***RE: Waterview II Metropolitan District Service Plan Amendment***

We have analyzed the bonding capacity for the proposed Waterview II Metropolitan District (the "District"). The analysis presented summarizes and presents information provided on behalf of View Homes, Inc. (the "Developer") and does not include independently verifying the accuracy of the information or assumptions.

**Plan Assumptions**

The following assumptions have been provided by the Developer and form the basis of the analysis. All prices below reflect 2021 market values.

1. The residential development is anticipated to be comprised of 861 single-family homes projected to be completed between 2021 through 2026. Estimated home prices range from \$375,000 to \$425,000 per unit with an overall average of approximately \$393,000 per unit. Home prices are estimated to appreciate at 2% per year.
2. There is no commercial product included in the current forecast of district revenues.

**Bond Assumptions**

1. The residential debt service mill levy target is 50 mills beginning in tax collection year 2022.
2. The District is modeled to issue senior and subordinate bonds in December 2021. The senior bonds (Series 2021A) are estimated to have a par of \$24,480,000 and an interest rate of 4.25%. At issuance, it is projected that the District will fund \$250,000 in costs of issuance, \$2,601,000 in capitalized interest, and \$2,034,475 in a debt service reserve from bond proceeds which constitutes 8.3% of the total 2021 senior bond amount. The Underwriter's discount is modeled as 2% of par for senior bonds. The remaining \$19,104,925 is projected to be deposited to the District's project fund to reimburse the Developer for eligible expenses.

The subordinate cash flow bonds (Series 2021B) are estimated to have a par of \$2,310,000 and carry an interest rate of 7.5%. The Underwriter's discount is modeled as 3% of par for subordinate bonds. The remaining \$2,240,700 is projected to be deposited to the District's project fund to reimburse the Developer for eligible expenses.

Total senior and subordinate bond revenues are dependent on the following key assumptions:

- a. Annual Specific Ownership Tax revenues are modeled at a factor of 6% to annual property tax revenues.

- b. It is projected that 98.5% of property taxes levied will be collected and available to the District.
- c. It is projected that there will be a 6% biennial inflation rate on existing assessed valuation.
- d. Total senior bond par amount is sized to 1.2x debt service coverage, with subordinate bonds sized at 1.0x debt service coverage on revenues left after payment of senior principal and interest.

#### Refinance Assumptions

1. The District is modeled to issue senior and subordinate refunding bonds in December 2028. The senior bonds (Series 2028A) are estimated to have a par of \$30,490,000, funds on hand of \$2,418,000, remaining debt service reserve from the Series 2021 bonds of \$2,034,475, and an interest rate of 4.0% for the senior bonds. At issuance, it is projected that the District will fund \$28,365,245 to refund the Series 2021 bonds and \$200,000 in costs of issuance. The Underwriter's discount is modeled as 0.50% of par for investment grade rated senior bonds. The remaining \$6,224,780 is projected to be deposited to the District's project fund to reimburse the Developer for additional eligible expenses.

The subordinate cash flow bonds (Series 2028B) are estimated to have a par of \$2,757,000 and carry an interest rate of 6.5%. The Underwriter's discount is estimated at 3% of par for the subordinate bonds. The remaining \$2,674,290 is projected to be deposited to the District's project fund to reimburse the Developer for eligible expenses.

- a. Annual Specific Ownership Tax revenues are modeled at a factor of 6% to annual property tax revenues.
- b. It is projected that 98.5% of property taxes levied will be collected and available to the District.
- c. It is projected that there will be a 6% biennial inflation rate on existing assessed valuation.
- d. It is projected that the senior bonds will be issued with an investment grade rating.
- e. Total senior bond par amount is sized to 1.2x debt service coverage, with subordinate bonds sized at 1.0x debt service coverage on revenues left after payment of senior principal and interest.

#### Estimate of Revenue Projections for first 10 years

The debt service mill levy (50.000 mills) collection revenues over the first 10 years total \$9,338,716 plus an additional \$560,323 in specific ownership taxes associated with the debt levy, plus for a total of \$9,899,039.

The operations mill levy (10.000 mills) and special purpose mill levy (5.000 mills) collection revenues total \$2,801,613 plus an additional \$168,095 in specific ownership taxes associated with the operations and special purpose levy for a total of \$2,969,708.

Based upon the development assumptions provided and the financial assumptions contained in the attached projected Financing Plan for the proposed Waterview II Metropolitan District, the projected revenue is sufficient to retire all Debt referenced in the Financing Plan within the restrictions set forth in

the District's Service Plan, including but not limited to the maximum debt mill levies and maximum maturity period.

#### Risks Associated with the Bond Financing

##### Risks to Tax Payers:

- Development is slower than anticipated
- Biennial inflation on existing assessed values is less than 6%
- District imposes Maximum Debt Mill Levy as described in the Service Plan

The primary risk to tax payers is that the Districts issue bonds to finance infrastructure and then the absorption of additional property, or its valuation by the Assessor, lags modeled expectations. If that occurs, then the Districts may need to levy the Maximum Debt Mill Levy as described in the Service Plan and would not be able to reduce the levy for a longer period of time. All risks are mitigated by the inclusion of a debt service mill levy imposition term of, generally, 40 years from the date of original imposition on residential property, and a corresponding termination date on debt instruments issued by the District.

##### Risks to Bondholders:

- Development is slower than anticipated
- Biennial inflation on assessed values is less than 6%
- Assurance of the continuation of development is not assured
- Reliance on Federal Tax Code and State laws governing municipal finance and special districts

The primary risk to bondholders is the development does not occur as fast as originally projected and that the revenues generated from the Maximum Debt Mill Levy as described in the Service Plan are not sufficient to meet the Districts' financial obligations. These risks are mitigated by funding a capitalized interest and reserve fund at closing. In addition, these bonds are anticipated to be marketed only to sophisticated investors who understand the risks involved in the transaction.

#### Disclosures

It is contemplated that D.A. Davidson will provide investment banking services to the District in connection with its future bond financings or other borrowings. D.A. Davidson is not acting as a financial advisor to the District.

The assumptions disclosed in the Financial Plan are those of the Developer and have not been independently reviewed by D.A. Davidson. Those assumptions identified are believed to be the significant factors in determining financial feasibility; however, they are likely not to be all-inclusive. There will usually be differences between forecasted and actual results, because events and circumstances frequently do not occur as projected, and those differences may be material. Key assumptions, including those relating to market values of real property improvements and the build out schedule of such property, are particularly sensitive in terms of the timing necessary to create the tax base for the District. A small variation in these variables, and to their timing, can have a large effect on the forecasted results. There is a high probability that the forecasted results will differ from realized future tax base factors and such variations can be material. Additionally, other key assumptions relating to inflation, assessment ratios, interest rates, and infrastructure, administrative, and operating costs may, and likely will, vary from those projected.

Because D.A. Davidson has not independently evaluated or reviewed the assumptions that the financial model is based upon, we do not vouch for the achievability (and disclaim any opinion) of the information provided. Furthermore, because of the inherent nature of future events, which are subject to change and variation as events and circumstances change, the actual results may vary materially from the results presented here. D.A. Davidson has no responsibility or obligation to update this information or this financial model for events occurring after the date of this report.

Respectfully submitted,
