STAFF RECOMMENDATION/CONDITIONS OF APPROVAL

Subject to Airport Advisory Commission Action

*Airport staff recommends **an objection** with the following additional comments/conditions:*

- Provide proof of previous avigation easement or Airport Activity Notice and Disclosure recordation for this property.
- If the proposed equipment does not use one of the pre-approved frequency bands contained in the Federal Aviation Administration (FAA) [Antenna System Co-Location Policy](#), the applicant is to file an airspace evaluation case with the FAA for the purposes of a frequency analysis and provide the results to the Airport before the commencement of construction activities.
- Based on elevation data, the applicant should file Federal Aviation Administration (FAA) Form 7460-1 "Notice of Proposed Construction or Alteration" for any new vertical development at this site, including temporary construction equipment, and provide FAA documentation to the Airport before the commencement of construction activities.
- More information about the airspace evaluation submittal process is available on the FAA's Obstruction Evaluation/Airport Airspace Analysis website (<https://oeaaa.faa.gov/oeaaa/external/portal.jsp>).
