RE: Academy Water and Sanitation District Lift Station and Force Main
AASI-17-001
Water Division 2, Water District 10

Dear Sir or Madam,

This referral does not appear to qualify as a "subdivision" as defined in Section 30-28-101(10)(a), C.R.S. Therefore, pursuant to the State Engineer's March 4, 2005 memorandum to county planning directors, this office will only perform a cursory review of the referral information and provide comments. The comments do not address the adequacy of the water supply plan for this project or the ability of the water supply plan to satisfy any County regulations or requirements. In addition, **the comments provided herein cannot be used to guarantee a viable water supply plan or infrastructure, the issuance of a well permit, or physical availability of water.**

The applicant is proposing to construct a wastewater lift station to be used within the Academy Water and Sanitation District system. The submittal did not include any information regarding the potential water supply. Therefore, this agency has no comments regarding the proposed submittal.

Should you or the applicant have questions regarding any of the above, please feel free to contact me directly.

Sincerely,

Ivan Franco, P.E.
Water Resources Engineer - Team 237

cc: Steve Witte, Division Engineer
Doug Hollister, District 10 Water Commissioner
