**12843 Peyton Hwy., VA-18-024**

Please accept the following comments from El Paso County Public Health for the variance request referenced above:

- El Paso County Public Health has a professional engineer designed onsite wastewater treatment system (OWTS) record from 1991 for 2 of the 3 mobile homes on the property. These two homes are connected to a common septic tank and soil treatment area (STA).
- El Paso County Public Health does not have an OWTS record on file for the 3-bedroom mobile home that is located closest to Peyton Highway on the west side of the property. The OWTS for the two other mobile homes was installed by an El Paso County licensed contractor and is likely approved. If a record is known to exist for this OWTS, please contact El Paso County Public Health.
- Water to the property is provided by an individual private well.
- El Paso County Public Health does not have a record of a complaint ever filed against the property.
