I. EXECUTIVE SUMMARY

The following is a summary of general information regarding the proposed District provided for the convenience of the reviewers of this Service Plan. Please note that the following information is subject in all respects to the more complete descriptions contained elsewhere in this Service Plan.

Proposed District:	Antler Creek Metropolitan District (the “District”).
Property Owner(s):	Antler Range, LLC
Developer(s):	Antler Range, LLC
Description of Development:	The site consists of approximately 244 acres (Parcel No. 4218000022, located east of Meridian Road, north of Ayer Road, and south of Latigo Boulevard in unincorporated El Paso County. The site is currently vacant. The District is planned to consist of 84 single family lots.
Proposed Improvements to be Financed:	Streets and transportation, traffic and safety controls, sanitation and drainage, including storm water drainage, limited fire protection, limited water, park and recreation, and mosquito control. Specifically, the anticipated public improvements consist of streets and associated drainage
Proposed Ongoing Services:	It is anticipated that any Public Improvements not conveyed to the County or other appropriate jurisdiction will be owned, operated and maintained by the District. Specifically, the District anticipates providing ongoing operations and maintenance services for drainage, stormwater infrastructure, and mosquito control, as well as covenant enforcement and design review
Infrastructure Capital Costs:	Approximately \$8,652,058 (in 2025 dollars) for the Public Improvements.
Maximum Debt Authorization:	\$10,000,000. This amount is larger than the estimated cost of the Public Improvements to allow for inflation, contingencies, and unanticipated changes from the date of approval of this Service Plan.
Proposed Debt Mill Levy:	50 Mills, subject to Assessment Rate Adjustment.
Proposed O & M Mill Levy:	10 Mills, subject to Assessment Rate Adjustment.

Proposed Special Purpose
Mill Levy:

5 mills, subject to Assessment Rate Adjustment for covenant enforcement and design review.

Proposed Maximum Mill Levies:

65 mills, subject to Assessment Rate Adjustment.

Proposed Fees:

The District reserves the right to impose fees, rates, tolls, penalties, or charges as authorized in Section 32-1-1001(1)(j)(I), C.R.S. At the present time, the Districts do not currently anticipate imposing fees. Capital facility fees/development fees, if imposed, would be used to pay down any Debt issued by the Districts and operations, maintenance and administrative fees may be imposed by the Districts

II. DEFINITIONS

The following terms are specifically defined for use in this Service Plan, For specific definitions of terms not listed below please also refer to the El Paso County Special District Policies, the El Paso County Land Development Code and Colorado Revised Statutes, as may be applicable.

Additional Inclusion Areas: means the property described in Section 3 that is anticipated for future inclusion into the boundaries of the District, together with other real property located within a 5-mile radius of the combined area described in Exhibit A.4 that may be included upon petition of the property owners thereof.

Annual Report and Disclosure Statement: means the statement of the same name required to be filed annually with the Board of County Commissioners pursuant to Resolution 06-472 as may be amended.

Assessment Rate Adjustment: means, if after approval of this Service Plan, the laws of the State change with respect to the assessment of property for taxation purposes, including, but not limited to, the implementation of assessment rate changes adopted as part of changes in laws of the State adopted prior to the approval of this Service Plan, the method of calculating assessed valuation or any other similar changes occur, an allowed adjustment to the Maximum Combined Mill Levy, Maximum Debt Service Mill Levy, Maximum Operational Mill Levy, or Maximum Special Mill Levy to be determined by the Board in good faith so that to the extent possible, the actual tax revenues generated by the Maximum Combined Mill Levy, Maximum Debt Service Mill Levy, Maximum Operational Mill Levy or Maximum Special Mill Levy, are neither diminished nor enhanced as a result of such changes.

Board: means the board of directors of the District.

Board of County Commissioners: means the Board of County Commissioners of El Paso County.

Conventional Representative District: means a Title 32 special district, which is structured to allow all residents and property owners to participate in elections for the Board of Directors, as otherwise allowed by Statute.

County: means El Paso County, Colorado

Debt: means bonds or other obligations for the payment of which the District has promised to impose an *ad valorem* property tax mill levy without such promise being subject to annual appropriation.

Developer Funding Agreement: means an agreement of any kind executed between a special district and a Developer as this term is specifically defined below, including but not limited to advance funding agreements, reimbursement agreements or loans to the

special district from a Developer, where such an agreement creates an obligation of any kind which may require the special district to re-pay the Developer. The term “Developer” means any person or entity (including but not limited to corporations, venture partners, proprietorships, estates and trusts) that owns or has a contract to purchase undeveloped taxable real property greater than or equal to ten percent (10%) of all real property located within the boundaries of the special district. The term “Developer Funding Agreement” shall not extend to any such obligation listed above if such obligation has been converted to Debt issued by the special district to evidence the obligation to repay such Developer Funding Agreement, including the purchase of such Debt by a Developer.

District: means the Antlers Creek Metropolitan District as described in this Service Plan.

External Financial Advisor: means a consultant that: (i) advises Colorado governmental entities on matters relating to the issuance of securities by Colorado governmental entities, including matters such as the pricing, sales and marketing of such securities and the procuring of bond ratings, credit enhancement and insurance in respect of such securities; (ii) shall be an underwriter, investment banker, or individual listed as a public finance advisor in the Bond Buyer’s Municipal Market Place; and (iii) is not an officer or employee of the District and has not been otherwise engaged to provide services in connection with the transaction related to the applicable Debt.

Initial District Boundaries: means the initial boundaries of the District as described in Section III depicted on the map in Exhibit A.2 and as legally described in the legal description found at Exhibit A.4.

Local Public Improvements: means facilities and other improvements which are or will be dedicated to the County or another governmental or quasi-governmental entity for substantially public use, but which do not qualify under the definition of Regional Public Improvements. Examples would include local streets and appurtenant facilities, water and sewer lines which serve individual properties and drainage facilities that do not qualify as reimbursable under adopted drainage basin planning studies.

Material Modification: has the meaning described in Section 32-1-207, C.R.S., as it may be amended from time to time.

Maximum Combined Mill Levy: means the maximum combined ad valorem mill levy the District may certify against any property within the District for any purposes.

Maximum Debt Authorization: means the maximum principal amount of Debt that the District may have outstanding at any time, which under this Service Plan is \$10,000,000.

Maximum Debt Service Mill Levy: means the maximum ad valorem mill levy the District may certify against any property within the District for the purpose of servicing any Debt incurred by or on behalf of the District.

