Please accept the following comments from El Paso County Public Health for the proposed Christmas Event:

- The use of three (3) portable toilets with planned weekly servicing is approved. El Paso County Public Health recommends, but does not require, that portable handsinks be used in addition to hand sanitizers.
- The food concessions planned require input from El Paso County Public Health on licensing and food handling. Call 719-578-3199 and option #3 of Environmental Health and ask to speak to a representative of the Food Program for information.
- Locate your existing onsite wastewater treatment system (OWTS) servicing the residence, and especially the soil treatment area. Do not allow vehicle parking or driving over the soil treatment area to help prevent damage and premature failure of the OWTS.
