RE: PCD File No. TWR-21-015
Application for CMRS Co-Location Agreement
Dish Wireless Co-Location DNDEN00187A
Site Address: 20017 Beacon Lite Road

To Whom It May Concern:

Please accept this application for CMRS Co-Location Agreement for subject Dish Wireless co-location on the existing stealth cell tower at subject address, parcel numbers 7102200003 and 7102300001. This tower is owned by Crown Castle, 2000 Corporate Drive, Canonsburg, PA 15317. The property is zoned "C-1" Commercial.

Dish is installing (3) new antennas on new T-Arm mount on the existing stealth monopine tower. On the ground, they are installing a new equipment platform with cabinets and associated equipment within the existing fenced tower compound. This installation for Dish is part of a nationwide build-out of their new wireless network, and this location is essential to ensuring coverage in the region.

Traffic to this site will be very light, on average approximately once per month for maintenance and operations.

This co-location will not result in any substantial change to the existing CMRS facility. There will not be an increase in height of the tower, there will not be more than the standard number of new equipment cabinets, there is no work outside the current site other than underground utilities, and there are no proposed changes that would defeat any existing concealment efforts. Dish will install additional concealment branches on the monopine to conceal their proposed antennas.

A Work in the Right-of-Way Permit from the El Paso County Department of Public Works is required for the installation of utilities in county ROW.

Please contact me if you have any questions or concerns.

Thank you,

Emily Roseberry