Maximum Operational Mill Levy: means the maximum ad valorem mill levy the District may certify against any property within the District for the purposes providing revenues for ongoing operation, maintenance, administration or any other allowable services and activities other than the servicing of Debt. This Maximum Operational Mill Levy is exclusive of any Maximum Special Mill Levy which might be separately authorized.

Maximum Special Purpose Mill Levy: means the maximum ad valorem mill levy which is allowed in addition to the allowable Maximum Debt Service Mill Levy and the Maximum Operational Mill Levy for covenant enforcement and design review

Planning and Community Development Department: the department of the County formally charged with administering the development regulations of the County.

Public Improvements: means those improvements constituting Regional Public Improvements and Local Public Improvements collectively.

Regional Public Improvements: means facilities and other improvements which are or will be dedicated to the County or another governmental or quasi-governmental entity for substantially public use, and which serve the needs of the region.

Revenue Obligations: means bonds or other obligations not subject to annual appropriation that are payable from a pledge of revenues other than *ad valorem* property taxes.

Service Plan: means this Service Plan for the District.

Special District Act: means Section 32-1-101, et seq., of the Colorado Revised Statutes, as amended from time to time.

State: means the State of Colorado.

Underlying Land Use Approvals: means Board of County Commissioners approval of the applicable land use plans that form the basis for the need for the District and its proposed financing plan and/or services. Such approvals may be in the form of one or a combination of Sketch Plans, Generalized Planned Unit Development (PUD) Development Plans, site-specific PUD plans, or subdivision plans.

III. INTRODUCTION

A. Overall Purpose and Intent.

The District will be created pursuant to the Special District Act, and is being organized as a Conventional Representative District under El Paso County policies. The District is an independent unit of local government, separate and distinct from the County, and, except as may otherwise be provided for by State or local law or this Service Plan, its activities are subject to review by the County only insofar as they may deviate in a material matter from the

requirements of the Service Plan. It is intended that the District, in its discretion, will provide a part or all of various Public Improvements necessary and appropriate for the development of a project within the unincorporated County to be known as “Antlers Range” (the “Project”). The Public Improvements will be constructed for the use and benefit of all anticipated inhabitants, property owners and taxpayers of the District. The primary purpose of the District will be to finance the construction of these Public Improvements. Additional major purposes will include ongoing operations and maintenance services for drainage and stormwater infrastructure and mosquito control, as well as covenant enforcement and design review.

B. Need For The District.

The overall need for creation of this District is that there are currently no other governmental entities located in the immediate vicinity of the District that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction, installation, relocation, redevelopment, and financing of the Public Improvements needed for the proposed development within the District. The costs of the necessary Public Improvements can be financed over an extended period of time on a tax-exempt basis and paid from a property tax mill levy by those that directly benefit from those Public Improvements. Formation of the District is therefore necessary in order for the Public Improvements required for the proposed Antler Range development within the District to be provided in the most economic manner possible. In order for the Project to remain competitive in the market, the District will undertake the Public Improvements needed for the Project. The District will be able to construct the Public Improvements and produce the required revenue to fund the Public Improvements and any associated ongoing operations and maintenance costs for those Public Improvements not dedicated to another governmental entity. The District anticipates constructing streets and associated drainage. The District will provide ongoing operations and maintenance services for drainage and stormwater infrastructure and mosquito control.

It may not be in the best interests of those existing metropolitan districts in the vicinity of the District to provide or fund the Public Improvements needed to serve the District. The existing metropolitan districts have already been formed by different developers in connection with specific subdivisions or development. The respective service plans of these existing metropolitan districts may further prohibit or limit the ability of these existing metropolitan district to undertake the funding of the public improvements within the District. It also could adversely affect the current residents and property owners within those metropolitan districts who do not wish to fund public improvements from which they will not receive any services or benefit. Meridian Service Metropolitan District is the closest existing metropolitan district to the District, however, the Meridian Service Metropolitan District is over a half mile away from the District and the Project is outside the boundaries of Meridian Service Metropolitan District. The Developer had discussions with representatives of both the Meridian Service Metropolitan District and Woodmen Hills Metropolitan District, and of the date of filing of this Service Plan, neither of the foregoing existing metropolitan districts expressed interest in undertaking the construction or funding of the Public Improvements needed to serve the District.

C. County Objectives In Forming The District.

The County recognizes this District as an independent quasi-municipal entity which is duly authorized for the purposes and functions identified in the Service Plan. Future County involvement in the affairs of the District will generally be limited to functions as required by the Colorado Revised Statutes, reporting and disclosure functions, determinations as to compliance with the limits as set forth in this Service Plan or any conditions attached to its approval, as well as additional activities or relationships as may be stipulated in any intergovernmental agreements which may be entered in to between the District and the County in the future.

In approving this Service Plan the objectives of the County include an intent to allow the applicant(s) reasonable access to public tax-exempt financing for reasonable costs associated with the generally identified Public Improvements and to allow the applicant(s) the ability to prudently obligate future property owners for a reasonable share of the repayment costs of the Public Improvements which will benefit the properties within this District.

It is the additional objective of the County to allow for this District to provide for the identified ongoing services which either cannot or will not be provided by the County and/ or other districts. The District will provide ongoing operations and maintenance services for drainage and stormwater infrastructure and mosquito control, as well as covenant enforcement and design review.

In approving this District as a Conventional Representative District, it is also an objective of the County to maximize opportunities for full representative participation on the part of future eligible electors. However, because many of the critical financing decisions will be made prior to the existence of resident electors, it is the further intent of the County to accommodate and allow for reasonable and constructive ongoing notice to future property owners of the probable financial impacts associated with owning property within the District.

D. Specific Purposes -Facilities and Services.

The District is authorized to provide the following facilities and services, both within and without the boundaries of the District as may be necessary:

1. Water. The District shall have the power and authority to retain water rights and perform accounting activities related to water usage. The District shall not design, acquire, install, construct, finance, operate or maintain any water system, water well or water treatment or storage works or facilities. It is anticipated that the Developer will deed the water rights to the respective property owners upon the sale of each lot. The District will have the power and authority to perform accounting activities related to water usage. The District plans to maintain responsibility for reporting all meter results to the Ground Water Commission. The District does not intend to join the El Paso County Water Authority following formation.

2. Sanitation. The District shall not finance, design, construct, acquire, install, maintain, assess tap or other facility fees, and provide for sanitary sewer facilities or improvements except for storm sewer facilities and flood and surface drainage facilities as set forth in Section III.D.4 below. The development of the Project is anticipated to utilize onsite wastewater treatment systems ("OWTS") for wastewater treatment, as permitted by El Paso County Public Health, operating under the authority of the Colorado Department of Public

Health and Environment.

