2. Future land use applications, which may include but not necessarily be limited to, map amendments (rezonings), preliminary plans, and/or final plats, shall include reports, plans, and other documentation as determined by the Planning and Community Development Director necessary to analyze impacts to the surrounding transportation network, on and off-site drainage and stormwater impact, soils and geology and related hazards, wildlife impacts, floodplain impacts, water and wastewater resources, and the feasibility of central/urban services.
3. Approval of the County initiated rezoning of the Santa Fe Springs PUD 2 shall render the Santa Fe Springs Sketch Plan (PCD File No. SKP-04-003) as invalid and no longer binding upon future development of the affected properties.

NOTATIONS

1. If a zone or rezone petition has been disapproved by the Board of County Commissioners, resubmittal of the previously denied petition will not be accepted for a period of one (1) year if it pertains to the same parcel of land and is a petition for a change to the same zone that was previously denied. However, if evidence is presented showing that there has been a substantial change in physical conditions or circumstances, the Planning Commission may reconsider said petition. The time limitation of one (1) year shall be computed from the date of final determination by the Board of County Commissioners or, in the event of court litigation, from the date of the entry of final judgment of any court of record.

2. Rezoning requests not forwarded to the Board of County Commissioners for consideration within 180 days of Planning Commission action will be deemed withdrawn and will have to be resubmitted in their entirety.

AND BE IT FURTHER RESOLVED that this Resolution and the recommendations contained herein be forwarded to the Board of County Commissioners for its consideration.

RESOLUTION NO. 17-

EL PASO COUNTY BOARD OF COUNTY COMMISSIONERS, STATE OF COLORADO

APPROVAL OF THE SANTA FE SPRINGS PUD 6 MAP AMENDMENT (REZONING) (P-17-013)

WHEREAS El Paso County Planning and Community Development did file an application with the El Paso County Planning and Community Development Department for an amendment to the El Paso County Zoning Map to rezone for property located within the unincorporated area of the County, more particularly described in Exhibit A, which is attached hereto and incorporated by reference from the PUD (Planned Unit Development) zoning district to the A-35 (Agricultural) zoning district; and

WHEREAS, a public hearing was held by the El Paso County Planning Commission on November 7, 2017, upon which date the Planning Commission did by formal resolution recommend approval of the subject map amendment application; and

WHEREAS, a public hearing was held by this Board on December 12, 2017; and

WHEREAS, based on the evidence, testimony, exhibits, consideration of the master plan for the unincorporated area of the County, presentation and comments of the El Paso County Planning and Community Development Department and other County representatives, comments of public officials and agencies, comments from all interested persons, comments by the general public, comments by the El Paso County Planning Commission Members, and comments by the Board of County Commissioners during the hearing, this Board finds as follows:

1. The application was properly submitted for consideration by the Board of County Commissioners.
2. Proper posting, publication, and public notice were provided as required by law for the hearings before the Planning Commission and the Board of County Commissioners of El Paso County.
3. The hearings before the Planning Commission and the Board of County Commissioners were extensive and complete, all pertinent facts, matters and issues were submitted and reviewed, and all interested persons were heard at those hearings.
4. The proposed zoning is in compliance with the recommendations set forth in the Master Plan for the unincorporated area of the county.

5. The proposed land use will be compatible with existing and permitted land uses in the area.
6. The proposed land use does not permit the use of any area containing a commercial mineral deposit in a manner, which would interfere with the present or future extraction of such deposit by an extractor.
7. For the above-stated and other reasons, the proposed Amendment to the El Paso County Zoning Map is in the best interest of the health, safety, morals, convenience, order, prosperity and welfare of the citizens of El Paso County.
7. Changing conditions clearly require amendment to the Zoning Resolutions.

NOW, THEREFORE, BE IT RESOLVED the El Paso County Board of County Commissioners hereby approves the petition of El Paso County Planning and Community Development to amend the El Paso County Zoning Map to rezone property located in the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated by reference, from the PUD (Planned Unit Development) zoning district to the A-35 (Agricultural) zoning district ;

BE IT FURTHER RESOLVED the following conditions and notations shall be placed upon this approval:

CONDITIONS

1. Any requests to rezone property to any zoning district other than what is approved by this action will require submittal of an application for a map amendment (rezoning) to the Planning and Community Development Department.
2. Future land use applications, which may include but not necessarily be limited to, map amendments (rezonings), preliminary plans, and/or final plats, shall include reports, plans, and other documentation as determined by the Planning and Community Development Director necessary to analyze impacts to the surrounding transportation network, on and off-site drainage and stormwater impact, soils and geology and related hazards, wildlife impacts, floodplain impacts, water and wastewater resources, and the feasibility of central/urban services.
3. Approval of the County initiated rezoning of the Santa Fe Springs PUD 2 shall render the Santa Fe Springs Sketch Plan (PCD File No. SKP-04-003) as invalid and no longer binding upon future development of the affected properties.

NOTATIONS

1. If a zone or rezone petition has been disapproved by the Board of County Commissioners, resubmittal of the previously denied petition will not be accepted for a period of one (1) year if it pertains to the same parcel of land and is a petition for a change to the same zone that was previously denied. However, if evidence is presented showing that there has been a substantial change in physical conditions or circumstances, the Planning Commission may reconsider said petition. The time limitation of one (1) year shall be computed from the date of final determination by the Board of County Commissioners or, in the event of court litigation, from the date of the entry of final judgment of any court of record.
2. Rezoning requests not forwarded to the Board of County Commissioners for consideration within 180 days of Planning Commission action will be deemed withdrawn and will have to be resubmitted in their entirety.

AND BE IT FURTHER RESOLVED the record and recommendations of the El Paso County Planning Commission be adopted, except as modified herein.
