- Meadow Lake Airport Comments
- . BoCC has not adopted:
 - Part 77 surfaces
 A zoning overlay

*No complete application has been submitted by Meadow Lake to request the BoCC to adopt the above

(additional information to be provided during staff presentation)

CRITERIA FOR APPROVAL

- 5.3.5 Map Amendment
 - The application is in general conformance with the El Paso County Master Plan including applicable Small Area Plans or there has been a substantial change in the character of the neighborhood since the land was last zoned;
 - The rezoning is in compliance with all applicable statutory provisions, including but not limited to C.R.S. §30-28-111 §30-28-113, and §30-28-116;
 - The proposed land use or zone district is compalible with the existing and permitted land uses and zone districts in all directions; and
 - The site is suitable for the intended use, including the ability to meet the standards as described in Chapter 5 of the Land Development Code, for the intended zone district.

- . 7.2,1.D.2 Preliminary Plan
 - The proposed subdivision is in general conformance with the goals, objectives, and policies of the Master Plan;
 - . The subdivision is consistent with the purposes of this Code;
 - . The subdivision is in conformance with the subdivision design standards and any approved sketch plan;
 - A sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards (C.R.S. §30-28-133(6)(a)) and the requirements of Chapter 8 of this Code;
 - A public sewage disposal system has been established and, if other methods of sewage disposal are proposed, the system complies with state and local laws and regulations. [C.R.S. §30-28-133(6)(b)) and the requirements of Chapter 8 of this Code;

- All areas of the proposed subdivision, which may involve soil or other topographical conditions presenting hazards or requiring special precautions, have been identified and the proposed aubdivision is compatible with such conditions (C.R.S. 30-28-133/6/o). Adequate Granega improvements complying with State Status (C.R.S. 5, 30-28-133/6/o). 133(3)(c)(VIII) and the requirements of this Code and the ECM ere provided by the
- oesign:

 Legall and physical access is or will be provided to all perceis by public rights-of-way or reported easument, acceptable to the County in compliance with this Code and the ECM:
- and the ECM:

 The proposed subdivision has established an adequate level of compatibility by (1) incorporating natural physical features into the design and providing sufficient open spaces considering the type and intensity of the subdivision; (2) incorporating attendantly to the subdivision; (2) incorporating attendantly to the county of plans, and encourage a land use pattern to support a balanced transportation asystem, including suits, bits and postestiran traffic, public or misss transit! I appropriate, and the county and posterior of the County of t

- Necessary services, including police and fire protection, recreation, utilities, open space and transportation system, are or will be available to serve the proposed subdivision;
- The subdivision provides evidence to show that the proposed methods for fire protection comply with Chapter 6 of this Code; and
- The proposed subdivision meets other applicable sections of Chapter 6 and 8 of this Code.

PLANNING COMMISSION

- # March 19, 2019
- . Unanimous Recommendation for Approval
- 1 adjacent property owner in opposition-does not want to see development
- . Discussion of Meadow Lake Airport Concerns/FAA comments

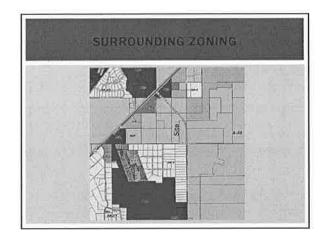

JUDGE ORR RANCHETTES

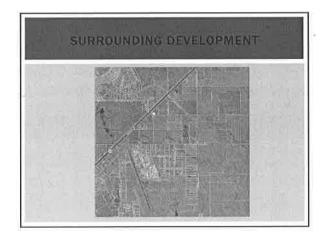

Rezone and Preliminary Plan

Applicant Presentation

- Representative: Catamount Engineering
- = Owner: John & Linda Jennings

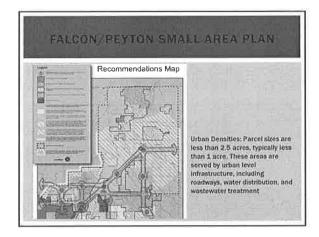

REQUEST: 1. Rezone from A-35 (Agricultural) to RRS (Residential Rural) 2. Preliminary Plan for 7 lots Density and dimensional standards: • Minimum lot size - 5 acres • Minimum width at the front lot line - 200 feet • Setbacks - 25 in the front, rear, sides • Maximum height - 30 feet

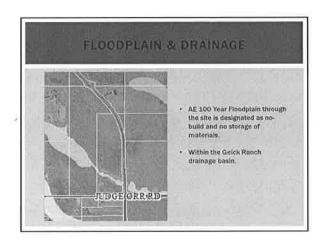

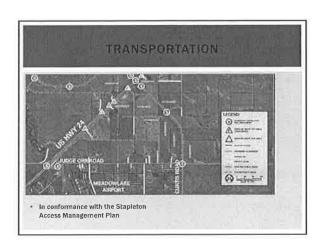

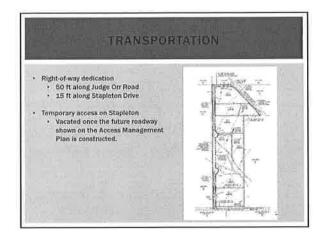

POLICY PLAN ANALYSIS

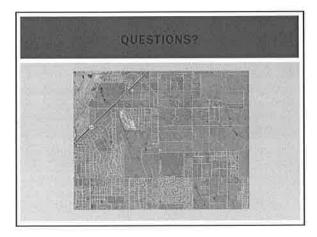

- Policy 6.1.3- Encourage new development which is contiguous and compatible with previously developed areas in terms of factors such as density, land use, and access.
- Policy 6.1.11- Plan and implement land development so that it will be functionally and aesthetically integrated within the context of adjoining properties and uses.
- Policy 9.2.2 Require advance right-of-way reservation and/or dedication for transportation facilities as part of the land development process.

Land Use and Meadow Lake Airport

824 Acres (Saddlehorn Ranch) Rezone

Judge Orr Ranchettes Rezone & Preliminary Plan

Board of County Commissioners - Public Hearing | April 23, 2019

Less + Cold Emmans C Boll

ISSUES OF CONCERN

- Applicants want to rezone their properties for development purposes
- Meadow Lake Airport/Meadow Lake Airport Association oppose ("MLA") and Federal Aviation Administration ("FAA")
- County must make land use decisions that are fair and are in accordance with law.

DEVELOPMENT APPLICATIONS

824 Acres (aka Saddlehorn Ranch)("Saddlehorn")

- Rezone 824 acres from A-35 (Agricultural) to RR-2.5 (Residential Rural)
- West boundary adjacent to MLA
- 2008 Falcon/Peyton Small Area Plan shows MLA east/west Approach/Departure Surfaces extend into Saddlehorn property

Judge Orr Ranchettes ("Ranchettes")

- Rezone 40.67 acres from A-35 (Agricultural) to R-5 (Residential Rural) & Preliminary Plan
- South boundary adjacent to MLA on MLA's east side

MLA OPPOSES (Quotes from MLA Letter March 28, 2019)

- oppose. Based on April 22, 2019 meeting between MLA Saddlehorn, County understands MLA will not
- "The Meadow Lake Airport Association (MLAA) continues to be adamantly opposed to consideration of the development plans listed above, and any others that may arise within the Meadow Lake Airport Influence Area (AIA) . . . until such time as El Paso County develops, approves, and publishes a Land Use Plan for the Airport Influence Area in accordance with the requirement of C.R.S. 43-10-113. . . . " (Emphasis in original).
- "Several development proposals . . . are directly in line with the existing approach and departure paths of the runways at this significant federally-obligated General Aviation facility."
- "El Paso County must defer any consideration of these proposals, and any others within the Meadow Lake Airport Influence Area, until a Land Use Plan has been developed and published."
- "Continued failure to comply with the State statute will more than likely result in legal action."

MLA OPPOSES (cont. from last slide)

MLA has suggested that the County should impose a requirement of avigation easements as a condition of development approval.

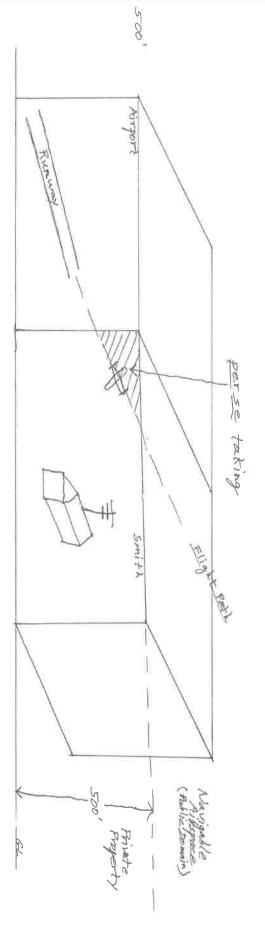

Colorado State Planner, FAA to Dave Elliott of MLA) FAA OPPOSES (March 22, 2019 e-mail from Linda Bruce,

- "In addition to an easement, we would recommend additional approach/departure areas for Runway 8/26. In addition, we the ground....we strongly recommend open space be established in on the subject property." disclosure statement to properly disclose the airport to all residents the development plat of any residential development, as well as a recommend the aviation easement to be included as a plat note on measures be taken to protect the safety of persons and property on
- opposed to rezoning the subject parcel to allow residential use." "Even with these additional measures, the FAA continues to be

FAA OPPOSES (cont. from last slide)

"FAA would not support any Federal assistance to mitigate aircraft the acquisition of houses and relocation of residents." development built on the subject property, including soundproofing, noise or incompatible land uses associated with residential

OVERLYING CONCERN

§ 43-10-113, C.R.S.

- The general assembly hereby declares commercial service airports, public areas surrounding such airports, as defined in 14 CFR part 77, to be a airports, reliever airports, as defined in 49 U.S.C. sec. 47102, and the land matter of state interest as provided in article 65.1 of title 24, C.R.S.
- Governmental entities with zoning and building permit authority shall areas defined in 14 CFR part 77. adopt and enforce, at a minimum, rules and regulations to protect the land
- 49 U.S.C. sec. 47102
- avigation access to the overall community congestion at a commercial service airport and to provide more general (23)"Reliever airport" means an airport the Secretary designates to relieve
- No legislative history or case law that explains what or how local government is to "the land areas defined."

14 CFR Part 77

SAFE, EFFICIENT USE, AND PRESERVATION OF THE NAVIGABLE AIRSPACE

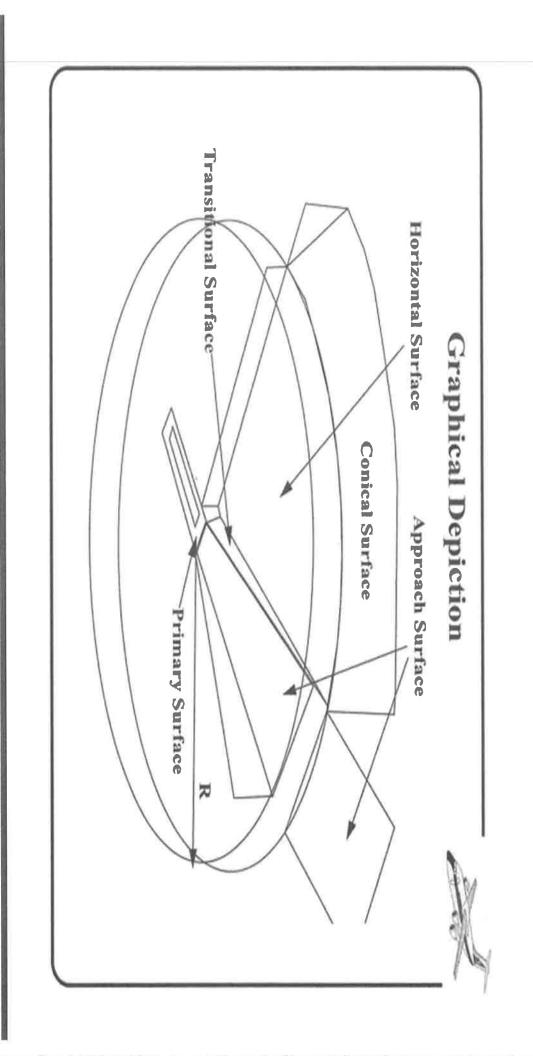

§ 77.17 Obstruction standards.

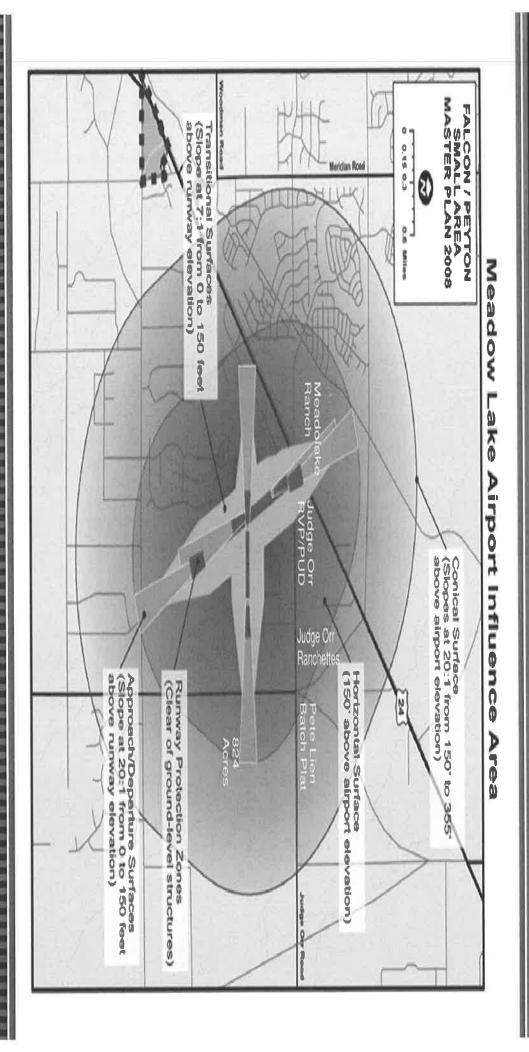

- An existing object, including a mobile object, is, and a future object than any of the following heights or surfaces: would be an obstruction to air navigation if it is of greater height
- A height of 499 feet AGL at the site of the object.
- 5) considered an obstruction. imaginary surface established under § 77.19, 77.21, or 77.23. The surface of a takeoff and landing area of an airport or any However, no part of the takeoff or landing area itself will be

§ 77.19 Civil airport imaginary surfaces.

The following civil airport imaginary surfaces are established with slope and dimensions of the approach surface applied to each end of existing or planned for that runway end. a runway are determined by the most precise approach procedure to the type of approach available or planned for that runway. The imaginary surface is based on the category of each runway according relation to the airport and to each runway. The size of each such

COUNTY IS IN COMPLIANCE WITH § 43-10-113, C.R.S.

- County adopted 1041 Regulations--Areas and Activities of State from MLA in 2014. Interest—regarding Airports in 2013, and revised with much input
- County has advised MLA that adoption of Part 77 Imaginary Surfaces entails the following process:
- Obtain 1041 approval
- Adopt Part 77 Surfaces
- Amend Airport Overlay Zone
- approval. MLA is responsible as airport owner to initiate and obtain these approvals. MLA needs to make a complete application for a 1041

MLA IS RESPONSIBLE TO ACQUIRE PRIVATE PROPERTY RIGHTS NECESSARY TO OPERATE THE AIRPORT

- BoCC Resolution 12-390—Approved General Aviation Overlay (GA-O) Zone District for Meadow Lake Airport
- · "Approval of the GA-O does not approve an Airport Master Plan or Layout Plan, adoption and/or enforcement of noise contours, airport accident zones, or Part 77 Surfaces which are not under consideration with this application." (Condition
- "For land use approvals with the General Aviation Overlay that will result in over such over flights and provide proof of the same to the County." (Condition 9). acquire the necessary property interests in the affected private property to allow Association to obtain the appropriate legal approvals of the land owner(s) or flights of private property at less than 500 feet above ground level, it shall be the responsibility of the Meadow Lake Airport and/or Meadow Lake Airport

(cont. from last slide)

7.202 Review Criteria (1041 Regulation)

associated with or generated by it, can be legally operated as proposed demonstrate that the airport site or expansion, and uses and activities will be taken and property rights have been or will be acquired to restrictions exist, or alternatively, that adequate measures have been or (15) The applicant can provide evidence that sufficient property rights or

State Law

- Colo. Const. Art. 11, § 15
- Section 15. Taking property for public use compensation, how ascertained. Private property shall not be taken or damaged, for public or private use, without just compensation.
- § 41-1-106, C.R.S.
- Sovereignty in the space above the lands and waters of this state is declared to rest in the state, except where assumed by United States law.
- § 41-1-107, C.R.S.
- vested in the several owners of the surface beneath, subject to the right of flight of The ownership of space above the lands and waters of this state is declared to be

NAVIGABLE AIRSPACE

- 14 C.F.R. § 91.119
- Except when necessary for takeoff or landing, no person may operate an <u>aircraft</u> below the following altitudes:
- settlement, or over any open air assembly of persons, an altitude of 2,000 feet of the <u>aircraft</u>. (b)Over congested areas. Over any congested area of a city, town, or 1,000 feet above the highest obstacle within a horizontal radius of
- cases, the <u>aircraft</u> may not be operated closer than 500 feet to any surface, except over open water or sparsely populated areas. In those <u>person,</u> vessel, vehicle, or structure. (c)Over other than congested areas. An altitude of 500 feet above the