3. Street Improvements, Transportation and Safety Protection. The District shall have the power and authority to provide for the design, acquisition, installation, construction, financing, relocation, operation, and maintenance of street and roadway improvements, including but not limited to curbs, gutters, culverts, storm sewers and other drainage facilities, retaining walls and appurtenances, as well as sidewalks, bridges, parking facilities, paving, lighting, grading, landscaping, undergrounding of public utilities, snow removal equipment, and other street improvements, together with all necessary, incidental, and appurtenant facilities, land and easements, together with extensions of and improvements to said facilities. The District plans to finance and/or construct approximately 12,300 linear feet of public roadways for the Project, which will be constructed pursuant to County standards prior to acceptance by the County. It is anticipated that all of the foregoing street improvements will be dedicated to the County upon completion and, following acceptance by the County, the County will own, operate, and maintain such street improvements.

The District shall have the power and authority to provide for the design, acquisition, installation, construction, financing, relocation, operation, and maintenance of traffic and safety protection facilities and services through traffic and safety controls and devices on arterial streets and highways, as well as other facilities and improvements including but not limited to, signalization at intersections, traffic signs, area identification signs, directional assistance, and driver information signs, together with all necessary, incidental, and appurtenant facilities, land easements, together with extensions of and improvements to said facilities, which are anticipated to consist of required traffic signs and signals.

The District shall also have the power and authority to provide for the design, acquisition, installation, construction, financing, relocation, operation, and maintenance of public transportation system improvements, including, but not limited to, transportation equipment, park and ride facilities and parking lots, parking structures, roofs, covers, and facilities, including structures for repair, operations and maintenance of such facilities, together with all necessary, incidental, and appurtenant facilities, land and easements, and all necessary extensions of and improvements to said public improvements.

4. Drainage. The District shall have the power and authority to provide for the design, acquisition, installation, construction, financing, relocation, operation, and maintenance of flood and surface drainage facilities, including but not limited to, channels, culverts, dams, retaining walls, access ways inlets, detention ponds and paving, roadside swales and curb and gutter, flood and surface drainage disposal works and facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all necessary extensions of and improvements to said facilities or systems. It is anticipated that the drainage improvements will consist of stormwater channels, roadside ditches, storm sewer facilities, and eight (8) detention/water quality ponds designed to meet County Drainage Criteria, as well as improvement of the existing Black Squirrel Creek through property. Following completion and acceptance of the roadway culverts by the County, said drainage improvements will be owned, operated, and maintained by the County, except for the eight (8) stormwater quality ponds which are planned to be owned, operated, and maintained by the District, and the continued maintenance of the existing Black Squirrel Creek by

the District.

5. Parks and Recreation. The District shall have the power and authority to provide for the design, acquisition, installation, construction, financing, operation, and maintenance of public park and recreation facilities or programs including, but not limited to, grading, soil preparation, sprinkler systems, hiking trails, pedestrian trails, pedestrian bridges, picnic areas, open space/common area landscaping and weed control, outdoor lighting of all types, and other facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all necessary extensions of and improvements to said facilities or systems. In the event that any park and/or recreation facilities are constructed within the Project, it is anticipated that such park and recreation facilities will be owned, operated, and maintained by the District.

The District shall not have the authority to apply for or utilize any Conservation Trust (“Lottery”) funds without the express prior consent of the Board of County Commissioners. The District shall have the authority to apply for and receive any other grant funds, including, but not limited to, Great Outdoors Colorado (GOCO) discretionary grants. Such approval, although required, is not considered to be a major modification which would require the need to revise this Service Plan.

6. Mosquito Control. The District shall have the power and authority to provide for the eradication and control of mosquitoes, including but not limited to elimination or treatment of breeding grounds and purchase, lease, contracting or other use of equipment or supplies for mosquito control.

7. Fire Protection. The District shall not be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate, or maintain fire protection facilities or services, except for the siting, design, and installation of an onsite cistern at the request of Falcon Fire Protection District.

8. Television Relay And Translation. The District shall have the power and authority to provide for the design, acquisition, construction, completion, installation, financing, relocation, operation and maintenance of television relay and translator facilities, including but not limited to cable television and related communication facilities, satellite television facilities, internet and other telecommunication facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all necessary extensions of and improvements to said facilities.

9. Covenant Enforcement and Design Review. The District shall have the power and authority to provide covenant enforcement and design review services. Covenant enforcement and design review services shall be limited pursuant to Section 32-1-1004(8), C.R.S., as it may be amended from time to time.

10. Security Services. The District shall have the power and authority to provide security services. Such power and authority shall be limited pursuant to Section 32-1-1004(7), C.R.S., as may be amended from time to time. The power and authority hereby given to the District is not intended in any way to supersede, subvert, or otherwise interfere with the authority and powers of local law enforcement officials within the boundaries of the District.

11. Solid Waste Disposal. The District shall have the power and authority to provide for the design, acquisition, construction, completion, installation, financing, and/or operation and maintenance of solid waste disposal facilities, including, but not limited to, the collection and transportation of solid waste, for any area within the District's boundaries by contracting with a third-party service provider, or providing such solid waste disposal services itself, pursuant to Sections 32-1-1004(1)(k) and 32-1-1006(6), C.R.S. If the County is providing solid waste disposal services, the District shall obtain the prior written consent of the Board of County Commissioners prior to furnishing any solid waste disposal services within the District.

E. Other Powers.

1. Amendments. The District shall have the power to amend this Service Plan as needed, subject to appropriate statutory procedures as set forth in Section 32-1-207, C.R.S.

2. Authority to Modify Implementation of Financing Plan and Public Infrastructure. Without amending this Service Plan, the District may defer, forego, reschedule or restructure the financing and construction of certain improvements and facilities, to better accommodate the pace of growth, resources availability, and potential inclusions of property within the District.

F. Other Statutory Powers.

The District may exercise such powers as are expressly or impliedly granted by Colorado law, if not otherwise limited by the Service Plan or its conditions of approval. The District shall not adopt or enact an ordinance, resolution, rule or other regulation that prohibits or restricts an authorized permittee from carrying a concealed handgun in a building or specific area under the direct control or management of the District as provided in C.R.S. §18-12-214.

G. Eminent Domain.

The District may exercise the power of eminent domain or dominant eminent domain only as necessary to further the clear public purposes of the District.

