Tamlin Road RV and Boat Storage, PPR-19-045

Please accept the following comments from El Paso County Public Health regarding the project referenced above:

- There currently isn't a plan for an on-site office that would require water and wastewater connection. Should an on-site office be necessary as reference in the Letter of Intent, then it must be connected to central water and sanitation. Cherokee Metropolitan District is in the vicinity.
- Earthmoving activity in excess of one acre, but less than twenty-five acres, requires a local Construction Activity Permit from El Paso County Public Health. Go to <https://www.elpasocountyhealth.org/service/air-quality/construction-activity-application> for more information.
- The water quality basins must have mosquito control responsibilities included as a part of the construction design and maintenance plan to help control mosquito breeding habitat and minimize the potential for West Nile Virus.
