---

The WQCD Engineering Section has received your drinking water application and plans and specifications for the Grandview Reserve MD No 1 - New Treatment Plant project. At any time, you may use the [Active Project Status](#) to view the status of this application, the assigned review engineer, and a listing of all projects in the review queue. While the Engineering Section typically queues projects based on the submittal date, please be aware that we may prioritize projects for public health and environmental emergencies. Your primary point of contact for this project is the assigned review engineer. Prior to assignment of a review engineer, please contact one of the unit managers for any additional information. The Engineering Section currently has a backlog of approximately 3 months that may lapse prior to working on new projects. Michael Emming may be contacted by telephone at 303-692-6337 or by email at [michael.emming@state.co.us](mailto:michael.emming@state.co.us), Doug Camrud may be contacted by telephone at 303-692-3271 or by email at [douglas.camrud@state.co.us](mailto:douglas.camrud@state.co.us), and Emily Wong may be contacted by telephone at 303-692-3566 or by email at [emily.wong@state.co.us](mailto:emily.wong@state.co.us).

Good afternoon,

You will be receiving an email shortly to view the BDR Submittal: Woodmen Hills Metro District – Grandview Reserve WTP. The email will come from our SharePoint site and should allow access to the folder and PDF.

Please let me know if you have any questions or have any trouble accessing the files.

Thank you!

**Rachel Grupe, EIT**
