I am requesting a 20 foot rear setback instead of a 25 foot rear setback based on my home's PUD based on staggered house placement for a 12' x 24' backyard deck to be built, which leaves 20 feet of distance between the new deck and easement.

I am also asking for expediting of this review as the request for the site plan form was not requested initially. The site plan form and drawing are attached and uploaded to the EDARP as a result.

Thank you,

Charlene Maneafaiga, homeowner