The power of eminent domain and/or dominant eminent domain shall be limited to the acquisition of property that the District intends to own, control or maintain by the District or other governmental entity and is for the material use or benefit of the general public. The term "material use or benefit for the general public" shall not include the acquisition of property for the furtherance of an economic development plan, nor shall it include as a purpose an intent to convey such property or to make such property available to a private entity for economic development purposes. The phrase "furtherance of an economic development plan" does not include condemnation of property to facilitate public infrastructure that is necessary for the development of the Project.

H. Intergovernmental Agreements (IGAs).

The District is authorized to enter into IGAs to the extent permissible by law. As of the date of approval of this Service Plan, the District does not anticipate a need for any potential IGAs.

I. Description Of Proposed Boundaries And Service Area.

1. Initial District Boundaries. A vicinity map showing the general location of the District is included as Exhibit A.1. A map of the initially included properties is included at Exhibit A.2, with a legal description of its boundaries are found at Exhibit A.4.

2. Additional Inclusion Areas. Additional inclusion areas are not anticipated in addition to the initially included properties. Further, in order to accommodate the needs of Project phasing and other contingencies, the boundaries of the District may be adjusted via the inclusion or exclusion in accordance with the applicable provisions of the Special District Act.

Notwithstanding the foregoing, the District is prohibited from including additional property within the District's boundaries if the property is within the corporate limits of the City of Colorado Springs without express prior consent of the City of Colorado Springs Council.

Notwithstanding the foregoing, the District is prohibited from including additional property within the District's boundaries if the property is within the corporate limits of the Town of Monument without the express prior consent of the Town of Monument Board of Trustees.

3. Extraterritorial Service Areas. The District does not anticipate providing services to areas outside of the Initial District Boundaries.

4. Analysis Of Alternatives. The Project is not presently served with the facilities proposed to be provided by the District, and neither the County nor any other special district have plans to provide such facilities within a reasonable time and on a comparable basis. There are currently no other governmental entities located in the immediate vicinity of the District that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction, installation, relocation, redevelopment and financing of the Public Improvements needed for the Project. The closest existing metropolitan district in the vicinity of the District is not immediately adjacent to the District and the Project is not located within the boundaries of that metropolitan district. That existing metropolitan district has already been organized in connection with another subdivision. It may not be in the financial interests of the residents and property owners within that existing metropolitan district to undertake the funding of the public improvements within the District based on its' service plan limitations. It further could adversely affect the current residents and property owners within the existing metropolitan district who do not wish to fund public improvements from which they will not receive any services or benefit. To develop the Project as currently anticipated, it is imperative that the District be organized to assist with the financing of the Public Improvements. By utilizing the District to support the costs associated with the construction of the Public Improvements, the Project remains competitive and

financially viable.

If the costs of the Public Improvements needed for the Project were privately funded by the Developer this would increase the home prices and would render them not competitive in the current market; therefore, the District is necessary to provide for the Public Improvements that are needed for the Project. The District will generate the majority of the tax revenue sufficient to pay the costs of the Public Improvements and create several benefits for the inhabitants and users of the development and the County, in particular the maintenance and continued improvement, if such becomes necessary, of the drainage facilities and the section of Black Squirrel Creek within the development. In general, those benefits are: (a) administration of the design, acquisition, installation, construction, financing, operations, and/or maintenance of Public Improvements, and delivery of those public improvements in a timely manner; (b) maintenance of a reasonable tax burden on all tax payers and residents of the District through proper management of the financing and operation of Public Improvements; and (c) assurance that Public Improvements required by the County are designed, acquired, installed, constructed, financed, operated, and/or maintained in a timely and cost effective manner by which to protect residents, taxpayers, bondholders, and the County from the risk of development. The District plans to construct the roadway improvements, traffic and safety protection facilities, drainage facilities, and landscaping, and anticipates providing ongoing maintenance of eight stormwater quality ponds and the existing Black Squirrel Creek, as well as performing covenant enforcement and design review.

Currently, the County does not have the ability to provide the services and infrastructure required to support the planned development of the Project. In addition, the Initial District Boundaries are not contiguous with the incorporated boundaries of the City of Colorado Springs or any other municipality as would be necessary to facilitate annexation and provision of municipal services. Further, there are no other public entities in the area, including existing Title 32 special districts, that have the ability or debt capacity to finance the construction of the public improvements associated with Project.

5. Material Modifications/Service Plan Amendment. Material modifications of this Service Plan shall, at a minimum, trigger the need for prior approval of the Board of County Commissioners at an advertised public hearing and may require a need for a complete re-submittal of an amended Service Plan along with a hearing before the County's planning commission. For the purpose of this Service Plan the following changes shall be considered material modifications:

a. Any change in the basic services provided by the District, including the addition of any types of services not authorized by this Service Plan.

b. Any other matter which is now, or may in the future, be described as a material modification by the Special District Act.

c. Imposition of a mill levy in excess of any of the Maximum Mill Levies as authorized in this approved Service Plan.

d. Issuance of Debt in excess of the Maximum Debt Authorization authorized in this Service Plan

e. Issuance of any Debt with a maturity period of greater than thirty (30) years, from the date of issuance of such Debt.

f. Creation of any sub-districts as contemplated in the Special District Act.

g. Inclusion into the District of any property over five (5) miles from the combined area of the Initial District Boundaries and the property described in Exhibit A.4 unless explicitly contemplated in this Service Plan.

IV. DEVELOPMENT ANALYSIS

A. Existing Developed Conditions.

The property located within the District is currently vacant and undeveloped.

B. Total Development At Project Buildout.

At complete Project build-out, development within the District is planned to consist of 84 single family residences. The prices of homes in the project are expected to average \$1,000,000 in year 2025 dollars. The total estimated population of the District upon completion of development is 250 to 300 people.

C. Development Phasing And Absorption.

Absorption of the project is projected to take three (3) years, beginning in the later part of 2026 and ending in 2029 and is further described in the Development Summary found at Exhibit B.

Based on the financial plan attached as Exhibit D, the District anticipates it may assess a Maximum Debt Mill levy of 50 mills, a Maximum Operational Mill Levy of 10 mills, and a Special Purpose Mill Levy of 5 mills on assessed properties in the District from 2027 to 2067 for collection in 2068 (including refunding). Over the 40 years (which includes an initial Debt issuance with a period of maturity that does not exceed thirty (30) years, and a refunding after the initial Debt issuance with a period of maturity for the refunded Debt that does not exceed thirty (30) years), the effect of collecting property taxes for the District will decrease the County's Specific Ownership Taxes (SOT) by an average of \$7,096 a year. In year 1 (2028 collection year), County SOT collections will be reduced by approximately \$1,613 and growing to \$11,778 at final maturity in 2067. During the same time period, the County's property taxes are expected to grow approximately \$2,426 in 2027 to \$140,651 in year 40. Over the 40-year course of the project, it is estimated that the total SOT collections will be reduced by \$283,822 while property tax collections should increase by \$3,250,729.

