PUD and Preliminary Plan. The ER road and trails need to be constructed with tis phase...

PHASED CONSTRUCTION AND ANTICIPATED DEVELOPMENT SCHEDULE:

Filing No. 6 utilizes the existing public roadway and utility infrastructure installed with Forest Lakes Filing No.

5. No phasing of Filing No. 6 is proposed.

DEVIATION REQUESTS:

No deviation requests for Filing No. 6 are being requested.

JUSTIFICATION:

The proposed Filings 6 is the next logical phase of this previously approved Residential Community. The layout of the street network is unchanged from the previously approved anticipated design. The total quantity of lots in this area is unchanged from the approved PUD/Preliminary Plan.

This proposed plat within the developing Forest Lakes Community is proposed in accordance with the approved Forest Lakes PUD Development Plan and Preliminary Plan.

The proposed development will provide single family residential housing lots.

Required fees will be paid at time of plat recording.

This application meets the final plat submittal requirements, the standards for Divisions of Land in Chapter 7, and the standards for Subdivision in Chapter 8 of the El Paso County Land Development Code (2016). Final Plats are reviewed and approved in consideration of the review criteria found in the El Paso County Land Development Code.

1. *The subdivision is in conformance with the goals, objectives, and policies of the Master Plan.*

One of the elements is the El Paso County Policy Plan (1998), which does not include site-specific land use policies, but establishes broad policies and goals which are intended to serve as a framework for decision-making regarding development of the County. The project satisfies the following relevant policies from the Policy Plan as they specifically relate to this request: **Policy 6.1.3** – Encourage new development which is contagious and compatible with previously developed areas in terms of factors such as density, land use and access. **Policy 6.1.4** – Encourage the logical timing and phasing of development to allow for the efficient and economical provision of facilities and services. **Policy 6.2.11** – Encourage compatible physical character, density and scale in existing neighborhoods.

The proposed subdivision is consistent with the surrounding residential zoned properties to the east. The proposed subdivision is adjacent to and is the logical extension of the previously platted Forest Lakes Filing No. 5. The proposed subdivision is the continuation of the ongoing Forest Lakes development with similar lot sizes and densities as the completed phases of Forest Lakes as well as existing residential development in the immediate vicinity. The site is not contained within any Small Area Plans of the County. The proposed subdivision plat is in compliance with the Parks Master Plan, which does not call for trails or parks in the site vicinity. The proposed subdivision is also in compliance with the Master Plan for Mineral Extraction as no separate mineral estate owners were found for the property and the existing development on surrounding properties is not compatible with any potential mineral extraction operations.

2. *The subdivision is in substantial conformance with the approved preliminary plan.*
The proposed Final Plat is consistent and in conformance with the previously approved 2019 Preliminary Plan Amendment for the Forest Lakes development.
3. *The subdivision is consistent with the subdivision design standards and regulations and meets all planning, engineering, and surveying requirements of the County for maps, data, surveys, analyses, studies, reports, plans, designs, documents, and other supporting materials.*
The proposed Final Plat is prepared in accordance with all applicable subdivision design standards.
4. *A sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. 30-28-133(6)(a)] and the requirements of Chapter 8 if this Code.*
The site is contained within the service area of the Forest Lakes Metropolitan District and the District has agreed to serve the property. The Office of the State Engineer has reaffirmed adequate water supply for the last four Final Plat applications contained within the operable PUD Development Plan/ Preliminary Plan.
5. *A public sewage disposal system has been established and, if other methods of sewage disposal are proposed, the system complies with State and local laws and regulations, [C.R.S. 30-28-133(6)(b)] and the requirements of Chapter 8 of this Code.*
The site is contained within the service area of Forest Lakes Metropolitan District and the District has agreed to serve the property. The sanitary sewer mains to serve the proposed site will be extended from mains already constructed in Filing No. 1, which were approved by the District.
6. *All areas of the proposed subdivision which may involve soil or topographical conditions presenting hazards or requiring special precautions have been identified and that the proposed subdivision is compatible with such conditions [C.R.S. 30-28-133(6)(c)].*
A soils report has been prepared for the site and the owner will comply with the recommendations of the report.
7. *Adequate drainage improvements are proposed that comply with State Statute [C.R.S. 30-28-133(3)(c)(VIII)] and the requirements of this Code and the ECM.*
The Forest Lakes development has planned a comprehensive drainage system that continues to be developed as each project phase is constructed. Filing No. 6, will add adequate drainage improvements necessary to serve this subdivision.
8. *Legal and physical access is provided to all parcels by public rights-of-way or recorded easement, acceptable to the County in Compliance with this Code and the ECM.*
Each proposed lot on the site will access a public street. Forest Lakes Filing No. 6 will provide the westerly extensions of Mesa Top Road.
9. *Necessary services, including police and fire protection, recreation, utilities, and transportation systems, are or will be made available to serve the proposed subdivision.*
The site is located within the jurisdiction of the El Paso County Sheriff's Office. The Sheriff's office currently provided police protection for the site and surrounding area. Forest Lakes Filing No. 6 is located within the Tri-Lakes Monument Fire Protection district. Fire Hydrant locations for the site will be approved by the district. Water and Sanitary Sewer infrastructure is being provided by the developer in accordance with Forest Lakes Metropolitan District standards. The completed development will include natural open space. Transportation is provided by the adjacent existing and proposed public roadway system.
10. *The final plans provide evidence to show that the proposed methods for fire protection comply with Chapter 6 of this Code.*

