SUBJECT: 8140 Cessna Drive
Meadow Lake Airport Hanger
Pond Acceptance Letter PPR 2138

Gentlemen

In accordance with the approved construction drawings for 8140 Cessna Drive, improvements were made to construct the private full spectrum detention pond including water quality facility in compliance with the current El Paso County Drainage Criteria and the approved Final Drainage Report for this project.

Based upon this information, periodic site visits by personnel during significant/key phases of the stormwater BMP installation and our as-built surveys, personnel of this office are of the opinion that the detention and stormwater BMP's have been construction in general compliance with the approved design plans and specifications as filed with El Paso County.

Statement OF Engineer of Record

To the best of my knowledge, information and belief, for the reference project above, the improvements have been constructed in general compliance with the approved design plans and specifications as filed with El Paso County. The facilities provide the required storage volume and will meet the required release rates, as documented by the attached UD-Detention design form.
