RE: Commitment Letter for Homestead North at Sterling Ranch Filing 3—Final Plat

Dear Doug:

This commitment is for the above Final Plat know as Homestead North at Sterling Ranch Filing 3. This commitment is a restatement of the previous preliminary commitment issued on June 10, 2022 and does not represent any additional commitments.

Falcon Area Water and Wastewater Authority will provide central water and sewer service to the above- named subdivision which includes approximately 77 single family lots and an estimated 5.65 acres of active irrigated landscaping. In response to the trend towards high density housing on small lots, FAWWA has modified its water supply ratios to accommodate the trend in land use.

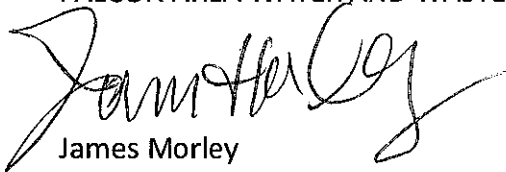

SFE Equivalency for High Density Lots

Lot Size	SFE Ratio	Effective Annual Demand
Lots < 2000 SF	0.65	0.23
Lots < 3500 SF	0.75	0.265
Lots < 7000 SF	0.90	0.318
Lots > 7000 SF	1.0	0.353

FAWWA's base SFE allocation remains at 0.353 AF/SFE, but the above table allows for consideration of the water efficiency for high density lots. The amount of water set-aside will be 41.31 acre-feet/year. The wastewater commitment is for 13,244 gal/day on an average daily- maximum monthly basis.

Sincerely,

FALCON AREA WATER AND WASTEWATER AUTHORITY

James Morley
District Board President
