DEVIATION REVIEW AND DECISION FORM

Procedure # R-FM-051-07
 Issue Date: 12/31/07
 Revision Issued: 00/00/00

DSD FILE NO.:

--	--	--	--	--	--	--	--

General Property Information

Address of Subject Property (Street Number/Name): 0 WINDING GLEN LANE

Tax Schedule ID(s) #: 4200000413

Legal Description of Property:

SEE ATTACHED

Subdivision or Project Name: WindingWalk Filing No 1 at Meridian Ranch.

Section of ECM from which Deviation Is Sought: 2.3.8.A

Specific Criteria from which a Deviation Is Sought: Maximum length of a cul-de-sac on an Urban Local street.

Proposed Nature and Extent of Deviation: The request for a deviation is to allow the proposed 827 foot-long cul-de-sac on Winding Glen Lane – a Local street - at a location northwest of the intersection of Stapleton Drive and Rainbow Bridge Dr as shown on the plan and profile drawings and attached exhibits.

Applicant Information:

Applicant: GTL Development Inc. Email: raul@techbilt.com
 Applicant Is: Owner Consultant Contractor
 Mailing Address: P.O. Box 80036, San Diego State: CA Postal Code: 92138
 Telephone Number: 619-223-1663 Fax Number: N/A

Engineer Information:

Applicant: Thomas A Kerby Email Address: tom@meridianranch.com
 Company Name: Tech Contractors.
 Mailing Address: 11886 Stapleton Dr, Falcon State: CO Postal Code: 80831
 Registration Number: 31429 State of Registration: Colorado
 Telephone Number: 719-495-7444 Fax Number: N/A

Explanation of Request (Attached diagrams, figures, and other documentation to clarify request):

Section of ECM from which Deviation Is Sought: 2.3.8.A

Specific Criteria from which a Deviation Is Sought: Maximum length between of a cul-de-sac on an Urban Local street.

Proposed Nature and Extent of Deviation: The request for a deviation is to allow the proposed 827 foot-long cul-de-sac on Winding Glen Lane – a Local street - at a location northwest of the intersection of Stapleton Drive and Rainbow Bridge Dr as shown on the plan and profile drawings.

Reason for the Requested Deviation: The standard limits a cul-de-sac length to 750' along urban local roadways as measured from the centerline of the intersecting streets to the center of the cul-de-sac bulb. The site geometry, surrounding roadways and access point locations limit alternatives.

Comparison of Proposed Deviation to ECM Standard: The requested cul-de-sac length is 827 feet, which is 77 feet longer than the ECM standard of 750 feet.

Applicable Regional or National Standards Used as Basis: N/A

**Application Consideration:
CHECK IF APPLICATION MEETS CRITERIA FOR
CONSIDERATION**

The ECM standard is inapplicable to a particular situation

N/A

Topography, right-of-way, or other geographical conditions or impediments impose an undue hardship on the applicant, and an equivalent alternative that can accomplish the same design objective is available and does not compromise public safety or accessibility.

The general shape of the property, the surrounding existing roadways, street classifications and the access/intersection specifications to the site are several constraints that cannot be mitigated, Stapleton Drive adjacent to the to the south and Rainbow Bridge to the east limit access/intersection spacing, an existing Meridian Service Metro District well to the north limits the location of the street to the north and the golf course and drainage way to the west identify the constraint surrounding the property. These constraints significantly limit the options for cul-de-sac horizontal alignment. As a result, the length is slightly longer than the desired 750-foot maximum.

A change to a standard is required to address a specific design or construction problem, and if not modified, the standard will impose an undue hardship on the applicant with little or no material benefit to the public.

N/A

If at least one of the criteria is not met, this application for deviation cannot be considered.

Criteria for Approval:

PLEASE REQUEST HOW EACH OF THE FOLLOWING CRITERIA HAVE BEEN SATISFIED BY THIS REQUEST

The request for a deviation is not based exclusively on financial considerations

The request is not based on financial considerations. The request is based on geographic constraints.

The deviation will achieve the intended result with a comparable or superior design and quality of improvement.

The design will be comparable to the standard because the 77-foot difference from the standard will not significantly affect safety or operations in this situation. The ADT for the street is less than 300 classifying it as a local low volume, but the right-of-way width and pavement width will meet the Meridian Ranch standard of 60' and 34' flow line to flow line respectively.

The deviation will not adversely affect safety or operations

The longer cul-de-sac length will not be within a high traffic area, Winding Glen Lane is classified as a Local Low Volume Street with less than 300 ADTs. This street will not operate as a short cut for any nearby residences. The right-of-way width and pavement width design meets the Meridian Ranch standard of 60' and 34' flow line to flow line respectively.

The Falcon Fire Protection District has provided a letter of approval as a result of their review of this deviation request. Attached Exhibit C

The deviation will not adversely affect maintenance.

The length of the cul-de-sac will not affect the maintenance cost or the ability for maintenance vehicles to work on the street or within the right-of-way.

The deviation will not adversely affect aesthetic appearance.

The length of the cul-de-sac will not affect the aesthetic appearance.

Owner, Applicant, and Engineer Declaration:

To the best of my knowledge, the information on this application and all additional or supplemental documentation is true, factual and complete. I am fully aware that any misrepresentation of any information on this application may be grounds for denial. I have familiarized myself with the rules, regulations and procedures with respect to preparing and filing this application. I also understand that an incorrect submittal will be cause to have the project removed from the agenda of the Planning Commission, Board of County Commissioners and/or Board of Adjustment or delay review, and that any approval of this application is based on the representations made in the application and may be revoked on any breach of representation or condition(s) of approval.

Kari Parsons
Project Manager
El Paso County Development Services

RE: Winding Glen Lane cul-de-sac deviation Fire review.
Deviation Request for dead in roads in excess of 750 feet.

Kari,

Falcon Fire Protection District (FFPD) has reviewed the plans for Winding Walk Filing No.1 at Meridian Ranch, as well as the deviation request for a dead end road in excess of 750 feet on the Winding Glen Lane Cul- De-Sac. While this deviation requests in not based on any Falcon Fire Departments adopted 2009 Fire Code requirements, assuming the surface material is constructed and maintained to county specifications and the dead end road in excess of 750 feet is provided with a means of turnaround meeting county requirements, and the road is not within the wildland interface then the Falcon Fire Department has no concerns with this deviation requests assuming all other requests and requirements made by the Fire District are accepted.

If you have any questions or concerns please contact me at any of the above listed numbers.

Sincerely,

Trent Harwig
Fire Chief
Falcon Fire Department