D. Status of Underlying Land Use Approvals.

The application for the rezoning of the Project has been submitted to the County, which is anticipated to be considered by the County either at the same time as or before approval of this Service Plan.

V. INFRASTRUCTURE SUMMARY

Attached as Exhibit C is summary of the estimated costs of Public Improvements which are anticipated to be required within this District. A general description of the categories of Public Improvements is included in Section III.D. of this Service Plan, as depicted on the map attached as Exhibit A.3. A general description of the categories of Public Improvements is included in Section III.D. of this Service Plan. The total cost of the Public Improvement is estimated to be approximately \$8,652,058 in year 2025 dollars. It is estimated that the District will finance approximately 100% of this estimated amount, but the amount ultimately financed by the District will be subject to the Maximum Authorized Debt limit.

All Public Improvements will be designed and constructed in accordance with the standards of the governmental entity to which such Public Improvements will be dedicated (including, with respect to storm sewer and drainage facilities, the applicable NPDES standards), and otherwise in accordance with applicable El Paso County standards. The composition of specific Public Improvements will be determined in connection with applicable future land use and development approvals required by El Paso County rules and regulations.

VI. FINANCIAL PLAN SUMMARY

A. Financial Plan Assumptions and Debt Capacity Model.

Attached at Exhibit D is a summary of development assumptions, projected assessed valuation, description of revenue sources (including applicable mill levies and fees) and expenses for both operations and debt service, and an overall debt capacity model associated with projected future development of the Project. The model demonstrates that the District is capable of providing sufficient and economic service within the Project, and that the District has or will have the financial ability to discharge the District's Debt on a reasonable basis. The financial model attached as Exhibit D is an example of the manner in which the District may finance the Public Improvements. The specific structure for financing the Public Improvements shall be determined in the discretion of the Board of Directors of the District, subject to the limitations set forth in this Service Plan.

B. Maximum Authorized Debt.

The District is authorized to issue Debt up to Ten Million Dollars (\$10,000,000) in principal amount. The maximum debt authorization is based upon the estimated costs associated with the construction of public improvements for the Project, including street improvements, traffic control and safety protection, drainage facilities and detention/water quality control ponds, and mosquito control. This amount is larger than the estimated cost of the Public Improvements to allow for inflation, contingencies, and unanticipated changes from the date of approval of this Service Plan (e.g., at the estimated time of build out in 2029, assuming an

inflation rate of 5%, the District eligible expenses would be approximately \$10,537,074). The cost estimates are preliminary in nature and the ultimate costs may increase or decrease depending on numerous factors, many of which are out of the Developer's control.

C. Maximum Mill Levies.

1. Maximum Debt Service Mill Levy. The Maximum Debt Service Mill Levy shall be fifty (50) mills, subject to Assessment Rate Adjustment. All Debt issued by the District must be issued in compliance with the requirements of Section 32-1-1101, C.R.S. and all other requirements of State law.

2. Maximum Operational Mill Levy. The Maximum Operational Mill Levy Cap shall be ten (10) mills, subject to Assessment Rate Adjustment.

3. Maximum Special Purpose Mill Levy Cap. The Maximum Special Purpose Mill Levy is Five (0) Mills, subject to Assessment Rate Adjustment, for covenant enforcement and design review.

4. Maximum Combined Mill Levy. The Maximum Combined Mill Levy is Sixty (60) Mills, subject to Assessment Rate Adjustment.

D. Maximum Maturity Period For Debt.

The period of maturity for issuance of any Debt (but not including Developer Funding Agreements) shall be limited to no more than thirty (30) years without express, prior approval of the Board of County Commissioners. However, the District is specifically authorized to refund or restructure existing Debt so long as the period of maturity for the refunding or restructured Debt is no greater than 30 years from the date of the issuance thereof. The Financial Plan attached as Exhibit D anticipates an initial Debt issuance with a period of maturity of not more than thirty (30) years, and then a subsequent refunding or restructuring of the initial Debt issuance, with a period of maturity for the refunding or restructured Debt no greater than thirty (30) years from the date of the issuance of the refunded or restricted Debt.

E. Developer Funding Agreements.

The Developer does intend to enter into Developer Funding Agreements with the District in addition to recovery of the eligible costs associated with creation of this District. It is anticipated that in the formative years the District will have shortfalls in funding its capital costs and monthly operations and maintenance expenses. The Developer may fund these obligations for the District to promote the Project's development subject to the Developer being repaid from future District revenues.

Developer Funding Agreements may allow for the earning of simple interest thereon, but under no circumstances shall any such agreement permit the compounding of interest. The Developer Funding Agreements may permit an interest rate that does not exceed the prime interest rate plus two points thereon.

The maximum term for repayment of a Developer Funding Agreement shall be twenty (20) years from the date the District becomes obligated to repay the Developer Funding Agreement under the associated contractual obligation. For the purpose of this provision, Developer Funding Agreements are considered repaid once the obligations are fully paid in cash or when converted to bonded indebtedness of the District (including privately placed bonds). Any extension of such term is considered a Material Modification and must be approved by the Board of County Commissioners.

Required disclosure notices shall clearly identify the potential for the District to enter into obligations associated with Developer Funding Agreements.

F. Privately Placed Debt Limitation.

Prior to the issuance of any privately placed Debt, the District shall obtain the certification of an External Financial Advisor substantially as follows: We are [I am] an External Financial Advisor within the meaning of the District's Service Plan.

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), C.R.S.) to be borne by [insert the designation of the Debt] does not exceed a reasonable current [tax-exempt] [taxable] interest rate, using criteria deemed appropriate by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt], including maturities and early redemption provisions, is reasonable considering the financial circumstances of the District.

G. Revenue Obligations. The District shall also be permitted to issue Revenue Obligations in such amount as the District may determine. Amounts issued as Revenue Obligations are not subject to the Maximum Debt Authorization.

