SURVEYOR'S STATEMENT

I, Spencer J. Barron, a duly registered Professional Land Surveyor in the State of Colorado, do hereby certify that this plat truly and correctly represents the results of a survey made on date of survey, by me or under my direct supervision and that all monuments exist as shown hereon; that mathematical closure errors are less than 1:10,000 ; and that said plat has been prepared in full compliance with all applicable laws of the State of Colorado dealing with monuments, subdivision, or surveying of land and all applicable provisions of the El Paso County Land Development Code.

I attest the above on this ____ day of _____, 20____

Spencer J. Barron
State of Colorado Professional Land Surveyor No. 38141
For and on behalf of Barron Land, LLC

SURVEYOR'S NOTES

1. NOTICE: According to Colorado law you must commence any legal action based upon any defect in this survey within three years after you first discover such defect. In no event may any action based upon any defect in this survey be commenced more than ten years from the date of the certification shown hereon.

2. Any person who knowingly removes, alters or defaces any public land survey monument or land boundary monument or accessory commits a class 2 misdemeanor pursuant to the Colorado Revised Statute 18–4–508.

3. The lineal units used in this drawing are U.S. Survey Feet.

4. This survey was performed in the field on June 28, 2019.

5. The overall subject parcel contains a calculated area of 1,691,360 square feet (38.828 acres) of land, more or less.

6. This survey does not constitute a title search by Barron Land, LLC to determine ownership, rights–of–way, or easements of record. For information regarding ownership, rights–of–way, and easements of record, Barron Land, LLC relied upon Title Commitment 36200–19–02422, with an effective date of June 27, 2019 as provided by North American Title Company of Colorado.

7. BASIS OF BEARINGS: Bearings are based upon the East line of the Southwest Quarter of the Northwest Quarter, Section 13, T11S, R64W, monumented on both the North and South ends with a #5 rebar and 1.5" aluminum cap "JR DEV RLS 10377" and is assumed to bear S 00°48'09" W, a distance of 2631.61 feet.

8. The following reports have been submitted in association with the Preliminary Plan or Final Plat for this subdivision and are on file at the County Department: Onsite Wastewater Treatment Report; Drainage Report; Water Resources Report; Wastewater Disposal Report; Geology and Soils Report; Fire Protection Report; Wildfire Hazard Report; Natural Features Report.

9. All property owners are responsible for maintaining proper storm water drainage in and through their property. Public drainage easements as specifically noted on the plat shall be maintained by the individual lot owners unless otherwise indicated. Structures, fences, materials or landscaping that could impede the flow of runoff shall not be placed in drainage easements.

10. Unless otherwise indicated, all front lot lines are hereby platted with a 10 foot public utility and drainage easement and a 5 foot public improvement easement. All side lot lines are hereby platted with a 10 foot public utility and drainage easement. All exterior subdivision boundaries are hereby platted with a 20 foot public utility and drainage easement. The sole responsibility for maintenance of these easements is hereby vested with the individual property owners.

11. Developer shall comply with federal and state laws, regulations, ordinances, review and permit requirements, and other agency requirements, if any, of applicable agencies including, but not limited to, the Colorado Division of Wildlife, Colorado Department of Transportation, U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service regarding the Endangered Species Act.

12. The addresses exhibited on this plat are for informational purposes only. They are not the legal description and are subject to change.

13. No driveway shall be established unless an access permit has been granted by El Paso County.

14. No lot or interest therein, shall be sold, conveyed, or transferred whether by deed or by contract, nor shall building permits be issued, until and unless either the required public and common development improvements have been constructed and completed and preliminarily accepted in accordance with the Subdivision Improvements Agreement between the applicant/owner and El Paso County as recorded under Reception Number _____ in the Office of the Clerk and Recorder of El Paso County, Colorado or, in the alternative, other collateral is provided to make provision for the completion of said improvements in accordance with the El Paso County Land Development Code and Engineering Criteria Manual. Any such alternative collateral must be approved by the Board of County Commissioners or, if permitted by the Subdivision Improvements Agreement, by the Director and meet the policy and procedure requirements of El Paso County prior to the release by the County of any lots for sale, conveyance or transfer.

This plat restriction may be removed or rescinded by the Board of County Commissioners or, if permitted by the Subdivision Improvements Agreement, by the Department Director upon either approval of an alternative form of collateral or completion and preliminary acceptance by the El Paso Board of County Commissioners of all improvements required to be constructed and completed in accordance with said Subdivision Improvements Agreement. The partial release of lots for sale, conveyance or transfer may only be granted in accordance with any planned partial release of lots authorized by the Subdivision Improvements Agreement.

15. Individual lot purchasers are responsible for constructing driveways, including necessary drainage culverts per Land Development Code Section 6.3.3.C.2 and 6.3.3.C.3.

16. Individual wells are the responsibility of each property owner. Permits for individual wells must be obtained from the State Engineer who by law has the authority to set conditions for the issuance of these permits.

17. Water in the Denver Basin Aquifers is allocated based on a 100–year aquifer life; however, for El Paso County planning purposes, water in the Denver Basin Aquifers is evaluated based on a 300–year aquifer life. Applicants and all future owners in the subdivision should be aware that the economic life of a water supply based on wells in a given Denver Basin Aquifer may be less than either the 100 years or 300 years indicated due to anticipated water level declines. Furthermore, the water supply plan should not rely solely upon non–renewable aquifers. Alternative renewable water resources should be acquired and incorporated in a permanent water supply plan that provides future generations with a water supply.

18. Sewage treatment is the responsibility of each individual property owner. The El Paso County Department of Health and Environment must approve each system and, in some cases the Department may require an engineer designed system prior to permit approval. These systems may cost more to design, install, and maintain.

19. The Federal Emergency Management Agency, Flood Insurance Rate Map No. 08041C0350G, effective date December 7, 2018, indicates this parcel of land to be located in Zone X (Areas determined outside the 0.2% annual chance floodplain).

20. At the time of approval of this project, this property is located within the Peyton Fire Protection District.

21. Due to wildfire concerns, homeowners are encouraged to incorporate wildfire fuel break provisions as recommended by the Colorado State Forest Service and illustrated through publications available through the State Forest Service.

22. Mailboxes shall be installed in accordance with all El Paso County Department of Transportation and United States Postal Service regulations.

23. Surface Investigation and Soils Report was completed by W.W. Enterprises on August 15, 2019 as project No. 19–3028. Water Resources Report was completed by JDS–Hydra Consultants Inc. in August 2019 and revised in November 2019. Geological Hazard Report was completed by Catamount Engineering on _____, 20____ and are on file at the County Department.

24. Routine maintenance (mowing, weed treatment, trash pickup) within the prudent line to be the responsibility of the landowner.

25. Pursuant to Resolution _____, approved by the Board of Directors, El Paso County Public Improvement District ____ and recorded in the records of the El Paso County Clerk and Recorder at Reception Number _____ the parcels within the platted boundaries of Pine View Estates are included within the boundaries of the El Paso County Public Improvement District ____ and as such is subject to applicable road impact fees and mill levy.

26. Found and or set monuments shown hereon are flush with grade unless noted otherwise.

27. The parcel to be platted hereon is the same property as described in the record legal description as recorded under Reception No. 96103570 and as provided by North American Title Company of Colorado. The field measured bearings and distances shown hereon may differ from the record legal description, however, to best of the surveyor's opinion, knowledge, and belief, the surveyed monumentation does not create gaps, gores or overlaps from said legal description of record.
