## EL PASO COUNTY, COLORADO

AUGUST 2020

Prepared for:

Provide Hydrologic  
calculations for Lot 7.

**Hammers Construction, Inc.**  
1411 Woosley Heights  
Colorado Springs, CO 80906  
(719) 570-1599

All lots, 1-7 were analyzed as (Developed lots) providing calculations for the storm conveyance system and storm WQ facility as a part of the final drainage report of Claremont Business Park 2, Fil. No. 1.

Prepared by:

Hydrologic calculations were provided for Lot 5 only, in order to analyze and provide an analysis of collected flows for the concrete channel between Lots 5 & 6, that was not analyzed as part of the Claremont Business Park 2, Fil. No. 1 drainage report.

Lot 7 does not propose any new or additional drainage collection systems, therefore hydrologic calculations are unnecessary for Lot 7.

RE: Drainage Letter for Lot 7 of Claremont Business Park 2 Filing No. 1

Dear Jennifer,

The following is the Drainage Letter for Lot 7 of Claremont Business Park 2 Fil. No. 1. The purpose of this letter is to show general conformance with the drainage patterns established by the **Final Drainage Report for Claremont Business Park 2, Fil. No. 1**. Lot 7 contains 1.249 acres and is located within the **Claremont Business Park 2 Fil No. 1** subdivision in El Paso County, Colorado. Lot 7 is bound to the east by Lot 6, to the north by Tract B (Pond 1), to the west by Ex Meadowbrook Pkwy and to the south by Lots 1 and 2. Lot 7 is at the NE corner of the intersection of Gary Watson Point (Private) and Meadowbrook Pkwy (Public). The subdivision is in the NE  $\frac{1}{4}$  of the NE  $\frac{1}{4}$  of Section 8, Township 14 South, and Range 65 West of the 6<sup>th</sup> Principal Meridian.

The **Final Drainage Report for Claremont Business Park 2, Fil. No. 1** was prepared by M&S Civil Consultants, Inc. and is currently under review by El Paso County. The west portion of Lot 7 is identified to be within Basins O where the rest of the lot is split between Basins I and J. The majority of the flows (Basin I and J) generated from Lot 7 shall be conveyed through street gutters to the storm sewer system and then conveyed to the WQ Pond planned within Tract A, at the SW corner of the subdivision. The portion of flows within Basin O will mostly be landscaping trees, bushes/grasses and decorative ground cover and these low runoff values will travel as sheet flow into Meadowbrook Pkwy as identified in the **Final Drainage Report for Claremont Business Park 2, Fil. No. 1**.

All storm, street and WQ pond improvements shall be installed per the Gary Watson Point construction plans that are currently under review by El Paso County. No additional storm sewer improvements are proposed for Lot 7. This drainage letter includes the previously approved Proposed Drainage Map for **Final Drainage Report for Claremont Business Park 2, Fil. No. 1**.

This final drainage letter for Lot 7 is in compliance with the design as proposed within the **Final Drainage Report for Claremont Business Park 2, Fil. No. 1**; therefore no negative impacts are anticipated to the downstream improvements or facilities with the approval of this drainage letter.

This site is in the Sand Creek Drainage Basin. The site is proposed to be subdivided into 11 commercial lots. Drainage fees were paid at the time of the previous platting as Tract C of Claremont Business Park Filing No. 2 (Reception No. 207712506), therefore no additional Drainage Bridge and/or Pond fees are. See Appendix of the “Final Drainage Report for Claremont Business Park Filing No. 2”, Revised November 2006, by Matrix Design Group, Inc, for previously paid drainage and bridge fees.

Respectfully,

Virgil A. Sanchez, P.E.

Revised November 2006

**Engineer's Statement:**

The *revisions* (changes made to the base Final Drainage Report since July, 2006) to the attached drainage plan and report were prepared under my direction and supervision and are correct to the best of my knowledge and belief. The revisions encompassed adding additional right of way to the study area at the County's request, the handling of offsite drainage due to the additional right of way, a breakdown of private drainage within lot numbers 10 through 25 of Filing No. 2 due to cross-lot drainage (contrary to note # 25 on the recorded plat), profiling additional inlets along the channel edge, and rip-rap sizing for outlet structures along the channel. The Final Drainage Report dated July, 2006 was prepared under the direct supervision of Richard G. Gallegos, Jr. in July, 2006 and stamped (see next sheet).

The Final Drainage Report was prepared according to the criteria established by the County for drainage reports and said report is in conformity with the master plan of the drainage basin. I accept responsibility for any liability caused by any negligent acts, errors or omissions on my part in preparing the *revisions* to this report.