H. Maximum Debt Mill Levy Imposition Term.

The District shall not impose a Debt Service Mill Levy for the repayment of any and all Debt on a single property developed for residential purposes which exceeds forty (40) years after the year of the initial imposition of such Debt Service Mill Levy unless a majority of the Board of Directors of the District imposing the Debt Service Mill Levy are residents of the District and have voted in favor of issuing Debt with a term which requires or contemplates the imposition of a Debt Service Mill Levy for a longer period of time than the limitation contained herein.

VII. OVERLAPPING TAXING ENTITIES, NEIGHBORING JURISDICTIONS

A. Overlapping Taxing Entities.

The directly overlapping taxing entities and their respective year 2024 mill levies (collected in 2025) are as follows:

El Paso County	6.985
El Paso County Road and Bridge	0.330
El Paso School District #49	45.565
Pikes Peak Library District	3.140
Falcon Fire Protection District	14.886
Upper Black Squirrel Creek Ground Water District	1.082
El Paso County Conservation District	0.000
Total Existing Mill Levy:	71.988

The total mill levy including the initially proposed District mill levy is 136.988 mills.

The property within the District will receive fire protection services from Falcon Fire Protection District. The District does not currently anticipate the need for an intergovernmental agreement with Falcon Fire Protection District for the limited purpose of a cistern.

The District does not anticipate any adverse impacts to the listed entities in this Section.

B. Neighboring Jurisdictions.

The following additional taxing and or service providing entities include territory within three (3) miles of the Initial District Boundaries.

EL PASO COUNTY
PAINT BRUSH HILLS METRO DISTRICT
ACADEMY SCHOOL DISTRICT #20
PEYTON SCHOOL DISTRICT #23
EL PASO COUNTY SCHOOL DISTRICT #49

STERLING RANCH METRO DISTRICT #5
4-WAY COMMERCIAL METRO DISTRICT
EAGLEVIEW METRO DISTRICT

There are no additional relationships anticipated with any of the foregoing entities at this time and it is not anticipated that the District will impact these neighboring entities.

VIII. DISSOLUTION

A. Dissolution. Upon an independent determination of the Board of County Commissioners that the purposes for which the District was created have been accomplished, the District agrees to file a petition in the appropriate District Court for dissolution, pursuant to the applicable State statutes. In no event shall dissolution occur until the District has provided for the payment or discharge of all of its outstanding indebtedness and other financial obligations as required pursuant to State statutes.

B. Administrative Dissolution. The District shall be subject to administrative dissolution by the Division of Local Government as set forth in Section 32-1-710, C.R.S.

IX. COMPLIANCE

A. An Annual Report and Disclosure Form will be required and submitted as described in C.R.S. 32-1-207(3)(d) and as further articulated by Board of County Commissioners Resolution No. 06-472, as may be amended.

B. Material Modifications of this Service Plan shall be subject to the provisions contained in Section 32-1-207, C.R.S., relating to approvals and notices thereof.

X. MISCELLANEOUS.

The following is additional information to further explain the functions of the District:

A. Special District Act.

The contemplated municipal services are under the jurisdiction of the Special District Act and not the Public Utilities Commission.

B. Disclosure to Prospective Purchasers.

After formation of the District, and in conjunction with final platting of any properties within the proposed District, the applicable Board of Directors of the District shall prepare a notice acceptable to the Planning and Community Development Department Staff informing all purchasers of property within the District of the District's existence, purpose and debt, taxing, and other revenue-raising powers and limitations. Such notice obligation shall be deemed satisfied by recording the notice with this Service Plan and each final plat associated with the Project, or by such other means as the Planning and Community Development Department approves. Such notice shall be modified to address the potential for future Debt issuance which may be required to meet the obligations associated with loans incurred by the District. In conjunction with subsequent plat recordings, Planning and Community Development Department staff is authorized to administratively approve updates of the disclosure form to reflect current information.

C. Local Improvements.

Prior to the financing of Local Public Improvements, and if required by County policy uniformly applied, agreements shall be in place to prevent a loss of sales tax revenue from sales of construction materials which would otherwise accrue to the County.

D. Service Plan not a Contract.

The grant of authority contained in this Service Plan does not constitute the agreement or binding commitment of the District enforceable by third parties to undertake the activities described, or to undertake such activities exactly as described.

E. Land Use and Development Approvals.

Approval of this Service Plan does not imply approval of the development of a specific area within the Project, nor does it imply approval of the number of residential units or the total site/floor area of commercial or industrial buildings identified in this Service Plan or any of the exhibits attached thereto. All such land use and development approvals shall be processed and obtained in accordance with applicable El Paso County rules, regulations and policies.

XI. CONCLUSION

It is submitted that this Service Plan for the District establishes that:

A. There is sufficient existing and projected need for organized service in the area to be serviced by the proposed District;

B. The existing service in the area to be served by the proposed District is inadequate for present and projected needs;

C. The proposed District is capable of providing economical and sufficient service to the Project;

D. The area to be included in the proposed District does have, and will have, the financial ability to discharge the proposed indebtedness on a reasonable basis;

E. Adequate service is not, and will not be, available to the area through the County or other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis;

F. The facility and service standards of the proposed District are compatible with the facility and service standards of the County;

G. The proposal is in substantial compliance with the applicable elements of the El Paso County Master Plan, including but not limited to Your El Paso Master Plan (2021), the El Paso County Water Master Plan (2018), the El Paso County Parks Master Plan (2013), the El Paso County Major Transportation Corridors Plan, and with these Special District Policies.

