RE: Primary and Secondary Access Permits

Cristin Pring:

It has come to my attention that the Primary Access Permit # 30857 and the Secondary Access Permit # 30858 fees of \$311.00 have not yet been paid. Please submit payment in person to the El Paso County Planning and Community Development Department at 2880 International Circle suite 110 at your earliest convenience.

Driveway Permits are required to construct, reconstruct, pave, alter, enlarge or change the use of any driveway intersecting a County road; install, re-install, replace, or move a culvert associated with a driveway intersecting a County road; or verify a driveway location is on a private road before issuing a building permit. Where a new driveway is to be constructed in conjunction with the construction of a new principal structure, the Driveway Permit shall be issued as a condition for obtaining a building permit. Where the use of a principal structure or property is proposed to change, a new Driveway Permit may be required prior to the use conversion.

No person shall commence work on any driveway or culvert within a County right-of-way before the Driveway Permit has been paid for and issued.

If payment has not been received within 30 days of this notice, the above mentioned access permits will be null and void.

If you have any questions please feel free to reach out to me my contact information is below.

Sincerely,

Brad Walters
Inspections Supervisor
