RE: Letter of Intent for Front Range-Midway Solar Project, LLC Amendment Application for Areas and Activities of State Interest ("1041"; AASI-20-002)

Dear Ms. Parsons,

Front Range-Midway Solar Project, LLC (Applicant), a wholly owned subsidiary of Savion, LLC, is seeking an Amendment to the Application for Areas and Activities of State Interest ("1041"; AASI-20-002) to allow for modifications to the Front Range-Midway Solar Project (FRMW Project or Project).

The original application for a Wind/Solar Energy Generation Plan Overlay (WSE-O) District was approved by El Paso County, Colorado Board of County Commissioners (BoCC) on April 24, 2018 (WSEO-17-001), however, due to Project area and design changes, an application for an amendment was approved on October 27, 2020 (WSEO-20-001).

The original 1041 application was administratively approved by El Paso County, Colorado on June 26, 2018 (AASI-18-002). Due to Project design changes, the Applicant is providing this 1041 application (AASI-20-002) to allow for modification to the FRMW Project.

We appreciate your review and comments of the FRMW Project application.

Sincerely,

DocuSigned by:
