EL PASO COUNTY STORMWATER MANAGEMENT PLAN CHECKLIST

Revised 5/21/07

 Applicant (owner/ designate Contractor Information. 	ed operator), Prepared By, SWMP Administrator, and
2) Table of Contents.	Include the checklist with the resubmittal noting the page number where the missing items are addresse
3) Site description and location Range)	on the SWMP. n to include vicinity map (not just Section, Township,
and grubbing, temporary stabil	struction activities proposed (e.g., may include clearing lization, road grading, utility / storm installation, final removal of temporary control measures).
,	separate drawings indicating initial, interim, and final site vide "living maps" that can be revised in the field as
anticipated starting and compl	or activities: Provide a construction schedule of etion dates for each stage of land-disturbing activity res anticipated, including the expected date on which the eted.
7) Estimates of the total site a	rea and area to undergo disturbance.
8) An estimate of runoff coeffice required with next State update.	cients before and after project construction (may not be e).
9) Soil erosion potential and po	otential impacts upon discharge.
10) A description of existing ve	egetation at the site and percent ground cover.
11) The location and description (mobile or stationary), chemical	on of any other potential pollution sources such as fueling al storage, etc.

	12) Material handling to include spill prevention and response procedures.
—	13) Spill prevention and pollution controls for dedicated batch plants. See note below if N/A.
	14) Other SW pollutant control measures to include waste disposal and off site soil tracking.
	15) The location and description of any anticipated non-stormwater components of discharge (springs, irrigation, etc.).
	16) The name of ultimate receiving waters; size, type and location of stormwater outfall or storm sewer system discharge.
	17) SWMP Map to include: a) construction boundaries
	b) all areas of disturbance c) areas of cut and fill
_	 d) areas used for storage of building materials, soils or wastes (stockpiles) See note below if N/A. e) location of any dedicated asphalt / concrete batch plants
_	See note below if N/A.
	f) major erosion control facilities or structures (sedimentation ponds, etc.)
	g) springs, streams, wetlands and other surface waters
	h) boundaries of FEMA mapped 100 year flood plain
	18) Narrative description of structural BMPs to be used, including silt fence, straw bales, check dams, sediment basins, drainage swales, etc. Ensure method is ECM / DCM approved.
	19) Description of non-structural BMPs to be used including seeding, mulching, protection of existing vegetation, site watering, sod placement, etc.

- 20) Technical drawing details for BMP installation and maintenance.
- 21) Procedure for how the SWMP will be revised.
- 22) Description of Final Stabilization and Long-term Stormwater Quality (describe measures to control SW pollutants after construction operations have been completed.
- 23) Provide for vegetative cover density to be 70% of pre-disturbed levels.
- 24) Outline of permit holder inspection procedures to install, maintain, and effectively operate BMPs, to manage erosion and sediment.
- 25) Record keeping procedures identified to include signature on inspection logs and location of SWMP records on-site.

Please note: all items need to be addressed. If not applicable, explain; simply identifying "not applicable" will not satisfy CDPHE requirement of explanation.
