To be platted as: 1A Struthers Ranch Sub Fil. No. 4A

For further information regarding the Development Plan for this site see plans PCD File No. PPR-22-048

Request

We will be vacating the interior lot line and a 10'-0" drainage and utility easement between Lots 1 and 2, as well as the 30'-0" access easement along the lot line we are going to vacate. We are also proposing to vacate the access and utility easement as shown on the plan for Decorative View. Due to site grading, the current access roadway does not work or meet slopes per code if forced to keep as current configuration. We will revise this by separate documentation. Since this is a private easement, we will provide the exact configuration once we receive this from our surveyor. We are proposing to relocated Decorative View to allow room for a retaining wall

required to make this site work per our grading plans. We have curved the access back to adjoin the existing easement for Lots 3 and 4. See attached vacation map showing our proposal.

Existing and proposed facilities, structures and roads

The property is currently vacant and we are proposing a 12,000 SF building. The property is accessed off of Struthers Ranch Rd. There is an existing curb cut that we are utilizing and will add sidewalk to tie into the east and west property lines.