CASE LAW

- United States V. Causby, 328 U.S. 256, 66 S.Ct. 1062, 90 L.Ed. 1206 (1946).
- Causby and family loss of sleep and nervousness, caused chickens to die from flying into walls from fright, and thus causing Causby to give up commercial chicken farm constituted a taking of an easement over the property—equivalent to a fee interest in this case because it is permanent. Military planes frequently and regularly flying over Causby's house and chicken farm at heights of 83' that caused excessive noise and glare, caused
- Congress defined navigable airspace in the public domain as airspace above the minimum safe altitude of flight prescribed by the Civil Aeronautics Association.
- Glide path for takeoff and landing thus not within navigable airspace
- Landowner owns at least as much of the space above the ground as they can occupy or use in connection with the land. The fact that he does not occupy it in a physical sense by the erection of buildings and the like is not

CASE LAW

- Griggs v. Allegheny County, Pa., 369 U.S. 84, 82 S.Ct.531, 7 L.Ed.2d 585 (1962).
- Griggs' property 3,200' from end of NE runway. Slope gradient at property was 81' or 11.36' above Griggs' chimney.
- Court recognized Congress redefined navigable airspace in 1958: "airspace above minimum altitudes of flight to include airspace needed to insure safety in take-off and landing of aircraft."
- Congress set minimum safe altitudes at 1,000' over congested areas, 500' over other than congested areas.
- The Court nevertheless held that flights in the public domain on landings and take-off constituted an interference with individual property rights amounting to a taking in the constitutional sense of an air easement by the airport for which compensation must be paid.
- "The glide path for the northeast runway is as necessary for the operation of the airport as is a surface right of way for operation of a bridge or as land for operation of a dam."
- "Respondent [County airport] in designing it had to acquire some private property. Our conclusion is that by constitutional standards it did not acquire enough."
- The case indicates that although planes may fly below 500' when necessary for takeoff and landing, this right does not divest the property owner of his protected property right to his usable airspace, and in designing the airport, the <u>airport owner</u> may have to acquire enough private property to avoid a future taking of private property without paying just compensation.

CASE LAW

- McCarran Intern. Airport v. Sisolak, 137 P.3d 1110 (Nev. 2006).
- A Nevada case that a Colorado court likely would follow based on constitutional provisions and statutes almost identical to ones in Colorado.
- Sisolak bought property near County Airport.
- Predecessor in title granted County avigation easement.
- County passed ordinance and overlay map that resulted in restricting heights of structures on Sisolak's property and required grant of avigation easement.

CASE LAW (cont. from last slide)

- McCarran Intern. Airport v. Sisolak, 137 P.3d 1110 (Nev. 2006).
- Held: Adoption of ordinance established permanent physical invasion of airspace over Sisolak's property, which is a *per se* taking. Planes flying at altitudes less than 500' over Sisolak's property as permitted by the ordinance constituted physical invasion of private property, without compensation, which is a taking.
- \$16,617,300 The Court affirmed the trial court's judgment against the County of
- compensation. This results in a per se taking. require the owner to acquiesce to permanent physical invasion without just Land use regulations or approvals that result in aircraft flying at altitudes use, will constitute a physical invasion of the owner's property and will property is restricted, without the owner's permission or payment for the below 500' AGL over private property, or the height of uses on private

PER SE TAKINGS

- Government regulation or condition either:
- Requires owner to suffer permanent physical invasion of her property; or
- Completely deprives owner of all economic beneficial use of her property
- If no compensation, results in taking under 5th/14th Amendments.
- Property Rights are rights to possess (power to exclude others), use, and dispose
- Physical occupation by government regulation or condition destroys each property rights, it chops through the bundle taking a slice of every stick. right. Government does not simply take single "stick" from bundle of

REGULATORY PER SE TAKINGS (cont. from last slide)

- Regulatory taking—Government takes or appropriates private occupation of their property. owner by ordinance or condition to acquiesce to permanent physical property for specific public use—requires just compensation. Forces
- Basic Problem: Avigation easements imposed by the government and imposed to prevent owner's use of airspace above her property so airplanes can use it instead restrictions for buildings on private property. Restrictions okay unless overlay maps adopted by the government can result in height

IF Bocc IS INCLINED TO DENY REZONING REQUESTS:

- Not in conformity with master plan
- Incompatible with existing use of airport
- Health, safety, and welfare—approval could result in injury to persons or property from airplane crashes
- Cannot deny on basis of Part 77 Surfaces that have not yet been approved

IF Bocc is inclined to approve rezoning requests:

It should not impose as condition of approval an avigation easement in favor of MLA. This creates risk of potential takings challenges from applicant and/or future lot