**D. Drainage and Bridge Fees**

Claremont Business Park Filing No. 2 has not been previously platted. The drainage basin and bridge fees have been determined per the El Paso County Drainage Basin Fees Sheet, dated February 3, 2006, Resolution No. 06-31. The site is located entirely within the Sand Creek Drainage Basin. The fees are based upon the percent impervious of the development, which have been included within the appendix of this report. The fees due have been calculated as follows.

**Claremont Business Park Filing No. 2**  
Final Drainage Report  
Drainage and Bridge Fees

	Area (ac.)	Fee/Imp. Acre	% Imp.	Fee Due	Reimbursable Const. Costs	Fee Credit	Fee Due at Platting	Fee Credit Remaining
Drainage Fee	62.967	\$15,000.00	80%	\$755,604.00	\$0.00	\$1,225,355.45	\$0.00	\$469,751.45
Bridge Fee	62.967	\$1,503.00	80%	\$75,711.52	\$75,711.52	\$0.00	\$0.00	\$0.00
<b>Total Fee Due at Platting</b>							<b>\$0.00</b>	

The developer of Claremont Business Park is completing the construction of the channel improvements on behalf of the Central Marksheffel Metropolitan District. The construction costs for both Filing 1 and Filing 2 combined exceed the drainage fees due for the site. No drainage fees will be required at the time of platting.

It should be noted that the Central Marksheffel Business District is reimbursing the developer of Claremont Business Park Filing 2 for the construction costs of the channel minus the drainage fees due for the site. The District has \$1,225,355.45 of drainage credits available within the Sand Creek Basin. This credit amount is based upon the construction cost estimate for the channel minus the drainage fees assessed for Claremont Business Park Filing No. 1. The District will use an additional \$755,604.00 of the drainage credits for the platting of Claremont Business Park Filing No. 2. The District will have \$469,751.45 of drainage credits left within the Sand Creek Fee basin.

