Subject: Hay Creek Valley Subdivision Preliminary Plan, Review #2 – (SP-23-001)

Hello Lekishia,

The Parks Planning Division of the Parks and Community Services Department has reviewed Hay Creek Valley Subdivision Preliminary Plan development application, 2nd submittal. **On June 6, 2023, the Board of County Commissioners approved the 2023 regional and urban park fees. As noted in the original Parks and Community Services comments below, submitted on March 8, 2023, the new park fees would be applied to those development applications filed in 2023 (e.g., SP-23-001). As such, please find attached the updated Subdivision Review Form containing the new regional park fee amount. This updated fee amount is also reflected below in the Recommended Motion.**

This application and the following comments and recommendations were originally presented to and endorsed by the Park Advisory Board on March 8, 2023:

“This is a request for endorsement by Matrix Design Group, Inc., on behalf of View Homes, Inc., for approval of the Hay Creek Valley Subdivision Preliminary Plan. This proposed rural residential development consists of 20 single-family lots on 214.62 acres and is zoned RR-5, with lots ranging in size from 5 to over 17 acres. The project site is located west of the Interstate 25 and Baptist Road interchange on Hay Creek Road, immediately north of the United States Air Force Academy, and east of Pike National Forest.

The 2022 El Paso County Parks Master Plan shows no impacts to existing or proposed parks, trails, or open space. The existing New Santa Fe Primary Regional Trail, Forest Lakes Secondary Regional Trail, and Fox Run Primary Regional Trail are all located approximately 1.25 miles northeast of the site, where all three trails intersect at the Baptist Road Trailhead facility, at the intersection of Baptist Road and Old Denver Road.

The 2022 El Paso County Parks Master Plan includes an update to the Candidate Open Space Areas, utilizing a weighted overlay of numerous natural and man-made attributes which contribute to strong candidate open space areas. Hay Creek Valley Subdivision falls completely within the bounds of both the Foothills and Forest Lakes Candidate Open Space Areas. Natural resource values within the Forest Lakes area are concentrated around wildlife habitat, primarily for the Preble’s Meadow Jumping Mouse (a federally threatened species), as well as herbaceous, grassland, and riparian vegetation. This area contains habitat parameters likely critical to the mouse persistence. The Foothills area represents a significant transition between diverse natural attributes of the High Plains and the complex elements of the Front Range mountain habitats.

While the El Paso County Land Development Code's 10% open space requirement is not applicable to projects that are not zoned PUD, staff appreciates the inclusion of a 11.62-acre open space tract as a means to protect nearby Hay Creek and the Preble's Meadow Jumping Mouse 300' habitat buffer. Furthermore, large acreage lots, natural landscaping, and a lack of local wetlands and waterways within the subdivision greatly reduce overall impacts to the surrounding foothills environment.

As no park lands or trail easement dedications are necessary for this subdivision, El Paso County Parks staff recommends fees in lieu of land for regional park purposes. **Please note that park fees are currently being calculated using 2022 rates. An update to both regional and urban park fees is expected in 2023. Once established, all development applications (preliminary plans and final plats) filed in 2023 will be recalculated at the 2023 rate.**

Recommended Motion (Preliminary Plan – UPDATED 08/02/2023):

The Park Advisory Board recommends that the Planning Commission and the Board of County Commissioners include the following condition when considering and/or approving the Hay Creek Valley Subdivision Preliminary Plan: fees in lieu of land dedication for regional park purposes in the amount of **\$10,100** will be required at time of the recording of the forthcoming final plat(s)."

Please feel free to contact me should you have any questions or concerns.

Sincerely,
