

# OVERLOOK AT HOMESTEAD

THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER; THE SOUTH HALF OF THE NORTHEAST QUARTER; AND THE SOUTHEAST QUARTER OF THE NORTHWEST QUARTER, ALL IN SECTION 27, TOWNSHIP 11 SOUTH, RANGE 64 WEST OF THE 6TH P.M., COUNTY OF EL PASO, STATE OF COLORADO  
**PRELIMINARY PLAN**

SHEET INDEX MAP

## GENERAL NOTES

- The following lots have been found to be impacted by geologic hazards. Mitigation measures and a map of the hazard area can be found in the Soils and Geology Study prepared by Entech Engineering Inc., dated August 2, 2023, and held in the Overlook at Homestead Preliminary Plan File (SP 238) at the El Paso County Planning and Community Development Department.
  - Artificial Fill: 12, 36-38
  - Potentially Unstable Slopes: 1, 3-5, 7, 16-22, 56-60
  - Potentially Seasonal Shallow Groundwater: 3, 4, 6, 14-23, 26, 31-45, 48-51, 57-59
  - Seasonal Shallow Groundwater: 40-45, 47-49, 55, 59
  - Debris Flow Susceptibility: 23-35
  - Areas of Pondered Water: 36, 38
  - Spring: 55, 59
  - Expansive Soils were encountered in a number of the test borings and pits. Occurrences of expansive soils are typically sporadic; therefore, none have been indicated on the maps. These occurrences should be identified and mitigated on an individual basis. If engineered foundations are required to address geological hazards, an engineered site plan will be required.
- A Metropolitan District will be established to provide bonding for the public improvements, and for the ongoing ownership and maintenance of open space tracts, detention ponds, trails, and cross-lot drainage easements. The Metropolitan District or a Home Owners association will be responsible for enforcement of the Covenants, Conditions, and Restrictions (CC&Rs) for the Overlook at Homestead subdivision.
- The CC&Rs for Overlook at Homestead will address use and maintenance of common areas, permitted and accessory uses, architectural standards for principal and accessory structures (including the commercial buildings), use and maintenance of easements within lots and common areas, external storage and parking, lot fencing, and landscaping standards that address fire-wise criteria and encourage water conservation. The CC&Rs will be filed with the first Final Plat recording for the Overlook at Homestead subdivision.
- Unless otherwise restricted by the CC&Rs, all accessory uses, buildings and structures must comply with requirements set out in Chapter 5 of the El Paso County Land Development Code.
- A 25' trail easement is provided through property for the El Paso County Palmer Divide Regional Trail. The easement shall be shown and dedicated to El Paso County on the Final Plat. The trail shall be constructed and maintained by El Paso County.
- All streets will be constructed to El Paso County Standards and will be dedicated to the County with the Final Plats.
- Elbert Road is classified as 2-lane rural minor arterial on the 2040 Major Transportation Corridors Plan (MTCPP). Additional right-of-way dedication for the required 100-foot right-of-way is identified on the Preliminary Plan.
- Driveway access to Elbert Road is prohibited.
- The Preliminary Plan identifies general locations for easements within the lots that are required for drainage. These areas will be defined more precisely in future Final Plats.
- The final pond outfall locations and offsite easements for all ponds will be finalized and shown on the final plat.
- Purchasers of lots within this subdivision are hereby alerted that these lots contain stormwater conveyance easements. Said purchasers acknowledge acceptance of these flows onto and through these lots. The purchaser shall be responsible for maintaining these easements and for providing measures to eliminate erosion, if it should occur.
- Typical lot utility easements shall be (15) foot front, and (10) foot side and rear. In addition a (20) foot front exterior subdivision utility easement shall be provided.
- Utilities will be provided as follows:
  - Electric - Mountain View Electric Association
  - Gas or Propane - Black Hills Energy
  - Water - On-site domestic wells
  - Wastewater - On-site wastewater treatment system
- The following reports have been submitted in association with the Preliminary Plan (SP238) for this subdivision and are on file at the County Planning and Community Development Department: Fire Protection Report, Soils & Geology Report, Natural Features Report, Drainage Report-Preliminary, Water Resources Report, and Wastewater Resource Report
- Except as otherwise notes on the Preliminary Plan, individual lot purchasers are responsible for constructing driveways, including necessary drainage culverts per Land Development Code 6.3.3.C2 and 6.2.2.C.3. Due to their length some of the driveway must be approved by the Fire District.
- No driveway shall be established unless an access permit has been granted by El Paso County.
- The Overlook at Homestead property is subject to a Private Detention Basin/Stormwater Quality BMP Maintenance Agreement and Easement as recorded at Reception No. \_\_\_\_\_ of the records of El Paso County. The \_\_\_\_\_ Metro District is responsible for maintenance of the subject drainage facilities.
- The subdivider(s) agree on behalf of him/herself and any developer of builder successors and assignees that subdivider and/or said successors and assigns shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program (Resolution No. 19-471), or any amendments thereto, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documents on all sales documents and in plat notes to ensure that a title search would find the fee obligation before sale of the property.
- All property owners are responsible for maintaining proper storm water drainage in and through their property. Drainage easements as specifically noted on the plat shall be maintained by the individual lot owners unless otherwise indicated. Homeowners shall not change the grade of the lot or drainage swales within said easements, as constructed by the builder, in a manner that would cause adverse drainage impacts to properties. Structures, fences, materials or landscaping that could impede the flow of runoff shall not be placed in drainage easements.
- Detention ponds will require a maintenance access road to be contained within a easement leading to each pond.
