Subject: Trails at Aspen Ridge Filing 5 Trip Generation Comparison Letter

Dear Mr. Buschar,

Matrix Design Group (Matrix) submitted a traffic impact study addendum to El Paso County dated February 2, 2021 and revised April 16, 2021 analyzing the impacts for the entirety of the Trails at Aspen Ridge development. The total number of dwelling units for the entire project remains 861 single family dwelling units. The development is now split into 7 filings instead of the 6 filings shown in the PUDSP. Filing 5 contains 58 of the 861 dwelling units. The findings from the February 2021 addendum that was revised in April 2021 are still valid for the entirety of the project as the total number of units remains the same.

Trails at Aspen Ridge will contribute trips to the Powers Boulevard/Bradley Road intersection that will require improvements in the future. The project will contribute 58.5% of its incoming trips and 46% of its outgoing trips to the Powers Boulevard/Bradley Road in the horizon year of 2040. This equates to 2,539 daily inbound trips and 1,996 outbound daily trips for a total of 4,535 daily trips through the intersection. The intersection will have 24,250 new daily trips in the year 2040. Therefore, the project contributes (4,535/24,250) 18.7% of the new daily trips through the Powers Boulevard/Bradley Road intersection. The fair share contribution for each of the six Trails at Aspen Ridge filings is broken down in Table 1, below.

Table 1 – Trails at Aspen Ridge Filing Contributions to Powers/Bradley Intersection

	Powers/Bradley Intersection				
Parcel	Entry Trips	Exiting Trips	Total Trips	% Share	
Filing 1	534	420	953	3.93%	\$ 53,487.82
Filing 2	289	227	516	2.13%	\$ 28,966.21
Filing 3	584	459	1043	4.30%	\$ 58,518.78
Filing 4	366	288	653	2.69%	\$ 36,647.53
Filing 5	171	135	306	1.26%	\$ 17,151.04
Filing 6	230	181	411	1.69%	\$ 23,043.97
Filing 7	366	288	653	2.69%	\$ 36,647.53
Total	2539	1996	4535	18.70%	\$ 254,462.88

Filing 5 contributes 1.26% towards the cost of intersection improvements at the Powers Boulevard/Bradley Road intersection. With a total estimate cost of \$1,360,692.26 for the intersection improvements, Filing 5's fair share contribution is \$17,151.04.

Additionally, Filing 5 must contribute to an escrow account with El Paso County for the expected overage between the estimated construction cost of the Bradley Road/Legacy Hill Drive traffic signal and the amount that will be reimbursed by El Paso County. Per the attached letter dated May 24, 2022, Trails at Aspen Ridge Filing 5 is responsible for an escrow amount of \$16,035.61 towards the overage between

Excellence by Design

the estimated cost to construct the traffic signal and the amount that will be reimbursed by El Paso County.

The findings from the February 2021 addendum that was revised in April 2021 should be considered valid for Filing 3 since the total number of dwelling units has not changed.

Please let me know if you have any questions at Scott.Barnhart@matrixdesigngroup.com or (719) 575-0100. Thank you.

Traffic Engineer's Statement

The attached traffic report and supporting information were prepared under my responsible charge and they comport with the standard of care. So far as is consistent with the standard of care, said report was prepared in general conformance with the criteria established by the County for traffic reports.

Attention Mr. Timothy Buschar

RE: Bradley Road/Legacy Hill Drive Traffic Signal Financial Assurances

Mr. Buschar:

El Paso County (County) recently changed an internal policy that now requires the County to have developers post escrow for the cost of traffic signals that will be constructed by the developer. The proposed traffic signal at the intersection of Bradley Road and Legacy Hill Drive will be reimbursed by El Paso County up to \$350,000. The County has asked that COLA provide a cost estimate for the actual cost of the proposed traffic signal, which is anticipated to be in excess of \$350,000, and post a financial assurance for the full amount of the traffic signal and escrow for the difference between the estimated actual cost and what will be reimbursed by the County. Then, the County requested that the cost difference be apportioned between all six filings of the Trails at Aspen Ridge. Only the escrow fair shares for filings 3 through 6 will be collected because filings 1 and 2 have already been approved.

Matrix prepared an itemized cost estimate for the traffic signal and used historic cost data from the Colorado Department of Transportation (CDOT). The cost estimate is attached to this letter as Attachment 1. The estimated cost for the traffic signal is \$588,045.92. Therefore, the costs that must have escrow posted for is \$238,045.92 (difference between cost estimate and reimbursement amount).

The total amount of escrow was distributed between the six filings based on the number of dwelling units in each filing and is shown as Table 1.

Table 1 – Escrow and Financial Assurance Breakdown Between Trails at Aspen Ridge Filings

Parcel	Size (DU)	% (DUs)	Financial Assurance (\$)	Escrow (\$)
Filing 1	181	21.0%		\$ 50,042.17
Filing 2	98	11.4%		\$ 27,094.66
Filing 3	198	23.0%	\$ 533,303.65	\$ 54,742.27
Filing 4	124	14.4%		\$ 34,283.04
Filing 5	58	6.7%		\$ 16,035.61
Filing 6	78	9.1%		\$ 21,565.14
Filing 7	124	14.4%		\$ 34,283.04
Total	861	100.0%		\$ 238,045.92
Cost to Construct Signal				\$ 588,045.92
Reimbursement from County				\$ 350,000.00
Amount of Escrow				\$ 238,045.92

The total amount of escrow that COLA must post is \$160,909.09 (total amount of escrow minus portions for Filing 1 and Filing 2).

Excellence by Design

If you have any questions, please feel free to contact me at (719) 457-5581 or at Scott.Barnhart@matrixdesigngroup.com.

Sincerely,

Scott D. Barnhart, P.E., PTOE
Senior Associate of Transportation Services

Notes:

- 1). This Cost Opinion is based upon Preliminary Layout as of August 2019.
- 2). Since ENGINEER has no control over the cost of labor, materials, equipment or services furnished by others, or over the Contractor(s)' method of determining prices, or over the competitive bidding or market conditions, its opinions of probable cost provided herein are made on the basis of its experience and qualifications and represents its best judgment as an experienced and qualified professional engineer, familiar with the construction industry, but ENGINEER cannot and does not guarantee that proposals, bids or actual Projects or Construction Cost will not vary from its opinion of probable cost.
- 3). All costs are 2022 dollars calculated as follows: 2020 Cost data inflated by 10.50%
- 4). Basis of Lump Sum Items are as follows:
 - Potholing 3% of Construction Cost
 - F/A Minor Contract Rev 3% of Construction Cost
 - Traffic Signal Equipment: 5% of Construction Cost
 - Construction Surveying: 2% of Construction Cost
 - Mobilization: 10% of Construction Cost
 - Traffic Control: 10% of Construction Cost
 - Erosion Control 2% of Construction Cost

- 5). Basis of "Lump Sum" Traffic Signal Equipment is for all additional equipment and labor to make the traffic signal functional.