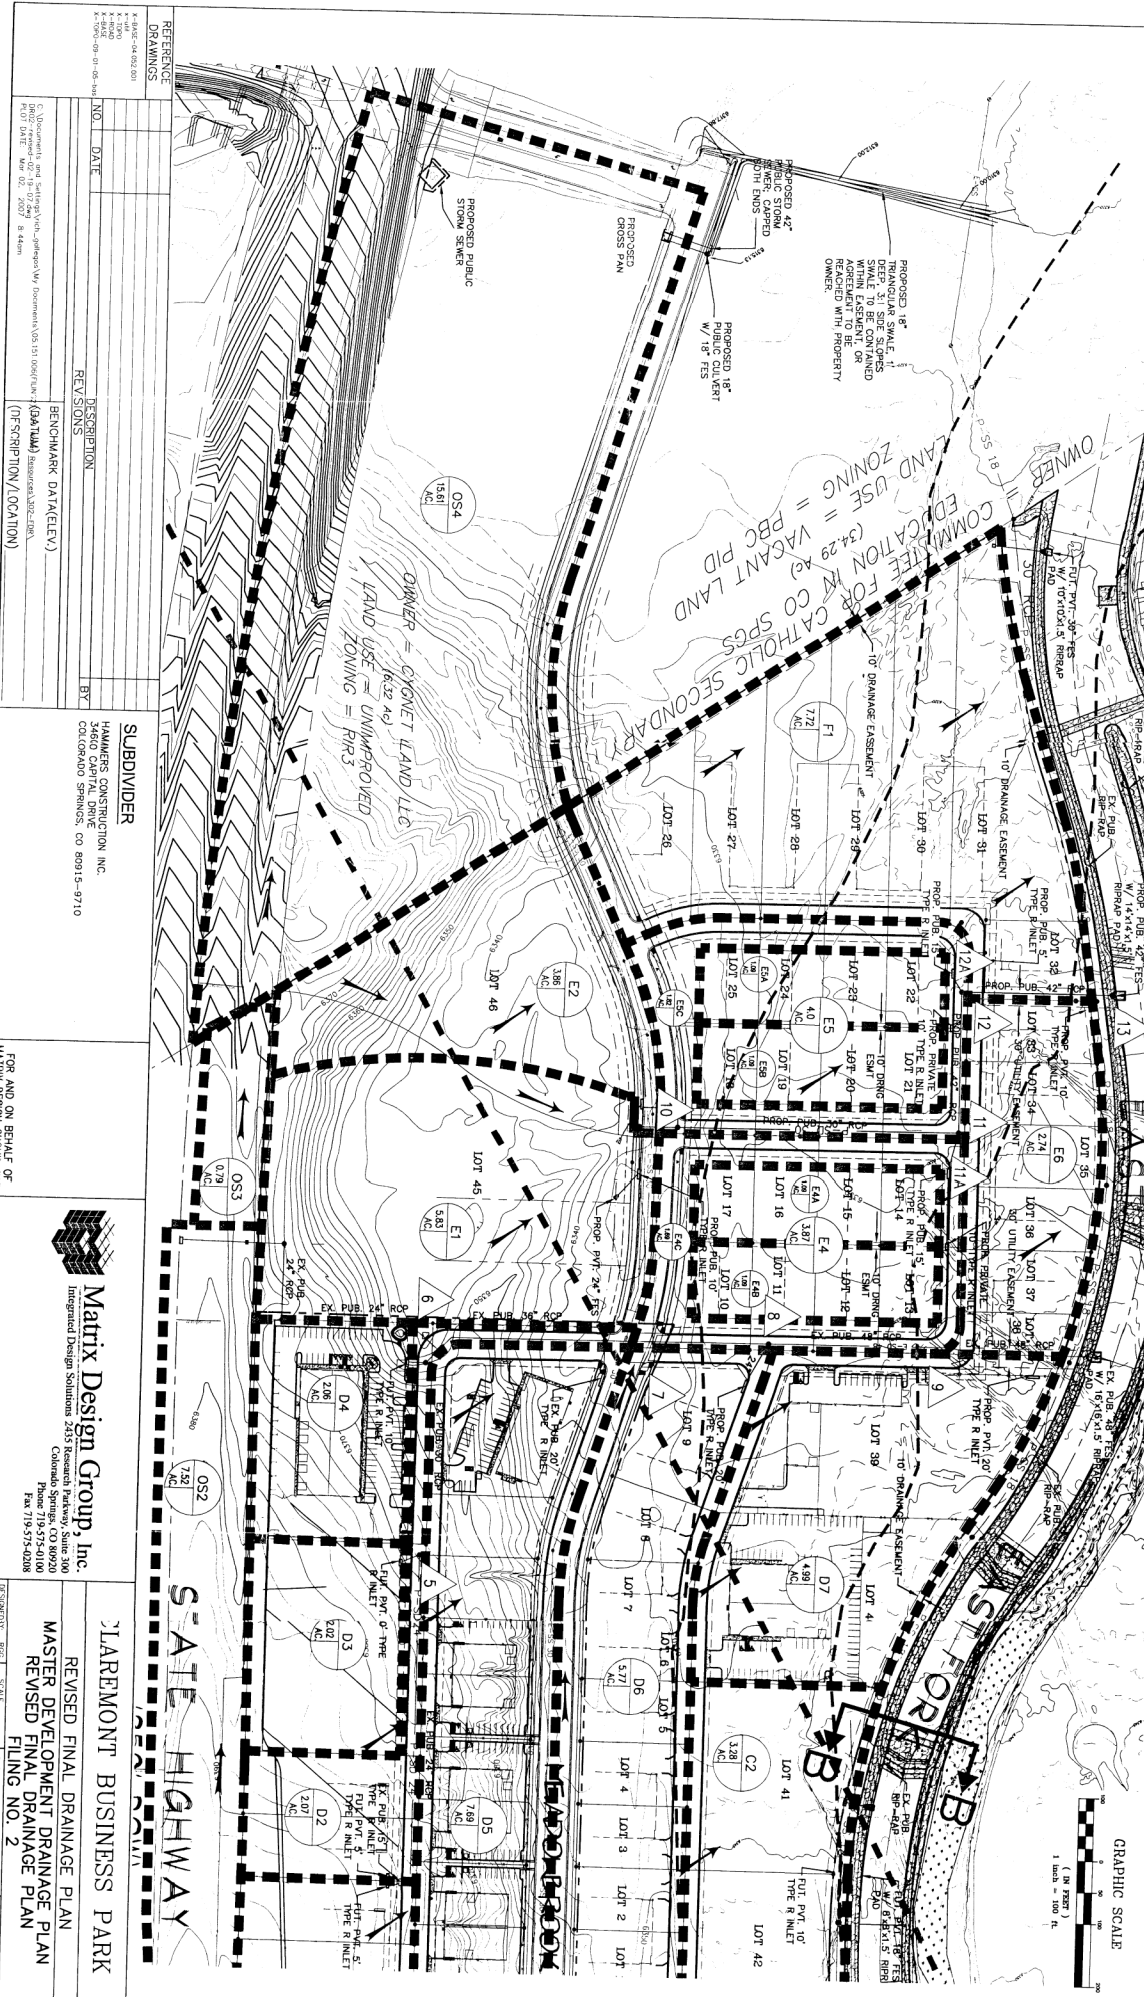

The Central Marksheffel Business District has also constructed the Marksheffel Road Bridge over East Fork Sand Creek. This structure has been identified as a needed public improvement within the Drainage Basin Planning Study for Sand Creek and is eligible for reimbursement. Since the construction of the Marksheffel Bridge is in excess of the \$75,711.52 in bridge fees due for this site, no bridge fees are required at the time of platting. The fee will be deducted from the eligible reimbursable construction costs of the bridge and the remaining credits will be utilized or reimbursement applied for by the Central Marksheffel Business District.
