RE: El Paso County Water Master Plan

DATE: December 19, 2018

On December 18, 2018 the El Paso County Planning Commission adopted the Water Master Plan as an element of the El Paso County Master Plan. The final version of the Plan requires certification by the Planning Commission before it becomes official.

A big THANK YOU goes out to the Steering Committee for staying with us through the development and adoption of this document. It was with your assistance that we developed the framework of the plan, brought it to the public and the Planning Commission, and which will now be implemented with this plan. We greatly appreciate your attendance at the various meetings, providing editorial comments, and being present through development of the plan and the open house process.

The Planning Commission action allows us to now do a final edit with the comments you have provided and the minor changes they authorized, to now create a final document for publication. Your diligence in preparing this plan for adoption is greatly appreciated.

If you'd like a final electronic version made available to you, please let me know.