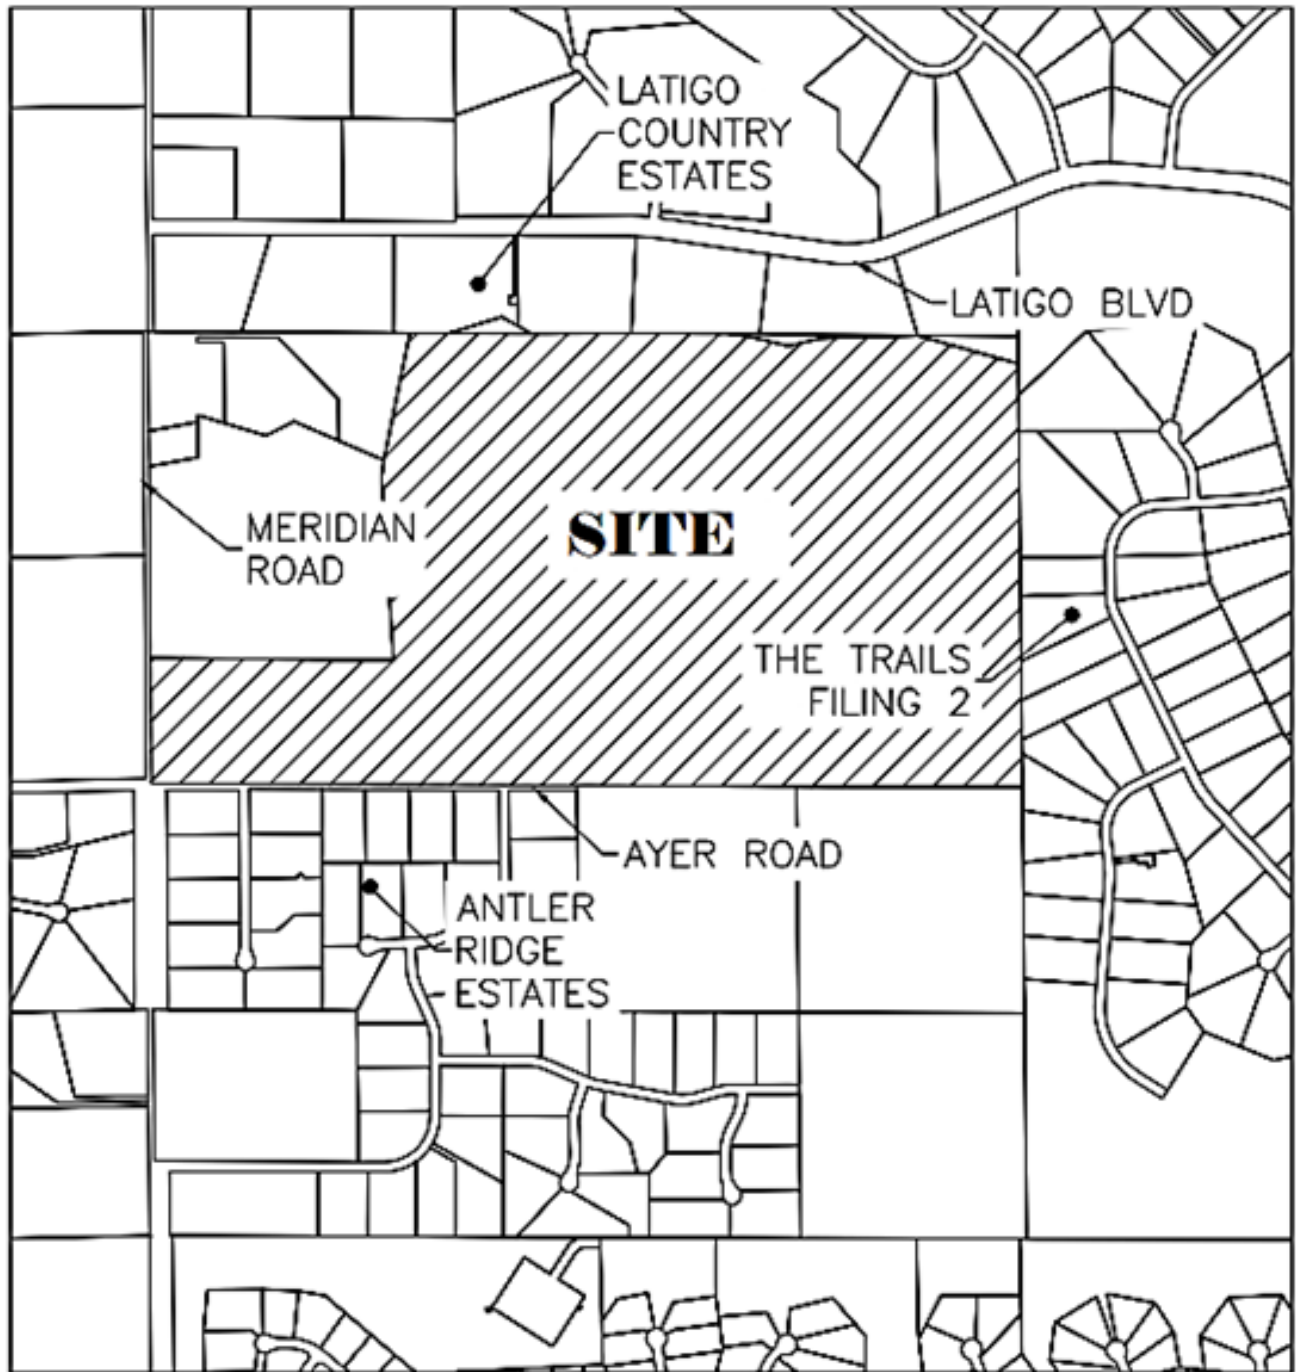

H. The creation of the proposed District is in the best interests of the area proposed to be served.

EXHIBIT B

DEVELOPMENT SUMMARY

EXHIBIT B

DEVELOPMENT SUMMARY

The Project is planned to include 84 single-family lots located within the RR-2.5 (Residential Rural) zoning district.

Full build out of the Project is expected to occur over the course of three (3) years and is planned to progress from southwest to northeast with the extension of roadways designed to the County's standards and which will be dedicated to the County for ongoing ownership and maintenance.

The 2.5+ acre lots will be served by groundwater wells and onsite wastewater treatment systems (OWTS).

Stormwater facilities necessary to handle the developed flows from the Project are planned with the associated subdivision of the Project, which include eight (8) detention ponds.

FINANCIAL PLAN SUMMARY

May 5, 2025

Antler Creek Metropolitan District
c/o Jennifer Ivey
Icenogle Seaver Pogue
4725 South Monaco Street, Suite 360
Denver, CO 80237

RE: Antler Creek Metropolitan District Service Plan

Piper Sandler has analyzed the bonding capacity for the proposed Antler Creek Metropolitan District (the “District”). The analysis prepared by Piper Sandler summarizes and presents information provided by the applicant and does not include independently verify the accuracy of the information or assumptions.

Development Assumptions

The following assumptions have been provided by the developer and form the basis of the residential buildout and cash flow analysis.

1. The development is comprised of 84 single family residential units. The model assumes that all 84 homes are completed from 2026 to 2028. The estimated average price per unit is \$1,000,000 in 2025 dollars. The model assumes that the home values increase at an average of 3% per year. This schedule of home deliveries is displayed on page 2 of the financial model.
2. The debt service mill levy is estimated at 50 mills (subject to adjustment).
3. The estimated interest rates on the bonds are 5.00% for the first issuance and 3.00% for the second issuance. It is assumed that by the time of the second issuance the district will be able to secure a credit rating and bond insurance to lower its borrowing costs.
4. Each bond issuance is based on a 30-year final maturity.

