RE: Lighting Plan
WWSD South Tank
JVA Job No. 240504.ENV

Dear Mr. Howser:

Project No. PPR 2431

Woodmoor Water and Sanitation District No. 1 (District) proposes to build a 0.65-million gallon (MG) finished water storage tank at their South Booster Pump Station site. The site is south of Highway 105 and east of Fairplay Drive, spanning between the cul-de-sacs of Jack Boot Way and Caribou Way off Caribou Drive East. A driveway off the Jack Boot Way cul-de-sac provides access to the site. The new tank would provide redundancy to the existing 1 MG potable water storage tank, allowing for the completion of critical maintenance on the existing tank.

No exterior lighting will be installed with this project therefore no exterior lighting plan is being submitted with this application. If you have any questions, don't hesitate to contact me.

Sincerely,
JVA, INCORPORATED