are also depicted in
the CDS

Forest Lakes Filing No. 6 is located within the Tri-Lakes Monument Fire Protection District. The water main system is designed to provide adequate fire flows at the site as required by Tri-Lakes Metropolitan District. Fire Hydrant locations for the site will be reviewed and approved.

11. *Off-site impacts were evaluated and related off-site improvements are roughly proportional and will mitigate the impacts of the subdivision in accordance with applicable requirements of Chapter 8.*

No off-site impacts have been identified. The owner has requested the property be admitted to PID #3.

12. *Adequate public facilities or infrastructure, or cash-in-lieu, for impacts reasonably related to the proposed subdivision have been constructed or are financially guaranteed through the SIA so the impacts of the subdivision will be adequately mitigated.*

The Subdivision Improvement Agreement (SIA) includes provision to guarantee construction of the necessary infrastructure. The platting of the site will include the collection of the applicable Drainage Fees, School Fees and Park Fees.

13. *The subdivision meets other applicable sections of Chapter 6 and 8.*

The subdivision meets the requirements of the Land Development Code and previous subdivision plat filings were approved by the BOCC in 2014 and 2016.

14. *The extraction of any known commercial mining deposit shall not be impeded by this subdivision [C.R.S. 34-1-302(1), et seq.].*

No separate mineral estate owners were found for the property and the existing development on surrounding properties is not compatible with any potential mineral extraction operations.

EXISTING AND PROPOSED FACILITIES, STRUCTURES, ROADS, ETC.:

All adjacent roadway and utility infrastructure are in place to support the next logical phases of development for this previously approved residential community.

Existing offsite roads include Mesa Top Road (60' row), Forest Lakes Drive (60' row) constructed by this owner/developer in cooperation with El Paso County.

ER ACCESS ROAD TO FOREST and development; trails

Existing facilities provided in adjacent Forest Lakes Filing No. 5 include a portion of Mesa Top Road (60 row), as well as the associated mainline utilities and utility services.

Utility Providers:

Water and Wastewater: Forest Lakes Metro District

Gas: Black Hills Energy

Electrical: Mountain View Electric

UTILITIES- WATER AND SEWER:

Water and sewer will be provided by Forest Lakes Metropolitan District. The district has provided a detailed Service Commitment letter which explains how capacity is available for the planned development. The developer will construct all streets, utilities and storm drainage improvements. Utilities will be routed underground in the public streets and utility easement per El Paso County design standard. Forest Lakes Metropolitan District will provide maintenance of proposed water and sewer system.

WATER MASTER PLAN ANALYSIS

The El Paso County Water Master Plan (2018) has three main purposes; better understand present conditions of water supply and demand; identify efficiencies that can be achieved; and encourage best practices for water

demand management through the comprehensive planning and development review process. Relevant policies are as follows:

Goal 1.1 – Ensure an adequate water supply in terms of quantity, dependability and quality for existing and future development.

Goal 1.2 – Integrate water and land use planning.

Goal 3.1 – Promote cooperation among water providers to achieve increased efficiencies on infrastructure.

Policy 4.1.4 – Work collaboratively with water providers, stormwater management agencies, federal agencies, and State agencies to ensure drinking water sources are protected from contamination and meet or exceed established standards.

Policy 6.0.11– Continue to limit urban level development to those areas served by centralized utilities.

The subject property is located within Region 2, Forest Lakes Metro District Service Area, which is expected to experience significant growth in the County by 2060. Specifically, the plan states:

Region 2 has a current water supply of 13,607-acre feet per year and a current demand of 7532-acre feet per year. The 2040 water supply is projected to be 20,516-acre feet per year and the projected demand is 11,713-acre feet.

Forest Lakes Metro District has provided a water and wastewater commitment letter to serve the development. The District indicates it has ample supply of water to service this development and future developments within the District. The District’s water supply includes the Dillon Well and recently constructed surface water treatment plant.

Forest Lakes Metro District provides water service and has committed to serve the property. Water quantity, quality and dependability are sufficient and previously approved.

FIRE PROTECTION:

Forest Lakes Filing No. 6 is located completely within the Tri-Lakes Monument Fire Protection District and the District has provided a letter of agreement to serve.
