Re: Colorado Military Academy, PPR-17-012, Review 2 Response

Dear Ms. Ruiz,

The items below are the responses to the comments from Peterson Air Force Base dated 06/05/2017.

Peterson Air Force Base

PAFB recommends sidewalk construction on north and south side of Peterson Blvd site entrance for pedestrian safety and accessibility. Due to security and safety, the Peterson Blvd site entrance can only be right in/right out for traffic. SFS puts cones in place to restrict left turns in this area due to security.

1. *We will work with PAFB to coordinate the addition of a sidewalk on the school's side of their security gate (approximately 20 feet). We will time our work to be concurrent with PAFB's addition of the pedestrian gate and sidewalk on their side of the security gate.*

Regarding left hand turns from South-bound traffic on Peterson Road, we agree that left-hand turns should not be allowed. We will communicate this to parents and help enforce that plan. Traffic plans for parents and staff are solely focused on entering and exiting our property from Space Village Ave.
