Hi Ryan – last year we opened a CDR project, CDR238 for regional drainage improvements at Eagleview. These improvements are a County responsibility and proved to be too expensive for the developer to take over. This year, we are amending the DBPS, MDP232 to recommend more efficient facilities. We go to Drainage Board next week. The proposed drainage plans will be submitted with the Final Plat, SF2242. From our perspective CDR238 can be closed.
