Hello

My name is Jeanna Lanucha. I live at 810 Slocum Rd .

We built here in 1978. Toy ranch estates, properties meant for family, residential, hobby farms. It began with covenants to protect that fact. It restricted abuse of that intent. Keeping the pleasant country atmosphere. It restricted the number of parked cars and unpleasant situations like pig farms. I realize that the covenants expired and were not renewed. With that fact in mind, the intent of the original understanding was a quiet pleasant place to raise a family and maintain a country lifestyle.

The property at 625 Slocum Rd has recently been purchased within the last year. They have moved in a fleet of heavy trucks and equipment. They have put up a temporary industrial black fabric fence around it. Last night I was sitting on my porch at 6:30 . The sound of working on equipment tore through the peace and quiet. I'm not sure what it was but it sounded like a working tire shop. I have often heard the banging and noises of industrial work. I can imagine the oil and fluid spills.

Our community of small homes and hobby farms will forever change if this is allowed to continue. We all established in this area for the peace and quiet. We have a lot invested in our homes and treasure them. This peace has been disturbed by someone who purchased in a residential area to open a trucking business with a large fleet . It has only been about 6 months. I hate to think what they might do with more time. I have lived here close to 50 years. I love my home and our small neighborhood. Please help us preserve and protect our peace.

Thank you
Jeanna Lanucha
