Re: Water Service to Front Range-Midway Solar Project

Dear Sir or Madam:

The Front-Range-Midway Solar Project has purchased three water taps within the Comanche/Wigwam decreed water service area. The Wigwam Mutual Water Company (Wigwam), a consumer owned utility, under public water system ID# CO 0121470 will deliver potable water to the solar project according to the By-Laws, Rules and Regulations of Wigwam, as may be amended from time to time; Decreed Augmentation Plans; and as allowed by the State Water Engineer. Wigwam's water rights are understood to be "renewable" water resources under the El Paso County 300-year water supply rules. Water is pumped from the Fountain Creek Alluvial Aquifer by commercial wells and treated by filters and chlorination at Wigwam's treatment plants according to EPA Standards.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Smith", with a stylized flourish at the end.

Gary Smith