Assessed Value Projections

The estimated assessed value from the completed homes is projected to be \$2,273,566 for taxes collected in 2028 and grows to over \$16 million in 2067 when the bonds are retired. A full schedule of the projected assessed value is displayed on page 3 of the financial plan.

Revenue Projections

The district revenue projections are included in the financial plan. Page 4 displays the revenues available for debt service each year. The revenue projection is based on the debt service mill levy (50 mills, as adjusted) and specific ownership taxes. The debt service mill levy and specific ownership taxes are the only anticipated sources supporting the District’s bond issuances.

Schedule of Proposed Debt Issuances

The schedule of proposed debt issuances and corresponding rates are displayed on page 1 of the financial plan. The estimated costs of issuance are also included on this page. As displayed on page 1, the plan projects the first bonds being issued in 2027 with an estimated interest rate of 5.00%. The second bond issuance is estimated to occur 10 years later in 2037 and at an interest rate of 3.00%. It is estimated that the second bond issue will refund the first issuance at a lower rate for savings and pay for the final project reimbursement costs.

The assumptions disclosed in the Financial Plan are those of the Developer and have not been independently verified by Piper Sandler. Those assumptions identified are believed to be the significant factors in determining financial feasibility; however, they are likely not to be all-inclusive. There will usually be differences between forecasted and actual results because events and circumstances frequently do not occur as projected, and those differences may be material. Key assumptions, including those relating to market values of real property improvements and the build out schedule of such property, are particularly sensitive in terms of the timing necessary to create the tax base for the District. A small variation in these variables, and to their timing, can have a large effect on the forecasted results. There is a high probability that the forecasted results will differ from realized future tax base factors and such variations can be material. Additionally, other key assumptions, relating to inflation, assessment ratios, interest rates, and infrastructure, administrative, and operating costs may, and likely will, vary from these projected.

Because Piper Sandler has not independently evaluated or reviewed the assumptions that the financial model is based upon, we do not vouch for the achievability (and disclaim any opinion) of the information provided. Furthermore, because of the inherent nature of future events, which are subject to change and variation as events and circumstances change, the actual results may very materially from the results presented here. Piper Sandler has no responsibility or obligation to update this information or this financial model for events occurring after the date of this report.

Sincerely,

Michael Lund

ANNUAL REPORT AND DISCLOSURE FORM
(Sample attached)

**EL PASO COUNTY SPECIAL DISTRICTS
ANNUAL REPORT and DISCLOSURE FORM**

1.	Name of District(s):	Antler Creek Metropolitan District
2.	Report for Calendar Year:	2025
3.	Contact Information	c/o Icenogle Seaver Pogue, P.C. 4725 South Monaco Street, Suite 360 Denver, Colorado 80237 jivey@isp-law.com (303) 867-3003 Facsimile: 303.292.9101
4.	Meeting Information	Regular meetings are held the _____ day in _____ (month) at _____ (location). Posting place for notices of meetings in 2026 for purposes of § 24-6-402(2)(c), C.R.S., is as follows:
5.	Type of District(s)/ Unique Representational Issues (if any)	
6.	Authorized Purposes of the District(s)	The Service Plan authorizes the District to provide the following facilities and services: sanitation; storm drainage; street improvements, transportation and safety protection; mosquito control; fire protection; television relay and translation; solid waste disposal; and security services. The District may provide limited water and fire protection facilities or services.
7.	Active Purposes of the District(s)	The primary active purpose of the District is to finance the construction of a part or all of various public improvements necessary and appropriate for the development of the Antler Range Project. Additional major purposes include ongoing service and maintenance of public improvements, as well as covenant enforcement and design review.
8.	Current Certified Mill Levies a. Debt Service b. Operational c. Other d. Total	(to be revised with actual mill levies after organization)
9.	Sample Calculation of Current Mill Levy	Not applicable.

	for a Residential and Commercial Property (as applicable).	
10.	<p>Maximum Authorized Mill Levy Caps (Note: these are maximum allowable mill levies which could be certified in the future unless there was a change in state statutes or Board of County Commissioners approvals)</p> <p>a. Debt Service b. Operational c. Other d. Total</p>	<p>a. 50.0000 Mills (as may be adjusted) b. 10.000 Mills (as may be adjusted) c. 5.000 Mills (as may be adjusted) d. 65.000 Mills (as may be adjusted) Max Combined Mill Levy</p>
11.	Sample Calculation of Mill Levy Cap for a Residential and Commercial Property (as applicable).	<p>Assumptions:</p> <p>\$300,000.00 is the total actual value of the sample single-family home.</p> <p>Aggregate total mill levy for the <u>Antler Creek Metropolitan District</u> is currently at ____ mills but could be increased by the Board of Directors in the future.</p> <p>Sample <u>Antler Creek Metropolitan District</u> Maximum Mill Levy Calculation for a <u>Residential Property</u>:</p> <p>$\\$300,000 \times .0625 = \\$18,750$ (Assessed Value) $\\$18,750 \times \underline{\hspace{1cm}} \text{ mills} = \\$\underline{\hspace{1cm}} \text{ per year}$ in sample taxes owed solely to this District if the District imposes its projected debt service and operations mill levy.</p> <p>A sample <u>Antler Creek Metropolitan District</u> Maximum Mill Levy Calculation for a <u>Commercial Property</u> has not been included as the Antler Creek Metropolitan District is comprised of residential development only.</p>
12.	Current Outstanding Debt of the District (as of the end of year of this report)	None.
13.	Total voter-authorized debt of the District (including current debt)	At the organizational election of the District, voters authorized a maximum principal amount of debt of \$____.
14.	Debt proposed to be issued, reissued or otherwise obligated in the coming year.	The Financial Plan included within the District's Service Plan proposes a 2027 debt issuance.

15.	Major facilities/ infrastructure improvements initiated or completed in the prior year	The following major facilities or infrastructure improvements were initiated or completed in 2025: none.
16.	Summary of major property exclusion or inclusion activities in the past year.	There were no inclusions or exclusions of property in 2025.

Reminder:

- A. As per Colorado Revised Statutes, Section 32-1-306, the special district shall maintain a current, accurate map of its boundaries and shall provide for such map to be on file with the County Assessor.
- B. Colorado Revised Statutes, Section 32-1-823(1), states a certificate of election results shall be filed with the County Clerk and Recorder.

Name and Title of Respondent

Signature of Respondent
